

What drives us?

CentTAL @ your service

Our VISION:

We strive to cultivate excellence in learning, teaching and assessment through the innovative and optimal use of technology, based on continuous research and development.

Our MISSION:

- 1 To become fully involved in enhancing all the vocational and academic programmes by driving innovation in their offerings with the assistance of appropriate learning technologies on all four campuses of the University.
 - 2 To practice distinguished scholarship and to carry out relevant research in promoting the innovative use of available technologies to enhance the learning experience of all students at UJ.
 - 3 To put intellectual capital (human, structural and client) to work in UJ to the benefit of all our stake-holders by sharing knowledge, expertise and experiences.
-
