CURRICULUM AND ASSESSMENT POLICY STATEMENT

FINAL DRAFT
SECTION 1

NATIONAL CURRICULUM AND ASSESSMENT POLICY STATEMENT FOR FOUNDATION PHASE HOME LANGUAGE GRADES R - 3

1.1 Background

The National Curriculum Statement Grades R – 12 (NCS) stipulates policy on curriculum and assessment in the schooling sector. To improve its implementation, the National Curriculum Statement was amended, with the amendments coming into effect in January 2012. A single comprehensive National Curriculum and Assessment Policy Statement was developed for each subject to replace the old Subject Statements, Learning Programme Guidelines and Subject Assessment Guidelines in Grades R - 12. The amended National Curriculum and Assessment Policy Statements (January 2012) replace the National Curriculum Statements Grades R - 9 (2002) and the National Curriculum Statements Grades 10 - 12 (2004).

1.2 Overview

(a) The National Curriculum Statement Grades R – 12 (January 2012) represents a policy statement for learning and teaching in South African schools and comprises the following:

- National Curriculum and Assessment Policy Statements for each approved school subject as listed in the policy document, National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R – 12, which replaces the following policy documents:
  - (i) National Senior Certificate: A qualification at Level 4 on the National Qualifications Framework (NQF); and
  - (ii) An addendum to the policy document, the National Senior Certificate: A qualification at Level 4 on the National Qualifications Framework (NQF), regarding learners with special needs, published in the Government Gazette, No.29466 of 11 December 2006.

(b) The National Curriculum Statement Grades R – 12 (January 2012) should be read in conjunction with the National Protocol for Assessment Grade R – 12, which replaces the policy document, An addendum to the policy document, the National Senior Certificate: A qualification at Level 4 on the National Qualifications Framework (NQF), regarding the National Protocol for Assessment Grade R – 12, published in the Government Gazette, No. 29467 of 11 December 2006.

(c) The Subject Statements, Learning Programme Guidelines and Subject Assessment Guidelines for Grades R - 9 and Grades 10 - 12 are repealed and replaced by the National Curriculum and Assessment Policy Statements for Grades R – 12 (January 2012).

(d) The sections on the Curriculum and Assessment Policy as contemplated in Chapters 2, 3 and 4 of this document constitute the norms and standards of the National Curriculum Statement Grades R – 12 and therefore, in terms of section 6A of the South African Schools Act, 1996 (Act No. 84 of 1996,) form the basis for the Minister of Basic Education to determine minimum outcomes and standards, as well as the processes and procedures for the assessment of learner achievement to be applicable to public and independent schools.
1.3 General aims of the South African Curriculum

(a) The *National Curriculum Statement Grades R - 12* gives expression to what is regarded to be knowledge, skills and values worth learning. It will ensure that children acquire and apply knowledge and skills in ways that are meaningful to their own lives. In this regard, the curriculum promotes the idea of grounding knowledge in local contexts, while being sensitive to global imperatives.

(b) The National Curriculum Statement Grades R - 12 serves the purposes of:

- equipping learners, irrespective of their socio-economic background, race, gender, physical ability or intellectual ability, with the knowledge, skills and values necessary for self-fulfilment, and meaningful participation in society as citizens of a free country;
- providing access to higher education;
- facilitating the transition of learners from education institutions to the workplace; and
- providing employers with a sufficient profile of a learner’s competences.

(c) The National Curriculum Statement Grades R - 12 is based on the following principles:

- Social transformation: ensuring that the educational imbalances of the past are redressed, and that equal educational opportunities are provided for all sections of our population;
- Active and critical learning: encouraging an active and critical approach to learning, rather than rote and uncritical learning of given truths;
- High knowledge and high skills: the minimum standards of knowledge and skills to be achieved at each grade are specified and sets high, achievable standards in all subjects;
- Progression: content and context of each grade shows progression from simple to complex;
- Human rights, inclusivity, environmental and social justice: infusing the principles and practices of social and environmental justice and human rights as defined in the Constitution of the Republic of South Africa. The National Curriculum Statement Grades 10 – 12 (General) is sensitive to issues of diversity such as poverty, inequality, race, gender, language, age, disability and other factors;
- Valuing indigenous knowledge systems: acknowledging the rich history and heritage of this country as important contributors to nurturing the values contained in the Constitution; and
- Credibility, quality and efficiency: providing an education that is comparable in quality, breadth and depth to those of other countries.

(d) The National Curriculum Statement Grades R - 12 aims to produce learners that are able to:

- identify and solve problems and make decisions using critical and creative thinking;
- work effectively as individuals and with others as members of a team;
- organise and manage themselves and their activities responsibly and effectively;
- collect, analyse, organise and critically evaluate information;
- communicate effectively using visual, symbolic and/or language skills in various modes;
- use science and technology effectively and critically showing responsibility towards the environment and the health of others; and
- demonstrate an understanding of the world as a set of related systems by recognising that problem solving contexts do not exist in isolation.

(e) Inclusivity should become a central part of the organisation, planning and teaching at each school.
This can only happen if all teachers have a sound understanding of how to recognise and address barriers to learning, and how to plan for diversity.

The key to managing inclusivity is ensuring that barriers are identified and addressed by all the relevant support structures within the school community, including teachers, District-Based Support Teams, Institutional-Level Support Teams, parents and Special Schools as Resource Centres. To address barriers in the classroom, teachers should use various curriculum differentiation strategies such as those included in the Department of Basic Education’s Guidelines for Inclusive Teaching and Learning (2010).

SECTION 2

FOUNDATION PHASE
HOME LANGUAGE GRADES R – 3 INTRODUCTION

1. INTRODUCTION
In the Foundation Phase, the skills in the Home Language curriculum are:

<table>
<thead>
<tr>
<th>Listening and speaking</th>
<th>Thinking and Reasoning and Language Structure and Use which are integrated into all four language skills</th>
</tr>
</thead>
<tbody>
<tr>
<td>Reading and phonics</td>
<td>(listening, speaking, reading and writing)</td>
</tr>
<tr>
<td>Writing and handwriting</td>
<td></td>
</tr>
</tbody>
</table>

The content (knowledge, concepts and skills) contained in the National Curriculum Statement (NCS) has been organised in the Curriculum and Assessment Policy Statement (CAPS), per term, using these headings. This CAPS provides teachers with:

- an introduction containing guidelines on how to use the Foundation Phase document
- content, concepts and skills to be taught per term
- guidelines for time allocation
- requirements for the Formal Assessment Activities and suggestions for informal assessment
- lists of recommended resources per grade

2. AN INTEGRATED APPROACH
The Languages programme is integrated into all other subject areas. Language is used across the curriculum in all oral work, reading and writing. Many of the Listening and Speaking Language skills will be developed within Mathematics and Life Skills, which is made up of many subjects such as Arts and Crafts and Beginning Knowledge including Health Education, Natural Sciences and Technology and the Social Sciences. Themes and topics can be selected from these subject areas to provide contexts for the teaching of language skills.
3. **TIME ALLOCATION**

The following time allocations for languages come into effect in 2012. For Language in the Foundation Phase time will be determined by the language context of the school. Schools can choose whether to give relatively more or less time to the Home and First Additional Languages depending on the needs of their learners. The minimum time for the Home Language and First Additional Languages is provided in brackets in the table below.

<table>
<thead>

The Department does not prescribe how to break down the minimum time into the different components although the following suggestions are made for each grade.

In Term 1 there is only one Formal Assessment Activity (made up of a number of parts dealing with different aspects of Language) in Grades 1 – 3. In Grade 1 schools are encouraged to conduct a baseline assessment in the first term. In Grades 2 and 3 the Annual National Assessments (ANA) will be used at the beginning of the first term. In addition, suggestions are given for informal assessment that will inform daily teaching and learning but will not be formally recorded.
5. LISTENING AND SPEAKING

Children are constantly developing their listening and speaking skills not only in each of the components of Language but also during other subjects. Because listening and speaking are crucial to all learning, it is important that these skills are effectively developed early in a child’s academic life. Hence, in the Foundation Phase, there is time specifically dedicated to the development of these two important skills.

The time allocation for Listening and Speaking provides for (1) the time spent at the beginning of the day and (2) focussed listening and speaking activities.

5.1 Oral work at the beginning of the day

Each morning should begin with a brief whole class oral activity with children. Use this time to:

- Talk about the day, date, the weather chart, children who have birthdays and any special events for the day.
- Check attendance: take a roll call to identify children present / absent
- Hear a few children share their news, ‘show and tell’ about a picture or object, talk about the diary, sports, concerts, topical events and story-telling. Try to listen to every child’s news at least once every two weeks.

5.2 Focussed activities

Specific attention should be given to listening and speaking skills throughout the Foundation Phase. The time allocated to Oral includes Listening and Speaking Activities that target specific skills at least twice a week. The CAPS document thus provides (1) daily/weekly listening and speaking skills and (2) a list of other essential listening and speaking skills. This division helps teachers to plan their teaching so that their focussed listening and speaking lessons concentrate on developing 2 – 3 specific skills at a time. These focussed activities should be integrated with Drama which is part of Arts and Crafts in Life Skills.

6. READING AND WRITING FOCUS TIME

In Grades 1 – 3, Reading and Writing take place in Reading and Writing Focus Time. It is here, through clear, focussed lessons that children will be taught to be effective readers and writers. Time every day must be set aside for focussed lessons covering reading (Shared Reading, Group Guided Reading, Paired and Independent Reading, Phonics) and writing (Shared Writing, Group Writing and Individual Writing, grammar and spelling activities). During this time the teacher does group guided reading with two groups while other children are busy with consolidation activities such as written comprehension, phonics, spelling, grammar and writing. Paired / independent reading can also take place at the same time.

The Curriculum and Assessment Policy Statement (CAPS) for the Foundation Phase divides the requirements for Reading into:

- Shared Reading (including Shared Writing)
- Group Guided Reading
- Paired / Independent Reading
• Phonics (including Phonemic Awareness)

6.1 Shared Reading

Shared Reading (and/or Shared Writing) usually happens in the first 15 minutes of the Reading and Writing Focus Time. The teacher works with the whole class. Shared Reading will happen on two to four days a week using a single, enlarged text for the whole class such as Big Books, posters and pictures or a text on an overhead transparency or individual fiction and non-fiction texts for each child. Although there will normally be only one text used per week, the texts selected for each grade should increase in length and complexity across the year and across the grades. Children will be introduced to a range of stories, poems, rhymes and plays as well as information and graphical texts.

Each Shared Reading session will have a learning focus from the following: concepts of print, text features, phonics, language patterns, word identification strategies and comprehension at a range of levels (e.g. literal, reorganization, inferential, evaluation and appreciation questions). The first session focuses on the enjoyment and first ‘look’ at the text, with the children giving a personal response to the text. In the next session the same text is used and the focus shifts to more involvement in the reading with the teacher using the discussions that take place to develop vocabulary, comprehension, decoding skills and text structures (grammar, punctuation etc). On the third, and possibly the fourth day, children read the text themselves and engage in oral, practical and written activities based on the text. Some texts might only be used over a day or two, especially in Grade 2 and Grade 3.

6.2 Shared Writing

Where possible, the Shared Reading text should inform the Shared Writing where the teacher models how to write a text. Children engage in the composition of the text while the teacher takes on the role of facilitator and scribe. The Shared Reading text can be consulted to provide examples of language patterns, spelling choices or other text features useful in the preparation of new texts. This modelling of the writing process helps to prepare children for their own writing tasks. Shared Reading and Shared Writing should take place in Grades 1 - 3.

6.3 Group, Guided Reading

This is an ability-group reading teaching strategy where all the members in the group read the same text under the direction of the teacher and should take place every day. Guided reading involves the teacher in a session with a group of between 6 and 10 children. The teacher plans the lessons to include a range of word-attack strategies that children will learn to apply when meeting challenges in texts. The ‘text talk’ between teacher and children (and children with each other) is central to this approach. During this time the teacher should not be interrupted by other children who are doing independent activities. Each group session should be between 10 and 15 minutes long with two groups reading to the teacher every day (approximately half an hour per day in total).
6.4 Forming ability groups

Texts are selected according to the group’s instructional reading level. The easiest way of establishing this level and dividing children into groups is through observation of the readers as they read a text. Here is a list of observable behaviour that will help in grouping children for Guided Reading sessions.

- The text must be read with ease but still have a few challenges for the reader either at a decoding or at the comprehension level. The reader should recognise and quickly decode 90% - 95% of the words. They should all finish reading the selection within a minute of each other.
- They will read fluently and with appropriate expression
- They will be interested in the text
- They will not need to finger-point while reading
- They will read silently

Steps in a Group Guided Reading Lesson

I. Select an appropriate text:

Graded readers will mostly be used for group reading. They should be at a lower level than the texts used for Shared Reading. Read through the text beforehand and note any features of structure, vocabulary or syntax that may be challenging for the children. These may provide the teacher with a teaching focus.

II. Introduction:

Introduce the type of book or chapter for the session and introduce the topic. Assist the children to make connections with the topic and their own life experiences. Keep this ‘talk’ focused and just enough for the children to read successfully (2-3 minutes).

III. Picture Talk or Browsing:

With very young children briefly talk through the illustrations of the book or the chapter pointing out significant details and raising questions about what might be happening at this point in the text. With older children teach them to browse through the text paying attention to captions, chapter headings and any other organisational features such as table of contents and/or sub-headings within the text. Where new or difficult words appear in the text, the teacher introduces these words in the ‘text talk’, prior to the children reading the text themselves. This should last for 2 – 3 minutes.

IV. First Reading:

Children read the text individually. The very early readers can read aloud or ‘whisper read’ the text, while more experienced readers read silently until the teacher asks them to read out loud. The teacher observes the children’s reading behaviours and may select an additional teaching focus based on these observations. The teacher moves from child to child and listens to each read a small section of the text aloud. The teacher prompts the children at this stage by saying for example:
V. Discussion:
If children raised questions in the picture talk stage, return to these questions and discuss the answers. The discussion could also include a focus on phonics, comprehension or on an aspect of grammar. Discuss the text bearing in mind the range of questions that should be integrated into the discussion to develop comprehension.

VI. Second and subsequent readings:
On subsequent days children re-read the text either in pairs or alone. The prime focus here is to develop fluency and provide opportunities to use the text to develop vocabulary, grammar and deeper comprehension of the text. Vary the manner in which this is done, for example, reading parts of a character or taking turns to read a page or paragraph. Older, more experienced readers may select a particular passage to work on in this time.

Paired and Independent Reading
Paired and Independent Reading provides children with reading practice and encourages reading for enjoyment.

Children can reread their class or group readers, or they can read simple ‘fun’ books or supplementary readers. The text should be at a lower level than that used for Shared and Group Guided Reading. Paired reading can take place at any time, anywhere, as a class reading activity. Children can sit in pairs inside or outside of the classroom to read together or take turns to read or two children who have completed their tasks can read together while other children complete their work.

If children read books on their own they also develop fluency, provided that the books are easy enough for the children to read without help. Short, simple books with predictable text and colourful illustrations are ideal. Some teachers like to give children individual reading to do at home. This home reading should consist of re-reading the group reading book or reading simple, ‘fun’ books. This extra reading practice, done on a regular basis every day, plays an important role in learning to read.

The five components of teaching reading
Most reading experts agree that there are five main components to the teaching of reading:

- Phonemic awareness
- Word recognition (sight words and phonics)
- Comprehension
- Vocabulary
- Fluency

Each of these components needs to be taught explicitly and practised on a daily basis.

**Phonemic awareness**

Phonemic awareness is recognising that speech consists of a sequence of sounds and being able to recognise these individual sounds, how they make words and how these words can make sentences. Developing this awareness should begin early in Grade 1.

**A sequence for the teaching of phonemic awareness** could be:

- Activities that focus on rhyme (e.g. *What rhymes with cow?*)
- Activities that focus on syllable units (e.g. Clap for your name e.g. *Pau – la*)
- Activities that focus on onset (the part before the vowel) and rime (the vowel(s) + the consonant(s) that follow) (e.g. *St + and, br + own*).
- Activities that focus on phonemes: Put these sounds together: */st/-/ol/-/pl/
- Matching activities: Do these start the same? *Sandwich/sandbag*
- Isolation activities: What do you hear at the beginning of *black?*
- Substitution activities: What word would you have if you replaced */st/* in *stool* with */fl/*?
- Blending activities: Which word would you have if you put these sounds together:
  - */str/än/* (blending phonemes)
  - */str/ain/* (blending onset and rime)
  - */mu/mmy/* (blending syllables)
- Segmentation activities: Say the parts you hear in this word:
  - Stable: */stâ/-/ble/* (separating syllables)
  - Dog: */d/-/ol/-/g/* (separating phonemes)
- Deletion activities
  - Say *stirfry* without the *stir* (syllable deletion)
  - Say *friend* without the */fr/* (onset deletion)
  - Say *Pete* without the */p/* (phoneme deletion)

Useful activities to develop basic skills such as listening include listening games, nursery rhymes, rhyming games and games using alliteration (words that begin with the same sound).

**Phonics**

Phonics refers to the sounds in words and the symbols (letters of the alphabet) used to represent them. It is an important tool in both reading and writing.
There are a range of phonics programmes available. Schools may select the programme that will support explicit and systematic teaching of phonics through the school. Schools should remain loyal to their chosen programme. The suggested sequence of introducing the phonic elements in the CAPS document is a guide. Where phonic programmes have different sequences, follow these instead. However, the pacing of introducing the phonic elements should be similar to the pacing in the CAPS document.

Phonics and handwriting should be linked as the teaching of the letter sound and how to write it go together. Teach the more frequently used sounds first in Grade 1. Also bear in mind letter formation so that, for example, one might choose to teach the letter c before a and the letter l before h and b. The CAPS document paces the introduction of phonics so that 1 - 2 new sounds are introduced each week during the first two terms so that at least eight sounds are taught by the end of the first term and the remainder by the end of the second term. Some consonant and vowel combinations can be introduced in the second half of Grade 1. At the same time continue practice in building and breaking down words.

In Grade 2 and Grade 3 more consonant and vowel combinations are taught, increasing in complexity over the year and across the two grades. The teaching of phonics is not an isolated activity and should be linked to the Shared Reading programme.

As children are learning the sound symbol system of the language taught, they should be encouraged to use ‘invented spelling’ until such time that they learn conventional spellings. Children who use ‘invented spelling’ become better spellers than those who do not. Strive for the children to write with phonemic accuracy where each sound in a word is represented in writing such as ‘becors’ or ‘stashun’.

Spelling is closely linked to phonics and the spelling programme should be informed by the phonics taught during that week. Whilst the teaching of spelling will be informal during Grades 1 and 2, in Grade 3 a more formal spelling programme should be implemented with periodic, informal spelling tests and dictations. However, correct spelling needs to be evident in children’s written work and not only in spelling tests and dictations.

**Word Recognition**

Sight words (or ‘look and say’ words) involve the child recognizing an individual word “on sight” through the use of continued repetition of a word. Words that appear frequently in text (high frequency words) can be learnt in this way. English, unlike many languages, contains a large percentage of irregular words, that is, words that are not spelt as they sound so there is a strong argument for teaching sight words in English.

Use the Shared Reading and Group Guided Reading lessons to model the following **five finger strategy** where each finger represents a strategy the reader can use to systematically figure out how to read an unknown word and its meaning:

- **The thumb:** Leave the word out and read to the end of the sentence.
- **The first finger:** Look at the picture
• The second finger: Look at the word and to see if any parts of the word are known.
• The third finger: Sound the word out
• The fourth finger: Ask for help in reading the word or understanding its meaning

Start teaching children this process when they meet unknown words.

Comprehension:
During the reading lessons the teacher has many opportunities to engage children in a range of levels of thinking and questioning. Here are a few ways of starting questions that will help to develop both lower and higher order comprehension skills.

Literal comprehension
• Identify…. (e.g. Identify the main character in the story.)
• Point out… (e.g. Point out the car the robber was driving.)
• Read/quote the line that… (e.g. Read the line that tells you the grandmother was unhappy.)
• Describe… (e.g. Describe the villain of the story.)
• Find… (e.g. Find the name of the book she was reading.)
• Show … (e.g. Show me the part of the story you liked best.)
• Locate … (e.g. Locate the place the family was driving to in the story.)
• State… (e.g. State the name of the little black dog that ran away.)

Reorganisation
• Compare…. (e.g. Compare the two sisters. What was different?)
• List …. (e.g. List the places the grandfather visited.)
• Contrast… (e.g. Contrast the place where they were living with their new home.)
• Divide….into…. (e.g. Divide the different animals in the story into two groups, those that were kind to the girl and those that tried to eat her.)
• Classify… (e.g. Classify the animals in the story.)
• Summarise… (e.g. Summarise the story in not more than four sentences.)
• How is….different to…. (e.g. How is the hero different from the villain?)

Inferential
• Pretend… (e.g. Pretend you were the hero. What would you have done?)
• Suppose… (e.g. Suppose the zookeeper had left the cage door open. What would have happened?)
• Could…. (e.g. Could the man have reached the other side of the river a different way?)
• What are the implications … (e.g. What happened because of that decision?)
• What might have happened if…. (e.g. What might have happened if his father had gone to see his uncle?)
• What consequences…. (e.g. What were the consequences of her actions?)

Evaluation
• Should… (e.g. Should her grandmother have told her the story?)
• In your opinion… (e.g. *In your opinion was the boy right to behave that way?*)
• Do you agree… (e.g. *Do you agree that leaving home was the best choice?*)
• Would you have… (e.g. *Would you have done the same thing if you were in that position?*)
• Is it right that… (e.g. *Is it right that his uncle threw him out of the house because he stole some bread?*)
• What best describes… (e.g. *What best describes the main character in the story?*)

**Appreciation**
• What did you think when… (e.g. *What did you think would happen when the lion opened his mouth?*)
• Is this word/phrase effective for… (e.g. *Is this word a good word to describe the villain?*)
• Do you know anyone like… (e.g. *Do you know anyone who behaves like his sister?*)
• Why did you like/dislike… (e.g. *Why did you dislike her uncle?*)

Work also on meta-cognitive skills to teach children to monitor themselves when reading, both in the area of word recognition and comprehension. Children should be taught to ask: ‘*Does it sound right?*, ‘*Does it look right?’ and ‘*Does it make sense?’* Model the process in Shared Reading and apply it in Guided Reading with support.

**Reading fluency**
Fluency in reading involves:
• Accuracy in decoding: being able to accurately identify the majority of words
• The rate or speed of reading: automaticity of word recognition or being able to get the words off the page quickly and effortlessly
• Prosody: reading smoothly with appropriate phrasing and expression
• Comprehension

Fluency levels can be improved by teaching specific reading skills for decoding and word recognition, by selecting simpler texts, by providing more interesting texts, by rereading books and by increasing the volume of texts read.

**“Read alouds” by the teacher**
A final and vital component of a balanced reading programme is the reading aloud (story-time) by the teacher. This develops a whole range of language skills (including those of reading) in a meaningful context and is at the heart of a balanced programme for literacy. Through “*read alouds*” teachers can create in children a love of reading and a passion for stories.

More information on all aspects of the teaching of reading can be found in the Department of Basic Education’s handbook, *Teaching Reading in the Early Grades.* (2008).

7. **WRITING**
Children begin Grade 1 by ‘writing’ using pictures but as they master the skills of letter formation they can start to copy individual words, captions and full sentences which they can then illustrate. By the middle of Grade 1 children should be able to write their own captions for their pictures and construct at least one sentence. Give support by providing
sentence starters or frames e.g. ‘I want…’. Give each child an A5 book to use as a personal dictionary. Provide cloze procedure exercises in which children complete a sentence by adding a word and simple questions that children can answer with Yes/No or a single word.

The Shared Writing activities model the writing process so that children understand how individual letters form a word, how separate words form a sentence, the importance of spaces between words and the use of punctuation. Through Shared Writing children develop an extended vocabulary and come to understand how sentences can be enriched by the use of interesting adjectives and adverbs. As children become more skilled in writing their own sentences, introduce the concept of paragraphs.

The CAPS uses the process approach to writing. The process involves children in drafting, writing, editing and presenting text for others to read. Foundation Phase children will not rewrite their work, but rather edit by drawing a line through unwanted words and adding text where necessary.

**Handwriting**

The CAPS document makes provision for the systematic teaching of the skills of handwriting, in short periods in the various grade levels, for approximately 15 minutes per day.

**Pre-writing programme**

Before starting to teach formal handwriting in Grade 1, children should follow a pre-writing programme to develop visual discrimination, gross and fine motor and hand-eye coordination, body image etc. They need to be taught the correct pencil grip, how to form the letters, the starting point, size, shape, and direction of movement. Later guide children to position and space letters on and between the lines. The correct sitting position is also important. Young children often have difficulty in copying from the board as their eyes need time to refocus from the board to the page in front of them and their short-term visual memory may not be well developed. It helps to give children in Grades 1-3 writing strips containing a row of letters for the children to copy during Handwriting.

**Transition to a joined script or cursive writing**

By the end of Grade 1 children should be able to form all the lower and upper case letters correctly and fluently and copy sentences correctly from the board or from sentence strips. In Grade 2 children develop greater speed in writing print script and it is in this grade that most schools will begin teaching a joined script or cursive writing. Whilst the choice in regard to the handwriting script remains with a school/province children should be taught to write a form of joined script or cursive writing by the end of Grade 3. Most children make the transition to this script during the first half of Grade 3.

**Materials**

In Grade 1 children begin by writing on blank paper using wax crayons. In time they progress to writing on 17mm lines using pencils for formal handwriting lessons, although many schools prefer to continue using blank jotters for other
written work even in Grade 2. By Grade 3 children make the transition to using 8.5mm lined books. The exact time for these transitions will depend on the level of the children and the school’s policy.

Barriers to learning
The Language periods should provide opportunities to support children with barriers to learning, enrichment for those who are doing well, assessment activities and time to write. Written work must be marked and overseen by the teacher so that progress of each individual child can be tracked, monitored and can be used to inform the next steps to be taken in the learning pathway. Read aloud to the children daily to ensure vocabulary growth and development.

8. GRADE R
The Grade R organisation of language learning is based on principles of integration and play-based learning. The teacher should be pro-active, a mediator rather than a facilitator. A mediator makes the most of incidental learning opportunities that arise spontaneously through a range of child-centred activities, such as free-play in the fantasy corner or block construction site, and teacher-directed activities such as a story ‘ring’ or other ‘rings’. Issues relating to language as well as social, emotional and other forms of development such as fine and gross motor present themselves naturally in the routines and activities of a quality Grade R daily schedule. All these settings could provide opportunities for a teacher to purposely intervene and ‘mediate’ incidental learning that promotes emergent literacy. A traditional, formal classroom-based learning programme that is tightly structured and ‘basics bound’ should be avoided as it does not optimise literacy acquisition for the Grade R child. Grade R should not be a ‘watered down’ Grade One. It has its own unique characteristics based on how children in this age group make sense of their world and acquire the knowledge, skills, values and attitudes that will allow them to maximise the opportunities afforded in the formal learning years.

Focus on informal and spontaneous learning in various ‘rings’ during the day. Also develop a daily programme that allows optimal time for free play and is coupled with an acute awareness on the part of the teacher of what could be called ‘teachable moments’, moments that arise in many instance out of the children’s own interests and creativity. The entire school day should be viewed as possibilities for enhancing literacy learning; either because of the direct intervention of the teacher, that planned mediated moments, including teacher-guided activities or because of the numerous incidental learning opportunities that occur during the day and enable the teacher to promote learning though utilizing the ‘teachable moment’. Such moments most frequently occur during routine periods and, of course, free play.

From a literacy perspective, teachable moments will afford the teacher the opportunity to ask, for example, open-ended questions or to offer an alternative suggestion to the child and so instil in the child the desire to further his/her own learning. It becomes a question of the teacher knowing when to intervene in the learning process and when to stand back and allow the child the opportunity of providing his/her own solution to the problem at hand.

In the Grade R year the time table is called the daily programme and it comprises three main components, namely teacher-guided activities, routines and child-initiated activities or free play. Specific teacher-guided literacy learning opportunities are offered during the morning language activity (for example, theme/topic discussion/language ring; daily weather discussions; telling ‘news’; show and tell rings and story time). Depending on the choice of focus (i.e. the
teacher must have a clear idea of what learning s/he wants to promote) creative art activities, perceptual rings, 
movement, music and dramatisation rings can have a very specific literacy focus especially in refining the perceptual-
motor concepts and skills which underpin formal reading.

**Routines** provide excellent opportunities for incidentally promoting various literacy skills. For example, instead of letting 
the children stand in a queue and wait to go to the bathroom, the teacher can use this time to promote phonemic 
awareness. All children whose names begin with the letter/sound ‘S’ go to the bathroom, now children whose names 
begin with the letter/sound ‘N’ etc. The other children could be playing word games such as ‘I spy with my little eye’ or 
having vocabulary reinforced e.g. what rhymes with dog; what do you think dogs like to eat? Snack time and tidy up time 
provide similar learning opportunities as the teacher encourages the children to play fun sound and word games.

During **free-play** the teacher can promote literacy in two ways. Firstly, through the structuring of the free play area. The 
teacher provides choices based on the types of learning opportunities she/he would like to promote. Outdoor free play 
such as climbing on a wooden climbing frame or riding on the cycle track might promote spatial awareness behaviours 
such as crossing the midline (one of the important perceptual-motor behaviours for acquiring both reading and writing 
skills) and encourage letter/word recognition by providing opportunities for children to ‘read’ road signs. Indoor free play 
activities should provide similar literacy learning opportunities. A memory game encourages visual memory and a 
fantasy corner promotes speaking and listening opportunities. The second way of promoting literacy during free play is 
through purposeful intervention. This can be done through, for example, the asking of thoughtful questions which extend 
thinking and enlarge vocabulary. By making helpful suggestions and inviting a child to think about alternative answers 
and ways of problem solving, a teacher can encourage a child to think more deeply about an issue and find good 
reasons for the choices they make. In this way not only literacy but holistic development is addressed.

In a **balanced, flexible language rich daily programme**, literacy learning opportunities are offered throughout the day. 
At the same time, important principles underpinning early learning are reinforced, namely, that young children learn best 
through movement (kinaesthetically) and then through interacting with concrete materials (three dimensional learning) 
before engaging with table top and paper and pencil activities (two dimensional representational activities).

**Assessment practices in Grade R** should be informal and children should not be subjected to a ‘test’ situation. For this 
reason Assessment Activities have not been included in the Grade R Curriculum and Assessment Policy Document 
(CAPS). Each activity used for assessment should be carefully planned so that it integrates a variety of skills. In Grade R 
most of the assessment takes place through observation with the teacher recording the results of the assessment using 
a checklist. Thus, as the year progresses a full picture of each child complete with challenges and strengths is gradually 
built. This allows for challenges to be addressed and strengths to be maximised.

- Pretends to ‘read’ and adopts a ‘reading’ voice
- ‘Reads’ high frequency words in the community: street signs, shop names
- Begins to recognise high frequency words used in the classroom: weather words, days of the week, peers’ names, months of the year
- ‘Reads’ picture books with three or four predictable sentences. For example, It is a dog. Look at the dog. It is a big dog.
- Acts out a story, song or rhyme
- Recalls details and states main idea from a story read by the teacher
- Draws pictures of stories, songs or rhymes
- Discusses book handling and care
- Listens to, and discusses, stories and other texts read aloud

Shared Reading

Activities of 15 minutes two or three times a week using enlarged texts such as Big Books, posters etc. Teacher models the process with the whole class during for example a discussion or language ring over a minimum of two sessions in the Language Focus Time. Use a minimum of five Big Books per term.

• Segments oral sentences into individual words using words of one syllable first (e.g. Sam - is - a - boy )
• Divides multisyllabic words into syllables: uses claps or drumbeats on each syllable in words and names such as ‘cup-board’, ‘Jacqueline’. Children then count the syllables
• Identifies rhyming words in well known rhymes and songs and in sequences of rhyming words such as Incey Wincey Spider…
• Substitutes rhyming words in common songs and rhymes. For example, Humpty Dumpty sat on a ball. Humpty Dumpty said “Oh! I'll fall”.
• Recognises and names some letters of the alphabet especially own name. For example, My name, Diane, begins with a letter d

• Recognises aurally and visually some initial consonants and vowels especially at the beginning of common words. For example, in Helen’s name she tells the teacher as she points to the ‘h’ that it says /h/
• Understands that words consist of more than one sound. For example, ‘hand’ has four sounds h-a-n-d

*Teach the remainder of the single letters (3 vowels and 13 consonants) by the end of the term, continue with phonemic awareness and word building activities*

- Distinguishes aurally between different beginning and end sounds of words
- Identifies letter-sound relationships of most single letters
- Participates in whole class phonemic awareness activities: blending sounds [h-op into hop]; segmenting words [hop into h-o-p]; consonant and vowel substitution word play [replace the ‘h’ in hop with ‘m’ to make mop]
- Builds words using sounds learnt (-at, -et, -it, -ot, -ut, -ag, -ig, -og, -an, -en, -in, -un -am - at least two word families per week)
- Builds up and breaks down simple words beginning with a single consonant into onset (the initial sound) and rime (the last part of the syllable) for example h-en, p-en; t-in, p-in, identifying the rhymes
- Groups common words into sound families, for example, hot, hop, hob
- Reads phonic words in sentences and other texts

**Daily Reading Activities:** Group Guided Reading (two groups per day) and 2 – 3 Shared Reading sessions per week.

**Shared Reading**

*Whole class lessons 2 - 3 times weekly for 15 minutes using at least one text per week; a teacher-modelled process with the whole class.*

*When reading, model the use of phonic decoding skills and other strategies that include context clues and structural analysis. Refer to the Five Finger Strategy. Start teaching children this process when they meet unknown words.*

- Reads big books or other enlarged texts as a whole class with teacher
- Uses pictures to predict what the story is about

• Answers a wide variety of types of questions based on the texts read including higher order type questions
• Discusses the use of capital letters and full stops

**Group Guided Reading:**

*The teacher works with two groups each day, spending 15 minutes with each group. Each group works with the teacher twice a week.*

*The teacher works with same-ability groups of children, matching children to texts at the instructional level. Graded reading schemes will mostly be used.*

*Teach children to monitor themselves when reading, both in the area of word recognition and comprehension. (Children are taught to ask: ‘Does it sound right?’, ‘Does it look right?’ and ‘Does it make sense?’) Model the process in Shared Reading and apply it in Guided Reading with support.*

• Reads aloud from own book in a guided reading group with teacher, that is, the whole group reads the same story
• Uses phonics, context clues and sight words when reading
• Begins to monitor self when reading, both in the area of word recognition and comprehension
• Continues to build a sight vocabulary from the incidental reading programme, the graded reading series and high-frequency word lists

**Paired/Independent Reading (twice a week in Language focus time)**

*Introduce Paired/Independent reading. Select texts that are at the independent reading level of the child (simpler than those used in Shared Reading with more than 95% word recognition accuracy when reading the text)*

• Reads to a partner from prepared or known texts to develop fluency
• Rereads familiar texts such as those read in Shared Reading sessions

- Identifies letter-sound relationships of all single letters
- Revises word families with short vowel sounds: -at, -ag, -am, -it, etc.
- Revises common consonant digraphs: sh, ch, th
- Recognises ‘wh’ at the beginning of a word such as wh-en, wh-y, wh-at, etc
- Uses initial and final consonant blends to build up and break down words such as bl-a-ck, bri-ng, sa-ng
- Revises common consonant digraphs (sh, ch, th) at the end of words such as fi-sh, ri-ch, clo-th
- Recognises vowel digraphs such as ‘oo’ as in moon and ‘ee’ as in tree
- Recognises rhyming words such as rack, sack, back, lack, pack
- Builds 3 and 4-letter words using the single letters and digraphs taught this term
- Reads words from phonics lessons in sentences and other texts
- Learns to spell ten words a week taken from phonics lessons

Daily Reading Activities:
Group guided Reading (two groups per day) and 2 - 3 Shared Reading sessions per week.

Shared Reading
Whole class lessons 2 - 3 times weekly for 15 minutes using at least one text per week; a teacher-modelled process with the whole class.

Each session will have a learning focus from the following: concepts of print, text features, phonics, language patterns, word identification strategies and comprehension at a range of levels (e.g. literal, reorganization, inferential, evaluation and appreciation). Model the use of phonic decoding skills when reading and other strategies that include context clues and structural analysis.

Model the five finger strategy where each finger represents a strategy the reader can use to systematically figure out how to read an unknown word and its meaning.
• Reads simple instructions in the classroom
• Interprets pictures and other print media such as a photograph or an advertisement, to make up own story.
  ‘Reads’ the photograph or advertisement
• Reads books as a whole class with teacher (shared reading) and describes the main ideas
• Uses visual cues to predict what the story is about: the cover of the book, illustrations in the book
• Expresses a personal response to a text read
• Identifies key details in what was read such as the sequence of events
• Answers higher order questions before, during and after reading a shared text: “What would happen if…”

**Group Guided Reading:**

_The teacher works with two groups each day, spending 15 minutes with each group. Each group works with the teacher twice a week._

_The teacher works with same-ability groups of children, matching children to texts at the instructional level (word recognition between 90% - 95% accuracy). Graded reading schemes will mostly be used._

• Reads both silently and aloud at own level in a Guided Reading group with teacher, that is, whole group reads same story based on the instructional reading level of the group
• Uses pictures in text for understanding
• Uses sight words, phonics, contextual and structural analysis decoding skills when reading
• Shows an understanding of punctuation (full stops, commas, question marks and exclamation marks) when reading aloud
• Continues to build a sight vocabulary from the incidental reading programme, the graded reading series and high-frequency word lists

**Paired/Independent Reading (three times a week)**

_Introduce Paired/Independent reading. Select texts that are known or are at the independent reading level of the child (simpler than those used in shared reading with more than 95% word recognition accuracy when reading the text)_

• Reads independently: picture books, poetry cards, story books from the library or classroom reading corner

READING AND PHONICS

SUGGESTED CONTACT TIME
Minimum Time: 4 hours 30 minutes per week
Maximum Time: 5 hours per week

CONTENT/CONCEPTS/SKILLS

Phonic Activities three times a week for 15 minutes:
Revise the single sounds and the consonant and vowel digraphs taught in Grade 2. Discuss the role of letters of the alphabet in different words drawing attention to the different sounds the same letter or letters represent. (e.g. ‘a’ as in ‘apple’ and ‘a’ as in ‘zebra’; ‘g’ as in ‘gate’ and ‘g’ as in ‘giant’.)
Simultaneously work on word building and aural recognition activities. Use opportunities to revise the phonics being used in other language activities. For example, in Shared Reading and Shared Writing. Use the Phonics to inform the spelling programme for the year.

- Identifies letter-sound and letter-name relationships of all single letters
- Recognises consonant digraphs (sh-, -sh, ch-, -ch, th-, -th and wh-) at the beginning and end of words (sh-irt, ch-irp, th-ink, wh-en, wi-sh, ri-ch, bo-th)
- Recognises vowel digraphs taught in Grade 2 such as ‘oo’, ‘ee’, ‘ea’, ‘ai’, ‘oa’, ‘ay’
- Recognises that some sounds are represented by a number of different spelling choices (play, pain, plate; feet, read, key; boat, blow, note; tiger, like, sigh, fly)
- Recognises ‘silent e’ or split digraphs in words such as same, bite, note
- Recognises and uses rhyming words such as blow, flow, and glow
- Builds 3, 4 and 5-letter words using the consonant and vowel digraphs taught this term
- Sorts letters and words into alphabetical order
- Spells words correctly using phonic knowledge
- Learns to spell ten words a week taken from phonics lessons and sight words
- Writes three short sentences dictated by teacher

Daily Reading Activities:
Group Guided Reading (two groups per day) and 2 - 3 Shared Reading sessions per week.

Shared Reading
Whole class lessons 2 - 3 times weekly for 15 minutes using at least one text per week; a teacher-modelled process with the whole class.
Each session will have a learning focus from the following: concepts of print, text features, phonics, language
patterns, word identification strategies and comprehension at a range of levels (e.g. literal, reorganization, inferential, evaluation and appreciation questions).

Model the five finger strategy where each finger represents a strategy the reader can use to systematically figure out how to read an unknown word and its meaning: children check by asking whether the word they ‘solve’ sounds right, looks right and makes sense. Start teaching children this process when they meet unknown words.

- Uses visual cues to talk about a graphical text, for example, looks at a photograph, and discusses what it is about, where it was taken, etc.
- Reads enlarged texts such as poems, big books, posters and electronic texts as a whole class with the teacher (shared reading)
- Reads book as a whole class with the teacher (shared reading) and describes the main idea and the main characters
- Reads instructions in the classroom
- Reads different poems around a topic and discusses these (both form and meanings)
- Answers higher order questions before, during and after reading a shared text, for example, “What do you think will happen next? Why do you say this?”
- Recognises inverted commas to show direct speech in written stories
- Recognises apostrophes in contractions showing both possession and contractions such as Sipho’s book, can’t

Group Guided Reading:
The teacher works with two groups each day, spending 15 minutes with each group. Each group works with the teacher twice a week. Teacher works with same-ability groups of children, matching children to texts at the instructional level (word recognition between 90% - 95% accuracy). Graded reading schemes will mostly be used.

- Reads both silently and out loud from own book in a guided reading group with the teacher, that is, whole group reads the same story on the instructional reading level of the group
- Uses phonics, contextual and structural analysis decoding skills when reading both silently and aloud
- Uses self-correcting strategies when reading: re-reading, pausing, practising a word before saying it aloud
- Monitors self when reading, both word recognition and comprehension
- Shows an understanding of punctuation (full stops, question marks, exclamation marks, inverted commas) when reading aloud

Paired/Independent reading (three times a week)
**Introduce Paired/Independent reading. Select texts that are known or are at the independent reading level of the child (simpler than those used in shared reading with more than 95% word recognition accuracy when reading the text)**

- Reads independently: picture books and simple story books
- Plays reading games and completes crosswords to reinforce reading and vocabulary skills such as Snap, Memory

TERM 2

READING AND PHONICS

SUGGESTED CONTACT TIME
Minimum Time: 4 hours 30 minutes per week
Maximum Time: 5 hours per week

CONTENT/CONCEPTS/SKILLS

Phonic Activities three times a week for 15 minutes:

*Introduce new vowel blends and guide children to recognise that a particular sound can be represented by different combinations of letters. This has important implications for spelling. Ensure that children understand the words they are sounding and can use them to form meaningful sentences. Use the Phonics to inform the spelling programme.*

- Recognises that some sounds can be represented by a number of different spelling choices such as
  - ow (cow) ou (found)
  - aw (draw), au (autumn)
  - tie, high, sky
  - few, blue
- Recognises digraphs making /fl/ (e.g. ‘ph’ as in elephant, ‘gh’ as in laugh)
- Recognises that the same spelling can represent different sounds (e.g. ‘bread’, ‘read’)
- Uses words in written sentences that are pronounced the same way, but have different meanings (e.g. ‘read’ and ‘reed’ – I like to read books. I saw a bird on a reed.)
- Builds words using the phonic skills taught this year
- Spells words correctly using phonic knowledge in informal tests, in dictation and in all written work

Daily Reading Activities: Group Guided Reading (two groups per day) and 2 – 3 Shared Reading sessions per week.

Shared Reading

*Whole class lessons 2 - 3 times weekly for 15 minutes using at least one text per week; a teacher-modelled process with the whole class. Include graphical and non-fiction texts during this term.*

- Reads enlarged texts such as poems, big books, posters and electronic texts as a whole class with the teacher (shared reading)
- Uses visual cues to identify the purpose of advertisements and the intended audience
- Reads book as a whole class with the teacher (shared reading) and discusses the sequence of events, setting and
cause-effect relations

- Finds and uses sources of information such as community members, library books
- Uses table of contents, index and page numbers to find information
- Uses key words and headings to find information in non-fiction texts
- Answers a range of higher order questions based on the passage read, for example, “How would you describe the behaviour of the troll?”

**Group Guided Reading:**

*The teacher works with two groups each day, spending 15 minutes with each group. Each group works with the teacher twice a week.*

*Teach children to monitor self when reading, both in the area of word recognition and comprehension.*

*(Children are taught to ask: ‘Does it sound right?’, ‘Does it look right?’ and ‘Does it make sense?’) Model the process in Shared Reading and apply it in Guided Reading with support.*

- Reads both silently and out loud from own book in a guided reading group with the teacher, that is, the whole group reads the same story at the instructional level of the group
- Uses phonics, context clues and structural analysis decoding skills when reading unfamiliar words
- Uses self-correcting strategies when reading: re-reading, pausing, practising a word before saying it aloud
- Monitors self when reading, both word recognition and comprehension

• Reads aloud to a partner

Formal Assessment Activity 1:
Reading (oral and/or practical and/or written)

Shared Reading
• Reads written texts as a whole class with the teacher (shared reading) and discusses characters, the ‘problem’ in the story, the plot and the values in the text
• Uses visual cues to read graphical texts and starts to analyse text for attitudes and assumptions, for example, “Who is this advertisement meant to appeal to? Why do you think this?
• Answers a range of higher order questions based on the passage read, for example, “Suppose the shop owner left the door open when he went home that night. What might have happened?”

Group Guided Reading:
• Reads both silently and out loud from own book in a guided reading group with the teacher, that is, the whole group reads the same story at the instructional level of the group
• Reads with increasing fluency, speed and expression
• Uses phonics, contextual and structural analysis decoding skills and comprehension skills to make meaning
• Monitors self when reading, both word recognition and comprehension
• Uses self-correcting strategies when reading: re-reading, pausing, practising a word before saying it aloud

Paired/Independent reading
• Reads independently at a more complex level for enjoyment or information from a variety of available texts: magazines and comics, simple fiction and non-fiction books and books from different cultures, books read in Shared Reading sessions

Section 3: Glossary

This is an alphabetical list of key terms used in the Foundation Phase Home Language CAPS document.

antonym – a word that means the opposite of another word
assessment – a continuous planned process of gathering information, formally or informally, on child performance
assessment activity – an activity used to assess learners consisting of a number of sub-activities or parts
aurally – by means of listening/hearing
baseline assessment – initial assessment used to find out what children already know
browse – to look through a book without a particular purpose, just reading the interesting parts
caption – words printed or written below a picture explaining what it is about
closed questions – questions that require a specific answer e.g. ‘Do you like coffee?’ The answer must be ‘yes’ or ‘no’. ‘How old are you?’ The answer will be e.g. ‘Ten’.
continuous assessment – ongoing assessment that forms part of teaching and supports learners’ literacy development by providing ongoing feedback
cursive writing – handwriting that is carried out in a running hand, so that the letters are formed quickly without the lifting of the pen or pencil.
blends, blending – an aspect of phonics in which children learn how to put together two or three letters to make a sound (e.g. ‘spl’ in ‘split’)
cloze procedure – a technique in which words are deleted from a passage (e.g. every fifth word). The reader has to use context clues to fill in the blanks. Cloze activities can be used to test comprehension and language mastery level
crossing the midline – actions which involve crossing over an invisible line running from head to toe down the middle of one’s body, for example, touching one’s opposite elbow or putting one foot over the other. Some experts believe that the kind of co-ordination needed to do these activities is in important in early literacy. They believe that doing activities that involve crossing the midline, provides an important foundation for literacy.
decoding – the ability to translate a word from print to speech, usually by using knowledge of sound-letter relationships; also the act of deciphering a new word by sounding it out
emergent literacy – refers to children’s growing knowledge of the printed word. Children see print and begin to understand its purpose. They learn about books and stories by being read to by adults or older children. They may begin to try and write their names using their own ideas about spelling (invented spelling or emergent spelling) and they may begin to pretend to read books. These behaviours all point to their growing literacy knowledge – emergent literacy
fine motor skills – the coordination of small muscle movements, often involving the fingers and eyes, for example, threading a needle or using scissors to cut something out. Writing involves the use of fine motor skills.

fantasy corner – a corner of the classroom where children can engage in imaginative play e.g. dressing up in different clothes, acting out different roles

free play - a time that allows children to choose where and how they will play and what they will play with

graded reading series – a series of readers divided in levels (e.g. Grade 1 – Level 1, 2 and 3). The levels go from easiest (simple vocabulary, short sentences, short text) to more difficult. Each level has a number of readers in it. The teacher assesses a learner and gets him/her started at the correct level. The learner reads several books at that level until he/she can read fluently at that level. The learner then moves up a level.

graphic text – a text where information is presented in visually e.g. diagrams, graphs etc.

guided reading – a group reading session where children are all of the same instructional level and the teacher scaffolds learning so that children increasingly take control

guided writing – involves individuals or small groups of children writing a range of text types after the teacher has provided mini-lessons on aspects of writing such as format, punctuation, grammar or spelling

higher order questions – questions that require children to bring together information from different parts of a text (i.e. synthesise), to infer (i.e. read between the lines), to evaluate what happens (i.e. give an opinion) and/or to appreciate a text (e.g. say whether one liked or disliked it and why)

high frequency words – a small group of common words (300-500) that appear often in English print e.g. ‘the’, ‘a’, ‘and’, ‘to’, ‘said’, ‘in’, ‘he’. The Dolch Word list and the Fry Word list are lists of high frequency words found in primary school texts.

incidental learning – learning that happens without deliberate teaching

independent reading level – the level at which a reader can read text with 95% accuracy (i.e. no more than one error per 20 words read). Independent reading level is fairly easy text for the reader.

instructional reading level – the level at which a reader can read text with 90% accuracy (i.e. no more than one error per 10 words read). Instructional reading level is challenging but manageable. Texts at this level are used in Guided Reading

invented spelling – an attempt to spell a word based on the learner’s current knowledge of letter-sound relationships (e.g. kt for cat).

jigsaw puzzle – a picture cut up into many pieces that one tries to fit together

joined script – a style of handwriting in which most letters in words are joined together to allow one to write quickly

kinaesthetic – kinaesthetic learning is learning which takes place through physical activity i.e. learning by doing

lower-order questions – questions which require children to remember facts e.g. Who were the main characters in the story? What was the main character’s name? Where did she go to school?
**meta-cognition** – a learner’s awareness of his/her own thinking processes; the development of reading and writing strategies depends on meta-cognition

**onset** – the part of a syllable before the first vowel (e.g. m–ap)

**open-ended questions** – questions that can be answered in different ways; the learner has to answer the questions in his or her own words (e.g. Why do you think the boy ran away? What do you think he should have done?)

**perceptual** – perceptual learning is learning through the senses such as sight and hearing; perceptual skills involve using sight (visual skills) and hearing (auditory skills)

**perceptual motor** – perceptual motor skills involving co-ordinating sight and hearing with bodily action e.g. handwriting involves co-ordinating one’s sight and the movement of one’s hands. Visual-motor difficulties can lead to poor handwriting and copying skills and poor memory of what was written, due to the extreme effort needed to write the information down.

**phoneme** – the separate sounds in a language (e.g. ‘t’, ‘th’, ‘k’, ‘sh’, ‘ai/ay’ are all phonemes in English). The word ‘meat’ has three phonemes. These are ‘m’, ‘ea’ and ‘t’.

**phonemic awareness** – the ability to distinguish between the separate sounds of the language

**phonics** - the relationship between the sounds of a language and their spelling. Phonics is used in both reading and writing.

**phonological awareness** – the ability to pay attention to the sounds of a language as distinct from its meaning

**picture talk** – talking about the pictures or illustrations in a book to make sense of them (e.g. ‘What are Kagiso and her grandfather doing?’ ‘Yes, they’re bending down looking at something. What is it?’)

**plasticine** – a soft, clay-like substance used by young children to make small models, shapes, etc.

**publish** – when learners publish their work, they make it public by sharing it (e.g by handing it in to the teacher, putting it on the class wall or notice board, or including it in a class anthology).

**reading behaviours** – exactly what readers do when they read in order to decode and make sense of text

**rhyme** – words or lines in a poem that end in the same sound including a vowel (e.g. ‘sad’, ‘mad’, ‘bad’, ‘glad’ - all rhyme)

**rime** – the part of the syllable from the first vowel onwards (e.g. m-ap). It has the potential to rhyme.

**shared reading** – an activity in which children share the reading of an enlarged text with the teacher. This is a lesson with the whole class. The text used is aimed at the top group in the class. Some children will be at a listening level, others will be beginning to engage in the reading and more will be engaging fully. The same text is used over several days. Each day a new focus is selected by the teacher. The text is used to introduce text features, phonics, grammar and reading skills in context.
sight words – words that readers recognise automatically (on sight). There is no need to decode these words. In early reading sight words are usually frequently occurring or ‘high frequency’ words such as ‘he’, ‘she’, ‘like’ and ‘were’.

story board – a series (or sequence) of pictures illustrating a story

spatial awareness – an awareness of objects in space around us, and awareness of our own body’s position in space. With regard to literacy, this involves such things as directionality – left/right orientation; reading print from left to right and top to bottom; forming the shapes of letters

strategy – strategies are ways that learners engage in thinking about reading, writing and oral language in order to enhance learning and comprehension. Examples of reading comprehension strategies are prediction, making connections, visualizing, etc.

structural analysis – this involves analysing the parts of words (e.g. prefixes and suffixes) to recognise and understand a word that is unfamiliar in print

synonym – a word with the same meaning as another word

syntax – the way words are arranged to form sentences or phrases, or the rules of grammar which control this

tangram – a Chinese puzzle consisting of a square divided into seven pieces that must be arranged to match particular designs

teachable moment – a time at which a child is likely to be particularly interested and able to learn something e.g. the time when a child receives birthday cards is one where a parent or teacher could help him/her to notice the words and see that they say ‘Happy birthday!’

text talk – talking about a text to make sense of it e.g. ‘Why do you think the boy left home?’ ‘I think he wanted a better life.’ ‘Why do you think that?’ ‘Because he didn’t have money for shoes.’ ‘What do you think is going to happen to him?’ etc.

tone – the way your voice sounds which shows how you are feeling

word attack skills – include phonics, structural analysis, and context clues or contextual analysis, used by a reader, separately or in conjunction with each other to decode words not known on sight

word bank – a list of words that a learner knows or is in the process of learning; a personal dictionary (or vocabulary book)
