

Harambee Youth Employment Accelerator (“Harambee”) has partnered with a number of public and private employers to source, work ready and place candidates into a 12-18 month Internship Programme. This Initiative is also suitable for National Diploma and Btech students needing practical experience (WiL) in order to graduate.

There are over a 100 opportunities available for candidates residing in Gauteng or able to relocate to the province. The typical stipend amount ranges between R3500 and R9000 depending on the employer and type of qualification.

What is Harambee?

Harambee was established in 2011 to address “demand-supply mismatch” by understanding what entry-level jobs exist in the economy and understanding what behaviours and skills are needed to ready young people to succeed in those opportunities.

Harambee’s strategic intent is to accelerate inclusive youth employment by reaching young people from poor households in search of their first job who are at high risk of long-term unemployment and pathwaying them into the economy. Harambee has over the 7 years placed over 50 000 young people into employment with some of South Africa’s leading employers.
