

## Graduate Programme for: Electronic Engineering Graduate

AVI LIMITED, listed on the Johannesburg Stock Exchange, is home to many of South Africa's leading and best-loved brands. Our National Brands Limited business, centred on the FMCG market, focuses on the beverage, biscuit and snack brands.

We give our graduates a platform to present ideas and innovations and be change-makers. Are you ready?

The Electronic Engineering graduate will gain specialist skills in process automation, PLCs, control systems, equipment and software; understand the core concepts of mechanics, thermodynamics, automation and food processing; and work on all project stages from scoping to implementation.

Applicants interested in the programme must have strong leadership abilities, an analytical and innovative mindset; be a team player with a passion for achieving; and a self-starter who is open to all the unique learning opportunities we offer.

### Further requirements:

- A BEng degree in Electronic Engineering minimum average of **60%** in your final year
- Btech Electrical Engineering (Instrumentation) with a minimum average of **70%** in the final year of studies.
- Able to work in Johannesburg and able to travel to other sites essential
- Be a South African Citizen

Applicants, who are interested and meet the above requirements, are invited to visit our graduate site to apply for the programme online at <http://dev.avi.co.za/graduate-opportunities/>

**Applications closing 14 October 2018**
