

Mr Trevor Ncalo

Name of Company: Mott MacDonald

Qualification Obtained: BTech Civil Engineering

Job title: Project Manager

Department: Civil Engineering Technology

Job description

Year of Completion: 2010

Overall responsible for the planning, execution and closure of the project. This includes managing and taking responsibility for all staff on site; managing various resources from Engineers (Mechanical, Chemical, Civil and Process), Quality Manager (and team), Construction Manager (and team), Document controller, Procurement Manger and various subcontractors.

"Before one can move into Project Management they need to have a firm technical foundation, thus focus on the technical aspects of Engineering first before getting into Project Management."
