

## POSITION FOR A MECHANICAL ENGINEER AVAILABLE

Spoor & Fisher is a prestigious law firm that specialises in the field of intellectual property law. The firm's Mechanical Patent Department in Centurion has a vacancy for a Candidate Patent Attorney holding a BScEng(Mechanical Engineering) or BEng(Mechanical Engineering) degree.

A career as a patent attorney is rewarding if you are looking to combine the technical skill and expertise from your engineering degree with the legal knowledge that you will acquire in your studies towards an LLB degree. As a patent attorney you will be required to use your understanding of engineering and the law to protect your clients' inventions both locally and internationally.

If you hold or are studying towards a mechanical engineer degree and you are dynamic, diligent, dedicated and willing to work hard towards the goal of becoming a partner in a prestigious law firm, then a career in patent law may be for you.

For further information, please visit our stand at the UJ Law Career Day on 06 March 2018, or contact us on +27 12 676 1187 or at [s.scott@spoor.com](mailto:s.scott@spoor.com)
