INDUSTRIAL AUDIOMETRY: SHORT LEARNING PROGRAMME 2018

COURSE CONTENT
This Audiometry course will enable the participant on completion of the course to operate in an Industrial/ Mining Health centre and be able to test the workers hearing, do the necessary counselling and refer appropriately. The trainee will be able to follow the legal requirements as stipulated by South African legislation. Occupational Health Staff can obtain extra competency and contribute to the lowering of risks for the worker, Insurance Company and the employer. In preventing hearing loss there is a definite contribution to the well being of human beings and a cost saving. The trainee will be able to do hearing tests, record the results, categorize the results and do the correct referrals. The trainee will manage the equipment, see to calibration and be able to counsel workers on the influence of noise on their hearing and the use of Hearing Protectors.
