## Corporate Governance

Good corporate governance is a key value for the modern corporate community. In South Africa, this is illustrated by the practical importance of compliance with key principles set out in the King IV (2016) Reports on Corporate Governance. Board governance is a core aspect of corporate governance and pivotal to corporate law. It is vital that all compliance officers, senior employees, managers, directors and executive officers of corporations have a thorough understanding of their duties and of different ways in which the quality and effectiveness of the board can be improved. The importance of such knowledge has been highlighted by the spate of corporate collapses internationally and in South Africa.

## The 2021 Programme

In 1997, RAU, now the University of Johannesburg, was one of the first universities in the world to offer a complete university programme in corporate governance. This programme on board governance is an extension of that programme, with a particular focus on recent local and international developments in the area of corporate governance and board governance. The pioneer of this programme, Professor Jean du Plessis, formed part of the international reference group that advised the Department of Trade and Industry on international best practices in the area of corporate governance.

Prof Esser has been presenting this course since 2009.

The programme in Board Governance will be presented from **May - November**. Tuition will be compressed into a series

of lectures that will be offered in **May** at the University of Johannesburg, Auckland Park Kingsway Campus.

**NB:** Attendance of the 3 day workshop is compulsory.

This programme is also registered as one of the modules in the Postgraduate Diploma in Compliance. Students with a tertiary degree who are awarded the Certificate, earn a core credit towards the Diploma. They will need to complete only three further modules in compliance management, money laundering control and interpretation of statutes to be awarded the University of Johannesburg's Postgraduate Diploma in Compliance.

## Who Should Attend?

The programme is of particular benefit to compliance officers, company secretaries, senior employees, managers, directors and executive officers. Lawyers specialising in corporate law and auditors will also find this programme of great importance as it deals, among other things, with the legal duties of directors and board structures. This programme will also enable lawyers to get a thorough update of the many local and international developments in the area of corporate governance and board governance.
