The Department of Politics and International Relations invites you to a book launch

“The man who founded the ANC: A biography of Pixley KaIsaka Seme” by Bongani Ngqulunga

A graduate of Brown University, USA, Dr Ngqulunga’s book is the definitive biography on Seme. It is not only the first full academic text on Seme, but also gives us a thorough treatment of this historical figure, showing a side of Seme that is hitherto unknown. The biography exposes and corrects a number of inaccuracies, both in existing literature and public discourse, that have so far been taken as established truths. This book redefines Seme in our imagination, making us appreciate him even more both as a product of his time and a pioneer.
