INSTRUCTIONS

2. Students must apply at the beginning of the year in which they register for their Master's or Doctorate. The bursaries are not automatically received; students must apply each year even if they have received a bursary in the previous year and are eligible for the bursary in the following year.
3. Incomplete applications will NOT be processed.
4. Students who studied for their previous degree at another institution (other than UJ) must attach a certified copy of their official academic record/transcripts to their application. The application will not be processed if this is not attached.
5. Merit Bursaries are only awarded to UJ registered students. Students must therefore register BEFORE submitting the application as the bursaries are only paid to registered students.
6. Students must apply before 15 August in the year that they register for their Master's or Doctorate.
7. The following categories of students must ensure that the progress report (Section D) is completed by their supervisor before submission: a) Second year of Master's; b) Second or third year of Doctorate.

10. Please note that payments of merit bursaries will only begin after 1 April 2022. No Master's and Doctoral Merit bursary payments will be paid before March 2022, irrespective of when the application is submitted. If a candidate is successful, the full bursary is paid directly into the student account thereby crediting any debits. Students must complete an Application for Refund form (available at Student Finances or the Cashiers) in order to have the available balance transferred to their bank accounts. The refund is available in two portions, one per semester. You are therefore only allowed to refund the bursary amount available after the bursary has credited any debits in your student account.

Please note: All queries related to payments of Applications for Refund must be directed to the Revenue (Student Finances) section on your campus.

CONDITIONS AND GUIDELINES

- The allocation of UJ Merit bursaries to master's and doctoral students is not automatic. Students must apply each year of their master's or doctoral study as the criteria may change from year to year. The allocation of UJ Supervisor-linked bursaries to master's and doctoral students is not automatic. Supervisors and faculties retain the right to review the Bursary in subsequent years depending on performance.
- The University reserves the right to claim back or cancel any bursaries awarded in the event a master's student fails to complete the degree within three years or a doctoral student within five years, or in the event of a unilateral cancellation of registration.
- The University reserves the right to differentiate the bursary amounts across various faculties.
- Students who register for non-degree purposes do not qualify for the allocation of any UJ bursaries.
- In the event of taught master's programmes, the candidates are expected to register for the prescribed number of semester/year courses for the applicable year.
- The University reserves the right, should circumstances be justified, to alter the criteria, guidelines and values of bursaries without prior notice to applicants.
- Subject to sufficient funds being available, Merit Bursaries are awarded according to the criteria, guidelines and values of bursaries as set out in the table above.

In the case of a full-time student, it is a condition of the UJ Supervisor-linked bursary that your department and/or faculty may expect you to engage in an academic activity designed to further enhance the development of your academic and/or research skills. The nature of this activity will be defined by your department, which will negotiate with you the ideal time at which it is to be performed – by mutual agreement this may be during term-time or during vacation, but it will in any event not exceed 6 hours per week, up to a total of 132 hours per year.

- Students who possess other internal and / external funding that exceeds the maximum value as set by the University will not be eligible for a merit bursary. The amount will be determined by the University on annual basis and will not exceed the sum of the cost of tuition, accommodation, books and stationery. In the event that the other bursary does not cover full cost of study for the academic year, a top up merit bursary will be awarded to qualifying students up to the maximum value as determined by the University.

Periods of support

Master's > The bursary amount is awarded annually for a maximum of two years. Students applying in the second year of their master's are only eligible for one year of funding. The second year of funding is dependant on availability of UJ funds and satisfactory progress by the student.

Doctoral > The bursary amount is awarded annually for a maximum of three years. Students applying in their second or third year are only eligible for two and one year of funding, respectively. The second and third years of funding are dependant on availability of UJ funds and satisfactory progress by the student.
