2.3.2 If any definition contains a substantive provision conferring rights or imposing obligations or duties on the University or any person, notwithstanding that it is only in the definition (or such other clause), effect shall be given to it as if it were a substantive provision in the body of these Academic Regulations.

2.3.3 “Academic Misconduct”

- “Research misconduct”, which does not include honest error or differences of opinion.
- Any other academic act committed with the intention to misrepresent, defraud or subvert the standard academic processes involved in teaching and learning, assessment and research.

2.3.4 “**Admission and Selection Policy**” means the policy of the University in terms of Section 37 of the Higher Education Act, which creates a legally binding framework for determining admission requirements and selection procedures for holders of qualifications that provide them with entrance to the range of qualifications offered by the University.

2.3.5 “**Academic Regulations**” / “**AR**” means the regulations contained in this document.

2.3.6 “**Appeal**” in respect of academic decision by a student means an earnest and formal request made in accordance with the provisions of the Academic Regulations to reconsider such decision.

2.3.7 “**Assessment**” means the process in which evidence is gathered and academic judgements made about students’ performance in relation to agreed and defined criteria.

(a) “**Assessment criteria**” means the clear and transparent expression of requirements against which the student’s performance is assessed, as derived from the learning outcomes.

(b) “**Assessment methods**” means the activities in which an assessor engages to determine student competence, for example, observation (observing students while carrying out a task), document review (evaluating a product submitted by a student, such as an artefact or portfolio of evidence) and oral or written questions.

- (c) **“Assessment opportunity”** refers to an assessment that provides students with the opportunity to provide evidence of their knowledge and skills. The opportunity may be scheduled and supervised or not, but the specific date when the evidence should be submitted is predetermined.
 - (d) **“Continuous assessment”** means assessment that is conducted on a continuous basis throughout the learning experience and includes formative and summative assessment opportunities. It is carried out at any of the pre-determined points of the total learning experience. These consecutive assessment opportunities, which include a variety of assessment methods, have predetermined weightings and include the assessment of all the outcomes within the module. All assessments (including the final summative) contribute to the final pass/fail mark of the student. The Learning Guide contains outcomes and pre-determined assessment weightings as approved by Faculty Board.
 - (e) **“Formative assessment” for contact students** is conducted during the process of teaching and learning with the purpose of giving early indications of what and how effectively students are learning, as well as their strengths and weaknesses. Formative assessment, which may or may not carry a grade, is often used as a diagnostic tool as it provides information to make real-time improvements in teaching methods, learning support materials and activities.
 - (f) **“Formative assessment” for online students** means assessments “for learning” that are conducted throughout the students’ online learning with the purpose of giving early indications of what and how effectively students are learning, as well as their strengths and weaknesses. Formative assessment, which may or may not carry a mark, is often used as a diagnostic tool, as it provides information to make real-time improvements in teaching methods, learning support materials and activities.
 - (g) **“Summative assessment”** is an assessment that contributes to the final mark of a module. Summative assessments are assessments “of learning” and may include a variety of assessment methods as contained in the Learning Guide.
The purpose is to evaluate the student’s achievement of the outcomes, i.e. establish evidence of learning. Summative assessment provides the opportunity for an evaluation to be made.
 - (h) **“Special assessment opportunity”** means a further assessment opportunity equivalent to the original assessment opportunity aimed at accommodating students who were unable to be assessed in the original assessment opportunity.
 - (i) **“Supplementary assessment opportunity”** means an assessment that supplements the original assessment granted to students. Admission to this assessment opportunity is based on the results of the original assessment opportunity.
- 2.3.8 **“Carousel model”** allows students multiple registration opportunities of modules during the academic year. The purpose is to allow students to step on and off the carousel sequence depending on their needs and circumstances. This might result in accelerated completion, or could allow a student additional time to complete a qualification.
- 2.3.9 **“Certificate”** means a document that is issued as evidence of compliance with the requirements of subsidised and continuing education programmes.

- 2.3.10 “**Chief assessor**” means the person responsible for teaching and assessing a module, usually the lecturer.

4. ADMISSION

4.1 Application for admission to study at the University

4.1.1 Prospective students must apply for admission to programmes not later than the determined programme specific closing dates as stipulated on the official UJ website. An annually determined application fee is payable for paper applications. Online applications are free.

4.1.2 Applicants may only apply for two contact undergraduate study choices, two fully online undergraduate study choices or two postgraduate study choices. These study choices may not be amended once they have been chosen.

4.1.3 Admission is subject to selection in accordance with programme-specific admission requirements determined by the Faculty Board, as well as minimum requirements set for transfer students, approved by Senate and contained in the relevant Faculty Rules and Regulations.

4.1.4 The University has the right to revoke or amend the admission status of an applicant, and cancel or refuse the registration of an applicant or student who provided incorrect information and/or documentation material to an application for admission or re-admission, or who omitted to provide information or documentation material to an application for admission or re-admission.

4.1.5 No notice regarding an applicant’s admission status is official and binding on the University, unless it has been sent by email to an applicant from the University’s server or uploaded by the University to the online Student Portal application status page.

4.1.6 Admission is also subject to:

- (a) the University’s Enrolment Management Plan approved by the DHET, the Senate and Faculty Boards;
- (b) caps for elective modules as approved;
- (c) professional regulatory requirements where programmes are regulated by external regulatory boards/councils;
- (d) Senate-approved selection, placement and admission tests (if applicable); and

- (e) caps on enrolment into fully online programmes as determined annually by the faculties.

4.2 General minimum admission requirement principles for undergraduate programmes

4.2.1 Admission requirements and compliance with the legal endorsement for undergraduate programmes for study at the University are as follows:

- (a) A National Senior Certificate (NSC) with higher certificate endorsement is a legal requirement for admission into a higher certificate.
- (b) An NSC with diploma endorsement is a legal requirement for admission into an undergraduate diploma.
- (c) An NSC with bachelor's degree endorsement is a legal requirement for admission into an undergraduate bachelor's degree.
- (d) An SC(A) with relevant endorsement, with a pass of three subjects at 40%, one of which must be an official language at Home Language Level or pass subjects at 30%, one of which must be an official language at First Additional or Home Language Level or obtained a subminimum of 20% in the sixth subject.
- (e) A NASCA is awarded at certification of 120 credits with at least four subjects passed, carrying 30 credits each.
- (f) An applicant who has successfully completed a Higher Certificate at an accredited Higher Education Institution (HEI) may be admitted into an appropriate Advanced Certificate.
- (g) An applicant who has successfully completed a Higher Certificate at an accredited Higher Education Institution (HEI) and has accumulated relevant credits may be admitted to a related undergraduate diploma programme, subject to the candidate being granted a NSC with diploma endorsement by Universities South Africa (USAf) after the successful completion of the Higher Certificate (refer to AR 6 for credit requirements).
- (h) An applicant who has successfully completed an undergraduate diploma may be admitted into an undergraduate bachelor's degree programme, subject to the candidate being granted an NSC with bachelor's degree endorsement by USAf (refer to AR 6 for credit requirements).
- (i) Other progression and/or articulation requirements, as reflected in the Higher Education Qualifications Sub Framework (HEQSF), are applicable.
- (j) Applicants who have completed their (NSC) or (SC) must comply with the minimum Admission Point Score (APS).
- (k) All applicants must comply with the language requirements, faculty and qualification or module requirements for admission into each programme as outlined by the relevant faculty.
- (l) International applicants wishing to register for undergraduate or postgraduate qualifications will be required to demonstrate equivalence with the above admission requirements, with certification of equivalence by SAQA or USAf where required.
- (m) All applicants intending to study in the online mode of delivery must:
 - (i) Have access to a computer with a reliable and stable, high-speed Internet connection;
 - (ii) Participate in teaching and learning activities through the LMS;
 - (iii) Be able to use a webcam and/or microphone if required;
 - (iv) Review and comply with the complete list of technical requirements specific to the programme of study; and

- (v) Complete an online orientation course offered by the Centre for Academic Technologies (CAT), if required.
- (n) Other additional admission requirements may be:
 - (i) Admission and placement tests as approved by Senate;
 - (ii) Interviews in person or online;
 - (iii) Portfolios of evidence;
 - (iv) Recognition of Prior Learning (RPL) process;
 - (v) SAQA or USAf certification of equivalents; or
 - (vi) Language proficiency tests.
- (o) Compliance with the minimum requirements does not guarantee admission and registration because the University has a specific number of places available as approved by DHET. Distance Education (Online) qualifications may also be subject to enrolment targets as determined on an annual basis by the University.
- (p) Prospective students currently in Grade 12 will be considered for admission to study at the University based on their final Grade 11 results, which is calculated in the same way as the APS using the results of the final Grade 11 subjects. Any applicant who has been provisionally or conditionally admitted based on their final Grade 11 results will still be required to satisfy the minimum admission requirements with their final Grade 12 results, in order for them to be fully admitted for the relevant qualification as stipulated by the University. Final admission may also be dependent on applicants maintaining their final Grade 12 performance at a similar or higher level to that of their final Grade 11 results used to determine their provisionally or conditionally admission status.
- (q) Prospective students who comply with the minimum legal requirements for admission to a programme, but who do not meet the additional faculty-specific minimum (APS), may, upon good cause shown, be granted admission to such programme at the discretion of the relevant Executive Dean. If prospective students do not meet faculty-specific admission requirements in respect of a module in such a programme that is taught in a faculty other than the faculty in which the programme is offered, the Executive Dean must consult with the Executive Dean of the faculty within which the module resides before admission to the programme is granted.
- (r) School-leaving certificates that do not appear in Table 2 are dealt with individually by the Student Enrolment Centre, Faculties and Departments.

5. REGISTRATION

5.1 General principles

Students may not participate in any academic activities unless they are registered. Participation includes attending classes or any contact sessions in a module, receiving study material or supervision, having access to any electronic study material or sources or be assessed in a module if they are not registered students at the University for the relevant module or programme for the relevant academic year.

- 5.1.1 Students register for an academic programme of the University as contained in the Academic Rules and Regulations of the University and the relevant Faculty Rules and Regulations.

- 5.1.2 Once a student is admitted to a fully online programme, he/she registers at no fee for that programme. The next step is to register for one or more modules according to one of the registration dates specified on the UJ website. All module registrations must be accompanied by full payment for the module. Students register only for modules offered during the specific study period selected. Students are required to renew their registration for a fully online programme in accordance with the Academic Calendar for online programmes.

For subsequent study periods, students will register for further modules, in terms of the requirements of the programme being followed and the registration dates specified on the UJ Website. Programme requirements may specify compulsory, elective and prerequisite modules, which must be passed prior to proceeding to higher level modules. The UJ website is the official communication for all UJ related student matters.

- 5.1.3 Students register for a programme subject to the regulations that applied at the time of first registration for that particular programme, provided that:

- (a) if the regulations are amended, students who commenced their studies under the previous regulations and who have not interrupted their studies and are compliant with all the other rules that were applicable at the time of their first registration provided that they complete their studies within the maximum period allowed, may complete their studies according to the previous regulations;
- (b) if the new regulations are beneficial to them, students may complete their studies under these new regulations subject to the conditions in (a);
- (c) the Faculty Board may set special transitional arrangements, approved by Senate, in respect of programmes where a change has been approved, and

determine a date on which new regulations will be phased in and previous regulations phased out.

- 5.1.13 Students are not allowed to register outside the prescribed and approved registration periods unless the Management Executive Committee formally extends the registration period. Students who register late may be liable for the payment of a late registration fee in accordance with the Student Fees Policy and decisions taken by the Management Executive Committee in this regard.
- 5.1.14 Tuition fees are payable in accordance with the UJ Fee Booklet.
- 5.1.15 Students sign a formal agreement with the University in electronic format when they register online. - 5.1.18 Students may not register simultaneously for two programmes at the University, or for a programme or module at another university, concurrently with their registration at the University without prior written consent of the Executive Dean of the relevant faculty, in consultation with the Registrar and the relevant authority of the other university.
- 5.1.19 At least 50% of all the required modules (including all exit level modules) that a student must successfully complete for an undergraduate qualification to be awarded or conferred must be completed at the University to obtain the qualification certification.
- 5.1.20 Only in exceptional cases may the Executive Dean or his/her delegated authority in consultation with the Registrar grant permission to complete an exit level module at another higher education institution.

- 5.1.24 Registration takes place in accordance with the Programme Qualification Mix as approved by DHET and related Higher Education Management Information System (HEMIS) business rules.
- 5.1.25 The University does not guarantee that students (including those with a disability/impairment) who register for a qualification and successfully complete that qualification will be registered with a professional board/council or be successful in obtaining employment.
- 5.1.26 Students who are admitted for a fully online programme and who failed to register for that fully online programme within the calendar year applied for will forfeit the right to register for the following calendar year. However, if the student was admitted for the fully online programme within the last four months of a calendar year, the admittance will be carried over to the following calendar year.
- 5.1.27 Registration and re-registration or renewal of registration for any programme is subject to satisfactory academic performance and other rules of the University.

Students who fail to notify the University officially of cancellation of a module after the end of the second week are not entitled to any reimbursement or credit of the module fee.

5.9 Service or work-integrated learning

5.9.1 When service learning (SL) or work-integrated learning (WIL) forms an integral part of a programme, this period is included in the programme as part of the study period.

5.9.2 The University supports students to obtain relevant SL or WIL placement opportunities.

5.10 Class attendance for contact programmes

5.10.1 Students have the responsibility to attend all classes unless they have a legitimate reason, and where appropriate, the necessary evidence thereof, for being absent.

5.10.2 Students might be required at any time to account for their irregular class attendance, either by personal explanation to their lecturer or by a written statement from a guardian or another authority.

5.10.3 In borderline academic result cases, information on class attendance is taken into account by faculties.

5.10.4 Students are expected to attend a minimum of 80% of tutorials that are indicated as compulsory tutorials.

5.10.5 Faculties might have rules regarding the compulsory attendance of practical, laboratory and clinical classes as contained in the Faculty Rules and Regulations.

5.11 Participation in Distance Education (Online) programmes

5.11.1 Distance Education (Online) students are required to participate according to the requirements set out in the modules. Attendance in fully online programmes is measured in the following ways:

- (i) the frequency and duration that the student spends online;
- (ii) the extent of participation in fully online discussions;
- (iii) the timely submission of tasks and assignments; or
- (iv) data-gathering allowing for advanced data analytics to foster improved teaching and learning.

- 5.11.2 Students are required to complete tasks as specified for the module/s for which they are registered.
- 5.11.3 Unsatisfactory participation is taken into consideration when decisions are made regarding the academic exclusion of students.

6. CREDIT AND PROMOTION REQUIREMENTS FOR PROGRAMMES THAT WILL INCLUDE DISTANCE EDUCATION (ONLINE) PROGRAMMES

- 6.1 Students may receive credit only once for an interchangeable module in any programme at the equivalent NQF level.
- 6.2 Granting of module credits is dependent on the following criteria:
 - i) Level of module
 - ii) Relevance
 - iii) Qualification
 - iv) Standards
 - v) Outcome
 - vi) Duration
 - vii) Credits
 - viii) Year in which module was completed
- 6.3 Students retain credit for a module passed for a period of seven years, provided that there have been no material changes to the curriculum. This provision also applies when modules are presented for credit/exemption or renewal or registration purposes. For credit/exemption purposes, the NQF level of the completed module presented for credit/exemption must be at the same NQF level of the module offered in the qualification for which the credit/exemption is being requested. Exceptions from any of the aforesaid may only be permitted by the Executive Dean in consultation with the Head of the Department and the Registrar.
- 6.4 Faculty-specific promotion requirements and deregistration rules are contained in the Faculty Rules and Regulations and are applied in addition to the other regulations in this section.
- 6.5 Students who have temporarily discontinued their studies and who have passed a module whose content has in the meantime undergone substantial changes may be refused admission to a module for which this module is a prerequisite.
- 6.6 Students who have failed a module twice will not be allowed to continue their studies in the same module at the University, except with the permission of the Executive Dean or his/her delegated authority on recommendation of the relevant HOD after consultation with the Lecturer, or on recommendation of the faculty's examination or assessment committee. When a module is failed, a student must repeat the module at the first opportunity when it is offered again.
- 6.7 To be admitted to any module in the second, third or fourth academic year of study, and progress to the following year of study, students must have passed at least 60% of the modules registered for in the previous academic year of study for contact programmes.
- 6.8 Students who have not been promoted to the following year of study for any two years of study will not be permitted to continue with that programme and will academically be excluded except with the special permission of the

Executive Dean or his/her delegated authority. The Executive Dean or his/her delegated authority may stipulate conditions for students to continue with their studies.

- 6.9 If students have been granted special permission to continue with studies as determined in AR 6.6 and AR 6.8, the Executive Dean or his/her delegated authority may refuse continuation of studies if their progress in the first semester is unsatisfactory. Students may also be refused further admission if they continue to perform unsatisfactorily at the end of the relevant academic year and will be academically excluded.
- 6.10 The formal time during which students were registered for a particular programme at another higher education institution, as well as their results at such institution, may be considered in applying AR 6.6, AR 6.8, AR 6.9.

7. APPEALS AGAINST ACADEMIC EXCLUSION

Applicants who want to appeal must follow the prescribed procedure by submitting their motivation and supporting documents online via the UJ web during the prescribed submission period according to faculty guidelines and in accordance with UJ policies. Failure to do so within the prescribed submission period may result in the opportunity lapsing.

In cases where students have been academically excluded and granted a supplementary assessment opportunity, the student will still be required to submit an application to appeal the academic exclusion.

- (a) The Faculty Appeals Committee will consider the appeals and may refuse or allow re-admission.
- (b) The students will be notified in writing of the outcome of the appeal.
- (c) The decision of the Faculty Appeals Committee is final subject to AR 7(f).
- (d) Students who omitted to provide information or documentation material to an appeal cannot provide it at a later stage if the appeal was unsuccessful.
- (e) Students who transfer to another faculty retain their academic history related to their previous registration for any other programme/s.
- (f) When a Faculty Appeals Committee allows re-admission under circumstances where a student had submitted incorrect, incomplete or fraudulent information/documentation that is material to an appeal, the Faculty Appeals Committee may reverse its decision and the registration of the student may be cancelled.

8. EXEMPTION AND RECOGNITION REQUIREMENTS

- 8.1 An HOD may, in consultation with the Executive Dean or his/her delegated authority in accordance with a list of exemptions approved by the Executive Dean, grant exemption from and award a credit for a module, of which the content of the module was at least 80% the same, to students on the grounds that they have passed a relevant module at the University or at another accredited higher education institution.
- 8.2 Exemption from and awarding of credit for modules, as stipulated in AR 8.1, may not be granted for more than half the number of modules required in an undergraduate programme in which exemption and recognition are requested. A faculty may determine rules and regulations in this regard in agreement with the existing Faculty Rules and Regulations, and subject to approval by Senate.

At least half the number of semester modules, including the exit level modules where appropriate, should be passed at the University for the University to award the diploma or confer the degree. The Executive Dean or his/her delegated authority concerned, in consultation with the Registrar, may give permission to the student (for legitimate reasons) to complete such exit level module(s) at another HEI in South Africa, or abroad in accordance with the academic record concerned. For the purposes of this sub-regulation, a year module counts as two semester modules, and one term module counts as half a semester module.

- 8.3 Only in exceptional circumstances may the Executive Dean or his/her delegated authority grant exemption from an exit level or semester core module that has been passed at another institution or in another programme.
- 8.4 Exemption from or credit for a module may only be granted for one further programme in addition to the programme in which the module was originally completed.

9. COMPULSORY AND ELECTIVE MODULES

- 9.1 Detailed information on compulsory and elective modules is contained in the relevant Faculty Rules and Regulations.
- 9.2 For a year module, a minimum half year mark (also referred to as a progress mark) of 40% may be required (in June) in order to continue with the module in the second semester.

10. DURATION OF PROGRAMMES

- 10.1 The minimum duration of a programme is in accordance with the HEQSF and HEMIS requirements.
- 10.2 The maximum duration of a full-time contact programme is as per Table 3.
- 10.3 For any contact programme offered part time, one additional year may be added to the maximum duration of that contact programme.
- 10.4 Duration of contact programmes is inclusive of any interruption of studies unless approval is granted prior to the interruption by the faculty.
- (a) For undergraduate studies the maximum period is inclusive of interruption of studies.
- (b) For master's and doctoral programmes, the maximum period excludes an interruption of studies. A request for an interruption of study will only be granted in exceptional circumstances and must be approved prior to interruption of studies as stipulated in the Higher Degrees Policy.
- 10.5 Students who fail to complete the programme within the maximum period will be allowed to continue with the programme only if granted special permission by the Executive Dean on recommendation of the relevant HOD or the faculty's Examination or Assessment Committee.
- 10.6 **Maximum duration of study for online programmes**
While the carousel model is designed to allow students to interrupt their studies for one or more modules, thus providing the student with flexibility, it is important to bear in mind that each programme has a maximum duration of study, as per Table 3.

Table 3. Duration of programmes

Qualification	Minimum Credits	Minimum Duration	Maximum Duration	Maximum Duration for Online Programmes
Higher Certificate	120	1 year	2 years	
Advanced Certificate	120	1 year	2 years	
Diploma	240	2 years	3 years	4 years
UG Diploma	360	3 years	5 years	6 years
UG Extended Diploma	360	4 years	6 years	
Advanced Diploma	120	1 year	2 years	3 years
UG Degree	360	3 years	5 years	6 years
UG Extended Degree	360	4 years	6 years	
UG Professional Degree	480	4 years	6 years	
PG Diploma	120	1 year	2 years	
Honours Degree	120	1 year	2 years	
Master's Degree	180	1 year	2 years	3 years
Doctoral Degree	360	2 years	4 years	

10.7 Students must comply with the minimum duration of a particular programme, even in the event where credit/s have been granted towards the programme as stipulated in Table 3.

The UJ Academic Regulations do allow for exceptions to this rule: Students who fail to complete the programme within the maximum period will be allowed to continue with the programme only if granted special permission by the Executive Dean on recommendation of the relevant HOD or the faculty's Examination or Assessment Committee.

11. TEACHING, LEARNING AND ASSESSMENT

11.1 General

11.1.1 Teaching, learning and assessment take place in accordance with the University's Teaching and Learning Policy, Assessment Policy, and the Online Policy Framework.

11.1.2 Registered students have a right to tuition in accordance with the Senate-approved academic timetable or Senate-approved Online Policy Framework.

11.1.3 The University does not permit student behaviour that disrupts formal teaching and learning activities.

11.1.4 Any form of dishonesty, including plagiarism, in relation to any assessment event in any programme, will be dealt with in accordance with the University's disciplinary code and/or criminal law.

11.1.5 Programme-specific assessments and regulations are determined by the Faculty Board and Senate.

11.2 Assessment opportunities

11.2.1 Assessment takes place in accordance with the University's Assessment Policy and the Online Policy Framework.

- 11.2.2 Programme-specific assessment regulations are determined by the Faculty Board and approved by Senate.
- 11.2.3 Module assessment criteria rules and regulations must be communicated to students in all learning guides.
- 11.2.4 The following minimum number of summative assessment opportunities per module applies, excluding supplementary and special assessment opportunities:
- (a) In an approximately seven-week (term) module – a **minimum** of two summative assessment opportunities;
 - (b) In an approximately 14-week (semester) module – a **minimum** of three summative assessment opportunities;
 - (c) In an approximately 28-week (year) module – a **minimum** of five summative assessment opportunities.
- 11.2.5 Every summative assessment opportunity carries a predetermined weight that takes the integration of the outcomes into account. A number of smaller summative assessments may count as one assessment opportunity in a module.
- 11.2.6 When a summative assessment opportunity is used as a last (comprehensive) assessment opportunity, a minimum final period/semester or year mark of 40% is required for admission to the summative assessment opportunity concerned.
- 11.2.7 All fully online modules will be assessed by means of continuous assessment and incorporate multiple assessment opportunities through a range of assessment methods spread across the module. There should be alignment between module (and unit) outcomes and assessment criteria.
- 11.2.8 Assessments should include opportunities to give students timely, meaningful and constructive feedback.
- 11.2.9 All online assessments should be hosted on the UJ Learning Management System. The use of third-party software applications or portals for assessment should be pre-approved through standard UJ processes, provide security of data as required by law and not generate additional costs beyond UJ student fees.
- 11.2.10 Integrity of online assessments is ensured through inter alia:
- (a) sound assessment design that will minimise and impede opportunities for cheating;
 - (b) online identity authentication and verification; or
 - (c) electronic invigilating ensuring that the student completing the assessment is not receiving additional, outside or unauthorised assistance.
- 11.3 Assessment results**
- 11.3.1 All assessment results must be captured on the official UJ system.
- 11.3.2 Higher assessment requirements other than those indicated below are determined by the Faculty Board, approved by Senate and contained in the Faculty Rules and Regulations.
- 11.3.3 The judgement of the Departmental and/or Faculty Assessment Committee is final.

- 11.3.4 The University publishes final results, including final assessment and global results, on uLink only and no other platforms. It is the responsibility of students to access and check their final results on uLink. A uLink print-out (record) may only be used for a student's personal record. Students may request from the relevant faculty an official record of results. An official record does not necessarily reflect a global result. The uLink record may be deactivated after a few months, therefore, students must access and check their final results on uLink within one month of each assessment period.
- 11.3.5 When a traditional examination is used as a last assessment opportunity, the module is deemed as a pass if the following marks have been obtained:
- (a) a last summative assessment mark of at least 40%; and
 - (b) a final mark of at least 50%
- 11.3.6 When a final assessment opportunity is used for continuous assessment, programme-specific requirements, as approved by the Faculty Board and contained in the Faculty Rules and Regulations will be adhered to. The number, type, weight and date of assessments, replacement and/or supplementary assessments are pre-set and agreed upon by the assessor and moderator before the beginning of the unit/module or programme. Summative assessments are not limited to written assessments and may include a variety of assessment methods and/or instruments or portfolios as indicated in the Faculty Learning Guides.
- 11.3.7 Students pass a continuous assessment module if they obtain a weighted final mark of at least 50% (or more if stipulated by a professional/regulating body).
- 11.3.8 Students pass a module with distinction if they obtain a final mark of at least 75%.
- 11.3.9 A couplet module consists of two modules in the academic year concerned whereby the second module builds on the first module. A final period/semester mark and a final mark of at least 40% each in the first semester are required for admission to the second semester module. To pass the couplet, a combined final mark of at least 50% and a final period/semester mark of at least 40% (where applicable) must be obtained in the same year.
- 11.3.10 If a couplet module(s) is not passed on the combined marks, the module(s) in which a final mark of at least 50% and final period/semester mark of at least 40% have not been obtained must be repeated. If both modules have to be repeated, pass marks as stipulated in AR 11.3.9 must be obtained to pass the couplet. If the couplet module(s) is(are) not passed as stipulated in AR 11.3.9, credit is retained for the module (if any) in which a final mark of at least 50% and a final period/semester mark of at least 40% have been obtained and only the other module must be repeated. Pass marks as stipulated in AR 11.3.5 and AR 11.3.7 above must then be obtained in the module that is repeated to pass the couplet.

11.4 Appeals

- 11.4.1 After the final mark for a module is published, students may apply to the lecturer responsible for the allocation of the final summative assessment opportunity for an explanation of the mark awarded in the cases where:
- (a) the student has failed the module with a final mark of at least 45%; or
 - (b) the last summative assessment (examination) mark is at least 15% lower than their module mark; or

- (c) a module was passed without distinction, but either the module mark (i.e. semester or year mark) or last summative assessment (examination) mark was a distinction mark.
- 11.4.2 Requests for the explanation of the award of final marks in the final summative assessment opportunity as indicated in AR 11.4.1 must be made within 10 days after classes commenced for the second semester for first semester assessments. In the case of a second semester assessment opportunity, requests must be made at least three days prior to the commencement of the academic programme in the following year. No assessment material (for example, answer scripts or portfolios) or copies of it may be provided to students after such explanatory discussion, if such material would not otherwise have been returned to the student.
- 11.4.3 If, after the explanation has been provided as described in AR 11.4.2, students are still dissatisfied with the award of marks, they may appeal to the Executive Dean or his/her delegated authority who may, at their own discretion, decide to appoint an external arbiter to re-assess the final and/or last summative assessment. A fee, as determined by the University, is payable for the assessment by arbitration.
- 11.4.4 The fee is refunded if the arbiter alters results from a fail to a pass or from a pass without distinction to a pass with distinction. In all other cases, the fee is forfeited to the University.
- 11.4.5 Online students who want to appeal their results must follow the prescribed administrative procedure by submitting their motivation according to faculty guidelines and procedures and in accordance with UJ policies.
- 11.5 Special summative assessment and supplementary summative assessment opportunities**
- 11.5.1 Special summative assessment opportunities are considered by the faculty in which the programme/qualification resides, for students who, in the event of illness, for compassionate reasons, on religious grounds or for similar legitimate reasons, were prevented from attending a summative assessment opportunity. Students may be granted a special summative assessment opportunity if they apply for it within seven calendar days after the original date of the relevant summative assessment opportunity. The Executive Dean or his/her delegated authority, in consultation with the relevant HOD, considers all applications and decides whether or not to grant the special summative assessment opportunity.
- The Faculty Board determines the procedure for and manner of such application in accordance with University procedure. The application procedure must be contained in the relevant programme-specific information or learning guide.
- 11.5.2 The Assessment Committee or a senior administrative officer of a faculty in which the module resides may grant a student a supplementary last summative assessment opportunity if
- (a) the student failed a module but obtained a final mark of at least 40%; or
- (b) the student failed a module but obtained a semester/year mark of at least 60%.
- 11.5.3 The Assessment Committee or the Executive Dean or his/her delegated authority of a faculty in which the qualification resides may grant a student a supplementary last summative assessment opportunity, if the student requires

not more than the equivalent of two semester modules or one year module for the completion of the relevant qualification, provided that the student

- (a) was registered for the relevant module in the current academic year; and
- (b) was admitted to, and participated in the last assessment opportunity in the relevant module; and
- (c) has complied with all the experiential or practical requirements prescribed for the qualification (where applicable), excluding work integrated modules.

The Executive Dean or his/her delegated authority of the faculty in which the qualification resides may, in exceptional circumstances and in consultation with the Executive Dean of the faculty in which the particular modules reside, waive one or more of the conditions specified in (c).

11.5.4 In all other circumstances, students may not be granted another supplementary summative assessment opportunity if they have used and failed a previous one, except if the Executive Dean of the faculty in which the qualification resides has waived the requirement.

11.5.5 Supplementary summative assessment for continuous assessment modules are scheduled as part of the assessment plan for a particular module. The following applies:

- (a) To be granted a supplementary assessment opportunity for a particular component in the continuous assessment portfolio, a minimum of 40% must have been obtained for that particular component.
- (b) Supplementary assessments are limited to one scheduled assessment per semester module, or two scheduled assessments per year module, or according to each faculty's internal assessment policy.
- (c) A maximum of no more than a pass mark is awarded for the supplementary assessment.

11.5.6 Special summative assessment and supplementary assessment opportunities should be equivalent to the original assessment regarding the scope, standard and duration.

11.5.7 The weight of the summative assessment opportunity granted must retain its original weighting.

11.5.8 Students are personally responsible for ascertaining whether they qualify for a special assessment or a supplementary assessment opportunity and for acquainting themselves with the details of the timetable and the venue.

11.5.9 Students' entitlement to a special or supplementary summative assessment opportunity lapses if they fail to use the opportunity.

11.5.10 The final mark after a supplementary assessment opportunity is capped at 50%. This rule does not apply to continuous assessment modules (refer to AR 11.5.5).

11.5.11 No capping of a final mark is applicable in the case of a special summative assessment opportunity.

These applications will be submitted to the UJ Concessions Committee (Charter: UJ Concessions Committee). After consideration, the Disability Unit will refer the request, together with a recommendation to the respective student who will discuss with his/her lecturer to support the concession.

Students will be issued immediately with a new assessment script or any other relevant material or equipment and the time of issue will be written on the front cover of the script.

In the case of online assessments, the University reserves the right to record assessment opportunities by way of digital invigilation software for purposes of use thereof in disciplinary proceedings in relation to any transgressions during assessment opportunities. Possible student transgressions will be

flagged by the online invigilation software or by a trained online invigilator. Video recording will be submitted as part of the evidence of an alleged transgression.

Online students who are accused of transgressing with reference to AR 11.10 and AR 11.11.1 must complete and sign the prescribed declaration form within seven days after notification of the assessment transgression. 11.13.2 Programme-specific requirements in this regard are addressed in the Faculty Assessment Policies and Work-integrated and Service Learning Policy.

11.14 Assessment for RPL

Assessment for RPL is governed by the University's Policy on RPL in terms of the following principles:

- (a) Current competence is more important than learning history. Relevant learning is valued, irrespective of where, when or how it occurred.
- (b) Applicants have to demonstrate competence (proven learning).
- (c) The standards by which students are assessed for prior learning are determined by the relevant Faculty Board, approved by Senate and contained in the relevant Faculty Rules and Regulations.
- (d) Each assessment of prior learning is individual based.
- (e) RPL assessment is conducted by the lecturer responsible for that particular module or programme, or by the RPL Committee of the faculty if RPL affects the whole programme.

11.15 Publication of final assessment results

11.15.1 The assessment results of students are released per module as provisional results as soon as they are captured and computed throughout the summative assessment period.

- 15.3.2 Renewal of registration for a minor dissertation or dissertation takes place during the first semester of the academic year as contained in the University's Year Programme.
- 15.3.3 Failure to submit the research or minor research proposal within the time frame specified in the Higher Degrees Policy may result in cancellation of registration.
- 15.3.4 Interruption of study may be granted by the Vice-Dean responsible for postgraduate studies for legitimate reasons, as reflected in the Higher Degrees Administration: Structure and Processes.
- 15.3.5 Allowance is made for a possible pre-registration period during which a student will have limited access to university resources such as the library. This is done in accordance with the relevant Faculty Rules and Regulations.
- (a) The pre-registration period may extend from a minimum of three months to a maximum of six months. Where the pre-registration period carries over to a

following academic year, the student must re-register. Pre-registration will be accommodated on the student administration system in either the first semester or the second semester of the academic year.

- (b) Pre-registration is only available according to the published registration dates set for the programme. Students who fail to meet the pre-registration requirements will not be given a second chance.

 - 15.3.10 Any amendment to a project or research title is done in accordance with faculty-specific requirements. The amendment is approved by the relevant Faculty Board or FHDC and noted by the SHDC. A change in project title at any stage does not constitute valid grounds for the extension of registration, residency or formal duration of study.
 - 15.3.11 The renewal of students' registration for a master's programme is subject to satisfactory progress in accordance with the University's Higher Degrees Policy and the Higher Degrees: Administration: Structures and Processes, faculty-specific requirements and, where applicable, professional regulatory requirements, with due regard also to the University's Enrolment Management Plan and subsequent throughput interventions.

15.4 Ethical considerations

Research in master's programmes is conducted in accordance with ethical requirements as contained in the Code of Academic Ethics and faculty-specific

procedures as determined by the relevant Faculty Board, and with due regard to statutory and professional regulatory requirements and general best-practice principles to protect human and animal dignity and welfare in research.

15.5 Health and safety

The supervisors of research projects are responsible for assessing whether or not such projects have health and safety implications in accordance with the University's Occupational Health and Safety Policy.

15.6 Conversion/transfer of a research master's degree to a doctoral degree

15.6.1 In exceptional cases, where the scope and impact of a project originally registered for a research master's programme prove to expand considerably beyond the initial expectation and where the project is expected to make a novel contribution to the body of knowledge in the discipline, students – with the concurrence of the supervisor and all co-supervisors – may apply to have their registration converted/transferred to a doctoral level in accordance with the University's Higher Degrees Policy and the Higher Degrees: Administration: Structures and Processes.

15.6.2 The request for a conversion from a master's study to a doctoral study can only be considered prior to the submission of the dissertation for examination.

15.6.3 A conversion/transfer may only be considered and requested by the relevant Faculty Board after nine months and before eighteen months from the first registration for the master's dissertation.

15.6.4 The supervisors provide a comprehensive motivation for such a conversion/transfer to the relevant Faculty Board for consideration. In support of the motivation, students draft a substantive research report that they present at a departmental seminar.

15.6.5 The criteria for master's level qualifications as set out in Faculty Rules and Regulations are fulfilled in both the written report and the oral presentation.

15.6.6 The argument for upgrade, as presented in the candidate's written report and the oral presentation, and the supervisor's motivation, is considered by the FHDC and two external expert evaluators (appointed by consensus among the supervisor, the HOD, the FHDC chair and the Executive Dean of the Faculty. This panel decides the merits of the application and refers the matter to the Faculty Board and the SHDC for recommendation and to the Senate for approval.

15.6.7 If approved and the student has been registered for the minimum study period specified for the master's programme, he/she will have to register for at least one additional academic year for the doctoral programme before the doctoral degree can be conferred.

15.6.8 A student whose registration is amended from a master's programme to a doctoral programme is not entitled to be conferred a master's qualification for the project under consideration, irrespective of whether the doctoral thesis is completed or failed, since this transfer is an extraordinary and irreversible intervention.

15.7 Assessment

15.7.1 The core output of a research master's programme is a dissertation in the form of a written document in an appropriate format. The dissertation may consist of a collection of articles or essays, as governed by the UJ guidelines on

Theses or Dissertations in Article or Essay Format. In the case of a research master's programme, the Faculty Rules and Regulations determine whether the successful completion of a research dissertation is the sole academic requirement for the qualification, or whether the successful completion of both a research dissertation and an oral assessment opportunity is required.

- 15.7.2 Appointment of external assessors for master's programmes takes place in accordance with the University's Higher Degrees Policy and the Higher Degrees Administration: Structures and Processes.
- 15.7.3 The assessment of coursework modules takes place in accordance with faculty-specific regulations as determined by the relevant Faculty Board, approved by Senate and contained in the relevant Faculty Rules and Regulations. This includes the consideration and granting of supplementary summative assessment or special summative assessment opportunities for coursework modules.
- 15.7.4 The master's student is responsible for the technical and linguistic editing of the minor dissertation or dissertation with the assistance of the supervisor prior to submission for final summative assessment.
- 15.7.5 The final research report (minor dissertation or dissertation) is submitted for assessment (with reference to the presentation format, content and layout) in accordance with the faculty-specific regulations as determined by the relevant Faculty Board, approved by Senate and contained in the relevant Faculty Rules and Regulations.
- 15.7.6 A minor dissertation or dissertation is submitted for final summative assessment subject to a declaration confirming that it is the student's own work signed by the student. If a dispute should arise about the readiness of a minor dissertation or a dissertation for final summative assessment, the Vice-Dean responsible for postgraduate studies of the faculty makes the decision in accordance with the Higher Degrees Policy and the Higher Degrees: Administration: Structures and Processes.
- 15.7.7 No minor dissertation or dissertation may be submitted for final assessment without the expressed permission of the supervisor(s). Where the supervisor(s) decide(s) to withhold permission, due processes must be followed.
- 15.7.8 No supervisor(s) shall unreasonably withhold permission for the submission of the minor dissertation or dissertation for assessment.
- 15.7.9 Where a dispute arises between the supervisor(s) and student about the submission of the minor dissertation or dissertation for assessment, the student has the right to approach the HOD and Executive Dean with a written submission motivating why the minor dissertation or dissertation is considered ready to be assessed. The Executive Dean will make a decision in consultation with the HOD and FHDC. The decision of the Executive Dean is reported to the SHDC.
- 15.7.10 The final submission of the minor dissertation or dissertation takes place in accordance with the final submission dates per semester as contained in the University's Year Programme to ensure timely completion of the assessment process. Late submission could imply the renewal of a registration.
- 15.7.11 The minor dissertation or dissertation is assessed in accordance with the University's Higher Degrees Policy, the Higher Degrees Administration:

Structures and Processes and faculty-specific criteria as determined by the Faculty Board and approved by Senate.

- 15.7.12 The recommendations of assessors are considered by the relevant faculty postgraduate assessment committee and a result is recommended to the Faculty Board for approval and ultimately to Senate for noting in accordance with the University's Higher Degrees Policy and the Higher Degrees Administration: Structures and Processes.
- 15.7.13 The final assessment outcome for a minor dissertation or dissertation is determined by the FHDC.
- 15.7.14 There are four possible responses from an assessor of a minor dissertation or dissertation, namely:
- (i) He/she may approve the dissertation with no corrections to be made, and award a mark of 50% or more.
 - (ii) He/she may provisionally approve the dissertation with minor corrections to be done to the satisfaction of the supervisor and award a mark of 50% or more.
 - (iii) He/she may recommend substantial amendments to the dissertation without awarding a mark in the light of deficiencies identified in her/his narrative report and advise that the revised version be submitted to her/him for reassessment acknowledging the fact that her/his final mark will be capped at 50%.
 - (v) He/she may reject the dissertation, awarding a mark reflecting a fail (less than 50%) in which case no reassessment by this assessor will take place.
- 15.7.15 The University is not bound by the recommendation of individual assessors as the final assessment result lies solely within the power of the University, which exercises an academic judgement when determining final results.
- 15.7.16 An additional oral summative assessment, based on the minor dissertation or dissertation, may be required in accordance with the Faculty Rules and Regulations. See also Higher Degrees Policy.
- 15.7.17 A research master's degree can be conferred only after the successful completion of every requirement of each component of the respective degree programme, including the submission and favourable evaluation of a research-based dissertation and the submission of one piece of work in a format suitable for a peer-reviewed publication.
- A coursework master's degree can be conferred only after the successful completion of every requirement of each component of the respective degree programme, including the submission and favourable evaluation of a research-based minor dissertation, the obtaining of a pass mark for each of the prescribed coursework modules and the submission of one piece of work in a format suitable for a peer-reviewed publication. Faculty regulations may stipulate conditions under which students may be exempted from the requirement for the submission of an article. These conditions are approved by the relevant Faculty Board and Senate.
- 15.7.18 A student is not deemed to have completed the requirements for conferment of the degree if the electronic version has not been submitted to the relevant faculty administration officer prior to the graduation ceremony and closure of the graduation list for the forthcoming graduation ceremony.

15.7.19 A master's degree can only be awarded with a distinction if the degree was completed within the maximum period allowed for a master's study.

15.8 Resolving conflicting results recommended by the assessors

The FHDC may but is not obliged to invoke one or more of the following procedures to resolve an impasse in the results of a master's study (in accordance with the Senate Higher Degrees Policy and the Higher Degrees Administration: Structures and Processes):

- (a) request additional information from the assessors and/or supervisors; or
- (b) initiate a facilitation process to reach a joint recommendation between assessors as per the Higher Degrees Administration: Structures and Processes; or
- (c) appoint an additional assessor to assess the minor dissertation or dissertation in the hope that the resulting report will resolve the impasse; or
- (d) invite an external expert to advise the FHDC; or
- (e) identify an independent arbiter to consider all the documentation pertaining to the assessment process, including the individual assessor's reports and present a decision to the FHDC; or
- (f) any other procedure it deems appropriate.

15.9 Certification of compliance with the requirements of the qualification

16. ACADEMIC REGULATIONS APPLICABLE TO DOCTORAL DEGREES

16.1 Doctoral programme

The requirements for doctoral programmes are stipulated in the Higher Degrees Policy and the Higher Degrees Administration: Structures and Processes. Faculties may have further requirements as considered by the SHDC, approved by Senate and contained in the relevant Faculty Rules and Regulations.

16.2 Admission

- 16.2.1 For admission to a doctoral programme, applicants must have successfully completed a relevant master's programme in the same or relevant field of study or discipline as determined by the relevant Faculty Board, approved by the SHDC, ratified by Senate and contained in the relevant Faculty Rules and Regulations.

The HOD, in consultation with the relevant Vice-Dean responsible for postgraduate studies, may set additional admission requirements, as approved by the relevant FHDC, for a particular student.
- 16.2.3 In the case of interdisciplinary doctoral programmes, additional admission requirements may be set by the two or more relevant interdisciplinary fields, departments or faculties, approved by Senate and contained in the relevant Faculty Rules and Regulations.
- 16.2.4 The relevant HOD (where applicable) may initiate the University's Policy on RPL to award academic status equivalent to that of a master's degree to enable applicants to gain access to a doctoral programme. Each individual case is considered by the relevant Faculty structure and submitted to the Faculty Board for approval.
- 16.2.5 The University reserves the right not to admit applicants to a particular Doctoral programme in accordance with programme-specific selection criteria and other relevant criteria such as:
- (a) the limitations of enrolments as per the University enrolment plan;
 - (b) the inability to identify an appropriate supervisor or a lack of adequate supervision capacity within the University;
 - (c) compliance with minimum admission requirements does not constitute automatic right to admission to the programme.
- 16.2.6 The success of an international application depends on both the confirmation of academic acceptance and the obtaining of the necessary statutory documentation and state approval.
- 16.2.7 Applicants who have applied for admission and have been refused despite meeting the minimum admission requirements may request written reasons for such refusal from the relevant HOD or Vice-Dean responsible for postgraduate studies.

16.3 Registration

- 16.3.1 Applicants register for the relevant doctoral programme in accordance with the registration dates set by the University, faculty-specific procedure and in terms of the requirements of the Higher Degrees Policy and the Higher Degrees Administration: Structure and Processes.
- 16.3.2 Renewal of registration takes place during the first semester of the academic year.
- 16.3.3 Failure to submit the research proposal within the specified time frame may result in cancellation of registration.

- 16.3.4 The Vice-Dean responsible for postgraduate studies may grant a student permission to put his/her study in abeyance for legitimate reasons, as reflected in the Higher Degrees Policy and the Higher Degrees Administration: Structure and Processes.
- 16.3.5 Allowance is made for a possible pre-registration period during which a student will have limited access to university resources such as the library. This is done in accordance with the relevant Faculty Rules and Regulations.
- (a) The pre-registration period may extend from a minimum of three months to a maximum of six months. Where the pre-registration period carries over to a following academic year, the student must re-register. Pre-registration will be accommodated on the student administration system in either the first semester or the second semester of the academic year.
- (b) Pre-registration is only available according to the published registration dates set for the programme. Students who fail to meet the pre-registration requirements will not be given a second chance.
- (c) In order to qualify for formal registration, the student must have complied with all the conditions for progression set and recorded by the faculty, in time to register in accordance with the times set by the University.
- 16.3.6 Students register for the doctoral programme full time or part time in accordance with the specific requirements of the programme as contained in the relevant Faculty Rules and Regulations, as approved by Senate, and with due regard to the approval of the DHET, as accredited by the CHE (HEQC) and registered by SAQA

Further registration may be granted by the relevant Vice-Dean responsible for postgraduate studies in accordance with the University's Higher Degrees Policy and the Higher Degrees Administration: Structures and Processes.
- 16.3.9 The approval of students' research proposals, supervisors, study fields and provisional or final titles of theses is in accordance with the University's Higher Degrees and Postgraduate Studies Policy and faculty-specific regulations determined by the relevant Faculty Board, approved by Senate as recommended by the SHDC.
- 16.3.10 Any amendment to the title of a thesis is in accordance with faculty-specific requirements, and such amendment is approved by the relevant Faculty Board or faculty committee with delegated authority, and noted by the SHDC. A change in project title at any stage does not constitute valid grounds for the extension of registration or residency/formal duration of study.
- 16.3.11 Scholarship development at doctoral level may consist of at least the following formative and integrated assessment opportunities, as determined by the Faculty Board, approved by Senate and contained in the Faculty Rules and Regulations:
- (a) regular discourse engagement with the supervisor(s), as contained in the faculty-specific guidelines for doctoral programmes;

- (b) two doctoral seminars during the course of the programme: one to present and defend the research proposal and one to present the results of the research project and simultaneously to justify the originality of the thesis.
- 16.3.12 The renewal of students' registration for a doctoral programme is subject to their satisfactory progress in accordance with the Higher Degrees Policy, Higher Degrees Administration: Structures and Processes, faculty-specific requirements and, where applicable, professional regulatory requirements.
- 16.3.13 In the event of students' progress being unsatisfactory, the relevant Faculty Board recommends to the SHDC that their registration for the doctoral programme be terminated. The decision of the SHDC is final.
- 16.3.14 Interruption (a study break that does not count against a student when calculating the period within which the study must be completed) may be granted in exceptional circumstances, for a maximum of twelve months, and only once during the period of study. This matter would be to the discretion of the Higher Degrees Committee within the Faculty.

16.4 Ethical considerations

Research in doctoral programmes is conducted in accordance with ethical requirements as contained in the University's Code of Academic Ethics and faculty-specific procedures as determined by the relevant Faculty Board, with due regard to statutory and professional regulatory requirements and general best-practice principles to protect human and animal dignity and welfare in research.

16.5 Health and safety

The supervisors of a research project are responsible for assessing whether or not a research project has health and safety implications in accordance with the University's Health and Safety Policy.

16.6 Assessment

- 16.6.1 The core output of a doctoral programme is a thesis in the form of a written document in an appropriate format. The thesis may consist of a collection of articles and essays as governed by the UJ guidelines on Theses or Dissertations in Article or Essay Format. The Faculty Rules and Regulations, approved by Senate, however, may determine that an oral defense or Viva Voce may form part of the academic requirements for the qualification. The submission of two pieces of work suitable for publication in a peer-reviewed publication, based on the thesis, is a prerequisite for the conferment of the degree.
- 16.6.2 A professional doctorate is assessed on the outcome of the research component as well as the required coursework in accordance with the Faculty Regulations as approved by Senate.
- 16.6.3 Doctoral degree students are responsible for the technical and linguistic editing of the thesis with the assistance of the supervisor, prior to submission for final summative assessment.
- 16.6.4 Submission of the final thesis for assessment purposes, with reference to the presentation format, content and layout, is in accordance with the faculty-specific regulations as determined by the relevant Faculty Board, SHDC, approved by Senate and contained in the Faculty Rules and Regulations.

- 16.6.5 The final submission of the thesis takes place in accordance with the final submission dates per semester as contained in the University's Year Programme to ensure timely completion of the assessment process. Late submission could imply the renewal of a registration.
- 16.6.6 A thesis is submitted for final summative assessment, subject to the written permission of the supervisor(s) and a completed UJ declaration form for master's and doctoral studies. The permission of the supervisor(s) or the Executive Dean to submit a thesis for final summative assessment does not guarantee a successful outcome of the assessment procedure.
- 16.6.7 Where a dispute arises between the supervisor(s) and student about the submission of the thesis for assessment, the student has the right to approach the HOD and Vice-Dean responsible for postgraduate studies with a written submission motivating why the thesis is considered ready to be assessed. The Vice-Dean responsible for postgraduate studies will make a decision in consultation with the HOD and FHDC. The decision of the Executive Dean is reported to the SHDC.
- 16.6.8 The assessment of the thesis is in accordance with the University's Higher Degrees Policy, Administration: Structures and Processes and the faculty-specific criteria as determined by the Faculty Board and approved by Senate.
- 16.6.9 There are four possible responses from an assessor of a thesis, namely:
- 16.6.9.1 Approval of the thesis and that the doctoral degree be conferred, with or without minor editorial corrections;
- 16.6.9.2 Provisional approval of the thesis, subject to the candidate effecting non-substantive corrections and improvements as identified in the assessor's report, to the satisfaction of the supervisor;
- 16.6.9.3 Non-approval by the assessor due to substantial deficiencies in the thesis as identified in the assessor's report.
- (a) Recommend that the substantial amendments be effected to the satisfaction of the SHDC (The FHDC's process may involve the advice from an internal/external independent expert); or
- (b) The thesis to be re-submitted to the assessor for re-assessment.
- 16.6.9.4 Reject the thesis, in which case no reassessment is recommended or considered.
- 16.6.10 The University is not bound by the recommendation of individual assessors as the final assessment result lies solely within the power of the University, which exercises an academic judgement when determining final results.
- 16.6.11 The FHDC may (but is not obliged to) invoke one or more of the following procedures to resolve an impasse in the results of a doctoral study (in accordance with the Senate Higher Degrees Policy and Higher Degrees Administration: Structures and Processes):
- (a) request additional information from the assessors and/or supervisors; or
- (b) appoint an additional assessor to assess the thesis in the hope that the resulting report will resolve the impasse; or
- (c) invite an external expert to advise the FHDC; or

- (d) identify an independent arbiter to consider all the documentation pertaining to the assessment process, including the individual assessor's reports and present a decision to the FHDC; or
 - (e) initiate a facilitation process to reach a joint recommendation between assessors as per the Higher Degrees Administration: Structures and Processes; or
 - (f) any other procedure it deems appropriate.
- 16.6.12 Students are not deemed to have completed the requirements for conferment of the degree if two pieces of work in a format suitable for peer-reviewed publication are not submitted prior to the closure of the graduation list for the forthcoming graduation ceremony.
- 16.6.13 Students are not deemed to have completed the requirements for conferment of the degree if an electronic copy has not been submitted to the relevant faculty administration officer prior to the graduation ceremony.
- 16.7 Certification of compliance with the requirements of the qualification**
- Certification of compliance with the requirements of the qualification is in accordance with the Certification Policy of the University, with due regard to the responsibility of the students, supervisors, relevant faculty administration officer, the Executive Dean of the faculty and the Registrar.
- 16.8 Dissemination and publication of the thesis**
- 16.8.1 Students are encouraged to publish articles concerning their doctoral research before the thesis has formally been accepted, but must first obtain written permission from their supervisors.
- 16.8.2 Copyright in a thesis, as well as ownership of intellectual property arising from the research, is vested in the University regardless of whether or not the thesis is accepted or the research completed. Students give their irrevocable consent, when signing the Student Agreement at registration, to the formal cession of any applicable rights to the University.
- 16.8.3 In addition to the final submission of the thesis, and except where faculty regulations exempt them or set a higher number, doctoral students are required to submit to their supervisors at least two pieces of work in a format suitable for a peer-reviewed publication. Faculty regulations may stipulate additional evidence (e.g. proof of acceptance of the manuscript for publication). The requirement of such additional evidence is approved by the relevant Faculty Board and Senate.
- 16.8.4 Co-authorship between students and supervisors of an article based on a doctoral research publication is in accordance with the Guidelines Authorship as contained in the University's Code for Academic Ethics.
- 16.8.5 Students will not be deemed to have completed the requirements for graduation until such time as the aforementioned manuscript of the research article has been submitted to the supervisors unless the student has been exempted from this requirement by the Faculty Rules and Regulations.
- 16.8.6 The preparation of the manuscript of the research article is undertaken by students and the supervisors and students in close collaboration with one another, and supervisors are responsible for assisting students.

- 16.8.7 If a thesis or an adaptation of it or any resulting research publication is published, it must be stated that it is based on research done at UJ for a particular study.
- 16.8.8 If students do not publish their work, supervisors may take the initiative to publish it in accordance with the Guidelines Authorship as contained in the University's Code for Academic Ethics.
- 16.8.9 The SHDC, on the recommendation of the Deputy Vice-Executive Director: Research and Innovation or an applicant duly mandated in this regard, may grant a confidentiality classification of two years to the completed thesis, as stipulated in the University's Policy on Intellectual Property, meaning a delay in the public display of the thesis.
- 16.8.10 Any research and development done by students as part of their studies, will be subject to the IPR Act.

16.9 Dispute resolution

- 16.9.1 If an unresolved dispute should arise between two or more of the supervisors, or between a supervisor and the student, the HOD, in the first instance takes steps to resolve the matter.
- 16.9.2 If a dispute remains unresolved, it is referred to the relevant Vice-Dean responsible for postgraduate studies who may refer the matter to the SHDC for final consideration and processes to resolve the matter.

16.10 Appeals procedure

- 16.10.1 Where assessors' reports vary considerably about the merit of a particular thesis, thereby giving rise to an impasse in finalising the assessment result, a faculty may (but is not obliged to) invoke one or more of the following procedures to resolve the impasse (in accordance with the Senate Higher Degrees Policy and the Higher Degrees Administration: Structure and Processes):
- (a) request additional information from the assessors and/or supervisors; or
 - (b) invite an external expert to advise the FHDC; or
 - (c) appoint an additional assessor to assess the thesis in the hope that the resulting report will resolve the impasse; or
 - (d) identify an independent arbiter to consider the individual assessor's reports and present a decision to the faculty-specific assessment committee; or
 - (e) any other procedure that the faculty deems appropriate.

16.11 Finalisation of results

The SHDC finalises the assessment results of doctoral studies.

16.12 Intellectual property

- 16.12.1 The supervisors are responsible for monitoring all doctoral projects for potential inventions or other commercially valuable intellectual property implications, and disclosing such inventions or implications to the Executive Director: Research and Innovation.
- 16.12.2 Students who develop inventions or other forms of commercially valuable intellectual property must disclose such inventions to the supervisors in accordance with the University's Policy on Intellectual Property.

16.12.3 Where disclosures have been made about intellectual property emerging from a research project, the Executive Director: Research and Innovation, or an applicant duly mandated in this regard, must certify that any intellectual property matters attendant to the project have been dealt with in terms of relevant university policy as a condition of graduation.
