4IR is taking us into a new future, unimagined until just a few short years ago. And if you want to have a say in what that future is going to look like, and to ensure that your voice and your views are based in confidence and knowledge, then the place to start is with the imagination. That's why, at UJ, as a 4IR thought-leader in Africa, we say that an education with us is the best way to get all the confidence and knowledge you need. And that's because at UJ we haven't just looked at the future, we think about it again and again, because we believe that the future belongs to those who reimagine it.
