ALEXA SIKIOTIS, 23
Training office: KPMG
Position: Trainee accountant

To which factors do you credit your ITC achievement?
 I owe it to a village of individuals who supported and motivated me throughout my studies. Hard work and determination only get you so far, and without the support of my incredible family and friends, my brilliant lecturers from UJ and the glory of God, my success in this exam would have never been possible.

What advice would you give to others preparing for the exam?
 Believe in yourself! You are more capable than you think! Set yourself a study schedule and stick to it, but don't forget to also give yourself a break. Keep pushing, a few months of hard work will result in a lifetime of rewards.

Your training experience at KPMG?
 It has been incredibly rewarding so far. I have been able to work with some awesome individuals on high-profile clients and have developed greatly on a professional level as a result.

Why did you choose the CAISA route?
 It is a globally renowned and opens a multitude of doors to different career opportunities. It is a well-respected designation that has a substantial amount of influential and highly successful members. It will give me great pride to add the CAISA title to my name.

Your definition of integrity?
 Faith, integrity, respect and excellence are the principles that I live by. My definition of integrity is a person who is strong in their moral convictions of being honest and ethical in every aspect of their lives.

Some of your career highlights?

- Making the ITC Top 10
- Working on high-profile audit engagements and collaborating with diverse individuals
- Representing UJ at the University Scholars Leadership Symposium at the United Nations in Thailand
- Achieving my degree and CTA cum laude and graduating top of my CTA class

What inspired you to become one of the Top 10?
 I have had a dream of making the Top 10 since I started my CAISA journey. Over the years as I progressed and excelled academically, that dream started to become a reality.

The challenges and advantages of studying during lockdown?

The shift from in-person learning to online learning was incredibly challenging at first, as it disrupted my usual routine. However, once getting used to it, studying became easier as I could work at my own pace. Our lecturers also made the transition smoother by recording re-playable lectures and offering virtual webinars to aid our learning.

Proud to see #UJAlumnus Ms Alexa Sikiotis showcased as SAICA ITC Top 10 Candidate in the August edition of AccountancySA magazine
