INFORMATION ON THE PROGRAMME

The University of Johannesburg (UJ) offers a Bridging Programme Advanced Diploma in Logistics, which is designed for students with a relevant NQF 6 qualification or who come from other disciplines and generally lack knowledge in the major fields of Purchasing and Logistics. The Bridging programme aims to assist these students in their transition by preparing and enabling them to apply for the Advanced Diploma in Logistics.

The programme is offered on a limited contact basis with a required attendance of lectures on specified days of the month. The assessments will also be due or completed at these lectures.

CONTACT SESSIONS (Only in JHB)

IMPORTANT: The programme is offered on a limited contact basis and requires students to attend full-day lectures on three to four days each month from February to the end of September. Examinations take place over a four-day period in October.

- This training delivery method is ideal for working students who cannot attend full-time classes at a tertiary institution, and who are employed in the logistics industry.
- Classes are offered at the Auckland Park Bunting Road Campus, Cottesloe, Johannesburg.
- Students will receive a complete class schedule on registration/ orientation day.
- Note that attendance of classes and assessments is compulsory.
- Approximately eight (8) workshops are scheduled per module
- Your lecturer will present an overview of the work that you will be required to cover on your own and assist with any problems you may experience.

IMPORTANT: Students should have basic computer skills. The module End User Computing is a practical course. It is essential that students have access to a computer, stable Internet connection and Microsoft Office 2016 Packages.

ADMISSION

- Prospective students should have a relevant NQF 6 qualification.
- Only online applications will be considered and will go through a selection process.
- Selections are based on the performance in the relevant NQF 6 qualification.
- Applications will open 1 September 2021 until 9 February 2022.
- Limited space is available.
- A digital device is required with Internet access (data availability). Computer literacy is essential.

LEARNING PATH

You are eligible to apply for the Advanced Diploma in Logistics after completion of the Bridging Programme Advanced Diploma (Logistics) with an **minimum final average of 65% in each of the modules**. All applicants will be subject to a selection process and space availability.

FINANCE

Refer to the Finance Leaflet for more information regarding the fees, payment options and payment methods, etc.

Do take note that NSFAS does not fund this programme.

ASSESSMENTS

- The modules require one assignment, two tests and one examination.
- The examination will be written in October 2022.
- Students must pass all the modules to qualify to apply for the Advanced Diploma in Logistics.
- All students in the bridging programme are subjected to the application rules for applying to formal degrees.
- As space in the Advanced Diplomas is limited, only students who obtain a **minimum average of 65% in each of the modules**, may be considered for further studies at UJ.

THE YEAR MARK CALCULATION

(Example)

Assignment	30%	
Test 1	35%	
Test 2	35%	
Year mark	100%	In order to qualify for the examination a minimum of 40% is required.

CALCULATION OF EXAMINATION MARK

Examination	100%
-------------	------

CALCULATION OF FINAL MARK

Year mark	50%	
Examination	50%	
Final mark	100%	A pass mark of 50% in each module is required.

CURRICULUM

Registered students will be supplied with detailed learning guides. Textbooks can be obtained from all major suppliers.

Students who have graduated in a relevant diploma will register for the following modules:

Bridging Programme for Advanced Diploma (Logistics) (S1BALQ)

Logistics	LOGBRY1
Purchasing	PURBRY1
End User Computing	EUCBRY1
Applied Accounting Skills (Logistics)	AALBRY1

DURATION

9 months

CREDITS

96

MODULE DESCRIPTION

Logistics

The focus of this module is on the development and implementation of logistics principles in the supply chain environment. Students should be able to apply their knowledge, competencies and practical skills in planning and implementing logistics decisions.

Purchasing

The purpose of this module is to provide knowledge of the development, evaluation and implementation of purchasing principles in the supply chain environment. This will enable the student to make a range of decisions implicit in planning and implementing purchasing. Upon the successful completion of this module, a student would have obtained fundamental knowledge on how purchasing contributes to value creation in the supply chain.

End User Computing

The purpose of this module is to enable students to use Microsoft Word, Microsoft Powerpoint and Microsoft Excel to enhance professionalism in the business environment.

Applied Accounting Skills (Logistics)

The purpose of this module is to provide students with the basic principles of accounting, the accounting cycle and recording of accounting transactions. This module will help students to compile financial statements, do basic calculations and the recording of value-added tax (VAT) transactions.

APPLICATION AND REGISTRATION PROCESS

APPLICATION DATE	1 September 2021 until 9 February 2022
REGISTRATION DATE	20 January until 9 February 2022

Step 1: How to apply?
