## Prof Claude-Hélène Mayer, co-author of “A psychobiography of Viktor Frankl”

A psychobiography of Viktor Frankl, co-authored by Prof. Claude-Hélène Mayer, (CBE School of Management, Department of Industrial Psychology and People Management) has just been published by Springer.

Viktor Frankl was an Austrian neurologist, psychiatrist, philosopher, author, Holocaust survivor, and founder of logotherapy - a school of psychotherapy focused on our search for a meaningful life as the ultimate human motivational force.

Congratulations on this achievement, Claude!
