## **WHAT MAKES THE TRANSPORT AND SUPPLY CHAIN MANAGEMENT BRIDGING PROGRAMME UNIQUE?**

### **EASY ADMISSION**

- Students with a Grade 12 Certificate to pursue a career in Transport or Logistics.
- The programme has been developed to allow prospective students who possess a Grade 12 Certificate without Diploma endorsement/university exemption, to improve their qualification in order to be able to articulate to the following CEP Diplomas in this Department
  - Diploma in Road Transport Management (Freight)
  - Diploma in Road Transport Management (Passenger)
  - Diploma in Transportation Management
  - Diploma in Logistics Management
- This programme is unique to the Department of Transport and Supply Chain Management at the University of Johannesburg. It has been developed in consultation with the Transport and Logistics Industry in order to allow students to improve their career advancement prospects in the industry.

### **ADMISSION REQUIREMENTS**

- Grade 12 with higher certificate endorsement / without university exemption.
- A good working knowledge of English (study material will be available in English only).
- Relevant documentation (see how to enrol).
- A digital device is required with Internet access (data availability) such as: Laptop/desktop/iPad (advisably not a cellphone).
- Computer Literacy is essential.

## **CURRICULUM**

### **Basic Mathematics and Quantitative Techniques for Logisticians**

This module follows a practical training approach, in which students are introduced to the role and importance of quantitative techniques in logistics management as well as the teaching of basic mathematical and quantitative skills required in logistics management.

### **Industrial Relations**

This module familiarises students with the basic theoretical and practical foundation underlying industrial relations in South Africa. The module provides grounding in management philosophy, the role of the State, constitutional principles, trade unions, collective bargaining, negotiations, recognition agreements, strikes, unfair labour practices, etc. The implications of various management approaches for optimising industrial relations in the future are covered, and case studies are used to provide opportunities for the practical application of the principles discussed.

### **Managing Road Transport Operation**

This module gives students the ability to understand an organisation and make supervisory decisions on a visionary basis. It allows students to understand the organising and use of resources. The components of management are covered and related to transport. The application of managerial concepts to work teams is studied and explained.

## **PROGRESSION**

On completion of the Bridging Programme, a student will be able to apply for a Diploma Programme (CEP) as indicated on page two.

## CREDITS

- 63 credits
