

CHANGE OF TITLE THESIS/DISSERTATION/MINOR DISSERTATION

The supervisor is requested to complete this form electronically

Higher Degrees Policy item 9 related to the change of title for a dissertation or thesis states

9.1 In cases where the scope of a higher degree study changes during the course of the research and the original title for the project is no longer apt, or an assessor proposes a change in the title, the supervisor and student must apply for a change in the project title.

9.2 Title changes for master's minor dissertations or dissertations need to be approved by the FHDAC or FHDC, and submitted to SHDC for notification.

9.3 Changes in titles for doctoral theses need to be approved by the FHDAC or FHDC, and submitted to SHDC for notification.

9.4 A change in title at any stage does not constitute valid grounds for the extension of registration or change to the residency period.

9.5 In all cases where the title of the study has changed the HFA must ensure that the NRF is notified of the particular change so that the NEXUS database can be updated.

SECTION A: Student and registration details
