- Grade 12 with Mathematics, Physical Sciences and Life Sciences at Level 6, and English at Level 5.
- An average aggregate pass rate of 65% during each academic year until the completion of his/her Degree

Disciplines:

- Mechanical, Chemical & Metallurgical Engineering

Alfa Laval develops, manufactures and sells special products and world class technical solutions helping our customers optimize the performance of their processes. Time and time again.

Our equipment and systems create solutions for heating, cooling, separation and fluid handling of products such as oil, chemicals, water, beverages, foodstuffs, starch and pharmaceuticals.

Alfa Laval has approximately 9 500 employees in more than 50 countries covering over 100 markets. We have just created a new Alfa Laval with a new spirit and a strong focus, that will reinforce our position as a global leader within the areas where we operate.

Our solid base is our shared goals and values. We are customer oriented. We dare to do things differently. We are open, informal and flexible. We create reliable and cost efficient solutions.

We are a totally new company, founded in 1883.
