

ENERGY PARTNERS

GRADUATE PROGRAMME 2019

Oops!! We've experienced technical issues relating to our graduates mailbox during the month of August and lost all email applications. If you've sent your application to graduates@energypartners.co.za please resubmit your application to before applications close on 30 September 2018.

WHO ARE WE

Energy Partners builds and operates core energy utilities such as solar, refrigeration, steam, fuel and water that cater for commercial, industrial, SME and residential markets.

WHAT WE DO

Our investment in decentralised utilities enables our clients to free up capital to grow their businesses. We offer utility consulting, solution-design, efficient motoring and practical implementation. We are dedicated to the creation of better energy solutions that fuel Africa's growth.

OUR GRADUATE PROGRAMME

Energy Partners runs an annual 12-month graduate programme for high calibre talent in each of the various business divisions. Our 2019 graduate programme offers opportunities at either our Western Cape and Gauteng branches.

HOW TO APPLY

Listed below are the minimum requirements that you have to meet:

- * South African citizen
- * A relevant degree in mechanical, mechatronic, electrical or industrial engineering, statistical analysis
- * High levels of ambition and self-motivation supported by a strong desire for a career in the energy industry
- * Leadership and team working capabilities
- * Completion of post-graduate studies would be advantageous

Please submit the following documents:

- * Curriculum Vitae
- * Full Academic Results

All appointments will be made in line with Energy Partners Employment Equity strategy.

APPLICATIONS CLOSE 30 SEPTEMBER 2018
