SHORT LEARNING PROGRAMME

INTRODUCTION TO GREEN TRANSPORT

EARN A CERTIFICATE OF COMPLETION

HOURS

Each topic should take 5 hours to complete with an additional 1 hour for assessment (45 total)

DATES

2024 commencement to be advised

Self Study

The Short Learning Programme (SLP) is entirely online, with students completing it in their own time within the specified programme time frame. There will be 1 x Onboarding online session via MS Teams

WHY?

The Green Transport Strategy intends to reduce greenhouse gas emissions and other negative environmental impacts of the transport sector, as well as promote economic growth and boost jobs.

COMPLETE THE SIGN-UP FORM:
HERE

TOPICS

- The need for sustainable transport: Impact on climate, the environment and health
- Overview of South Africa's transport sector
- Drivers of transport use behavior
- Greenhouse gas emissions from different transport technologies and fuels
- Sustainable transport technologies and operator initiatives
- Public and alternative transportation and infrastructure requirements
- Smart mobility and smart cities: Digital solutions and Transport 4.0

CANDIDATE REQUIREMENTS

- Entry requirements: Grade 12 or NQF 4 equivalent.
- Candidates who fail to complete the SLP will be responsible to repay the full sponsorship. These terms will be activated if a final grade is not obtained and is not linked to a pass or fail grade.
