

ABOUT US

CHEMISTRY DELIVERED

At Kemipex, we are pioneers with expertise and experience in the development and supply of technologically advanced and economically improved products and solutions in the Chemical Industry. Consistent with the market demand, our products are customized to enhance client experience and add value to their requirement.

From superior lubricants and construction chemicals to food, pharma, and personal care, our line of products pervades into polymers and specialty chemicals too. We offer unparalleled services to transform client requirements and expectations in the Chemical Industry into winning attributes.

OPTIMIZING EVERY ELEMENT OF YOUR CAREER

GROWTH

Growing beyond the job description fuels personal development at KEMIPEX. From corporate training to cultivating a work-life balance, we transform young talent into responsible leaders of tomorrow, through both personal and professional development.

EXPERIENCE

Apart from education, technical and commercial experience is critical for propelling growth in the chemical industry. Profound experience in chemical raw materials comes your way on being a part of the KEMIPEX family.

NETWORKING

Our employees have the opportunity to build an extensive network of connections in the industry. Be it our vast matrix in sales and procurement, or participation in technical and trade conferences, our brand enables you to maximize and enhance your industrial reach.

SECURITY

We believe lifestyle security reflects in employee productivity. Therefore, our benefits and packages ensure a safer and healthier standard of living for every employee.

CAREERS IN **CHEMICAL ENGINEERING & TRADING**

Product Development

Our team of engineers is involved in the development of high quality, eco-friendly and cost-effective products and solutions. Apart from enhancing properties and developing tailored solutions, our technical experts are also engaged in training new talent in the field of chemical technology.

Sales and Marketing

Located in Dubai, one of the leading commercial hubs of the world, we are at the center of trade and commercialization. Our sales and marketing team has a worldwide business exposure and is constantly engaged in trade conferences, customer relations and networking.

Procurement and Supply chain

Procurement of raw materials is one of the key operations at KEMIPLEX. From industrial resins to lubricant components and polymers, we are involved in sourcing large volume of various high-quality material from manufacturers across the globe.

HR, IT, Finance

We also offer opportunities in Human resource management, IT and Finance. Budgeting, forecasting and software systems management are the key functions of these operations.

GROW BEYOND THE JOB DESCRIPTION !

Working at KEMIPLEX involves a series of endless opportunities for personal and professional advancement.

Our recruiters are always on the lookout for vibrant and dynamic individuals to join the KEMIPLEX family. If you believe, you have the knowledge, passion and drive to be a part of one of the region's finest brands in the Chemical Industry, feel free to get in touch with us. Together, we achieve more!
