2022 Learner Enrichment Program: Grade 10 – 12

Soweto Science Centre: Learner Enrichment Program

The Soweto Science Centre's Learner Enrichment Program offers extra tuition classes to Grade 10, 11 and 12 learners on Saturdays and school holidays.

Subjects:

- Physical Science
- Chemistry
- Mathematics
- Life Science

Applications:

- Applications for 2022 are now open until 31 January 2022. Application forms can be downloaded on the Soweto Science Centre website, www.uj.ac.za/faculties/science/ssc/Pages/Applications-Learner-Enrichment.aspx.

Annual Fee:

- The annual fee is R1500 for 2022.

Schedule for Classes, Tutorials and Practicals:

- Classes include laboratory experiments and mathematics tutorials, which are facilitated by science professionals.
- Learners will also have access to the Soweto Science Centre's physics, chemistry and life science labs.
- Classes will be hosted at the Soweto Science Centre on a rotational basis every Saturday (07h55 -15h00) and during school recess (07h30 – 15h00). In order to adhere to COVID-19 guidelines and protocols, learners will be placed in small manageable groups and Saturday classes will be rotational. In addition, some activities will be conducted online via blackboard.

Other Activities:

- Career guidance, expo exhibitions, excursions, science competitions, olympiads and public lectures.
