

Graduation Programme

The Future. Reimagined.

UNIVERSITY
OF
JOHANNESBURG

Dear UJ Graduates

Your journey to this point has been an important lesson in leadership. As I have iterated often, learning, knowledge and leadership are an essential mix and those who do not know, cannot lead. Our objective has been to empower you as leaders who are primed to face the challenges of the 4IR and explore the opportunities that this new era presents both locally and internationally. This is an exciting adventure, let me assure you that the world you are entering is abundant with opportunities, and of course, challenges.

This graduation is rather special. Though we still find ourselves in a strange setting, still fighting an invisible and relatively unknown threat and still gripped with a sense of uncertainty, there does seem to be a glimmer of hope on the horizon. This represents our first cohort of in-person graduations in two years. As we celebrate your attainment of a major milestone, we are cognisant of the sheer resilience you have demonstrated against a tumultuous context – one defined by loss, anguish and seismic shifts in the way we live and work. A graduation ceremony is an important precursor to the next chapter of your lives. It is warming to be able to celebrate this achievement today with you in person as opposed to the digital modes that have defined much of the pandemic so far.

I want to take this opportunity to remind you that as a graduate, you join a small elite in our country. This is really something to celebrate. Though the odds seemed stacked against you, you persevered and not have the potential to address some of the greatest scourges of our time. You have chosen well – a qualification from UJ will hold you in good stead!

UJ has grown into a world-class, internationally recognised university with

more than 50 000 students registered. Our global stature and academic depth and footprints are acknowledged by reputable higher education ranking systems in the world. You emerge today as the world including us in South Africa, is in a period of deep change. UJ is leading the charge in the Fourth Industrial Revolution (4IR) and creating a cohort of graduates who are agile, curious and able to be active participants in a technology driven and digital environment.

At UJ, you have encountered some of the finest South African and international academic minds. You have participated in technology-rich learning, which compares favourably to the very best in global higher education.

We welcome you as a new member of the global UJ alumni community where you will join a worldwide body of professionals, many of whom are leaders in their fields. I encourage you to join the UJ Alumni Network and become an active member of the University Convocation. By staying actively engaged with UJ, you can make a real contribution to our academic projects and to those who will study at UJ after you.

It is exciting to once again commence this time-honoured tradition. Congratulations on this inspiring achievement and the best of luck with your next chapter!

Let us rejoice, therefore,
While we are young.
After a pleasant youth
After a troubling old age
The earth will have us.
Long live the academy!
Long live the professors!
Long live each student;
Long live the whole fraternity;
For ever may they flourish!

9. Doctor Nursing Science (DNSc):

Holtzhausen, Jan Dirk Visagie

Thesis: A Nurse Anaesthetist Model for Practice in South Africa

Supervisor: Prof C Downing

Co-supervisor: Prof M Poggenpoel

Co-supervisor: Dr MG Ndawo

Holtzhausen, Jan Dirk Visagie (DNSc)

JD Holtzhausen graduated from North-West University (Potchefstroom) in the Bachelor of Nursing programme in 2015. His master's dissertation, 'The influence of the practice environment on community service nurses' subjective well-being and compassion fatigue' was supervised by Prof SK Coetzee and completed in 2017. JD worked his community service year in Grootvlei Community Health Clinic. Thereafter, he started his employment with Life Suikerbosrand Hospital in Heidelberg. At the end of 2018, JD and Rinemaré moved to Auckland, NZ, where JD was employed at Auckland City Hospital. Currently, JD and his wife reside in Timaru, NZ, where JD works at a local hospital.

There is currently no professional registration available in South Africa for nurse anaesthetists by which they prescribe and administer anaesthesia and chemical pain management services to patients.

This study was conducted in four steps: In Step One, concept analysis took place. In Step Two, the relational statements of these described concepts were formulated. In Step Three, the model was further described, developed and evaluated by model-specific experts. In Step Four, the guidelines for the implementation of the model were generated from the process description of the model. Thereafter, the practice model and guidelines were evaluated by anaesthetist experts.

This research study was important. First, it is a landmark research study in the development of a practice model for nurse anaesthesia in South Africa. Secondly, it provided an overview of current nurse anaesthetist practices from across the world. Thirdly, this research study defined the scope of practice of a nurse anaesthetist in South Africa.

Supervisor: Prof C Downing

Co-supervisor: Prof M Poggenpoel

Co-supervisor: Dr MG Ndawo

National Anthem of South Africa

Nkosi sikelel' Afrika
Maluphakanyisw' uphondo lwayo,

Yizwa imithandazo yethu,
Nkosi sikelela, thina lusapho lwayo.

Morena boloka setjhaba sa heso,
O fedise dintwa le matshwenyeho,
O se boloke, O se boloke setjhaba sa heso,
Setjhaba sa South Afrika - South Afrika.

Uit die blou van onse hemel,
Uit die diepte van ons see,
Oor ons ewige gebergtes,
Waar die kranse antwoord gee,

Sounds the call to come together,
And united we shall stand,
Let us live and strive for freedom,
In South Africa our land.
