

Graduation Programme

The Future. Reimagined.

UNIVERSITY
OF
JOHANNESBURG

Dear UJ Graduates

Your journey to this point has been an important lesson in leadership. As I have iterated often, learning, knowledge and leadership are an essential mix and those who do not know, cannot lead. Our objective has been to empower you as leaders who are primed to face the challenges of the 4IR and explore the opportunities that this new era presents both locally and internationally. This is an exciting adventure, let me assure you that the world you are entering is abundant with opportunities, and of course, challenges.

This graduation is rather special. Though we still find ourselves in a strange setting, still fighting an invisible and relatively unknown threat and still gripped with a sense of uncertainty, there does seem to be a glimmer of hope on the horizon. This represents our first cohort of in-person graduations in two years. As we celebrate your attainment of a major milestone, we are cognisant of the sheer resilience you have demonstrated against a tumultuous context – one defined by loss, anguish and seismic shifts in the way we live and work. A graduation ceremony is an important precursor to the next chapter of your lives. It is warming to be able to celebrate this achievement today with you in person as opposed to the digital modes that have defined much of the pandemic so far.

I want to take this opportunity to remind you that as a graduate, you join a small elite in our country. This is really something to celebrate. Though the odds seemed stacked against you, you persevered and not have the potential to address some of the greatest scourges of our time. You have chosen well – a qualification from UJ will hold you in good stead!

UJ has grown into a world-class, internationally recognised university with

more than 50 000 students registered. Our global stature and academic depth and footprints are acknowledged by reputable higher education ranking systems in the world. You emerge today as the world including us in South Africa, is in a period of deep change. UJ is leading the charge in the Fourth Industrial Revolution (4IR) and creating a cohort of graduates who are agile, curious and able to be active participants in a technology driven and digital environment.

At UJ, you have encountered some of the finest South African and international academic minds. You have participated in technology-rich learning, which compares favourably to the very best in global higher education.

We welcome you as a new member of the global UJ alumni community where you will join a worldwide body of professionals, many of whom are leaders in their fields. I encourage you to join the UJ Alumni Network and become an active member of the University Convocation. By staying actively engaged with UJ, you can make a real contribution to our academic projects and to those who will study at UJ after you.

It is exciting to once again commence this time-honoured tradition. Congratulations on this inspiring achievement and the best of luck with your next chapter!

8. Doctor of Philosophy in Education (PhD)

Barry, Gwendolyn Claire

Thesis: Narratives of pedagogical gaps in emerging professional identities of second career teachers in South Africa

Supervisor: Prof MM Sefotho

Barry, Gwendolyn Claire (PhD)

Gwen matriculated from Krugersdorp High School in 2001. She later graduated with a BA Health Sciences and Social Sciences from UNISA in 2009. In 2010, she graduated with a Post Graduate Certificate in Education English – FET and Life Orientation – FET from UJ. That was followed by B. Ed Honours (Educational Psychology) from UJ in 2012. Gwen later did her Master's in Education (Curriculum and Assessment) at Wits, graduating in 2017. Gwen's primary research interests are teacher professional identity, the gaps in teacher training, and the importance of emotional intelligence in the education sector.

This study investigated the potential gaps in teacher training, specifically in the postgraduate certificate in education (PGCE). The study found that teacher professional identity begins when an individual starts to match their attributes and circumstances with teaching as a profession. The findings demonstrated that second career teachers need banks of appropriate resources to start their school practicals and teaching careers. The study firstly contributes at the methodological level by crafting a research design based upon a phenomenological framework and interpretive methodology. Secondly, the candidate triangulated interpretivism as a paradigm underpinned by pragmatism and linked the principles of ontology, epistemology and axiology to their application to the study. The candidate presented her work in a webinar at the Catholic University of Colombia that resulted in a chapter in a book with the title: *Ubuntu in Education: The Narratives of Emotional Intelligence in Education*.
