

enactus™

- o **Entrepreneurial**

- igniting business innovation with integrity and passion

- o **Action**

- the experience of social impact that sparks social enterprise.

- o **Us**

- student, academic and business leaders collaborating to create a better world.

Enactus has established the largest global business and higher education network in the world. This unique network brings together the knowledge of professional business educators and the expertise of business leaders to focus the potential of university students preparing for leadership roles in business.

Working with leading corporate partners and member universities, Enactus establishes student programs on campuses around the world. With the support and encouragement of their faculty advisors and a local business advisory board, Enactus students deploy entrepreneurial action to improve the human condition and enable sustainable human progress

Enactus is the world's largest experiential learning platform dedicated to creating a better world while developing the next generation of entrepreneurial leaders and social innovators. The Enactus network of global business, academic and student leaders are unified by our vision—to create a better, more sustainable world.

Participation in Enactus provides university students with the opportunity to make a meaningful difference in their communities, while gaining the experience, skills and contacts necessary to build a successful career. Enactus students are talented, hardworking, value-driven leaders that blend a competitive spirit and desire to succeed with a sense of integrity and desire to give something back. As a member of an Enactus team, you'll be joining a worldwide network of more than 70,500 other students who are each making their own contribution toward our shared mission of creating a better world. It's an experience that will change the lives of those in need and quite possibly your own as well.
