COLLEGE OF BUSINESS AND ECONOMICS

Continuing Education Programmes

DRAFT 1

2022

(10 May 2022)

The right to add, withdraw or in any way change any part or any regulation without prior notification, remains vested in the University.

TABLE OF CONTENTS

THE FOLLOWING WERE COPIE FROM UJ ACADEMIC REGULATIONS 2022:

SPECIFIC ACADEMIC REGULATIONS APPLICABLE TO NON-SUBSIDISED ACADEMIC CONTINUING EDUCATION WHOLE AND SHORT LEARNING PROGRAMMES:

Application and approval
- The process to offer continuing education whole and short learning programmes is an institutional matter; however, whole
- programmes require external accreditation.
- The University may only offer a continuing education programme that is at least at NQF Level 5 and higher. Exceptions to this rule will only apply under exceptional circumstances at NQF Level 4, as approved by the Registrar in consultation with the relevant Vice-Dean.
- All Continuing Education Programmes are offered subject to adequate:
  o academic capacity within the academic department;
  o academic quality control by the respective academic department and Faculty/College Board;
  o lecturing venue capacity on the campus where the proposed academic programme is offered; and
  o approval by the Faculty/College Board on recommendation by the Programme Working Group, via Senex for Senate approval.
- The process of an application for and the offering of a continuing education programme are in accordance with:
  o the procedure (completion of the approved prescribed forms) that has been approved by Senex and Senate; and
  o the Policy on the Regulation of Secondary Income-Generating Activities that Supplement an Employee's Income and the Academic Programme Policy.
- A continuing education whole programme may only be offered in exceptional cases as approved by Senate subject to CHE accreditation and SAQA registration.

ADMISSION:

For admission to continuing education programmes, applicants must have successfully applied to the relevant faculty/college according to the Senate-approved admission requirements unique to each approved programme.

Students who successfully complete continuing education programmes are not entitled to automatic access to any formal subsidized programme offered by the University. Admission decisions for such students are dealt with in accordance with formal programme requirements and selection criteria as determined by the College Board, approved by Senate and contained in the College Rules and Regulations.

REGISTRATION:

Students register for a continuing education programme in accordance with the College specific procedures.
The information is captured on the University's students data system.

ASSESSMENT:

All credit-bearing programmes are assessed in accordance with the University Assessment Policy and Procedures. Assessment results must be captured on the University's student data system.

DEFINITIONS

The definitions below were taken from the UJ Academic Regulations 2022.

1.   TYPES OF PROGRAMMES: Continuing Education Programme (CEP)

"Programme" means a purposeful and structured set of learning experiences leading to a qualification comprising a set of credit-bearing, level-pegged modules. In an outcomes-based system, programmes are designed to enable students to achieve predetermined exit level outcomes.

"Continuing Education Programme (CEP)" means an approved short learning programme (SLP) or approved whole programme (the latter accredited by HEQC and registered by SAQA). These programmes receive no state funding and upon successful completion, will lead to the awarding of a qualification in the case of a whole programme or a UJ certificate in the case of an SLP.

a.i   "Short learning programme" (SLP) means an institution-approved continuing education programme, inclusive of a credit-bearing short learning programme and non-credit bearing (attendance-based) short learning programme generating fewer than 120 National Qualifications Framework (NQF) credits and extending over a period of less than one year.

a.ii   **"Attendance-based short learning programme"** means an institution-approved continuing education short learning programme (SLP) for which no credits are awarded in relation to a particular formal programme, such as seminars, workshops and continuous professional development (CPD) programmes.

a.iii   **"Credit bearing short learning programme"** means an institution approved continuing education short learning programme (SLP) for which credits may be considered in relation to its contribution to a particular programme, in accordance with legal requirements.

a.iV   **"Non-credit bearing short learning programme"** means an institution approved continuing education short learning programme (SLP) which does not generate credits.

b.   **"Whole programme"** (WP) means an institution-approved, Higher Education Qualification (HEQC) accredited and SAQA registered continuing education programme generating 120 NQF credits or more and extending over a period of one year or more.

c.   **"Bridging Programme"** is a learning programme approved by Senate for the purposes of admission to another, subsequent programme for which the candidate does not meet the admission requirements. Successful completion of a bridging programme, or completion at a specified level of competence makes the candidate eligible for admission to another programme subject to UJ and Faculty Rules and Regulations.

d.   "**Purpose of a programme"** means the value of a programme to students and society and reflects the outcomes.

e.   **"Outcomes"** means a demonstration of relevant abilities or competencies (including knowledge, skills, attitudes and values).

f.   **"Recognition of Prior Learning (RPL)"** means the recognition for learning acquired through work experience, in-service training, self-study or life experience such as voluntary or community work.

g.   **"Rules"** refers to institutional rules, policies, disciplinary measures and discipline provisions, and codes of conduct issued by Council, Senate or any other body or functionary authorised to do so by the Council within the University.

h.   **"Rules of admission"** refers to the minimum requirements for access to a module or programme.

2. MODULES:

"Module" is a learning component (building block) within a programme of study towards a qualification and means the following in the defined context:

2.a   **"Compulsory module"** is a module that students must register for as part of a particular programme and whose outcomes must be achieved successfully before a qualification can be awarded.

2.b   **"Elective module"** is any module that can be exchanged for another module as provided for in the programme.

2.c   **"Semester module"** is a module that extends over one semester (approximately 14 academic weeks) as reflected in the Academic calendar approved by Senate.

2.d   **"Year module"** is a module that extends over two semesters (approximately 28 academic weeks) as reflected in the academic calendar of a particular calendar year as approved by Senate.

2.e   **"Granting of a module credit"** means a module successfully completed at a specified NQF level within an academic programme that may be used to exempt a student from, and grant credit for an equivalent module in another academic programme, provided that the module for which the student is registered is at the same NQF level and for the equivalent NQF credits.

2.f   **"Granting of a module exemption"** means recognition that is granted within the framework of the admissions requirements of accredited learning from and approved or accredited provider, which is usually confirmed aby means of academic records/transcripts.

3. ASSESSMENTS:

Assessment" means the process in which evidence is gathered and academic judgements made about students' performance in relation to agreed and defined criteria.

3.a   **"Assessment criteria"** means the clear and transparent expression of requirements against which the student's performance is

assessed, as derived from the learning outcomes.

3.b **"Assessment methods"** means the activities in which an assessor engages to determine student competence, for example, observation (observing students while carrying out a task), document review (evaluating a product submitted by a student, such as an artefact or portfolio of evidence) and oral or written questions.

3.c **"Assessment opportunity"** refers to an assessment that provides students with the opportunity to provide evidence of their knowledge and skills. The opportunity may be scheduled and supervised or not, but the specific date when the evidence should be submitted is predetermined.

3.d **"Continuous assessment"** means assessment that is conducted on a continuous basis throughout the learning experience and includes formative and summative assessment opportunities. It is carried out at any of the predetermined points of the total learning experience. These consecutive assessment opportunities, which include a variety of assessment methods, have predetermined weightings and include the assessment of all the outcomes within the module. All assessments (including the final summative) contribute to the final pass/fail mark of the student. The Learning Guide contains outcomes and predetermined *assessment* weightings as approved by Faculty/College Board.

3.e **"Formative assessment"** for contact students is conducted during the process of teaching and learning with the purpose of giving early indications of what and how effectively students are learning, as well as their strengths and weaknesses. Formative assessment, which may or may not carry a grade, is often used as a diagnostic tool as it provides information to make real-time improvements in teaching methods, learning support materials and activities.

3.f **"Formative assessment"** for online students means assessments "*for* learning" that are conducted throughout the students' online learning with the purpose of giving early indications of what and how effectively students are learning, as well as their strengths and weaknesses. Formative assessment, which may or may not carry a mark, is often used as a diagnostic tool, as it provides information to make real-time improvements in teaching methods, learning support materials and activities.

3.g **"Summative assessment"** is an assessment that contributes to the final mark of a module. Summative assessments are assessments "of learning" and may include a variety of assessment methods as contained in the Learning Guide.
The purpose is to evaluate the student's achievement of the outcomes, i.e. establish evidence of learning. Summative assessment provides the opportunity for an evaluation to be made.

4. MODE OF DELIVERY:

4.a **"Full -time student"** means a student for who study is the main activity and who is enrolled for the total number of specified modules per semester in accordance with the minimum study period for the qualification.

4.b. **"Carousel model"** allows students multiple registration opportunities of modules during the academic year. The purpose is to allow students to step on and off the carousel sequence depending on their needs and circumstances. This might result in accelerated completion or could allow a student additional time to complete a qualification.

4.c **"Distance Education (Online)"** is a mode of provision, based primarily on a set of teaching and learning strategies (or educational methods that can be used to overcome special and/or transactional distance between educators and students and utilises a computer network to present or distribute some educational content. Online programmes are equivalent to on-campus contact programmes in terms of admission criteria and overall workload.

4.d **"Distance Education (Online)"** is characterised by:
- Programmes that can be classified as one of two options, namely the carousel model or the non-carousel mode;
- The separation in space (and possibly time) of lecturers and students, which distinguishes it from face-to-face contact education;
- The influence of a educational organisation, which distinguishes it from self-study and private tutoring;
- The use of a digital network to distribute learning materials and facilitate a variety of learning activities and assessments;
- The facilitating of multi-way communication among students, academic staff and administrative staff.
A programme is considered fully online when the entire programme is offered via the University's Learning Management System (LMS).

4.e **"Part-time student"** means a person for whom study is not the main activity who may be employed and is enrolled for fewer than the specified number of modules per semester and who may complete his/her qualification within a longer specified time frame than the minimum study period stipulated for and equivalent full-time programme.

5. MODERATION:

"Moderator" means a competent internal or external assessor who is familiar with the module/programme content and who ensures that the assessment practice in a module or academic programme meets national and institutional requirements.

5.a **"Internal Moderator"** means an academic employee of the University who is officially appointed by the University to moderate the assessment of a specific module.

5.b **"External Moderator"** means an expert who is not an employee of the University and who is officially appointed by the University to moderate the assessment of a module.

6. **APPEAL:**

6.a **"Appeal"** in respect of academic decision by a student means an earnest and formal request made in accordance with the provisions of the Academic Regulations to reconsider such decision.

7. **CERTICATES:**

7.a **"Certificate"** means a document that is issued as evidence of compliance with the requirements of subsidised and continuing education programmes.

SCHOOL OF ACCOUNTING

DEPARTMENT OF ACCOUNTANCY

Bridging Programmes:

NAME OF PROGRAMME: BRIDGING PROGRAMME IN ACCOUNTANCY	SHORT LEARNING PROGRAMME PART TIME - APK	SLP CODE: S3PACQ	NQF LEVEL: 7 CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme.

MODE OF OFFERING
- The SLP is offered on a face to face basis. The duration is one year.
- Students have the option to come back for a second year should a student fail a specific module.
- The classes are presented in the evenings after working hours; and
- It is offered based on demand.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
UJ students – Bachelor of Accounting or BCom (Accounting) degree:
- students must have previously passed Accounting 300;
  OR
- students must have previously passed Accounting 3A and Accounting 3B.

Non-UJ students and UJ students that do not hold a BCom (Accounting) degree:
- a completed degree that is Higher Education Quality Committee (HEQC) accredited; and
- appropriate background and prior knowledge (typically on NQF level 7) for Accounting 3A and 3B, Auditing 3A and 3B and Taxation 3A and 3B).

Diploma Students:
- The Department of Accounting has developed a subsidised Advanced Diploma in Accountancy that provides students in possession of an appropriate National Diploma or Diploma an opportunity to articulate into an honour's degree.
- More information on this advanced diploma can be found in the CBE Undergraduate Yearbook for 2021.

DURATION OF PROGRAMME
- Contact time: All lectures are presented on a part-time basis; in sessions of 3 hours, Mondays through Thursdays.
- 336 hours of lecturing hours in 28 weeks.
- Months to complete: February to November.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS

This SLP provides bridging between commerce degrees and UJ's Bachelor of Commerce Honours programmes in Accountancy, or in Taxation or in Internal Auditing for students who do not meet the entry requirements of such honour's programmes.
After successful completion of the programme, students who also meet the applicable minimum entry requirements will be considered for certain honours programmes offered by the Department of Accountancy.

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students will receive no credits towards the completion of subsidised UJ programmes.

PURPOSE OF PROGRAMME
The purpose of this bridging programme is to provide degree students with a strong and academically sound knowledge of International Financial Reporting Standards, governance and control, and taxation for students who do not adhere to the strict admission criteria of UJ's Bachelor of Commerce Honours programmes in Accountancy, or in Taxation or in Internal Auditing so that they may pursue post-graduate studies in order to ultimately qualify as professional accountants, tax consultants or internal auditors.

PROGRAMME CONTENT

YEAR MODULES	
MODULE NAME	MODULE CODE
Accounting	S3PACQ1
Auditing	S3PACQ2
Taxation	S3PACQ3
The following non-compulsory modules will be presented over the first or second half of the programme:	

SEMESTER MODULES			
FIRST SEMESTER		SECOND SEMESTER	
MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE
Financial Numeracy	S3PACQ4	Business Ethics and Citizenship	S3PACQ5

MODULES AND OUTCOMES:

ACCOUNTING: (S3PACQ1)

Purpose:
The purpose of this module is to develop students' skills in applying accounting principles based on the International Financial Reporting Standards. The student should, after completing the module, be competent in understanding the relevant accounting principles, performing calculations based on their understanding as well as disclosure of relevant accounting transactions.
The following International Financial Reporting Standards and Interpretations are dealt with on an advanced level in this module:
- Conceptual Framework, IAS 1; IAS 8; IAS 10; IAS 12; IAS 16; IAS 17; IAS 18; IAS 19; IAS 21; IAS 23; IAS 27; IAS 28; IAS 31; IAS 32; IAS 33; IAS 36; IAS 3; IAS 39; IAS 40, and IFRS 3.

Outcome(s):
Students should be able to:
- discuss the accounting treatment of integrated and advanced practical case studies, as well as present and disclose integrated accounting transactions in the statement of comprehensive income, statement of changes in equity and statement of financial position in accordance with International Financial Reporting Standards and/or Interpretations; and
- present and disclose integrated accounting transactions in the consolidated statement of comprehensive income, statement of changes in equity and the statement of financial position for the different investment types.

AUDITING: (S3PACQ2)

Purpose:
The purpose of this module is to provide the students with a strong and academically sound understanding of governance and control of organisations. The student should, after completing the module, be competent in understanding the relevant governance and control principles and apply them to given practical scenarios.

The following topics are dealt with on an advanced level:
- risks and risk management;
- revenue and receipts cycle;
- purchases and payments cycle;
- investment and finance cycle;
- bank and cash cycle;

- production and inventory cycle;
- information technology within each cycle;
- companies act;
- corporate governance (specific reference to The King 3 Code);
- sustainability reporting (specific reference to the Global Reporting Initiative);
- business ethics;
- entrepreneurial skills; and
- internal auditing.

Outcome(s):
Students should be able to:
- discuss the governance of companies in integrated and advanced practical case studies; and
- discuss the controls within companies in integrated and advanced practical case studies.

BUSINESS ETHICS AND CITIZENSHIP: (S3PACQ5)

Purpose:
The purpose of this module is to introduce the concepts of ethics and the role of ethics within a business environment to students. The module also encourages students to work together in groups, enforcing the principles of teamwork and time management.

The following topics will be covered:
- citizenship;
- ethical decision-making strategies;
- socio-economic ethical issues relevant to business and professional practice;
- HIV/AIDS and the South African business landscape;
- managing the ethics;
- the nature of professionalism;
- codes of ethics;
- ethical issues in the accounting profession;
- effective communication;
- teamwork; and
- time management.

Outcome(s):
Students should be able to:
- discuss the concept of citizenship;
- explain ethical dimensions of business in the context of cultural diversity;
- use ethical decision-making strategies;
- discuss large-scale socio-economic ethical issues relevant to business and professional practice;
- discuss the impact that HIV/AIDS has on the South African business landscape;
- discuss ethical issues surrounding HIV/AIDS in the workplace;
- apply knowledge of managing the ethical dimension in organisations;
- discuss the nature of professionalism;
- identify the purpose, structure and contents of selected codes of ethics;
- apply knowledge of ethical issues in the accounting profession;
- effectively communicate in writing by means of reports, memorandums and business letters and verbally by being able to give a business presentation and conduct a formal meeting; and
- apply the concepts of teamwork and effective time management through completion of the group project.

FINANCIAL NUMERACY: (S3PACQ4)

Purpose:
The purpose of this module is to develop students mathematical skills to prepare them for the use of the principles within the other core modules. Basic introduction to mathematical topics is introduced in the fields of Algebra; and Financial Numeracy, and a few applications of these Mathematics topics in Accounting.
Outcome(s):
Students should be able to:
- accurately perform calculations in algebra and financial mathematics;

- logically resolve problems using the skills that they have acquired; and
- correctly state all the formulas and techniques that they have learnt.

TAXATION: (3PACQ3)

Purpose:
The purpose of this module is to provide students with knowledge of fundamental concepts of taxation and how to apply the principles of the South African Tax Act.

The following topics are dealt with on an advanced level:
- Individuals;
- Non-residents;
- Tax returns;
- Farmers;
- Donations;
- Estate duty;
- Trusts;
- Tax avoidance;
- VAT;
- Gross income;
- Special inclusions and exempt income;
- General deductions;
- Special deductions;
- Capital allowances and recoupments;
- Capital gains tax;
- STC;
- Provisional tax;
- Taxable income;
- Stock; and
- Assessed loss.

Outcome(s):
Students should be able to:
- discuss the principles of taxation of companies in integrated and advanced practical case studies; and
- discuss the principles of taxation of individuals in integrated and advanced practical case studies.

ASSESSMENT
Formative assessments are in the form of tests and an exam which are divided into theory and applications.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass mark: 50%

Please note: All modules must be passed in the same academic year.

MODERATION
- Internal moderation by subject matter experts according to UJ policy.
- Appeals procedure according to the UJ assessment policy.

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme.

MODE OF OFFERING
This programme is offered during working hours

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- BCom (Accounting), BCom (Economics), BCom (Finance) or other relevant B-degrees or relevant BTech.
- Applicants will be subjected to an internal selection process.
- Diploma Students: The Advanced Diploma in Financial Management and an Advanced Diploma in Property Valuation and Management provides students in possession of an appropriate National Diploma or Diploma an opportunity to articulate into an honour's degree. More information on these advanced diplomas can be found in the CBE Undergraduate and Post Graduate Yearbook for 2021.

PURPOSE OF PROGRAMME
The purpose of this bridging programme is to serve as a bridging programme into the BComHons in (Financial Management) and the Postgraduate Diploma in Financial Management.

PROGRAMME CONTENT

SEMESTER MODULES			
FIRST SEMESTER		SECOND SEMESTER	
MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE

Financial Operations	S3PFMQ1	Financial Management	S3PFMQ4
Enterprise Operations	S3PFMQ7	Enterprise Management	S3PFMQ8
Performance Operations	S3PFMQ3	Performance Management	S3PFMQ6

MODULES AND OUTCOMES:

FINANCIAL OPERATIONS: (S3PFMQ1)

Purpose:
The purpose of this module is to develop students' skills in the preparation of financial statements for a single company and the consolidated financial statements for a simple group. Coverage of a wide range of international accounting standards is implicit in these objectives, as specified in the module's content. Similarly, understanding the regulatory and ethical context of financial reporting, covered in the module, is vital to ensuring that financial statements meet users' needs. Principles of taxation are included, not only to support accounting for taxes in financial statements, but also as a basis for examining the role of tax in financial analysis and decision-making within subsequent modules (i.e. Financial Management).

Outcome(s):
Students should be able to:
- explain the need for the regulation of the financial reporting information of companies as well as the key elements of an ethical regulatory environment;
- explain the types of taxes that can apply to incorporate businesses and potential administrative requirements;
- explain fundamental concepts in international tax of incorporated businesses;
- prepare corporate income tax calculations;
- apply the accounting rules for current and deferred taxation;
- explain the main elements of and key principles underpinning financial statements prepared in accordance with International Financial Reporting Standards;
- apply the rules contained in International Financial Reporting Standards to generate appropriate accounting entries in respect of reporting performance, accounting for taxation, employee benefits, non-current assets, accounting for government grants, impairment, inventories, and events after the reporting period;
- prepare the primary financial statements of an individual company incorporating accounting transactions and adjustments in accordance with relevant International Financial Reporting Standards (in relative straightforward circumstances); and
- prepare the consolidated statement of financial position and consolidated statement of comprehensive income in accordance with relevant International Financial Reporting Standards;

ENTERPRISE OPERATIONS: (S3PFMQ7)

Purpose:
The purpose of this module is to focus on the operational structuring of organisations. The module is aimed at providing finance professionals with a fundamental understanding of organisational structure and principles underpinning the operational functions of the organisation, their efficient management, and effective interaction in enabling the organisation to achieve its strategic objectives. It lays the foundation for gaining further insight into both the immediate operating environment and long-term strategic future of organisations.

Outcomes:
Students should be able to:
- discuss the different types of structures that an organisation may adopt;
- explain relationships between internal and external sources of governance, regulation and professional behaviour;
- discuss the purpose of the finance function and its relationships with other parts of the organisation;
- explain how the finance function supports the organisation's strategies and operations;
- demonstrate the purpose of the technology and information function and its relationships with other parts of the organisation;
- explain how information systems support the organisation's strategies and operations;
- demonstrate the purpose of the operations function and its relationships with other parts of the organisation;
- apply tools and techniques of operations management and HR Management;
- demonstrate the purpose of the marketing function and its relationships with other parts of the organisation;
- apply tools and techniques to formulate the organisation's marketing strategies, including the collection, analysis and application of Big Data; and
- demonstrate the purpose of the Human Resources (HR) function and its relationships with other parts of the organisation.

PERFORMANCE OPERATIONS: (S3PFMQ3)

Purpose:

The purpose of this module is to develop students' skills in applying different cost accounting tools and techniques to generate information needed to evaluate and control present and projected performance. The student should after completing the module be competent in forecasting key variables and recognise the uncertainties attached to future events. The aim is for students to be able to apply these skills when preparing operational budgets and long-term project appraisals. The module will further aim to ensure that the successful student is competent in the management of working capital.

Outcome(s):

Students should be able to:

- discuss the following costing methods and their results:
    - marginal, variable and absorption costing;
    - activity based costing; and
    - standard costing.
- explain the role of material requirement planning (MRP) and enterprise resource planning (ERP) systems;
- explain the role of environmental costing;
- explain the purpose of forecasts, plans and budgets;
- prepare forecasts of financial results;
- prepare and discuss budgets on forecasts;
- discuss the principles that underlie the use of budgets for control;
- analyse performance using budgets, recognising alternative approaches and sensitivity to variable factors;
- explain concepts of cost and revenue relevant to pricing and product decisions; and
- analyse short-term pricing and product decisions.

FINANCIAL MANAGEMENT: (S3PFMQ4)

Purpose:

The purpose of this module is to expand the scope of the Financial Operations module to more advanced topics in diplo (preparation of consolidated financial statements and applying accounting standards dealing with more complex areas) and to developments in external reporting. With the advanced level of financial accounting and reporting achievement in this module, the analysis and interpretation of financial statements becomes more meaningful and this constitutes a substantial element of the module.

Outcomes:

Students should be able to:

- prepare the consolidated financial statements of a single group and the consolidated statements of financial position and comprehensive income for the group in relative complex circumstances;
- demonstrate the impact on the preparation of consolidated financial statements of certain complex group scenarios including consolidating a foreign subsidiary;
- discuss the provisions of relevant international accounting standards in respect of the recognition and measurement of revenue, leases, financial instruments, provisions, share-based payments, deferred taxation as well as construction contracts;
- prepare the accounting entries, in accordance with relevant international accounting standards;
- discuss the ethical selection and adoption of relevant accounting policies and accounting estimates;
- evaluate the financial performance, financial position and financial adaptability of a company by preparing a ratio analysis from financial statements and supporting information;
- calculate basic and diluted earnings per share; and
- discuss contemporary developments on financial and non-financial reporting.

ENTERPRISE MANAGEMENT: (S3PFMQ8)

Purpose:

The purpose of this module is to emphasise a holistic, integrated approach to managing organisations, from external and internal perspectives as applicable to management accountants. It builds on the understanding of organisational structuring gained from Enterprise Operations. It is centred on the concept of strategic financial management and how organisational strategy can be implemented through people, projects, processes and relationships. It provides the basis for developing further insights into how the financial information supports the formulation and implementation of an organisational strategy.

Outcomes:

Students should be able to:

- discuss developments in strategic management;
- analyse the relationship between different aspects of the global business environment;

- explain the concepts associated with managing through people;
- discuss the hard and soft aspects of people and organisational performance;
- explain the effectiveness of organisational relationships;
- discuss management tools and techniques in managing organisational relationships;
- advise on important elements in the change management process; and
- discuss the concepts involved in managing projects.

PERFORMANCE MANAGEMENT: (S3PFMQ6)

Purpose:
The purpose of this module is to develop students' cognitive skills and practical competency in the application of information in the management processes of decision-making and control, so as to ensure the optimisation of performance.

Outcome(s):
Students should be able to:
- evaluate techniques for analysing and managing costs for competitive advantage;
- analyse information to assess its impact on long-term decisions;
- discuss pricing strategies and their consequences;
- discuss management's responsibilities with regard to risk
- evaluate information to support project appraisal
- discuss issues arising from the use of performance measures and budgets for control;
- evaluate issues arising from the division of the organisation into responsibility centres; and
- discuss decision making responsibility centres.

ASSESSMENT
Methods of assessment will be aligned to the UJ academic regulations.
- Formative assessment opportunities consist of a combination of group and individual assignments and formal written assessment opportunities.
- Summative assessment opportunity consists of a last assessment opportunity.
- The assessment papers will have a combination of objective test questions, and/or short questions and/or case study questions.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

MODERATION
Internal moderation by subject matter experts in accordance with UJ's moderation policy.

NAME OF PROGRAMME: BRIDGING PROGRAMME IN THEORY OF ACCOUNTING	SHORT LEARNING PROGRAMME PART TIME - APK	SLP CODE: S3BCTQ	NQF LEVEL: 7 CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme.

MODE OF OFFERING
All lectures are presented on a part-time basis.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- A potential student must be in possession of a Bachelor in Accounting Science degree (NQF level 7);
  OR
- A BCom (Accounting) degree (NQF level 7) or similar BCom;
  OR
- Commerce degree (NQF level 7); and
- Final selection requirements, based on academic performance and capacity, will from time to time be set by the department.

All of the degrees referred to above must have been obtained within the preceding three years.

LEARNING ACTIVITIES

DURATION OF PROGRAMME
- Contact time: 3 hours per module per week (thus 12 hours per week), February to October
- Months to complete: February to November. In order to successfully complete the Short Learning Programme.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
This short learning programme (BCTA – Bridging Programme in the Theory of Accounting) acts as a bridge between Commerce degrees and UJ's Bachelor in Accounting Honours (CA) or PGDip (Accounting Science) qualifications for students who do not meet the entry requirements of the said qualifications. Students who have completed the BCTA Programme must meet the entry requirements to apply for the Bachelor in Accounting Honours (CA) or PGDip (Accounting Science).

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students will receive no credits towards the completion of subsidised UJ programmes.

PURPOSE OF PROGRAMME
The purpose of this bridging programme is to provide students with a strong and academically sound knowledge of International Financial Reporting Standards, auditing principles, financial management and costing principles and taxation principles for students who do not adhere to the strict admission criteria of Bachelor of Accounting Honours (CA) or PG Diploma (Accounting Science) so that they may pursue post-graduate studies in order to ultimately qualify as a Chartered Accountant.

In terms of UJ regulations, undergraduate students may not repeat a module that they already have passed. The programme content of this short learning programme is an exact replica of the modules in the Bachelor in Accounting degrees in the sense that the same notes are provided, the same tests and examinations/assessment apply and the same lecturers present the programme. The need for this SLP can be broken down into four categories of students namely

- UJ Bachelor of Accounting students who passed the degree, but did not qualify for admission into Bachelor in Accounting Honours (CA) of PGDip (Accounting Science) to increase their marks to obtain entry into the said qualifications.
- UJ BCom (Accounting) students, not on the CA stream;
- UJ students, with other completed degrees such as BCom (Finance) and BCom (Law) that want to pursue studies on the CA stream; or
- Non-UJ students, with a completed commerce degree Higher Education Quality Committee (HEQC) accredited) and with the necessary Accounting background and prior knowledge.

FIRST SEMESTER MODULE	
MODULE NAME	**MODULE CODE**
4IR Accounting	S3BC4IR
YEAR MODULES	
MODULE NAME	**MODULE CODE**
Intermediate Financial Accounting	S3BCTQ2
Intermediate Auditing	S3BCTQ1
Intermediate Managerial Accounting and Finance	S3BCTQ4
Intermediate Taxation and Tax planning	S3BCTQ3

MODULES AND OUTCOMES:

INTERMEDIATE FINANCIAL ACCOUNTING: (S3BCTQ2)

CALCULATION CRITERIA
A student needs a cumulative year mark of 40% to gain entrance to the last assessment opportunity in November. The year mark and last assessment mark weight is 50:50. A student needs a last assessment opportunity (exam) mark of at least 40% and a final mark of 50% to pass a module. When a supplementary assessment is written, the year mark contributes to the final mark, and the latter is capped at 50%

Purpose:
The purpose of this module is for students to develop intellectual skills to account for practical and integrated case studies, as well as prepare and present comprehensive financial statements to fully comply with the requirements of the International Financial Reporting Standards with regards to intermediate to advanced routine transactions and intermediate non-routine transactions. Students should also develop a basic awareness of the accounting issues relating to specialised reporting.

Outcome(s):
Students should be able to:
- Account for integrated practical case studies on an intermediate to advanced level, as well as present and disclose integrated accounting transactions on an intermediate to advanced level in the statement of comprehensive income, statement of changes in equity and statement of financial position in accordance with the following International Financial Reporting Standards and/or Interpretations dealing with routine transactions:
  - The Conceptual Framework for Financial Reporting;
  - IAS 1 – Presentation of Financial Statements;
  - IAS 2 – Inventories;
  - IAS 7 –Statements of Cash Flows;
  - IAS 10 – Events after the Reporting Period;
  - IAS 12 – Income Taxes;
  - IAS 16 – Property, Plant and Equipment;
  - IAS 19 – Employee Benefits
  - IAS 27 –Separate Financial Statements;
  - IAS 28 – Investments in Associates and Joint Ventures;
  - IAS 32 – Financial Instruments: Presentation;
  - IAS 36 – Impairment of Assets;
  - IAS 37 – Provisions, Contingent Liabilities and Contingent Assets;
  - IAS 38 – Intangible Assets;
  - IAS 40 – Investment Property;
  - IFRS 7 – Financial Instruments: Disclosure;
  - IFRS 9 – Financial Instruments;
  - IFRS 10 – Consolidated Financial Statements;
  - IFRS 11 – Joint Arrangements;
  - IFRS 13 – Fair Value;

- IFRS 15 – Revenue from Contracts with Customers; and
- IFRS 16 – Leases.

- Account for integrated practical case studies on an intermediate level, as well as present and disclose integrated accounting transactions on an intermediate level in the statement of comprehensive income, statement of changes in equity and statement of financial position in accordance with the following International Financial Reporting Standards and/or Interpretations dealing with non-routine transactions;
    - IAS 8 – Accounting Policies, Changes in Accounting Estimates and Errors;
    - IAS 20 – Accounting for Government Grants and Disclosure of Government Assistance;
    - IAS 21 – The Effects of Changes in Foreign Exchange Rates;
    - IFRS 3 – Business Combinations;
    - IFRS 5 – Non-current Assets Held for Sale and Discontinued Operations;
    - SIC 32 – Intangible assets – Web Site Costs; and
    - IFRIC 1 – Changes in Existing Decommissioning, Restoration and Similar Liabilities.
- Have a basic awareness of accounting issues relating to specialised reporting such as: insurance, banking, mineral resources and mining exploration costs, integrated reporting, sustainability reporting, XBRL.

INTERMEDIATE AUDITING: (S3BCTQ1)

CALCULATION CRITERIA
A student needs a cumulative year mark of 40% to gain entrance to the last assessment opportunity in November. The year mark and last assessment mark weight is 50:50. A student needs a last assessment opportunity (exam) mark of at least 40% and a final mark of 50% to pass a module. When a supplementary assessment is written, the year mark contributes to the final mark, and the latter is capped at 50%.

Purpose:
The purpose of this module is to introduce students to business activities and controls in the business cycles and addresses the method for auditing in these business cycles. Detailed focus will be placed on risks, internal controls and audit procedures that are applicable to the cycles of a business. The cycles that are addressed are revenue and receipt cycle, purchase and payment cycle, payroll cycle, production and inventory cycle, bank and cash cycle and the investment and finance cycle.

The purpose of this module also covers risk management, the steps in the completion of the audit, audit reporting, auditing in a computer environment, the statutory requirements of the Companies Act and the Close Corporations Act, the detail principles of corporate governance and the audit of group companies.

Outcome(s):
Students should be able to:
- understand the risk management process;
- design or identify controls necessary in each of the business cycles;
- identify control-weaknesses in a given scenario for each of the business cycles and provide recommendations for improvements;
- describe tests of controls relevant to each of the business cycles and apply these to practical situations;
- describe substantive procedures relevant to the accounting in each of the business cycles and apply these to practical situations;
- understand how to complete the audit including the going concern concept and events after the reporting period ends;
- identify different types of audit reports, as well as the situations and events that will lead to the issuance of each type of audit report;
- explain how the use of computers for data processing can affect the internal controls of an organisation;
- identify the audit implications of computer systems;
- classify and explain controls in a computer system;
- propose new and analyse existing application controls in systems;
- propose new and analyse existing general controls in systems;
- test computer controls and propose actions to correct weaknesses;
- apply the use of computer assisted audit techniques;
- describe the methods used by the auditor in auditing in a computerised environment and apply these principles to practical situations;
- explain the statutory requirements of the Companies Act and Close Corporations Act and apply these rules in practical situations;
- identify contraventions of the Companies Act and Close Corporations Act;
- explain the principles of corporate governance and apply these principles in practical situations;
- demonstrate an understanding of sustainability, how it affects businesses operations and decision making and the auditor's involvement therein;
- identify the risks specific to auditing of groups; and

- describe the audit procedures relevant to the audit of group companies.

INTERMEDIATE MANAGERIAL ACCOUNTING AND FINANCE: (S3BCTQ4)

CALCULATION CRITERIA

A student needs a cumulative year mark of 40% to gain entrance to the last assessment opportunity in November. The year mark and last assessment mark weight is 50:50. A student needs a last assessment opportunity (exam) mark of at least 40% and a final mark of 50% to pass a module. When a supplementary assessment is written, the year mark contributes to the final mark, and the latter is capped at 50%.

This module is divided into two separate sections, each with a separate purpose.

SECTION A

Purpose:

The purpose of this section of the module is to provide students with the competence, on an intermediate level, to understand and apply the underlying concepts of cost accounting, i.e. the concept of advanced manufacturing environment and management accounting techniques. Detailed knowledge regarding the concepts of stock control, planning and stock management, budgeting, standard costing, performance measurement, transfer pricing and business strategy will be obtained.

Outcome(s):
Students should be able to:
- understand the theory underlying strategy;
- understand and evaluate an entity's strategy;
- describe the influence of changes in volume on the nature of cost and perform a cost volume profit analysis;
- explain cost terminology, identify types of decisions and determine relevant costs of material and labour;
- accumulate costs of decision making, split total costs into variable and fixed portion and use the effect of learning curve in calculations on cost;
- evaluate and apply expected values to enable the application in decision making;
- evaluate and apply the economic order quantity (EOQ) as an optimisation method and describe the ABC method of cost classification;
- differentiate between the different types of budgeting;
- understand and apply standard costing;
- understand and apply transfer pricing and performance evaluation; and
- demonstrate a basic understanding of the impact of sustainability on business decision-making.

SECTION B

Purpose:

The purpose of this section is to provide students with the skill to evaluate and select long-term investment options and to make decisions regarding the finance of an enterprise and its long-term assets. They would also be provided with the skills to value business operations using different valuation methods and financial analysis techniques.

Outcome(s):
Students should be able to:
- identify and evaluate and make decisions regarding the appropriate sources of long-term corporate capital;
- demonstrate an understanding of the capital structure of an entity and the implications of changing the capital structure;
- understand and apply cost of capital;
- make long-term decisions on capital investment by using different capital budgeting techniques and critically evaluate each technique;
- evaluate the leasing decision and alternative sources of finance;
- determine the value of business operations by applying different valuation methods and evaluate each critically;
- analyse and interpret the financial statements of an entity;
- explain the role of the treasury function to manage financial risk and evaluate different techniques to hedge against these risks; and
- demonstrate an understanding of businesses in distress and suggest possible remedies.

INTERMEDIATE TAXATION AND TAX PLANNING: (S3BCTQ3)

CALCULATION CRITERIA

A student needs a cumulative year mark of 40% to gain entrance to the last assessment opportunity in November. The year mark and last assessment mark weight is 50:50. A student needs a last assessment opportunity (exam) mark of at least 40% and a final mark of 50% to pass a module. When a supplementary assessment is written, the year mark contributes to the final mark, and the latter is capped at 50%.

Purpose:

The purpose of this module is to build on the basic concepts and ground rules regarding Income Tax as well as Value-Added Tax (VAT) which were introduced in previous modules. It deals with more complex issues of the taxation calculation that was introduced in previous modules.

This module is to ground the student in the basic concepts and rules regarding income tax as well as Value-Added Tax (VAT). It also deals with more complex issues of the taxation calculation.

Outcome(s):

Students should be able to:

- discuss and calculate the Value-Added Tax implications per the VAT Act in the case of an enterprise making taxable and exempt supplies;
- identify amounts to be included in gross income by applying the definition of "gross income" in the Income Tax Act;
- identify amounts exempt from income tax by applying section 10 of the Income Tax Act;
- identify and calculate allowable deductions for Income Tax purposes by applying the general deduction formula as well as calculate (using the above principles) the taxable income and income tax payable by an enterprise;
- apply and evaluate the income tax principles per the Income Tax Act regarding trading stock;
- identify situations subject to capital gains tax and calculate the taxable amount in terms of the relevant provision in respect of assets acquired prior to and after 1 October 2001;
- calculate provisional tax as well as the penalties payable in respect of provisional tax for an enterprise per the provisions of the Income Tax Act;
- fill out the documentation (tax returns, etc.) applicable to the above taxes;
- identify fringe benefits and determine the cash equivalent to be included in the taxable income of an individual per the provisions of the Income Tax Act;
- identify amounts exempt from tax in the hands of individuals, by applying the relevant sections of the Income Tax Act;
- include allowances attributable to the individual in gross income and calculate the amount allowed as deduction against the allowance by applying the relevant sections of the Income Tax Act;
- identify and calculate deductions available to individuals by applying the relevant sections of the Income Tax Act;
- calculate taxable income and income tax payable by applying the relevant sections of the Income Tax Act;
- calculate the portion of retirement benefits that will be exempt from taxation, and calculate tax payable by applying the relevant sections of the Income Tax Act;
- calculate the taxable income of a partnership and apportion it to the partners;
- calculate the amounts payable in terms of employees' tax, provisional tax, donations tax and estate duty;
- identify situations applicable to an individual that will be subject to capital gains tax and calculate the taxable amount in terms of the relevant provisions;
- prepare the tax calculation for a non-resident according to the relevant provisions in the Income Tax Act;
- understand the basic income tax provisions regarding trusts;
- identify situations where the anti-avoidance provisions of the Income Tax Act would be applicable; and
- explain and calculate dividends tax.

4IR ACCOUNTING: (S3BC4IR)

CALCULATION CRITERIA

Minimum Full Period Mark for Examination Admission: 40%
Full Period Mark Weight: 50%
Examination Mark Weight: 50%
Please note: All five modules must be passed within one year.

Purpose:

The purpose of this module is to equip students with advanced Microsoft Excel skills, and to introduce students to concepts and technologies of the Fourth Industrial Revolution, as they relate to business and accounting.

Outcome(s):

Students should be able to:

- apply the principles of data analysis using intermediate and advanced functions in Microsoft Excel, with relevant application to modules within this qualification, and
- discuss 4IR technologies and concepts as part of the accountant's toolkit.

ASSESSMENT
As explained for each module.

CALCULATION CRITERIA
- As explained for each module.
- **Please note:** All five modules must be passed within one year.

MODERATION
- Assessment opportunities 1 – 5 are moderated internally.
- The final assessment opportunity is moderated internally and externally.
- It is important to note that all assessment opportunities are exactly the same as the assessments opportunities in BCom (Accounting) or Bachelor in Accounting degrees.
- Internal moderation by subject matter experts in accordance with UJ's moderation policy.

Whole Programmes: None

Short Learning Programmes:

NAME OF PROGRAMME: 4IR ETHICS FOR ACCOUNTANT'S	SHORT LEARNING PROGRAMME ONLINE	SLP CODE: S34P7O	NQF LEVEL: 8 CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
- Non-credit bearing short learning programme.
- CPD programme in association with the Professional body, the South African Institute of Chartered Accountant's (SAICA).

MODE OF OFFERING
Online through the Blackboard learning management system.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- A professional Accounting qualification or a BCom degree with accounting at NQF level 7, and must be a member of South African Institute of Chartered Accountant's (SAICA); or
- Applicants with a minimum of a South African Chartered Accountant CA (SA) or Associate General Accountant AGA (SA) designation including trainee accountant's.

ONLINE MODULE	
MODULE NAME	**MODULE CODE**
4IR Ethics for Accountant's	S34PAO7

MODULE AND OUTCOMES:

4IR ETHICS FOR ACCOUNTANT'S: (S34PAO7)

Purpose:
The following topics will be covered:
- Background to ethics within 4IR;
- Where artificial intelligence (AI) could replace humans, and where they can't (yet);
- Ethics of algorithms: convening, observation, probability, and timeliness
- Transparency and bias of algorithms;
- How the machine thinks specifically, opacity in machine learning algorithms;
- Liability rules and AI; and
- The threat of algocracy.

Outcome(s):
Students should be able to:
- analyse and discuss ethics within the 4IR; and
- explain the ethical dilemmas of 4IR technologies in the accountancy profession.

ASSESSMENT
- Students will be continuously assessed through online assessment utilising the assessment utilities of Blackboard;
- At the end of the SLP, the students will be required to complete a comprehensive online assessment (examination); and
- The students will be assessed, by qualified assessors at UJ, either as competent or not competent.

CALCULATION CRITERIA
- Continuous Assessment.
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 100%
- Examination Mark Weight: 0%
- Supplementary assessment will not be granted for this SLP.

MODERATION
Internal moderation according to UJ policies will be applied.

4IR Perspectives for Accountant's	S34PAO1

MODULE AND OUTCOMES:

4IR PERSPECTIVES FOR ACCOUNTANT'S: (S34PAO1)

Purpose:
The following topics will be covered:
Background to IR 4.0 from an accounting perspective:
- Previous revolutions;
- Focus on IR 4.0;
- Advantages and disadvantages; and
- Trajectory of Accounting with regards to IR 4.0 (past, present, future)

Elements of IR 4.0 technologies in Accountancy:
- Blockchain:
  - Distributed Ledger Technology;
  - Smart Contracts;
- Artificial Intelligence;
- Machine Learning;
  - Big Data (including big data analytics);
  - Predictive Analytics;
- Natural Language Processing; and
- Ethical considerations for accountants in 4IR.

Outcome(s):
Students should be able to:
- explain the multi-dimensional impact of the fourth industrial revolution on the accountancy profession;
- critically evaluate the advantages and disadvantages of the fourth industrial revolution in the context of the accounting profession; and
- explicate the use of 4IR technologies in accountancy profession.

ASSESSMENT
- Students will be continuously assessed through online assessment utilizing the assessment utilities of Blackboard;

Artificial Intelligence: Perspectives for Accountant's	S3PAO10

MODULE AND OUTCOMES:

ARTIFICIAL INTELLIGENCE: PERSPECTIVES FOR ACCOUNTANT'S: (S3PAO10)

Purpose:
The following topics will be covered:
- Introduction to AI;
- Machine Learning (ML) in Accounting;
- Natural Language Processing (NLP) in Accounting;
- Robotics in Accounting;
- Ethical Implications of AI and Related Technologies; and
- The future of Accounting in the era dominated by AI.

Outcome(s):
Students should be able to:
- analyse and discuss how key AI technologies have evolved overtime and their impact to the industry and business as well as understanding the concept of collective intelligence;
- discuss the concept of Machine Learning, including being in a position to substantially differentiate between deep and shallow learning. Student must be able to explain how Machine Learning can be used to design, understand, and use computer programs to learn from experience;
- analyse and discuss the use of Natural Language Processing which amongst others include the machine translation, summarisation, and sentiment analysis in the accounting environment. Students are further expected to critically reflect on how Natural Language Processing can be deployed in the accounting profession;
- evaluate and assess the deployment of robotics as a key element for the transformative technologies;
- critically assess and discuss other forms of AI, including the growing field looking at the human-machine relationships from an ethical perspective; and
- imagine the future of accounting by imagining what their role will be within the business in the era dominated by AI.

ASSESSMENT
- Students will be continuously assessed through online assessment utilising the assessment utilities of Blackboard;
- At the end of the Short Learning Programme, the students will be required to complete a comprehensive online assessment; and
- The students will be assessed, by qualified assessors at UJ, either as competent or not competent.

CALCULATION CRITERIA
- Continuous Assessment.
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 100%
- Examination Mark Weight: 0%
- Supplementary assessment will not be granted for this SLP.

MODERATION
Internal moderation according to UJ policies will be applied.

NAME OF PROGRAMME: ARTIFICIAL INTELLIGENCE: PERSPECTIVES FOR PROFESSIONALS IN BUSINESS	SHORT LEARNING PROGRAMME ONLINE	SLP CODE: S3P11O	NQF LEVEL: 5 CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme.

MODE OF OFFERING
Online through the Blackboard learning management system.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- Minimum requirement is a completed secondary education NQF level 4 or an equivalent NQF level 5 qualification; and
- A degree or advanced diploma or equivalent qualification at NQF level 7 is recommended.

NAME OF PROGRAMME:	SHORT LEARNING	SLP CODE:	NQF LEVEL: 7
CIMA MANAGEMENT LEVEL FINANCIAL LEADERSHIP PROGRAMME (FLP™)	PROGRAMME DISTANCE ONLINE LEARNING	S3P18O	CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
- Non-bearing short learning programme.
- Abbreviated name: CIMA MANAGEMENT FLP.

MODE OF OFFERING
- The CIMA Management Level SLP provide students with access to the CIMA Finance Leadership Program™ (FLP).
- Upon registration, students will be provided with vouchers to access the appropriate learning material on the CIMA online platform via the UJ Blackboard system.
- The learning material is prepared and updated by CIMA and consists of reading material, case study applications and short webinars.
- Students are guided through each section of the content while being required to perform various tasks and formative assessments.
- Once all the tasks for a section (outcome) are completed, students must pass a competence test before being allowed to continue with the next section.
- Students must complete all outcomes for the Management Level FLP before they are allowed to register for the management level case study exam.
- A token to write the CIMA case study exam is included as part of the FLP.
- Students have one year to complete the programme and to write the integrated case study exam.
- The UJ course coordinator and tutors track the students' progress and follow up with students who do not progress as planned and therefore run the risk of not completing the programme.
- UJ also provides access to online tutors.
- The teaching methods will include the following:
  - CIMA FLP via the UJ Learning Management System (LMS) BlackBoard
  - Read and review subject related materials
  - Completing online tasks, competencies assessments, and skill assessments

CERTIFICATION
No certificate required.

ADMISSION REQUIREMENTS
The SLP will be appropriate:
- For students in possession of: An Advanced Diploma in Financial Management (ADFM);
  OR
- BCom (Accounting) and has been awarded exemptions for the CIMA Operational level;
  OR
- Students who have completed the CIMA Operational level case study examinations or who have been awarded exemptions by CIMA at the Operational level.

PURPOSE OF PROGRAMME
The purpose of the CIMA Management FLP is to provide students with the necessary competencies required to operate as a financial professional in a management role. Students will gain knowledge and skills in cost management, financial reporting, people management, and leadership. Upon completion of the programme students should be prepared to sit the CIMA Management Level Case study exam.

PROGRAMME CONTENT

ONLINE MODULE	
MODULE NAME	**MODULE CODE**
CIMA Management Level Financial Leadership Programme (FLP™)	S3PA018

MODULE AND OUTCOMES:

CIMA MANAGEMENT LEVEL FINANCIAL LEADERSHIP PROGRAMME (FLP™): (S3PA018)

Purpose:
The following topics will be covered:
- Cost Management.
- Reporting Frameworks and Accounting Standards.
- Financial Statement preparation and analysis.
- Leadership and Management.
- Business Models.
- Organisational Performance Management, including People Management.

Outcome(s):
Students should be able to:
- explain business models and value creation;
- apply tools to manage people's performance;
- apply tools to manage projects;
- evaluate the management of costs to create value;
- evaluate capital investment decisions;
- analyse the management and control of the performance of organisational units;
- evaluate risk and control;
- evaluate the financing of capital projects;
- explain the financial reporting standards;
- prepare financial and group accounts;
- discuss Integrated Reporting Framework and Integrated Reporting; and
- analysing financial statements.

ASSESSMENT
- The SLP serves as a preparation course for CIMA Strategic Level exams.
- All assessments are externally managed and monitored and are not the responsibility of UJ.
- The assessments required to qualify for the case study exam are administered and recorded on the CIMA FLP online platform.
- The UJ SLP course coordinator will however have access to the platform dashboards to monitor student activity and progress.
- The students book and write the case study exam with CIMA.
- CIMA also assesses the exam, publishes results and issues certification.
- The continuous assessments required to qualify for the case study exam are administered and recorded on the CIMA FLP online platform.

- The UJ SLP course coordinator do however have access to the platform dashboards to monitor student activity and progress.
- The programme is completed and assessed one outcome at a time.
- Students need to complete the online activities and pass the assessments for each of the 13 outcomes.
- Students will be reassessed on an outcome until they demonstrate sufficient competency.
- After completing the 13 outcomes, students may use the token provided as part of the FLP to register and write the Management level case study exam.
- Students have one year to complete the programme. Failure to do so will result in the student having to re-register.

CALCULATION CRITERIA

DURATION OF PROGRAMME
- Contact time: 32 hours of lecturing spread over two days per semester.
- Months to complete: 10 months (February to November).

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
- The programme is independent from other programmes.

PURPOSE OF PROGRAMME
The purpose of this SLP in Compliance Audits is to provide Chief Financial Officers and finance professionals at municipalities, public sector entities, departments and TVET colleges, with the opportunity to obtain a detailed understanding of the compliance and legislative requirements which will have an impact on the financial control environment. Chief Financial Officers are responsible for monitoring compliance with legislation in this regard.

PROGRAMME CONTENT

YEAR MODULE	
MODULE NAME	**MODULE CODE**
Compliance Audits	S3CAUQ1

MODULE AND OUTCOMES:

COMPLIANCE AUDITS: (S3CAUQ1)

Purpose:
In line with legislative requirements, Compliance Audits should be conducted in terms of the following elements of financial control and corporate governance in line with the duties of the Chief Financial Officer:

Outcome(s):
Students should be able to:
- demonstrate an advanced understanding of the impact of the following legislative requirements when conducting compliance audits:
  - Municipal Financial Management Act requirements;
  - Municipal Planning and Performance Management Regulations (GNR 796 of 24 August 2001;
  - Municipal budget and reporting regulations (GNR 393 of 17 April 2009);
  - Local Government: Municipal Systems Act, 2000 (Act 32 of 2000);
  - Municipal Property Rates Act
  - Municipal investment regulations (GNR.308 of 01 April 2005);
  - Municipal asset transfer regulations (GNR.878 of 22 Aug 2008);
  - Municipal supply chain management regulations (GNR.868 of 30 May 2005);
  - Disciplinary regulations for senior managers; and
  - Division of Revenue Act, 2013.

ASSESSMENT
- The assessment opportunities will have a combination of objective test questions, and/or short questions and/or case study questions.
- Summative assessment opportunity consists of a last written assessment opportunity.
- Methods of assessment will be aligned to the UJ academic regulations.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 0%
- Examination Mark Weight: 100%
- Pass Mark: 50%

SLPs are not dependent on each other; therefore, if a student fails one SLP, they will be able to continue with the remaining SLPs in the series of SLPs for Chief Financial Officers.

MODERATION
Internal moderation according to UJ policies will be applied.

YEAR MODULE	
MODULE NAME	MODULE CODE
Internal Auditing and Financial Control	S3IAFQ1

MODULE AND OUTCOMES:

INTERNAL AUDITING AND FINANCIAL CONTROL: (S3IAFQ1)

Purpose:
The following topics that will be covered:
- The implementation of combined assurance models as prescribed by the King 3 code on Corporate Governance;
- Planning, Execution and reporting in an internal audit environment based on the Standards of Internal Auditing of the Global Institute of Internal Auditors (Attribute and performance standards);
- Internal Auditing and quality assurance audits;
- Risk mitigation and management and the impact thereof on rolling internal audit plans;
- Computer Assisted auditing techniques;
- Fraud investigations; and
- Review of the following internal auditing government standards: Intosaigov 9100, 9110, 9120, 9130 & 9220.

Outcome(s):
Students should be able to:
- demonstrate an advanced understanding of governance structures within the organisation including the impact of the combined assurance model within municipalities;
- demonstrate an advanced understanding of internal audit's role in determining the adequacy and efficiency of internal controls;
- determine the desired level of assurance;
- identification of shortfalls in the assurance models as well as identification of excessive assurance;
- assessment and detailed analysis of risk management plans for effectiveness;
- interpret and implement the Standards of Internal Auditing of the Global Institute of Internal Auditors (Attribute and performance standards);
- demonstrate an advanced understanding of IT auditing and cybercrime;
- plan and execute fraud investigations and review fraud investigation reports and processes; and
- due to the complexities of the municipal financial control environment, the outcomes are being demonstrated in an advanced and highly technical manner.

ASSESSMENT
- The assessment opportunities will have a combination of objective test questions, and/or short questions and/or case study questions.
- Summative assessment opportunity consists of a last written assessment opportunity.
- Methods of assessment will be aligned to the UJ academic regulations.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 0%
- Examination Mark Weight: 100%
- Pass Mark: 50%

SLPs are not dependent on each other; therefore, if a student fails one SLP, they will be able to continue with the remaining SLPs in the series of SLPs for Chief Financial Officers.

MODERATION
Internal moderation according to UJ policies will be applied.

NAME OF PROGRAMME:	SHORT LEARNING	SLP CODE:	NQF LEVEL: 8
INTRODUCTION TO BLOCKCHAIN TECHNOLOGY FOR ACCOUNTANT'S	**PROGRAMME** **ONLINE**	**S34P5O**	**CREDITS: 0**

TYPE OF SHORT LEARNING PROGRAMME (SLP)
- Non-credit bearing short learning programme.
- CPD programme in association with the Professional body, the South African Institute of Chartered Accountant's (SAICA).

MODE OF OFFERING
Online through the Blackboard learner management system.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- A professional Accounting qualification or a BCom degree with accounting at NQF level 7, and must be a member of South African Institute of Chartered Accountant's (SAICA); or
- Applicants with a minimum of a South African Chartered Accountant CA (SA) or Associate General Accountant AGA (SA) designation including trainee accountant's.

ONLINE MODULE	
MODULE NAME	**MODULE CODE**
Introduction to Blockchain Technology for Accountant's	S34PA05

MODULE AND OUTCOMES:

INTRODUCTION TO BLOCKCHAIN TECHNOLOGY FOR ACCOUNTANT'S: (S34PA05)

Purpose:
The following topics will be covered:
- An introduction to the evolution of trust and the internet;
- An introduction into the development and introduction of Blockchain Technology;
- Insights into how Blockchain leverages Cryptography;
- An understanding of the fundamental concepts of Distributed Ledger Technology (DLT);
- An understanding of how DLT enables triple entry accounting and continuous auditing;
- The principal content areas of smart contracts and Distributed Applications (Apps);
- Understand the difference between Public and Private Blockchains;
- Understand the concept of a Token;
- An overview of the impact on Accounting standards and regulators; and
- A meaningful exposure to Blockchain solutions in several key industries.

Outcome(s):
Students should be able to:
- substantiate the need for Blockchain technology and display a high-level knowledge of the fundamental concepts and guiding principles; and
- evaluate the role that Blockchain technology can play in a company's success.

ASSESSMENT
- Students will be continuously assessed through online assessment utilising the assessment utilities of Blackboard;
- At the end of the SLP, the students will be required to complete a comprehensive online assessment (examination); and
- The students will be assessed, by qualified assessors at UJ, either as competent or not competent.

CALCULATION CRITERIA
- Continuous Assessment.
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 100%
- Examination Mark Weight: 0%
- Supplementary assessments will not be granted for this SLP.

MODERATION
Internal moderation according to UJ policies will be applied.

NAME OF PROGRAMME: INTRODUCTION TO BLOCKCHAIN TECHNOLOGY FOR PROFESSIONALS IN BUSINESS	SHORT LEARNING PROGRAMME ONLINE	SLP CODE: S34P6O	NQF LEVEL: 5 CREDITS: 0

DURATION OF PROGRAMME
- Contact time: 8 weeks part-time or 2 weeks full time
- Months to complete: offered during November and January and/or June and July.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
- Preparatory SLP for students wishing to complete postgraduate studies which require the submission of a research project (minor dissertation, dissertation or thesis).
- The SLP is specifically focused on students who have not done research methodology before and/or have only completed a postgraduate diploma. The SLP provides access, with other qualifications completed, to study at level 9 or 10.

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
To gain entrance to Master's and doctoral programmes.

PROGRAMME CONTENT

SEMESTER MODULES			
FIRST SEMESTER		**SECOND SEMESTER**	
MODULE NAME	**MODULE CODE**	**MODULE NAME**	**MODULE CODE**
Introduction to research design and analysis for Accountancy and Finance A	S34IRQ1	Introduction to research design and analysis for Accountancy and Finance B	S34IRQ2

MODULES AND OUTCOMES:

INTRODUCTION TO RESEARCH DESIGN AND ANALYSIS FOR ACCOUNTANCY AND FINANCE: A/B (S34IRQ1 / S34IRQ2)

Purpose:

The purpose of the module is to equip students who have no or limited research background with the necessary knowledge of research methodology to prepare them for entry into a Masters' or PhD programme. The module will examine essential aspects of research methodology such as the fundamentals of research, literature reviews, data collection, qualitative and quantitative techniques, and presentation of research findings.

Outcome(s):
Students should be able to:
- access and process information pertaining to research methodology including academic literature and case studies using libraries, electronic and internet resources and be able to conduct a computer-based literature search;
- assess and select suitable research topics and to manage a research project in conjunction with a supervisor;
- relate to and comprehend the academic and ethical standards required for high level postgraduate research, including originality, analysis and synthesis of information and data and the ethical use of accessing and acknowledging information;
- work effectively with others as a member of a group in order to produce research output with more than one author; and
- communicate information using accurate and appropriate language and displaying knowledge of the conventions of business writing.

ASSESSMENT
- Students will be continuously assessed through online assessment utilising the assessment utilities of Blackboard.
- Students will be required to submit assignments using various research software; and
- At the end of the SLP, the students will be required to submit a draft research proposal.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 100%
- Examination Mark Weight: 0%
- Pass Mark: 50%

MODERATION
- Internal moderation by subject matter experts according to UJ policy.
- Appeals procedure according to UJ's assessment policy.

NAME OF PROGRAMME: INTRODUCTION TO TAXATION	SHORT LEARNING PROGRAMME DISTANCE ONLINE LEARNING	SLP CODE: S3P15O	NQF LEVEL: 6 CREDITS: 12

TYPE OF SHORT LEARNING PROGRAMME (SLP)
- Credit bearing short learning programme.
- This SLP is substitute to Taxation 2AB (TAX2B00)
- To be offered in HEPSA Block D4.

MODE OF OFFERING
- Online through the Blackboard platform.
- This SLP will make use of the following:
  - Blackboard
  - Read and review materials
  - Complete online quizzes
  - Participate in discussion forums
  - Online learning communities
- Real-life examples in each of the sections will be used to enhance the underlying theory.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
A potential student must:
- Meet the entry requirements for the Bachelor of Commerce in Accounting (B3A17Q):
  - APS score = 28
  - Maths = 4
  - English = 4;
  OR
- Meet the alternative entry requirements for the Bachelors of Commerce in Accountancy (B34ACP) (Fully Online) degree as follows:
  - Mature age exemption:
    Applicants older than 23* will be considered if the matric certificate is below the minimum requirements. However, the applicant still needs to have a degree endorsement and meet the following requirements:
    - APS score = 26
    - Maths = 3
    - English = 3
- Applicants younger than 23 will be handled on an ad-hoc basis.
- Mature age conditional exemptions as per par. 30 of USAF Exemption requirements.
- Applicants with a previously completed qualification:
  - Applicants with a completed degree or diploma but has an APS score below the minimum requirement will be considered if they have a degree endorsement and meet the following requirements:
    - APS score = 26
    - Maths = 3
    - English = 3
  - Applicants with a completed diploma but has an APS score below the minimum requirement without a degree endorsement will be considered if they obtain a certificate from HESA and meet the following requirements:
    - APS score = 26
    - Maths = 3
    - English = 3
- Other exemptions:
  - Applicants with an APS score between 24 and 28 will be considered if they meet either of the following requirements:
    - In possession of a completed degree, advanced diploma or BTech degree on an NQF level 7 with some form of Mathematical subject taken within the degree or diploma; or
    - 5-10 years of work experience in the financial field, for instance as a bookkeeper, a debtors clerk, a junior accountant;
  - Once an applicant has received WV status (approved), then the applicant will be required to:
    - Write a test to determine their mathematical abilities. This test will take the form of multiple-choice questions using an online platform.
    - Write an essay to determine their English language abilities. The topic of the essay, as well as the word count, will be communicated to the applicant; and

- o The math's test as well as the essay will be administered with strict deadlines for each applicant and will be changed regularly to ensure an authentic process.
- Applicants with an academic exclusion (from UJ or another institution):
  - If the applicants meet the minimum entry requirements with their matric certificates, the applicants will be admitted regardless of their previous academic performance.
  - If the applicant does not meet the minimum requirements, the application will be declined;
- Have obtained a relevant degree at NQF level 7.
- The department may, from time to time, set final selection requirements.

Work-based learning	-	-
Independent reading/ interacting with learning material/online activities	70	-
Preparation for and completion of assignments and other assessment activities	20	-
Tutorials	-	-
Other (specify)		-
Total hours	120	-
Total number of credits	-	12

DURATION OF PROGRAMME
- This SLP will be completed in a semester.
- This SLP will be presented in both semesters.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
N/A

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students whom passed this SLP will get a module credit for Taxation 2AB (TAX2B00) in either:
- Bachelor of Commerce in Accounting (extended degree) (B3AE7Q); or
- Bachelor of Commerce in Accounting (B3A17Q)

PURPOSE OF PROGRAMME
The purpose of the Introduction to Taxation SLP is to provide students with an understanding of the basic theoretical concepts and ground rules regarding Income and Value-added tax. The module lays the theoretical and practical foundation for concepts and principles covered in Taxation 1 and 2. This SLP forms part of a suite of three SLPs offered to students who do not meet the taxation entry requirements for further study or association with professional accountancy bodies.

PROGRAMME CONTENT

ONLINE MODULE	
MODULE NAME	**MODULE CODE**
Introduction to Taxation	S3PAO15

MODULE AND OUTCOMES:

INTRODUCTION TO TAXATION: (S3PAO15)

Purpose:

The following topics will be covered:
- Theoretical concepts and ground rules regarding Income Tax; and
- Theoretical concepts and ground rules regarding Value-added tax.

Outcome(s):
Students should be able to:
- identify the taxation process in South Africa;
- explain differences between different taxes;
- explain how to use the taxation legislation;
- recognise different taxpayers;
- demonstrate how the levying section (s5(1)) is applied;
- analyse elements of gross income definition;
- discuss the "days" test in definition of a resident;
- compare the concepts of source and deemed source;
- apply the concepts of "worldwide";
- identify the special inclusions in income as per the definition of gross income;
- illustrate that exempt income is income that was first included in gross income and then exempted;
- use the two tests for deductibility: Section 11(a); and the income derived from carrying on a trade – s23;
- demonstrate that certain amounts will not be allowed as deductions for tax purposes;
- integrate the rules of general deductions in a tax calculation;
- discuss the tax treatment of specific expenses and losses;
- apply the special deductions per s11;
- compare repairs and improvements;
- analyse and apply the case law on repairs;
- recognise assets subject to the basic capital allowances;
- calculate the Income Tax consequences of the disposal of assets (excluding Capital Gains tax (CGT) effect);
- illustrate where CGT fits on the tax framework;
- explain the CGT consequences on transactions typical to companies after 1 October 2001;
- calculate the CGT consequences of basic transactions for individuals, after 1 October 2001;
- choose the tax rates applicable to different kinds of companies;
- discuss the basic taxation consequences of trading stock;
- explain how to calculate the taxable income of a company starting with the accounting net profit before tax;
- prepare a basic STC calculation;
- categorise Small Business Corporations (SBC);
- formulate the special allowances available to an SBC;
- apply the Income Tax principles to calculate the Income Tax liability of an SBC;
- identify pre-trading expenditure and losses that can be claimed in terms of s11A;
- differentiate the three provisional tax payments due by a company;
- classify how provisional tax payments slot into the Income Tax calculation;
- differentiate the value-added tax (VAT) is a tax separate from Income Tax;
- describe the mechanism of VAT, in which businesses are liable for tax on their outputs less the credits for tax on their inputs;
- apply the rules regarding the payment of VAT by a vendor;
- analyse the concept of supply of goods and services;
- assess the different kinds of supply;
- apply the provisions regarding the time and value of a supply;
- identify both the Income Tax and VAT consequences of a transaction;
- identify the VAT portion included in an amount when calculating the Income Tax consequences; and
- show awareness of ethical practices regarding tax and the payment thereof.

ASSESSMENT
- Assessment in this SLP will be aligned to the outcomes of this SLP.
- The assessment criteria will be the same as the corresponding module (Taxation 2AB (TAX2B00)), but the mode of assessment will differ to align with the online delivery.
- Students will be continuously assessed through online assessment utilising the assessment utilities of Blackboard.
- The Full Period Mark will consist of various formative and summative assessment tasks.
- The weighting of the final summative assessment at the end of this SLP will be between 40% to 60% taking into account the following:
    - Discussions with the HOD and subject head;
    - Discussions with both the external and internal moderator;

- Considerations whether the formative assessments have been externally moderated;
- Considerations of anti-plagiarism tools used throughout this SLP;
- Considerations of methods implemented to upheld academic integrity throughout this SLP.
- The weighting of how the formative and summative assessments contribute to the Full Period Mark Weight will be communicated to students before the commencements of this SLP.
- There will be no supplementary assessment opportunity. This is supported by the following:
  - Students who have successfully completed Bachelors of Commerce in Accountancy (B34ACP) (Fully Online):
    - There are no supplementary assessment opportunities granted for this degree
  - Students who have completed a degree (whether at UJ or elsewhere) and who does not meet the taxation entry requirements into a Bridging Programme or Honours qualifications offered by the School of Accountancy:
    - These students have already completed a degree on NQF level 7.
  - Students who have not yet completed the Taxation 2AB (TAX2B00) module in Bachelor of Commerce in Accounting (B3A17Q) or Bachelor of Commerce in Accounting (Extended Degree) (B3AE7Q):
    - It is the second opportunity. The students have to complete this module.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mar Weight: 100%
- Examination Mark Weight: 0%
- Pass Mark: 50%

MODERATION
Internal moderation according to the UJ policies.

NAME OF PROGRAMME:	SHORT LEARNING PROGRAMME	SLP CODE:	NQF LEVEL: 8
PERFORMANCE MANAGEMENT AND MEASUREMENT	PART TIME - APB	S3PMMQ	CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme.

MODE OF OFFERING
The programme will be offered on a part time basis based on demand with classes presented in the evenings.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- The minimum entry requirement is a degree or advanced diploma in commerce or law on NQF level 7.
- Students who do not meet the minimum entry requirements for this programme may apply for recognition of prior learning and for admission on the basis thereof.
- Experience in the fields related to corporate governance for example practising as a company secretary, may be taken into account when assessing recognition of prior learning.
- This short learning programme is only on offer to public sector institutions, where the institution will be liable for paying the tuition fees for prospective students.
- The tuition fees will be stipulated in a formal memorandum of agreement between UJ and the public sector institution.

DURATION OF PROGRAMME
- Contact time: 32 hours of lecturing spread over two days per semester.
- Months to complete: 10 months (February to November).

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
- The programme is independent from other programmes.

PURPOSE OF PROGRAMME
The purpose of this SLP in Performance Management and Measurement is to provide Chief Financial Officers and finance professionals at municipalities, public sector entities, departments and TVET colleges, with the opportunity to obtain a detailed understanding of the compliance and legislative requirements which will have an impact on the financial control environment Chief Financial Officers are responsible for monitoring compliance with legislation in this regard.

PROGRAMME CONTENT

YEAR MODULES	
MODULE NAME	**MODULE CODE**
Performance Management and Measurement	S3PMMQ1

MODULE AND OUTCOMES:

PERFORMANCE MANAGEMENT AND MEASUREMENT: (S3PMMQ1)

Purpose:
The purpose of this module is to provide information on performance management processes and systems, Internal controls relevant to the performance management environment, audit of performance information, operating effectiveness of controls and compilation of Portfolios of Evidence.

Outcome(s):
Students should be able to:
- demonstrate an advanced understanding of the compilation of performance information;
- evaluate and assess material development priorities (relevant to municipalities) or objectives (relevant to municipal entities) to audit against the consistency, measurability, relevance and reliability (accuracy, completeness, validity) criterion;
- assess and evaluate the risk associated with that exist in the detailed performance management process per selected development priority/objective as well as the direct / other controls related to these processes;
- analyse and assess the internal control deficiencies which are identified;
- assess, review and test performance information in the relevant planning and reporting documents to verify the measurability of planned and reported indicators/measures;
- assess, review and test the operating effectiveness of controls in preventing, or detecting and correcting material misstatements at target level; and
- due to the complexities of the municipal financial control environment, the outcomes are being demonstrated in an advanced and highly technical manner.

ASSESSMENT
- The assessment opportunities will have a combination of objective test questions, and/or short questions and/or case study questions.
- Summative assessment opportunity consists of a last written assessment opportunity.
- Methods of assessment will be aligned to the UJ academic regulations.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%

DURATION OF PROGRAMME
- Contact time: 32 hours of lecturing spread over two days per semester.
- Months to complete: 10 months (February to November).

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
- The programme is independent from other programmes.

PURPOSE OF PROGRAMME
The purpose of this SLP in Public Sector Accounting is to provide Chief Financial Officers and finance professionals at municipalities, public sector entities, departments and TVET colleges, with the opportunity to obtain a detailed understanding of the compliance and legislative requirements which will have an impact on the financial control environment–Chief Financial Officers are responsible for monitoring compliance with legislation in this regard.

PROGRAMME CONTENT

YEAR MODULES	
MODULE NAME	**MODULE CODE**
Public Sector Accounting	S3PSAQ1

MODULE AND OUTCOMES:

PUBLIC SECTOR ACCOUNTING: (S3PSAQ1)

Purpose:
The following topics will be covered:
- Presentation of Financial Statements.
- Accounting policies estimates and errors.
- Revenue: Exchange transactions vs non-exchange transactions and Revenue from exchange and non-exchange transactions.
- Applying the Probability Test on Initial Recognition of Revenue.
- Construction contracts.
- Accounting for inventory.
- Property, Plant and Equipment (inclusive of investment properties).
- Provisions, contingent liabilities and contingent assets.
- Related parties.
- Impairment of non-cash generating assets and cash generating assets.
- Biological assets and agriculture.
- Heritage asset management.
- Financial instruments.
- Changes in existing decommissioning restoration of Property, Plant and Equipment.
- Rights to interests arising from rehab funds.
- Consolidation of Special Purpose Entities (Municipal entities).
- Operating and finance lease agreements.

Outcome(s):
Students should be able to:
- demonstrate advanced knowledge of Local Government Municipal Budgets and reporting regulations;
- demonstrate an advanced understanding of General Regulated Accounting Practices (GRAP) through the preparation and evaluation of financial statements for municipalities and municipal entities; and
- demonstrate specialist knowledge of financial indicator reporting.

ASSESSMENT
- The assessment opportunities will have a combination of objective test questions, and/or short questions and/or case study questions.
- Summative assessment opportunity consists of a last written assessment opportunity.
- Methods of assessment will be aligned to the UJ academic regulations.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 0%
- Examination Mark Weight: 100%
- Pass Mark: 50%

SLPs are not dependent on each other; therefore, if a student fails one SLP, they will be able to continue with the remaining SLPs in the series of SLPs for Chief Financial Officers.

MODERATION
Internal moderation according to UJ policies will be applied.

The purpose of this SLP in Supply Chain Management Auditing is to provide Chief Financial Officers and finance professionals at municipalities, public sector entities, departments and TVET colleges, with the opportunity to obtain a detailed understanding of the compliance and legislative requirements which will have an impact on the financial control environment Chief Financial Officers are responsible for monitoring compliance with legislation in this regard.

PROGRAMME CONTENT

YEAR MODULE	
MODULE NAME	MODULE CODE
Supply Chain Management Auditing	S3SCMQ1

MODULE AND OUTCOMES:

SUPPLY CHAIN MANAGEMENT AUDITING: (S3SCMQ1)

Purpose:

In line with legislative requirements, audit testing should be conducted in order to establish the following:

- Adequacy and effectiveness of internal controls
- Compliance with legislation
- The effectiveness and efficiency of the procurement process and the monitoring of this processes
- The impact of Unauthorised expenditure, Irregular expenditure and Fruitless and Wasteful expenditure
- The condonement process associated with unauthorised expenditure, Irregular expenditure and Fruitless and Wasteful expenditure.

Outcome(s):

Students should be able to:

- demonstrate an advanced understanding of the impact of the following legislative requirements and should able to review the procurement process which includes:
- an understanding of computer assisted auditing techniques;
- assess the design and implementation of controls in Supply Chain Management (SCM) using auditing programs;
- assess the adequacy and effectiveness of Internal controls in the SCM environment;
- demonstrate an advanced understanding of SCM policies;
- identification and investigation of possible fictitious suppliers;
- identification and investigation for Prohibited Suppliers;
- contract management practices; and
- perform an evaluation of compliance findings.

ASSESSMENT

- The assessment opportunities will have a combination of objective test questions, and/or short questions and/or case study questions.
- Summative assessment opportunity consists of a last written assessment opportunity.
- Methods of assessment will be aligned to the UJ academic regulations.

NAME OF PROGRAMME: TAXATION 1	SHORT LEARNING PROGRAMME DISTANCE ONLINE LEARNING	SLP CODE: S3P16O	NQF LEVEL: 7 CREDITS: 16

TYPE OF SHORT LEARNING PROGRAMME (SLP)
- Credit bearing short learning programme.
- This SLP is substitute to Taxation 3A (TAX03A3).
- To be offered in HEPSA Block D5.

MODE OF OFFERING
- Online through the Blackboard platform.
- This SLP will make use of the following:
  - Blackboard
  - Read and review materials
  - Complete online quizzes
  - Participate in discussion forums
  - Online learning communities
- Real-life examples in each of the sections will be used to enhance the underlying theory.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- Students must meet the entry requirements for the Bachelor of Accounting (B3A17Q) qualification or the Bachelor of Accountancy (B34ACP) (Fully Online) qualification;
  OR
- must have obtained a relevant qualification at an NQF level 7; and
- must have completed Taxation 2AB (TAX2B00) or the SLP Introduction to Taxation (S3P15O).

LEARNING ACTIVITIES

N/A

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES

Students whom has passed this SLP will be get a module credit for Taxation 3A (TAX03A1) in either BCom (Accounting) (B3AE7Q) (Extended) or BCom (Accounting) (B3A17Q).

PURPOSE OF PROGRAMME

The purpose of the Taxation 1 SLP is to increase a students practical and theoretical tax knowledge of the ground rules regarding Income Tax and value-added tax (VAT) and to apply this knowledge to non-residents. The SLP deals with the inclusion of complex taxable amounts and recoupments in the gross income of individuals and enterprises and the deductions available to these taxpayers. This SLP forms part of a suite of three SLPs offered to students who do not meet the taxation entry requirements for further study or association with professional accountancy bodies.

PROGRAMME CONTENT

ONLINE MODULE	
MODULE NAME	**MODULE CODE**
Taxation 1	S3PAO16

MODULE AND OUTCOMES:

TAXATION 1: (S3PAO16)

Purpose:
The following topics will be covered:
- Practical and theoretical concepts regarding Income Tax for both individuals and enterprises;
- Practical and theoretical concepts and ground rules regarding Value-added tax; and
- Practical and theoretical concepts regarding non-residents.

Outcome(s):
Students should be able to:
- analyse amounts to be included in gross income by applying the definition of "gross income" in the Income Tax Act.
- analyse amounts exempt from Income Tax by applying the relevant section of the Income Tax Act.
- explain and calculate allowable deductions for Income tax purposes by applying the general deduction formula and special deductions;
- explain and calculate deductions for Income tax purposes by applying for capital allowances;
- apply the Income Tax principles regarding trading stock;
- apply the Eighth Schedule of the Income Tax Act to situations subject to Capital Gains tax and calculate the taxable amount in terms of the relevant provisions in respect of assets acquired before and after 1 October 2001,
- explain and calculate the taxable income and Income Tax payable by both individuals and companies;
- discuss and calculate the VAT implications of an enterprise making taxable and exempt supplies; and
- explain and calculate dividends tax.

ASSESSMENT
- Assessment in this SLP will be aligned to the outcomes of the SLP.
- The assessment criteria will be the same as the corresponding module (Taxation 3A (TAX03A3)), but the mode of assessment will differ to align with the online delivery.
- Students will be continuously assessed through online assessment utilising the assessment utilities of Blackboard.
- The Full Period Mark will consist of various formative and summative assessment tasks.
- The weighting of the final summative assessment at the end of this SLP will be between 40% to 60% taking into account the following:
  - Discussions with the HOD and subject head;
  - Discussions with both internal and external moderator;
  - Considerations whether the formative assessments have been externally moderated;
  - Considerations of anti-plagiarism tools used throughout this SLP;
  - Considerations of methods implemented to upheld academic integrity throughout this SLP.
- The weighting of how the formative and summative assessments contribute to the Full Period Mark Weight will be communicated to students before the commencements of this SLP.
- There will be no supplementary assessment opportunity. This is supported by the following:
  - Students who have successfully completed Bachelors of Commerce in Accountancy (B34ACP) (Fully Online):
    - There are no supplementary assessment opportunities granted for this degree
  - Students who have completed a degree (whether at UJ or elsewhere) and who does not meet the taxation entry requirements into a Bridging Programme or Honours qualifications offered by the School of Accountancy:
    - These students have already completed a degree on NQF level 7.

- Students who have not yet completed the Taxation 3A (TAX03A3) module in Bachelor of Commerce in Accounting (B3A17Q) or Bachelor of Commerce in Accounting (Extended Degree) (B3AE7Q):
  - It is the second opportunity the students have to complete these modules.
- Students will be continuously assessed through online assessment utilising the assessment utilities of Blackboard.
- The Full Period Mark will consist of various formative and summative assessment tasks.
- The weighting of the final summative assessment at the end of the module will be between 40% to 60% taking into account the following:
  - Discussions with the HOD and subject head;
  - Discussions with both the external and internal moderator;
  - Considerations whether the formative assessments have been externally moderated;
  - Considerations of anti-plagiarism tools used throughout this SLP;
  - Considerations of methods implemented to upheld academic integrity throughout this SLP.
- The weighting of how the formative and summative assessments contribute to the Full Period Mark Weight will be communicated to students before the commencements of this SLP.
- There will be no supplementary assessment opportunity. This is supported by the following:
  - Students who have successfully completed Bachelors of Commerce in Accountancy (B34ACP) (Fully Online):
    - There are no supplementary assessment opportunities granted for this degree
  - Students who have completed a degree (whether at UJ or elsewhere) and who does not meet the taxation entry requirements into a Bridging Programme or Honours qualifications offered by the School of Accountancy:
    - These students have already completed a degree on NQF level 7.
  - Students who have not yet completed the Taxation 3A (TAX03A3) in Bachelor of Commerce in Accounting (B3A17Q) or Bachelor of Commerce in Accounting (Extended Degree) (B3AE7Q):
    - It is the second opportunity. The students have to complete this SLP.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mar Weight: 100%
- Examination Mark Weight: 0%
- Pass Mark: 50%

MODERATION
Moderation will be identical to that of Taxation 3A (TAX03A3), i.e. external moderation according to the UJ policies.

Students tha has passed this SLP will get a module credit for Taxation 3B (TAX03B3) in either BCom (Accounting) (Extended) (B3AE7Q) or BCom (Accounting) (B3A17Q).

PURPOSE OF PROGRAMME
The purpose of the Taxation 2 SLP is to provide students with the practical and theoretical application of the basic concepts of taxation to individuals, partnerships, companies, trusts and farmers, and to cover the taxation principles regarding Capital Gains tax (for individuals) as well as the rules and regulations regarding the administration and payment of taxation. This SLP forms part of a suite of three SLPs offered to students who do not meet the taxation entry taxation requirements for further study or association with professional accountancy bodies.

PROGRAMME CONTENT

ONLINE MODULE	
MODULE NAME	**MODULE CODE**
Taxation 2	S3PAO17

MODULE AND OUTCOMES:

TAXATION 2: (S3PAO17)

Purpose:
The following topics will be covered:
- Practical and theoretical concepts regarding Income Tax for individuals, partnerships, companies, trust and farmers;
- Practical and theoretical concepts and ground rules regarding Capital Gains Tax for individuals; and
- Practical and theoretical concepts regarding the rules and regulations regarding the administration and payment of taxation.

Outcome(s):
Students should be able to:
- identify fringe benefits and calculate the cash equivalent to include in the taxable income of an individual;
- determine the amounts exempt from the "income" of individuals by applying the relevant sections of the Income Tax Act;
- identify and calculate the deductions available to individuals by applying the relevant sections of the Income Tax Act;
- identify and calculate allowances attributable to the individual in gross income and calculate the amount allowed as a deduction against the allowance;
- calculate the tax implications of retirement benefits for individuals;
- calculate the taxable income of a partnership and apportion it to the partners;
- calculate the amount payable in terms of employee's tax and provisional tax;
- calculate the amount payable in terms of donations tax and estate duty for individuals;
- discuss situations applicable to an individual that will be subject to Capital Gains tax and calculate the taxable amount in terms of the relevant provisions;
- prepare the tax calculation for a non-resident according to the relevant provisions in the Income Tax Act;
- apply the basic Income Tax provisions regarding trusts;
- analyse the rules and regulations regarding the administration and payment of taxation for individuals, partnerships, companies and trusts; and
- explain situations where the anti-avoidance provisions of the Income Tax Act would be applicable for individuals, partnerships, companies and trusts.

ASSESSMENT
- Assessment in this SLP will be aligned to the outcomes of the SLP.
- The assessment criteria will be the same as the corresponding module (Taxation 3B (TAX03B3)), but the mode of assessment will differ to align with the online delivery.
- Students will be continuously assessed through online assessment utilising the assessment utilities of Blackboard.
- The Full Period Mark will consist of various formative and summative assessment tasks.
- The weighting of the final summative assessment at the end of this SLP will be between 40% to 60% taking into account the following:
  - Discussions with the HOD and subject head;
  - Discussions with both the external and internal moderators;
  - Considerations whether the formative assessments have been externally moderated;
  - Considerations of anti-plagiarism tools used throughout this SLP;
  - Considerations of methods implemented to upheld academic integrity throughout this SLP.
- The weighting of how the formative and summative assessments contribute to the Full Period Mark Weight will be communicated to students before the commencements of this SLP.

- There will be no supplementary assessment opportunity. This is supported by the following:

YEAR MODULES	
MODULE NAME	**MODULE CODE**
Academic and Professional Skills	S3PCAQ5
Basic Business Calculations	S3PCAQ3
English Language and Communication Skills	S3PCAQ2
Principles of Accounting	S3PCAQ1

SEMESTER MODULES			
FIRST SEMESTER		**SECOND SEMESTER**	
MODULE NAME	**MODULE CODE**	**MODULE NAME**	**MODULE CODE**
Financial Services Computing 1A	S3PCAQ6	Introduction to Business Management 1B	S3PCAQ7

MODULES AND OUTCOMES:

ACADEMIC AND PROFESSIONAL SKILLS: A/B (S3PCAQ5)

YEAR MODULE

Purpose:
The purpose of this module is to demonstrate the use of effective study habits, apply relevant study techniques and explain how to apply principles of time, stress and personal change management.

Outcome(s):
Students should be able to:
- demonstrate the use of effective, individualised study habits and apply relevant study techniques i.e. appropriate note-taking, reading and exam-taking skills to their academic work;
- apply the principles of time management to their own personal situation;
- identify and apply the principles of stress management;
- identify and apply the principles and models of personal change management and develop and apply appropriate coping strategies;
- discuss leadership theories and different team roles that may be adopted;
- explain and apply a variety of personal and interpersonal skills;
- manage their personal finances effectively;
- explain values and principles and their importance; and
- understand and apply the principles of goal-setting.

BASIC BUSINESS CALCULATIONS: (S3PCAQ3)

YEAR MODULE

Purpose:
The purpose of this module is to provide a solid foundation for the performance of basic mathematical and financial calculations in the business environment as a means of assisting in decision making.

Outcome(s):
Students should be able to:
- accurately do calculations in Algebra;
- accurately solve problems involving the perimeter, volume and surface area of difference shapes;
- accurately do basic calculations in Financial Mathematics;
- accurately do basic calculations in Statistics; and
- correctly apply all the skills that they have learned in Accounting, Economics and Business.

ENGLISH LANGUAGE AND COMMUNICATION SKILLS: (S3PCAQ2)

YEAR MODULE

Purpose:
The purpose of this module is to introduce students to basic communication theories and concepts and to enhance students written and verbal English communication skills.
Outcome(s):
Students should be able to:
- demonstrate and understand group work;
- use a dictionary effectively and develop basic work attack skills;
- apply the principles of effective listening;
- analyse and write complete, grammatically correct sentences;
- understand and apply various types of punctuation;
- write an effective paragraph
- use basic referencing skills in academic writing;
- explain and apply the principles of effective public speaking;
- explain and apply basic elements of communication theory;
- identify the functions and types of non-verbal communication; and
- apply a basic understanding of intercultural communication.

PRINCIPLES OF ACCOUNTING: (S3PCAQ1)

YEAR MODULE

Purpose:
The purpose of this module is to introduce the student to basic accounting principles, concepts and process for the recording of transaction from source documents through to the financial statements of a sole trader. The focus is on the measurement and recognition of Value Added Tax, assets, liabilities, income and expenses, accounting adjustments and period-end adjustments.

Outcome(s):
Students should be able to:
- integrate technology assisted learning by means of an accounting software package throughout the module;
- explain and discuss the basic accounting principles, the accounting process and apply these for a sole trader using the accounting software;
- set up a service entity (sole trader) using the accounting software and convert it to a trading entity;
- use accounting tools to analyse and understand the accounting implication of transactions and the effect the transactions have on the elements of the financial statements (assets, liabilities, equity, income and expenses);
- measure and recognise Value Added Tax (VAT);
- prepare source documents, journal entries and general ledger accounts using the accounting software;
- set up and monitor individual trade receivables accounts;
- recognise transactions in specialised journal entries and the respective subsidiary ledgers;
- reconcile the cashbook to the bank statement balance;
- reconcile the subsidiary ledgers and the control accounts in the general ledger for trade receivables and payables;
- prepare and recognize journal entries for accounting adjustments, correction of errors and period end adjustments;
- identify, measure and recognise inventories; and
- present basic financial statements for a sole trader.

FINANCIAL SERVICES COMPUTING 1A: (S3PCAQ6)

SEMESTER MODULE

Purpose:
The purpose of this module is to introduce students to general computer applications commonly used in financial services operations. Students will be equipped with the necessary skills for end user computing as well as academic and financial industry applications.

Outcome(s):
Students should be able to:
- Demonstrate both theoretical and practical use of the following computer-based tasks to:
  - save, retrieve files and navigate basic operating system for end user computing;
  - use basic functions for successful end user computing;
  - use a word processing application, such as Microsoft Word;
  - use a presentation application, such as Microsoft PowerPoint;

- use a data analysis application, such as Microsoft Excel;
- Demonstrate understanding with computer applications on practical cases studies such as:
    - loan amortisation analysis;
    - ordinary least square regression analysis;
    - editing research articles; and
    - presentation skills.

INTRODUCTION TO BUSINESS MANAGEMENT 1B: (S3PCAQ7)

SEMESTER MODULE

Purpose:
The purpose of this module is to provide students with a global overview of Business Management as a science and prepare them for challenges in the South African Business environment in a multicultural context.

Outcome(s):
Students should be able to:
- explain the role of business in society, considering the needs and resources of the community, the main economic systems and the nature of Business Management;
- identify and explain the internal and external business environment and the interaction between an organisation and its environment;
- define and explain the entrepreneurial process, the characteristics of an entrepreneur, the difference between an entrepreneurial venture and a small business and the phases of growth in a business;
- explain the importance of Business Ethics and analyse the relevant aspects to be considered in developing ethical behaviour and a code of ethical conduct in an organisation;
- identify and explain the origin of management theory and modern approaches currently at hand;
- analyse the Skills, roles and characteristics of managers as important role players in establishing effective and efficient business practice; and
- identify and explain all the relevant aspects, processes, characteristics, theories, models and techniques relevant to the four primary management tasks.

ASSESSMENT
- Formative and summative assessments including assignments.
- All modules must be passed in the same academic year.

CALCULATION CRITERIA
Continuous evaluation.
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 100%
- Examination Mark Weight: 0%
- Pass Mark: 50%

MODERATION
Internal moderation by subject matter experts according to UJ's moderation policy.

Short Learning Programme:

NAME OF PROGRAMME: BRIDGING FOR TAX TECHNICIAN	SHORT LEARNING PROGRAMME CONTACT - SWC	SLP CODE: S3C09Q	NQF LEVEL: 6 CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme.

MODE OF OFFERING
- Contact sessions facilitated by lecturers who are subject specialists and experienced in learning facilitation;
- Online activities which will augment practically the theory learned in class; and
- Provision for consultations with lecturers outside contact sessions.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- Students who have successfully completed the taxation modules (which are at an NQF level 6) in the Diploma in Accountancy at UJ;
  OR
- Students with at least an NQF level 6 qualification in the commerce field from any institution. These students must have successfully completed a taxation module, on NQF level 6, as part of their previous qualification.

Preparation for ACCA: Audit and Assurance A	S3CA02A	Preparation for ACCA: Audit and Assurance B	S3CA02B

MODULES AND OUTCOMES:

PREPARATION FOR ACCA: AUDIT AND ASSURANCE: A/B (S3CA02A / S3CA02B)

Purpose:
The following topics will be covered:
- Audit framework and regulation
- Planning and risk assessment
- Internal control
- Audit evidence
- Review and reporting

Outcome(s):
Students should be able to:
- explain the concept of audit and assurance and the functions of audit, corporate governance, including ethics and professional conduct;
- demonstrate how the auditor obtains and accepts audit engagements, obtains an understanding of the entity and its environment, assesses the risk of material misstatement (whether arising from fraud or other irregularities) and plans an audit of financial statements;
- describe and evaluate internal controls, techniques and audit tests, including IT systems to identify and communicate control risks and their potential consequences, making appropriate recommendations. Describe the scope, role and function of internal audit;
- identify and describe the work and evidence obtained by the auditor and others required to meet the objectives of audit engagements and the application of the International Standards on Auditing (ISAs); and
- explain how consideration of subsequent events and the going concern principle can inform the conclusions from audit work and are reflected in different types of auditor's report, written representations and the final review and report.

ASSESSMENT
- The student will receive a certificate of attendance (and not a certificate of competence) as this SLP is to prepare students to write the relevant ACCA exam, of which the student needs to register for separate to this SLP.
- Blackboard assessments will be set by UJ and ACCA student portal practice assessments will be set by ACCA.

- Interpretation of financial statements.

Outcome(s):
Students able be able to:
- understand the purpose and types of businesses and how they interact with key stakeholders and the external environment;
- understand business organisation structure, functions and the role of corporate governance
- recognise the functions, systems and new technologies in accounting and audit in communicating, reporting and assuring financial information, including the effective compliance, internal control and security of financial and other data;
- recognise the principles of authority and leadership and how teams and individuals are recruited, managed, motivated and developed;
- understand the importance of personal effectiveness as the basis for effective team and organisational behaviour; and
- recognise that all aspects of business and finance should be conducted in a manner which complies with and is in the spirit of accepted professional ethics and professional values.

ASSESSMENT
- The student will receive a certificate of attendance (and not a certificate of competence) as this SLP is to prepare students to write the relevant ACCA exam, of which the student needs to register for separate to this SLP.
- Blackboard assessments will be set by UJ and ACCA student portal practice assessments will be set by ACCA.

CALCULATION CRITERIA
N/A

MODERATION
- None as there are no formal assessments.
- This is a preparation SLP.

TYPE OF SHORT LEARNING PROGRAMME (SLP)
- Non-credit bearing short learning programme.
- This SLP is part of a suite of the Association of Chartered Certified Accountant's (ACCA) Preparation modules.

MODE OF OFFERING
- Contact sessions facilitated by lecturers who are subject specialists and experienced in learning facilitation;
- Online activities which will augment practically the theory learned in class as well as prepare the students for writing a Computer Based Exam (CBE);
- Provision for consultations with lecturers outside online sessions; and
- Supplementary activities on the ACCA portal.

CERTIFICATION
Attendance based.

ADMISSION REQUIREMENTS
- Students who have successfully completed the Diploma in Accountancy or any other accounting related qualification equivalent to NQF level 6, or completion or exemption of ACCA Foundation Level of Association of Chartered Certified Accountants (ACCA).

Preparation for ACCA: Performance Management A	S3CA07A	Preparation for ACCA: Performance Management B	S3CA07B

MODULES AND OUTCOMES:

PREPARATION FOR ACCA: PERFORMANCE MANAGEMENT: A/B (S3CA07A / S3CA07B)

Purpose:
The following topics will be covered:
- Information, technologies and systems for organisational performance
- Specialist cost and management accounting techniques
- Decision-making techniques
- Budgeting techniques and control methods
- Performance measurement and control

Outcome(s):
Students should be able to:
- identify and discuss the information, systems and developments in technology required for organisations to manage and measure performance and security of information;
- explain and apply specialist cost accounting and management techniques;
- select and appropriately apply decision-making techniques to facilitate business decisions and promote efficient and effective use of scarce business resources, appreciating the risks and uncertainty inherent in business and controlling those risks;
- identify and apply appropriate budgeting techniques and methods for planning and control and use standard costing systems to measure and control business performance and to identify remedial action; and
- assess the performance of an organisation from both a financial and non-financial control viewpoint, appreciating the problems of controlling divisionalised businesses and the importance of allowing for external aspects.

ASSESSMENT
- The student will receive a certificate of attendance (and not a certificate of competence) as this SLP is to prepare students to write the relevant ACCA exam, of which the student needs to register for separate to this SLP.

- Decision-making techniques.
- Budgeting techniques and control methods.
- Performance measurement and control.

Outcome(s):
Students should be able to:
- identify and discuss the information, systems and developments in technology required for organisations to manage and measure performance and security of information;
- explain and apply specialist cost accounting and management techniques;
- select and appropriately apply decision-making techniques to facilitate business decisions and promote efficient and effective use of scarce business resources, appreciating the risks and uncertainty inherent in business and controlling those risks;
- identify and apply appropriate budgeting techniques and methods for planning and control and use standard costing systems to measure and control business performance and to identify remedial action; and
- assess the performance of an organisation from both a financial and non-financial control viewpoint, appreciating the problems of controlling divisionalised businesses and the importance of allowing for external aspects.

ASSESSMENT
- The student will receive a certificate of attendance (and not a certificate of competence) as this SLP is to prepare students to write the relevant ACCA exam, of which the student needs to register for separate to this SLP.
- Blackboard assessments will be set by UJ and ACCA student portal practice assessments will be set by ACCA.

CALCULATION CRITERIA
N/A

MODERATION
- None as there are no formal assessments.
- This is a preparation SLP.

NAME OF PROGRAMME:	SHORT LEARNING PROGRAMME	SLP CODE:	NQF: 5
TRAINING FOR ACCOUNTING TECHNICIANS	FULL TIME – SWC	S3TATQ	CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
- Non-credit bearing short learning programme.
- The programme is in line with the South African Institute of Chartered Accountants (SAICA) Accounting Technicians (AT) qualification requirements.

MODE OF OFFERING
- Contact sessions facilitated by lecturers who are subject specialists and experienced in learning facilitation;
- Online activities which will augment practically the theory learned in class as well as prepare the students for writing a Computer Based Exam (CBE);
- Provision for consultations with lecturers outside online sessions.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- National Senior Certificate as from 2008; or
- NQF 4/Grade 12 (passed) or equivalent; and
- An overall APS of 18 (Excluding Life Orientation) with either Mathematics or Mathematical Literacy.

LEARNING ACTIVITIES

PURPOSE OF PROGRAMME
The purpose of this SLP is to provide students who do not have entry into a formal university programme with a basic accounting technician level course. This provides students the opportunity to access a career path in the field of accountancy on a technician level.

PROGRAMME CONTENT

SEMESTER MODULES			
FIRST SEMESTER		SECOND SEMESTER	
MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE
Financial Statements	S3TATQ1	Internal Control Systems	S3TATQ5

| Financial Performance | S3TATQ2 | Budgeting | S3TATQ6 |
| Business Tax | S3TATQ4 | Personal Tax | S3TATQ3 |

MODULES AND OUTCOMES:

FINANCIAL STATEMENTS: (S3TATQ1)

Purpose:
The purpose of this module is to provide students with the necessary knowledge and skills to prepare, interpret, analyse and reflect on financial statements and basic consolidated financial statements.

Outcome(s):
Students should be able to:
- prepare, interpret, reflect and analyse financial statements and basic consolidated financial statements.

BUDGETING: (S3TATQ6)

Purpose:
The purpose of this module is to provide students with the necessary knowledge and skills to prepare, interpret and analyse forecasts and budgets, as well as the impact that changes in the economic environment will have on the organisations budget and use budgetary control to ensure organisational targets are met.

Outcome(s):
Students should be able to:
- prepare, interpret and analyse forecasts and budgets and be able to explain its effect on the companies' operations; and
- use budgetary controls as a means for achieving organisational targets.

INTERNAL CONTROL AND ACCOUNTING SYSTEM: (S3TATQ5)

Purpose:
The purpose of this module is to provide students with the necessary knowledge and skills to evaluate the internal controls underpinning accounting systems and to identify internal control areas for improvement. Furthermore, the module will equip students with the skills to make recommendations on improving the internal controls within the accounting system.

Outcome(s):
Students should be able to:
- evaluate internal controls underpinning the accounting system within the organisation; and
- make recommendations on improving the internal control system.

FINANCIAL PERFORMANCE: (S3TATQ2)

Purpose:
The purpose of this module is to provide students with the necessary knowledge and skills to collate information from various sources in order to identify, analyse, prepare and interpret routine cost reports and make suggestions for improving financial performance.

Outcome(s):
Students should be able to:
- prepare, identify, analyse and interpret cost reports; and
- use these reports to make recommendations on the financial performance of organisations.

PERSONAL TAX: (S3TATQ3)

Purpose:
The purpose of this module is to provide students with the necessary knowledge and skills to calculate tax payable on income accurately account for capital gains tax correctly and complete relevant parts of self-assessment tax returns correctly.

Outcome(s):

Students should be able to:
- calculate personal income tax and capital gains tax; and
- complete relevant parts of a self-assessment tax return.

BUSINESS TAX: (S3TATQ4)

Purpose:
The purpose of this module is to provide students with the necessary knowledge and skills to prepare the relevant pages of a tax return for an unincorporated business and an incorporated business whilst producing the computations to support this accurately.

Outcome(s):
Students should be able to:
- prepare tax returns for both businesses, incorporated and unincorporated

ASSESSMENT
- During the year, students will write a minimum of two assessments for each unit which will count 50% towards the final mark.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination entry for each unit: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark for each unit: 50%

Please note: Students who have passed all the units will receive a Competence based SLP certificate and can then undertake the South African Institute of Chartered Accountants (SAICA's) Computer Based Competency Assessment (whose pass mark is 70%), should they choose to.

MODERATION
Internal moderation by subject matter experts according to UJ's moderation policy and, if necessary, with the requirements of SAICA.

PURPOSE OF PROGRAMME
The purpose of this SLP is to introduce student to the foundations of data analysis, programming and their application in addressing business challenges. In today's era, there is growing demand for digital skills across all disciplines of study and fields of work including in the fields of Marketing as well as in Information and Knowledge Management. With developments in the 4IR digital know-how is going to become a vital basic skill set demanded of everyone. Employees and entrepreneurs will need to understand how they can innovate, enhance the customer journeys and improve return on investment using digital technology. This SLP will serve the need in the market for a freestanding course from accredited Higher Education Institution that helps equip individuals in industry, the public sector as well as academia with the basics of data, programming and applications.
The programme will form part of a series of SLPs on digital-know-how offered by the School of Consumer Intelligence and Information systems (SCiiS0). The SCiiS digital-know-how SLP series are aimed at capacitating individuals including business professionals who

are not experts in IT and/or in specific areas of applied information systems with knowledge and skills needed to become innovators and effective users of information technologies in their respective areas of information technology application.

The offering of the digital-know-how SLP series by UJ will help distinguish the University as a hub of learning 4IR relevant digital technology skills in South Africa and on the continent.

SEMESTER MODULES			
FIRST SEMESTER		**SECOND SEMESTER**	
MODULE NAME	**MODULE CODE**	**MODULE NAME**	**MODULE CODE**
Basics of Data in Programming and Application in Business A	S34C1Q1	Basics of Data in Programming and Application in Business B	S34C1Q2

MODULES AND OUTCOMES:

BASICS OF DATA IN PROGRAMMING AND APPLICATION BUSINESS: A/B (S45C1Q1 / S34C1Q2)

Purpose:
The following topics will be covered:
- Explain different types of data, structures and data sources used in business decision making.
- Apply basic statistical and computational techniques to analyse data for business decision making.
- Argue the value of programming knowledge for non-programmers.
- Explain the foundation concepts of programming.
- Write simple programmes to solve business and societal problems.

Outcome(s):
Students should be able to:
- correctly explain types of data used in business decision making;
- categorise sources of data appropriately;
- data with potential insights to inform business decision making can be suitably extracted;
- use data structures correctly to inform appropriate business decision making;
- suitably extract data with potential insights to inform business decision making;
- correctly construct simple models for data analysis;
- appropriately apply basic data analysis techniques to address business problems;
- clearly argue the importance of programming knowledge for non-programmers;
- correctly explain the foundation concepts of programming;
- accurately describe common programming languages;
- correctly analyse a business and/or social problem and determine the computing requirements to its solutions correctly; and
- correctly design a simple computational programme using Python programming language.

ASSESSMENT
- Theoretical knowledge: 3 online assessments (30%)
- Practical application: 6 practical assignments (30%)
- Project: Group work to design a simple computational program to address a real-world business, economic or social challenge (40%)

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 100%
- Examination Mark Weight: 0%
- Pass Mark: 50%

Please note: Students will be required to obtain an average mark of 50% in order to be issued a Certificate of competence.

MODERATION
- Internal moderation by subject matter experts according to UJ's moderation policy.
- Appeals procedure according to the UJ's assessment policy.

PURPOSE OF PROGRAMME
The purpose of this SLP is to equip students with the skills and competencies required to effectively apply the principles of digital advertising in an organisation. The programme introduces students to the tools, techniques and media used for digital advertising and provides them with the skills required to develop solutions to address marketing and public relations challenges in the era of 4IR.
The rise of digital technologies including developments in mobile applications, social media, podcasts, and online videos has created unprecedented opportunities that can be exploited by marketers to create and implement effective digital advertising campaigns. However, the extent to which advertisers can take advantage of these opportunities rests on their skills set. This SLP programme will be offered by the School of Consumer Intelligence and Information Systems (SCiiS) will equip marketing practitioners, as well as academe with skills and competences in digital advertising in the era of the 4IR. Student who complete this programme would have covered enough content to successfully write Google Digital Marketing Certification. It is however the sole responsibility of the student to register and write the Google exams.
The programme will form part of a series of SLPs on digital-know-how offered by the SCiiS. The SCiiS digital-know-how SLP series are aimed at capacitating individuals including business professionals who are non-experts in information systems and/or in specific areas of applied information systems with knowledge and skills needed to become innovators and effective users of information technologies to enhance their job performance.
The offering of the digital-know-how SLP series by UJ will help distinguish the University as a hub of learning 4IR relevant digital technology skills in South Africa and on the continent.

SEMESTER MODULES			
FIRST SEMESTER		**SECOND SEMESTER**	
MODULE NAME	**MODULE CODE**	**MODULE NAME**	**MODULE CODE**
Digital Advertising A	S34C2Q1	Digital Advertising B	S34C2Q2

DIGITAL ADVERTISING: A/B (S34C2Q1 / S34C2Q2)

MODULES AND OUTCOMES:
- Examine impact of the 4IR on digital advertising.
- Critically examine the tools for digital advertising.
- Review the role of pricing and bidding in the planning and implementation of effective digital advertising.
- Create, optimise and deliver digital advertising campaigns
- Evaluate the tools for measuring return on investment of digital advertising.

Purpose:
The purpose of this SLP is to introduce students to foundations of data analysis, programming and their application in addressing business challenges.

Outcome(s):
Students should be able to:
- clearly explain how past industrial revolutions impacted advertising;
- clearly identify and evaluate the major effects of the 4IR on digital advertising;
- compile and appropriately evaluate the tools for digital advertising including Google Display network, demand side platforms, search engine advertising, and search engine optimisation;
- correctly identify appropriate digital advertising tools for addressing specific advertising needs;
- appropriately describe the tools for effective pricing and bidding of digital advertisements and determine the desired conditions under which particular tools can be effectively applied.
- clearly identify the implications of pricing and bidding for the effectiveness of digital advertisement campaigns;
- correctly analyse marketing communication problems and identify suitable digital advertising requirements to solve the problem;
- appropriately plan and execute digital advertising campaigns to solve marketing communication problems;
- clearly identify the tools used in evaluating digital advertising return on investment; and
- correctly implement appropriate metrics including conversions, click-through rates, impressions, website traffic numbers, and downloads to track and evaluate the success of digital advertising campaigns.

ASSESSMENT
- Theoretical knowledge: 3 online assessments (30%)
- Practical application: 9 practical assignments (30%)
- Project: Group work to design a simple computational program to address a real-world business, economic or social challenge (40%)

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 100%
- Examination Mark Weight: 0%
- Pass Mark: 50%
Please note: Students will be required to obtain an average mark of 50% in order to be issued a Certificate of competence.

MODERATION
- Internal moderation by subject matter experts according to UJ's moderation policy.
- Appeals procedure according to the UJ's assessment policy.

PURPOSE OF PROGRAMME

The purpose of this SLP is to assist IT professionals to develop an overall understanding of cloud computing concepts, Amazon Web Services (AWS) core services, security, architecture, pricing, and support and prepare them for the AWS Certified Cloud Practitioner exam*. The AWS Academy's Cloud Computing Foundations is also intended for students who seek an overall understanding of cloud computing concepts, independent of specific technical roles.

* Registering and writing the AWS Certified Solutions Architect–Associate exam is the responsibility of the IT professional.

PROGRAMME CONTENT

SEMESTER MODULES			
MODULE NAME	**MODULE CODE**	**MODULE NAME**	**MODULE CODE**
Cloud Computing Foundations A	S3IS81A	Cloud Computing Foundations B	S3IS81B

MODULES AND OUTCOMES:

CLOUD COMPUTING FOUNDATIONS: A/B (S3IS81A / S3IS81B)

Purpose:
The following topics will be covered:
- Cloud Concepts Overview
- AWS Core Services
- AWS Cloud Security
- Cloud Architecting

Outcome(s):
Students should be able to:
- argue the purpose and need/value of cloud computing;
- validate which cloud computing components should be used to create a simple implementation;
- evaluate all of the security considerations for a cloud solution; and
- validate which cloud computing components should be used to create a simple implementation to address high availability and multi-tier architectures.

ASSESSMENT
- Calculation criteria for formative assessment (50%):
    - Theoretical knowledge assessments: 20 online knowledge assessments (30%)
    - Practical application sessions: 15 online practical application sessions (30%)
    - Projects: scenario-based exercises consisting of written and lab requirements reinforcing topics within the curriculum (40%)
    - No special computer programmes are required.
- Final exam will be a practical exam.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Final Examination Weight: 50%
- Pass Mark: 50%

MODERATION
Internal moderation will take place in line with UJ policy.

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme.

MODE OF OFFERING:
Theory lectures: in sessions of 2 hours per day for 2 days a month spread over 12 days
Practical: workshops in 8 sessions lasting 1.5 hours per session

CERTIFICATION
Attendance and assessment based.

ADMISSION REQUIREMENTS:
- An Advanced Diploma or Bachelor's degree in Computer Science, Information Technology, Statistics, Information Systems, Mathematics or any other related Bachelor's Degree at NQF level 7.

- Minimum period to obtain: 1 Year.
- Maximum period to obtain: 1 Year.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
N/A

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
This short learning programme (SLP) can be an entry requirement when a prospective student needs this additional underpinning knowledge to enrol for a Master's degree in the area of big data and business analytics (predictive analytics). It should be noted that this SLP is not a replacement for an honour's degree or for a postgraduate diploma.
Most students who apply for a Master's degree in the area of big data and business analytics (predictive analytics) have a poor handling ability of computational intelligence (machine learning) tools. Computational Intelligence tools are the engines behind business analytics and predictive analytics.

PURPOSE OF PROGRAMME
The purpose this SLP is to provide students who have an Advanced Diploma of a Bachelor's degree in IT or Computer Science or Information Systems, Statistics or related fields with an opportunity to obtain higher level computational intelligence hands-on practical knowledge and skills that are required by the industry.

PROGRAMME CONTENT

YEAR MODULES (COMPULSORY)	
MODULE NAME	**MODULE CODE**
Computational Intelligence for Industry	S1IS7Q

MODULE AND OUTCOMES:

COMPUTATIONAL INTELLIGENCE FOR INDUSTRY: (S1IS7Q)

Purpose:
The purpose of this module is for students to gain specialised knowledge and hands-on skills of computational intelligence. This will enable them to understand the concept of computational intelligence in tandem with trends in data science and help them to understand the key drivers in computational intelligence.

Outcome(s):
Students should be able to:
- identify and solve business problems using computational intelligence tools;
- demonstrate an ability to work in teams when constructing the prediction or classification models that can be used as decision support tools;
- feel comfortable using machine learning tools on industry problems;
- do research through the given assignments; and
- demonstrate the ability to collect data, analyse it and then evaluate information related to the business task at hand.

ASSESSMENT
Specific rules:
- Full period mark to be calculated as follows:
  - Test 1: 12.5%
  - Test 2: 12.5%
  - Assignment: 10%
  - Hands-on practical: 15%
- Written Examination: 50%

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

MODERATION
Internal moderation according to UJ policy.

NAME OF PROGRAMME: END-USER COMPUTING	SHORT LEARNING PROGRAMME CONTACT – APB	SLP CODE: S1IS5Q	NQF LEVEL: 5 CREDITS: 32

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Credit bearing short learning programme

MODE OF OFFERING:
Lectures are presented on a part-time basis, for ten days, eight hours per day over a period of two weeks on Bunting Road Campus.

CERTIFICATION
Attendance and assessment based.

ADMISSION REQUIREMENTS
- Grade (12 NQF level 4), or
- Recognition of Prior Learning

LEARNING ACTIVITIES

ACTIVITY	HOURS	CREDITS
Contact time (Lectures)	120	-
Workshops	-	-
Work-based learning	-	-

DURATION OF PROGRAMME
- Contact time: 120 hours of lecturing hours in 3 weeks.
- Months to complete: During February – November.
- Minimum period to obtain: 6 months.
- Maximum period to obtain: 1 Year.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
This is a compulsory module for some of the qualifications within the University. This short learning programme will give the student the opportunity to apply for credits for any qualification that includes the following End-User Computing (EUC) Module codes: EUC01A1 (16 credits), EUC01B1 (16 credits), CCE1EXT (16 credits), CSL01A1 (16 credits), EUC0100 (16 Credits), FSC11A1 (16 Credits).

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
N/A

PURPOSE OF PROGRAMME
The purpose of this SLP is to introduce students to basic Information Technology (IT) terminology, skills, and the basic components of a computer. Students will be able to manipulate files and use software for word processing, presentations, spreadsheets and database applications to solve business problems. Students will be able to search the internet and utilise e-mail.

PROGRAMME CONTENT

YEAR MODULES	
MODULE NAME	**MODULE CODE**
End-User Computing	S1IS5Q

MODULE AND OUTCOMES:

END-USER COMPUTING: (S1IS5Q)

Purpose:
The purpose of this module is to equip students with skills necessary to use computers effectively in the workplace. This latter skill set is to prepare students for a career in business.

Outcome(s):
Students should be able to:
- explain concepts and terms associated with information technology;
- describe the common functions of a PC and its operating system;
- demonstrate the ability to use a word processing application on a computer;
- create and present a presentation application on a computer;
- explain concepts and terms associated with using the internet;
- demonstrate the ability to use e-mail software;
- demonstrate the ability to use a spreadsheet application; and
- demonstrate the ability to use a database.

ASSESSMENT
- Semester mark: Assessment: 2 days of electronic testing and 2 online projects.
- Examination: two 3-hour examinations online.
- Semester Mark to be calculated as follows:
  - Test 1: 15% weighting
  - Test 2: 15% weighting
  - Online Project 1: 10.0% weighting
  - Online Project 2: 10.0% weighting
- E-assessment Exam 1: 25.0% weighting
- E-assessment Exam 2: 25.0% weighting

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%
- To pass with distinction, a student has to achieve at least 75% in the module and obtain more than 40% in the examination.

MODERATION
Internal moderation according to UJ policy.

DEPARTMENT OF INFORMATION AND KNOWLEDGE MANAGEMENT

Contemporary Knowledge Management Techniques A	S3K02OA	Contemporary Knowledge Management Techniques B	S3K02OB

MODULES AND OUTCOMES:

CONTEMPORARY KNOWLEDGE MANAGEMENT TECHNIQUES: A/B (S3K02OA / S3K02OB)

Purpose:
The following topics will be covered:
- Importance of and drivers of Knowledge Management
- Corporate culture as foundation for successful Knowledge Management
- How to create a knowledge sharing culture through various tools and techniques
- Conducting a Knowledge Audit
- Steps to formulate a Knowledge Strategy
- Measuring the current Knowledge Management state of the organisation and determining a Knowledge Management course of action.

Outcome(s):
Students should be able to:
- identify the importance of and drivers of Knowledge Management;
- integrate corporate culture as foundation for successful Knowledge Management; and
- harness key success factors when managing knowledge assets.

ASSESSMENT
- Formative online assessments are completed during the three weeks (75%)
- A summative assignment submitted on completion of the SLP (25%)

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 100%
- Examination Mark Weight: 0%
- Pass Mark: 50%

MODERATION
Internal Moderation will take place in line with UJ policy.

Information Management Fundamentals A	S3K03OA	Information Management Fundamentals B	S3K03OB

MODULES AND OUTCOMES:

INFORMATION MANAGEMENT FUNDAMENTALS: A/B (S3K03OA / S3K03OB)

Purpose:
The following topics will be covered:
- The information life cycle.
- Different types of information sources.
- The Internet and WWW as information infrastructure and its tools.
- Information searing strategy.
- Information legislation.
- Research skills on information management related topics.

Outcome(s):
Students should be able to:
- describe information management and identify the elements of the information life cycle;
- classify the different types of information sources;
- demonstrate theoretical and practical knowledge of the role of the Internet and www tools in access to information and evaluate content found on the www;
- demonstrate an awareness of information legislation; and
- apply research skills on fundamental information management issues.

ASSESSMENT
- Formative online assessments are completed during the two-month period.
- Weekly assessments: 75%
- A summative assignment submitted at the end of the SLP.
- Assignment: 25%

CALCULATION CRITERIA

SEMESTER MODULES			
FIRST SEMESTER		SECOND SEMESTER	
MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE
Knowledge Management A	IKM001A	Knowledge Management B	IKM001B

MODULES AND OUTCOMES:

KNOWLEDGE MANAGEMENT: A/B (IKM001A / IKM001B)

Purpose:
The purpose of this module is to equip students with knowledge and skills relating to the importance of Knowledge Management within a contemporary organisation. To this end, students will be introduced to essential concepts such as the drivers of Knowledge Management and the necessity of corporate culture as a foundation for successful Knowledge Management. Furthermore, the purpose of this module centres on teaching students how to facilitate a knowledge sharing culture within an organisation, through employing various tools and techniques. These tools and techniques include conducting a knowledge audit, formulating a knowledge strategy, and measuring the current state of Knowledge Management within an organisation.

Outcome(s):
Students should be able to:
- identify the importance of knowledge management;
- integrate corporate culture as the foundation for successful knowledge management; and
- harness key success factors when managing knowledge assets.

ASSESSMENT
- Attendance of contact sessions is compulsory and required in order to submit the final written assignment.
- A final, open book, written assignment will be submitted within a month after the completion of the contact sessions.
- Assignment Mark Weight: 100%

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%

PURPOSE OF PROGRAMME
The purpose of this SLP is to present the concept of Competitive Intelligence to students, by highlighting the importance of identifying and analysing strategic information in an organisation's internal and external environments. Furthermore, this SLP aims to instil within students, an alignment with the ethical standards that the international community of Competitive Intelligence professionals adhere to.

PROGRAMME CONTENT

SEMESTER MODULES*			
FIRST SEMESTER		SECOND SEMESTER	
MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE
Strategic Competitive Analysis A	IKM002A	Strategic Competitive Analysis B	IKM002B

MODULES AND OUTCOMES:

STRATEGIC COMPETITIVE ANALYSIS: A/B (IKM002A / IKM002B)

Purpose:
The purpose of this SLP is to introduce students to analytical frameworks such as scenario analysis and competitor benchmarking, in order to strategically identify and present information as actionable intelligence. Through practical exercises and case studies, students will develop skills in formulating key intelligence needs, by analysing and interpreting information to gain and report on competitive insights. The purpose of this module also includes a focus on ethics in Competitive Intelligence, ensuring that students are made aware and adhere to international standards in this regard. Students will be introduced to the corporate structure as it relates to the function of Competitive Intelligence, and students will explore the skills and expertise required by a Competitive Intelligence analyst.

Outcome(s):
Students should be able to
- discuss the strategic relevance of competitive intelligence;
- share the industry standards guiding competitive intelligence ethics;
- identify sources of strategic information; and
- select the appropriate tools to conduct successful strategic competitive analysis, resulting in actionable intelligence.

ASSESSMENT
- Attendance of the contact sessions is compulsory and required in order to submit the final written assignment.
- A final, open book, written assignment will be submitted within a month after the completion of the contact sessions.

MODULES AND OUTCOMES:

SEMESTER MODULES:

MARKETING 1A: (CMS01A) (NQF LEVEL: 5 / NQF CREDITS: 12)

Purpose:

The purpose of this module is to introduce the student to the basic principles of marketing, mainly in a consumer product context. On a practical level, the student will have attained the necessary experience to identify environmental trends, understand basic consumer behaviour and market segmentation.

Outcome(s)
Students should be able to:
- understand the fundamental marketing concepts and philosophy;
- explain the interface between marketing management and the environment;
- identify customer needs and wants and determine which target markets the organisation can serve best;
- understand the decision-making process that consumers go through as they make a purchase;
- understand the role of segmentation, targeting and positioning in marketing; and
- recognise the importance of information to an organisation.

CALCULATION CRITERIA:
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

MARKETING 1B: (CMS01B) (NQF Level: 5 / NQF Credits: 16)

Purpose:

The purpose of this module is to introduce the student to the basic principles of marketing, mainly in a consumer product context. On a practical level, the student will be familiar with the product, pricing, distribution and promotion elements of the marketing mix.

Outcome(s)
Students should be able to:

- define and classify products;
- understand the nature and benefits of branding;
- identify the functional and psychological roles of packaging;
- understand the role of product in the marketing mix;
- explain the role and types of distribution channels;
- understand the concept of pricing in marketing;
- understand the importance and role of a planned, integrated communication strategy in a marketing context; and
- explain how the marketing mix is integrated in the overall marketing philosophy.

CALCULATION CRITERIA:
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

PERSONAL SELLING 1A: (CMS02A) (NQF Level: 5 / NQF Credits: 16)

Purpose:
The purpose of this module is to introduce and orientate the students towards the basic principles of direct selling. Students will be exposed to the selling process and be able to practically apply the selling process in an ethical manner within today's business context.

Outcome(s)
Students should be able to:
- explain the role of personal selling within the business context.
- describe the elements that contribute towards a successful salesperson.
- apply the selling process in an ethical manner by taking the various factors that influence buying behaviour into consideration.

CALCULATION CRITERIA:
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

ACCOUNTING 1A: (CMS03A) (NQF Level: 5 / NQF Credits: 12)

Purpose:
The purpose of this module is to provide students with the basic accountancy knowledge and skills to ensure competence in performing basic accounting reporting functions and to convert this embedded knowledge into practice.

Outcome(s)
Students should be able to:
- complete basic financial statement for an enterprise;
- describe accounting principles, policies and notes;
- understand the terms and concepts of inventory-holding and how to administer inventory systems; and
- understand and administer employee remuneration systems.

CALCULATION CRITERIA:
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

ACCOUNTING 1B: (CMS03B) (NQF Level: 5 / NQF Credits: 12)

Purpose:

The purpose of this module is to provide students with basic understanding of financial accounting principles with regards to manufacturing overheads and allocation of volume in an enterprise. Furthermore, to enable students to determine the cost of manufacturing products by evaluating, analysing and computing total cost of products.

Outcome(s)
Students should be able to:
- classify manufacturing overhead in manufacturing products;
- allocate predetermine overhead recovery rates using the tradition volume;
- compute total cost involved in manufacturing of a product; and
- evaluate and analyse she cost of manufacturing a product.

CALCULATION CRITERIA:
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

ENGLISH 1A: (CMS04A) (NQF Level: 5 / NQF Credits: 12)

Purpose:
The purpose of this foundational module is to equip students with effective communicative skills in the environment of sales and marketing.

Outcome(s)
Students should be able to:
- read and understand texts;
- understand how reading works as a process between reader and text;
- analyse, investigate and research texts;
- identify different types of texts;
- dissect and question texts;
- prepare for research using reading skills;
- practise different types of reading;
- enhance the ability to scan a text or section of a book;
- preview a text correctly.

CALCULATION CRITERIA:
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

ENGLISH 1B: (CMS04B) (NQF Level: 5 / NQF Credits: 12)

Purpose:
The purpose of this module is for students to use English effectively as a learning tool in the context of their academic programme. The module will also provide an introduction to the role and use of English in professional environments.

Outcome(s)
Students should be able to:
- understand the difference between pre-reading and reading a text;
- read a text with proper comprehension;
- ask pertinent question pertaining to a text;
- reflect on challenging opinions;
- identify main ideas in texts;
- evaluate an argument;
- contrast reading;
- compare reading;
- make notes from the text for study purposes;

- make judgements on both sides;
- make connections between different ideas and texts; and
- think about the texts.

CALCULATION CRITERIA:
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

MATHEMATICS FOR MARKETERS 1A: (CMS05A) (NQF Level: 5 / NQF Credits: 15)

Purpose:
This module is foundational and specifically designed to introduce selected financial mathematical applications in marketing and sales. The primary purpose of this module is to introduce and development of specific mathematical skills.

Outcome(s)
Students should be able to:
- understand and apply basic algebra;
- solving of linear and quadratic equations;
- application of linear equations to real situations; and
- evaluating and graphing linear quadratic and exponential functions.

CALCULATION CRITERIA:
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

MATHEMATICS for MARKETERS 1B: (CMS05B) (NQF Level: 5 / NQF Credits: 15)

Purpose:
The purpose of this foundational module is specifically designed to cover selected mathematical applications in marketing and sales. It has as its primary purpose the development of specific mathematical skills.

Outcome(s)
Students should be able to:
- understand and apply formulas of financial mathematics;
- solve systems of linear equations;
- understand and apply basic concepts of probability; and
- able to discuss and process data using central tendency.

CALCULATION CRITERIA:
- Minimum Full Period Mark for Examination Admission – 40%
- Full Period Mark weight – 50%
- Examination Mark weight – 50%
- Pass Mark: 50%

YEAR MODULES:

PERSONAL SELLING 1B: (CMS02B) (NQF Level: 5 / NQF Credits: 16)

Purpose:
The purpose of this module is to introduce the student to the practical aspect of direct selling within a real-life setting. Students will be evaluated on their practical ability to direct sell by reaching a predetermined sales target.

Outcome(s)

Students should be able to:
- select and sell products from a selected company to a selected target market in order to reach a set predetermined sales target, and;
- use the appropriate systems and databases to record, track and manage progress.

CALCULATION CRITERIA:
Continuous Assessment:
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 100%
- Examination Mark Weight: 0%
- Pass Mark: 50%

MODERATION:
External moderation for all modules according to UJ regulations,

Short Learning Programmes:

NAME OF PROGRAMME: ADVANCED RETAIL MANAGEMENT	SHORT LEARNING PROGRAMME PART TIME – APB	SLP CODE: S1MK3Q	NQF LEVEL: 6 CREDITS: 96

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Credit bearing short learning programme.

MODE OF OFFERING:
Lectures are presented on a part-time basis in blocks according to the needs of the corporate client, in sessions of 6-8 hours over 40-50 days.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- Grade12 or National Senior Certificate NQF level 4, or equivalent qualification on NQF level 4; and
- Successfully completed SLP Retail Management (S1MK1Q) or SLP Retail practice (S1MK8Q) on NQF level 5.

DURATION OF PROGRAMME
- Contact time: 300 hours of lecturing hours in 24 weeks.
- Months to complete: February to November.
- Minimum period to obtain: 1 Year.
- Maximum period to obtain: 2 Years.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
After successful completion of the programme, students who meet the applicable minimum entry requirements will be considered for credits towards the Diploma in Retail Business Management (D1RBMQ) (NQF level 6) or in combination with a related NQF level 6 diploma, for entrance into the Advanced Diploma in Retailing (A1DREQ) (NQF level 7).

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students will receive credits towards the modules entitled Business Management 2A, (BMA02A2) (16 credits), Business Managements 2B, (BMA02B2) (16 credits), Retailing 2A (RTL02A2) (16 credits), Retailing 2B (RTL02B2) (16 credits), Consumer Behaviour 1A, (CBR01A1) (16 credits), Consumer Behaviour 1B (CBR01B1) (16 credits) for the *Diploma in Retail Business Management. *Admission requirements apply in terms of diploma endorsement and minimum APS scores.

PURPOSE OF PROGRAMME
The purpose of this SLP is to provide retail practitioners with some retail experience and deeper knowledge into the retail marketing industry and to create an appreciation of consumer insights. They will also know the role of effective employment relations` in a retail organisation and be able to integrate effective supply chain management.

PROGRAMME CONTENT

YEAR MODULES (COMPULSORY)

MODULE NAME	MODULE CODE
Retail Operations Management 2	MKT013A
Retailing 2	MKT013B
Consumer Behaviour	MKT013C
Logistics	MKT013D
Employment Relations 2	MKT013E

MODULES AND OUTCOMES:

RETAIL OPERATIONS MANAGEMENT 2: (MKT013A)

Purpose:
The purpose of this module is to provide the students with a broad base of the theory and methodology of retail operations and supply management. They will also learn applied competencies in mastering, analysis, interpretation and application within this field.

Outcome(s):
Students should be able to:
- know retail operations from a systems perspective;
- define the role of retail operations strategy;
- explain process management and measurement;
- analyse the essential components of retail location and capacity management;
- discuss the retail supervisor's role in managing ethics, organisation politics, managing change and innovation; and
- demonstrate an understanding of work groups and teams and the importance of leadership skills.

RETAILING 2: (MKT013B)

Purpose:
The purpose of this module is to introduce the student to the basic principles of marketing, mainly in a consumer product and retail context. Also to introduce the students to the implementation of the marketing mix strategies, mainly in a consumer product and retail context.

Outcome(s):
Students should be able to:
- explain the fundamental retail concepts and philosophy, and the interface between retailing and the environment;
- discuss the changing retail shopper and their decision-making process regarding retail purchases;
- describe the role of retailing in the supply chain; and,
- review the influence of technology on retailing.
- define and classify products, understand the nature and benefits of branding, identify the functional and psychological roles of packaging in a retailing context;
- describe the concept pricing in retailing and review pricing strategies;
- explain the role and types of distribution channels in a retailing context; and,
- explain the importance and role of a planned, integrated communication strategy in a retailing context, and how the marketing mix is integrated in the overall retailing philosophy.

CONSUMER BEHAVIOUR: (MKT013C)

Purpose:
The primary purpose of this module is to introduce the students to the various individual and social factors that influence consumer decision making and consumer consumption behaviour.

Outcome(s):
Students should be able to:
- explain the major stages of the consumer decision making process;
- contrast the major individual and social factors that affect consumer decision making
- develop and analyse strategies aimed at effectively reaching and persuading consumers;
- apply the different consumer behaviour theories in relation to retail business operations; and
- argue the contribution of consumer behaviour to effective retail business management.

LOGISTICS: (MKT013D)

Purpose:
The purpose of this module is to focus on the development, evaluation and implementation of logistic principles in the supply chain environment. Also, to develop intellectual competencies and practical skills in the range of decisions implicit in planning and implementing logistic decisions.

Outcome(s):
Students should be able to:
- evaluate the role of logistics in the economy and retail organisation and how it impacts on customer service;
- recognise the importance of understanding product life cycle in an organisation;
- design, select and manage a distribution channel and apply the principals of logistics management in a retail context;
- discuss the role of transportation in the supply chain, global logistics and elements that influence global logistics;
- recognise how logistic costs affect customers and product profitability; and
- articulate the importance of planning for logistic managers.

EMPLOYMENT RELATIONS 2: (MKT013E)

Purpose:
The purpose of the module is to gain sufficient knowledge to enable one to identify and solve labour law disputes from a business perspective. The student will gain insight into substantive law as contained in common law, individual service contracts, collective labour law and labour legislation, as well as being conversant with relevant dispute resolution.

Outcome(s)
Students should be able to:
- identify and solve basic labour law disputes;
- appraise the nature of the employment relationship;
- recognise and appraise the importance and functioning of equity legislation in the employment relationship;
- fairly dismiss an employee and avoid perpetrating unfair labour practices;
- recognise and assess the regulation of collective labour relations in South Africa; and
- indicate and evaluate the relevant dispute routes and procedures for labour dispute.

ASSESSMENT
- A variety of assessment methods are used, including a formal summative assessment opportunity. In credit baring modules, similar methods used as in formal credit bearing modules and at the same level.
- Assessments include the following outcomes-based activities:
- Observation of real or simulated tasks, e.g. practical exercises/ demonstrations, role-plays, presentations.
- Evaluation of a product after a task has been completed, e.g., projects, assignments, case studies, portfolios, artefacts, log books, reflective journals.
- Questions, oral or written, used either separately or in combination, e.g., tests examinations, including short or long questions, essays, multiple choice questions, etc.
- All assessment activities are accompanied by a memorandum/assessment marking guide
- The number and range of assessment methods used are included in the Learning Guides. Every assessment opportunity carries a predetermined weight that takes the integration of the outcomes into account.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

MODERATION
Modules on this SLP are internally moderated according to UJ policies.

NAME OF PROGRAMME: CUSTOMER EXPERIENCE MANAGEMENT	SHORT LEARNING PROGRAMME ONLINE	SLP CODE: S3MM1O	NQF LEVEL: 5 CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme.

MODE OF OFFERING
Digital classes, workshops and online theory.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
A matric certificate on NQF level 4 or NQF lever 4 or equivalent.

PURPOSE OF PROGRAMME
The purpose of this SLP is to introduce the student to the basic principles of Customer Experience Management (CEM), mainly in a consumer product and service context. This programme intends to provide a framework for individuals aspiring to become customer experience experts by enabling a student to influence their organisation's customer retention, growth, loyalty and profitability positively in the long-term in the context of the 4th industrial revolution.

PROGRAMME CONTENT

SEMESTER MODULES			
MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE
Customer Experience Management A	S3MM1OA	Customer Experience Management B	S3MM1OB

MODULE AND OUTCOMES:

CUSTOMER EXPERIENCE MANAGEMENT: A/B (S3MM1OA / S3MM1OB)

Purpose:
The follow topics will be covered:
- Understanding the concept and basic principles of Customer Experience Management (CEM) vs Customer service
- The importance of CEM as a competitive differentiator in the artificial intelligence age
- How to create a customer experience
- Designing and implementing customer experience strategies
- CEM practical case study applications

Outcome(s):
Students should be able to:
- explain the concepts of CEM;
- highlight the importance of CEM in an artificial intelligence era;
- differentiate between CEM and customer service;
- identify and show understanding of different methodologies to create a customer experience; and
- design a CEM strategy for an organisation.

ASSESSMENT
- Formative assessments are in the form one online assessment(s) and/or in class practical application(s).
- A summative assessment will be conducted at the end of the SLP.

CALCULATION CRITERIA
- Formative Assessment Weight: 50%
- Summative Assessment Weight: 50%
- Pass Mark: 50%

MODERATION
- Assessment and moderation take place in line with UJ policy and in accordance with the UJ's assessment policy.
- One internal assessor and one internal moderator.

PURPOSE OF PROGRAMME
The purpose of this SLP is the theory and practice of using digital marketing tools, techniques and processes. Students will gain knowledge about digital marketing fundamentals, digital platforms, channels and digital mix elements available to the digital marketer.

PROGRAMME CONTENT

SEMESTER MODULES			
FIRST SEMESTER		SECOND SEMESTER	
MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE
Digital Marketing in Practice A	D01M1Q1	Digital Marketing in Practice B	D01M1Q2

MODULES AND OUTCOMES:

DIGITAL MARKETING PRACTICE: A/B (D01M1Q1 / D01M1Q1)

Purpose:
The following topics will be covered:

- Identify the latest digital marketing elements
- Discuss the elements of a well devised integrated digital marketing plan
- Compare the major digital marketing platforms, channels and mix elements
- Describe practical digital marketing examples

Outcome(s):
Students should be able to:
- describe the different digital marketing elements correctly;
- explain how digital marketers can achieve a compelling online user experience;
- outline the best practices in digital marketing;
- provide an example of a failed digital marketing plan within a given scenario;
- give suggestions on how to improve on a digital marketing plan using an integrated approach;
- develop digital goals and objectives to guide a digital marketing campaign;
- describe how search engine marketing and search engine optimisation (SEO) works and may deliver results;
- discuss the most popular social media platforms currently in use;
- recommend the most suited digital platforms to achieve different digital marketing goals and objectives;
- advise digital marketers about the different mobile channels available and the importance of location in mobile marketing;
- discuss the different forms of online advertising available to digital marketers;
- provide an example of a recent successful digital marketing strategy applied by a brand;
- explain how a brand can avoid the pitfalls of digital marketing using a real-life scenario; and
- make suggestions on how to implement a practical digital strategy to a brand in a specific scenario.

ASSESSMENT:
- Formative assessments are in the form of one assignment and one assessment (tests).
- A summative assessment will be conducted at the end of the SLP.

CALCULATION CRITERIA
- Formative Assessment Weight: 50%
- Summative Assessment Weight: 50%
- Pass mark: 50%
- Students will be required to obtain an average mark of 50% in order to be issued a Certificate of competence.

MODERATION
- Assessment and moderation take place in line with UJ policy.
- One internal assessor and one external moderator.

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
- Students may apply for acceptance in to the Diploma in Retail Business Management (D1RBMQ).
- Admission requirements apply in terms of diploma endorsement and minimum APS scores.
- After successful completion of the programme, students who also meet the applicable minimum diploma entry requirements will be considered for credits for the Diploma in Retail Business Management, and may apply for credits towards the modules entitled Retailing 1A (RTL01A1) (16 credits), Applied Accountancy Skills 1A (AAS1AA1) (15 credits), and Applied Accountancy Skills 1B (AAS1BB1) (15 credits) for the Diploma in Retail Business Management (D1RBMQ).

PURPOSE OF PROGRAMME
The purpose of this SLP is to equip students with the necessary knowledge, insight and skills that are needed to understand the world of retailing and the retailing environment. On a practical level, students will be able to engage and interact within a retail store operations by being introduced to store and non-store retailing, the retail customer, retail strategy, logistics and supply chain management, location and site location.

Outcome(s):
Students should be able to:
- recognise the trends in the retail sector;

- differentiate between the types of retailers and types of ownerships;
- state how consumers behave and more specifically how they engage and interact in a store environment;
- understand the financials of a typical retail organisation;
- communicate effectively with other members in a retail organisation; and
- understand management and supervision within a retail context.

PROGRAMME CONTENT

YEAR MODULES (COMPULSORY)	
MODULE NAME	MODULE CODE
Introduction to Business Communication	MKT007E
Applied Accountancy Skills 1A	MKT007C
Applied Accountancy Skills 1B	MKT007D
Self-Management	MKT007F
Introduction to Retailing	MKT007H
Introduction to Retail Operations	MKT007I
Management for Retailers 1A	MKT007A
Management for Retailers 1B	MKT007B
Retail Today (Elective)	MKT007G

MODULES AND OUTCOMES:

INTRODUCTION TO BUSINESS COMMUNICATION: (MKT007E)

Purpose:
The purpose of this module is to provide the students with the fundamental verbal and written business communication skills. The module assists the students to know how to professionally communicate with stakeholders inside and outside the business environment. In addition, they will learn how to source and reference various credible sources of information.

Outcome(s):
Students should be able to:
- use the appropriate form of English when communicating;
- demonstrate competence in writing a memorandum; business letters and electronic mail
- manage specific contexts for communication, including giving presentations and producing work related documents;
- build and maintain healthy and effective interpersonal relationships; and
- distinguish between aggressive, assertive and passive communication styles and write a research assignment showing the ability to reference, quote, paraphrase and summarise.

APPLIED ACCOUNTANCY SKILLS 1A: (MKT007C) – CREDIT BEARING (AAS1AA1)

Purpose:
The purpose of this module is to provide students with the basic principles of accounting, the recording of each transaction and the accounting cycle. This module helps students to understand the control process of assets, liabilities, equity, income and expenses and the accounting records of a company, as well as basic adjustments and calculations of value added tax (VAT) and a bank reconciliation statement.

Outcome(s):
Students should be able to:
- identify, name and discuss the users, objectives and elements of financial statements;
- identify all the stages of the accounting cycle and forms of ownership;
- name, analyse and interpret the accounting transactions in respect of the accounting equation;
- identify, explain, calculate, record and post transactions to the general ledger;
- identify and interpret transactions related to the purchase, depreciation and disposal of property, plant and equipment;
- present financial statements of a company;
- list the requirements for forming a company as a legal entity and demonstrate a basic understanding of company financial statements; and
- identify, explain, calculate and record VAT implications for basic financial transactions.

APPLIED ACCOUNTANCY SKILLS 1B: (MKT007D) – CREDIT BEARING (AAS1BB1)

Purpose:

The purpose of this module is to introduce basic costing, techniques and financial management at a level appropriate for non-accounting students. In this module, the student will identify and analyse costs, learn to apply basic managerial accounting techniques and prepare information for decision-making purposes applicable to services, trade and manufacturing entities.

Outcome(s):
Students should be able to:
- explain the need for managerial information;
- define cost accounting terminology and correctly use basic principles of cost classifications;
- define different terms and concepts in respect of inventory-holding and administer basic inventory systems;
- demonstrate how to calculate the remuneration of employees;
- correctly classify overheads and calculate the fixed and variable components;
- demonstrate the cost flow in a manufacturing concern and be able to determine the cost of manufactured products;
- discuss and apply the principles and theory of budgeting;
- discuss and prepare flexible budgets and "what if scenarios"; and
- discuss and apply the principles of working capital management.

SELF-MANAGEMENT: (MKT007F)

Purpose:
The purpose of this module is to introduce the student to the contemporary issues of Self-management. The topics include Self-confidence and positive attitude, goal setting and business achievement, assertiveness – a way of shaping your own life, time management, networking, leading and teamwork, creativity and problem solving, confrontation and conflict management.

Outcome(s):
Students should be able to:
- understand interpersonal skills, behaviour human relations and performance;
- describe the foundations of human behaviour;
- explain how leadership affects behaviour, human relations and performance;
- describe how teams affect behaviour, human relations and performance; and
- understand how power, politics and ethics affect human behaviour.

INTRODUCTION TO RETAILING: (MKT007H) – CREDIT BEARING (RTL0A1)

Purpose
The purpose of this module is to equip students with the necessary knowledge that is needed to understand the world of retailing and the retailing environment. Students will also gain insight into retail buyer behaviour. On a practical level, students will be able to identify trends impacting the retail sector.

Outcome(s):
Students should be able to:
- describe a retail environment;
- recognise the trends in the retail sector;
- explain the aspects impacting buyer behaviour; and
- outline the importance of various stakeholders to a retail business.

INTRODUCTION TO RETAIL OPERATIONS: (MKT007I)

Purpose:
The purpose of this module is to familiarise students with the basic principles of retail operational management.
Outcome(s):
Students should be able to:
- demonstrate an understanding of retail management within an ever-changing economy;
- define the role of a retail operational manager;
- apply the principles of the retail operational planning process;
- discuss the effective allocation, organisation and control of operational resources;
- demonstrate an understanding of operational decision-making and problem-solving; and
- discuss the nature of leading, leadership styles and practises of exemplary leaders.

MANAGEMENT FOR RETAILERS 1A: (MKT007A)

Purpose:
The purpose of this module is to introduce the student to the field of retail management. This includes supervision in a changing work place, making sound and creative decisions, improving communication skills, motivating employees and supervisory planning. This module concludes with a discussion of managing time in the work place.

Outcome(s):
Students should be able to:
- explain what supervision in the work place entails;
- explain how sound and creative decisions are made;
- determine ways of improving communication;
- explain employee motivation;
- describe supervisory planning and its implications to organisational success; and
- explain how good time management leads to better organisational success.

MANAGEMENT FOR RETAILERS 1B: (MKT007B)

Purpose:
The purpose of this module is to introduce the student to retail supervisory management. This includes the role of the retail supervisor in organising, delegating, work groups and teams. It also focuses on the developing of leadership skills, handling of conflict and stress, and the appraising and rewarding of performance. This concludes with a discussion on retail supervisory control and quality.

Outcome(s):
Students should be able to:
- describe what organising and delegating entails;
- distinguish between work groups and teams in the work environment;
- explain what leadership is
- discuss the handling of conflict and stress in the work place;
- explain performance appraisal and rewards; and
- explain the role of the supervisor in control and quality.

RETAIL TODAY: (MKT007G) (ELECTIVE) (Practical simulation in the programme - student may choose not to include the simulation to save cost)

Purpose:
The purpose of this module is to allow the students to make real life retail business decisions in a simulated environment. Students will learn the consequences of their decisions by means of analysing and interpreting the financial results or a retail organisation.

Outcome(s):
Students should be able to:
- make decisions in running a retail operation and realise the consequences of those decisions;
- draft income statements, balance sheets and cash-flow statements for the simulated business and analyse these with reference to their decisions;
- identify and measure the key drivers of business performance and realise how to give effect to these in the operational decisions they make;
- gain an appreciation of the full value-chain in their business from negotiating with suppliers to ensure shopper satisfaction; and
- understand the KPIs used in the organisation which may include trading density, stock returns, stock turns, stock cover, sales per head, return on capital employed (ROCE) and shareholder value creation.

ASSESSMENT
- A variety of assessment methods are used, including a formal summative assessment opportunity. In credit bearing modules, similar methods are used as in formal credit bearing modules and at the same level;
- Assessments include the following outcomes-based activities:
- Observation of real or simulated tasks, e.g. practical exercises/ demonstrations, role-plays, presentations;
- Evaluation of a product after a task has been completed, e.g., projects, assignments, case studies, portfolios, artefacts, log books, reflective journals;
- Questions, oral or written, used either separately or in combination, e.g., tests examinations, including short or long questions, essays, multiple choice questions, etc.;

- All assessment activities are accompanied by a memorandum/assessment marking guide; and
- The number and range of assessment methods used are included in the Learning Guides. Every assessment opportunity carries a predetermined weight that takes the integration of the outcomes into account.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

MODERATION
Modules on this SLP are internally moderated according to UJ policies.

NAME OF PROGRAMME: MARKETING 101	SHORT LEARNING PROGRAMME ONLINE	SLP CODE: S34M1Q	NQF LEVEL: 5 CREDITS: 32

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Credit bearing short learning programme.

MODE OF OFFERING
Digital classes, workshops, online theory and lab sessions.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- Two entry routes are possible:
  - Applicants whom aims to enter the Higher Certificate in Marketing and Sales – these students needs a NSC with Higher Certificate endorsement;
    OR
  - Applicants whom aims to enter the Diploma in Marketing - these students needs a NSC with Diploma endorsement and an appropriate APS score.

N/A

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Credits for the following Marketing modules:
- Marketing 1A and 1B (MAR01A1) (16 credits), and (MAR01B1) (16 credits) in the Diploma in Marketing (D1MKTQ);
  OR
- Marketing 1A and 1B (CMS01A) (16 credits), and (CMS01B) (16 credits) in the Higher Certificate in Marketing and Sales (HCMSQ1).
Note: Students must comply with the entrance requirements for the said qualifications of the UJ programme as set out in the relevant yearbook.

PURPOSE OF PROGRAMME

The purpose of this SLP is to introduce the student to marketing, mainly in a consumer product context. On a practical level, the student will have attained the necessary experience to identify environmental trends, understand basic consumer behaviour and market segmentation in a marketing context.

PROGRAMME CONTENT

SEMESTER MODULES			
MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE
Marketing 101 A	MAR01A1	Marketing 101 B	MAR01B1

MODULES AND OUTCOMES:

MARKETING 101: A/B (MAR01A1 / MAR01B1)

Purpose:
The following topics will be covered:
- Introduction to Marketing
- Marketing Environment
- Consumer Behaviour
- Marketing Research
- **7 P's of Marketing:**
  - Product;
  - Price;
  - Promotion;
  - Place;
  - People;
  - Processes; and
  - Physical evidence.

Outcome(s):
Students should be able to:
- explain the fundamental concepts of marketing;
- examine the impact the marketing environment has on the marketing function;
- research, analyse and evaluate consumer behaviour;
- evaluate and utilise the marketing mix to enhance the marketing function;
- Outline the ethical considerations that effect the marketing function; and
- Develop a marketing plan for a given case study, topic or scenario.

ASSESSMENT
- Formative assessments are in the form of one assignment and one assessment (tests).
- A summative assessment (exam) will be conducted at the end of the SLP.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

MODERATION
- Assessment and moderation take place in line with UJ policy and in accordance with the UJ's assessment policy.
- One internal assessor and one external moderator.

NAME OF PROGRAMME: MARKETING RESEARCH	SHORT LEARNING PROGRAMME ONLINE	SLP CODE: S3MM3O	NQF LEVEL: 7 CREDITS: 16

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Credit bearing short learning programme.

MODE OF OFFERING
- Use of the Blackboard Learning Management System.
- Asynchronous learning will also take place (i.e. pre-recorded presentations) to allow the students to access the content when convenient.
- Complete online quizzes.
- Blackboard Collaborate used to host workshops.
- Engagement through Blackboard Tools – i.e. online discussion forums, blogs, Wikis etc.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- A student would need to be in the process of completing or in possession of a BCom / AdvDiploma / BTech (Marketing-related qualification), where both Marketing Management 1A and 1B modules or equivalents have been completed on NQF 5 level.

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Credit for the Marketing Research 3A module (MMA13A3 and MMK13A3) (16 credits) and on (NQF level 7) offered in the BCom (Marketing Management) (B1CMMQ) programme.

PURPOSE OF PROGRAMME
The purpose of the SLP is to focus on guiding the student through the marketing research process and enables them to conduct and present sound marketing research. The aim is to develop the intellectual competencies and practical skills needed to make a range of decisions relating to the marketing research process and to be able to conduct a marketing research project.

PROGRAMME CONTENT

SEMESTER MODULES			
MODULE NAME	**MODULE CODE**	**MODULE NAME**	**MODULE CODE**
Marketing Research A	S3MM201	Marketing Research B	S3MM202

MODULES AND OUTCOMES:

MARKETING RESEARCH: A/B (S3MM201 / S3MM202)

Purpose:
The purpose of this module is:
The purpose of the programme is for the student to develop applied competencies in the mastering, analysis, interpretation and application of marketing management principles in an ethical and socially responsible manner in order to prepare them for a career in the marketing field, as well as to provide a basis for further learning. Students should be able to reflect on managerial decisions and applications to assess the effect thereof in the holistic context of management in practice. The qualification enables students to enter the marketing field in positions such as brand managers, market researchers, client and account managers, relationship managers, as well as marketing consultants.

Outcome(s):
Students should be able to:
- explain, discuss and apply the key concepts, processes and principles required for the implementation of a marketing research task;
- collect, analyse, organise and critically evaluate secondary research information using the internet, academic journals and other appropriate information sources;
- collect, analyse, organise and critically evaluate primary research information; and
- explain, evaluate and implement all the steps and research techniques to produce a research proposal or develop, conduct and report on a marketing research project within a given scenario.

ASSESSMENT
- Formative assessments in the form of two semester tests and one assignment.
- A summative assessment will be conducted at the end of the SLP

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

Please note: the SLP will follow the same assessment method as in the formal programme whereby the assessments (semester tests and examination) be written on campus. Suitable online assessments will be used if the students are unable to write on campus.

MODERATION
The same as the formal programme (internal assessor and external moderator) - UJ's Assessment and Moderation Policy will be followed.

NAME OF PROGRAMME: RETAIL MANAGEMENT	SHORT LEARNING PROGRAMME FULL-TIME – APB	SLP CODE: S3M01Q	NQF LEVEL: 5 CREDITS: 88

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Credit-bearing short learning programme.

MODE OF OFFERING:
Lectures are presented on a blended mode, in two sessions of 45 minutes per module per week over a semester (14 weeks)

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- Grade 12 or National Senior Certificate NQF level 4, or equivalent qualification on NQF level 4 and Admission Point Score (APS) score of 22 or higher with Maths Lit – 3 and English – 3 will be considered.

DURATION OF PROGRAMME
- Contact time: 210 hours of lecturing hours in 28 weeks.
- Months to complete: February to November.
- Minimum period to obtain: 1 Year.
- Maximum period to obtain: 2 Years.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
- Students without diploma endorsement but with Higher Certificate endorsement may apply for acceptance in to the Higher Certificate in Marketing and Sales (HCMSQ1), provided they have completed the SLP Retail Management (S3M01Q) within the first year of registration and obtained a minimum mark of 60% for each of the following modules: English 1A, English 1B, Mathematics for Retailers 1A and Mathematics for Retailers 1B. Additional departmental selection criteria will apply.
- After successful completion of the programme, students who also meet the applicable minimum entry requirements will be considered for credits for the:
- Diploma in Retail Business Management (D1RBMQ); or
- Higher Certificate in Marketing and Sales (HCMSQ1).

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
- Students may apply for acceptance into the Diploma in Retail Business Management (D1RBMQ), provided they have diploma endorsement and have completed the SLP Retail Management within the first year of registration and obtained a minimum mark of 60% for each of the following modules: English 1A (CMS04A) (12 credits), English 1B (CMS04B) (12 credits), Mathematics for Retailers 1A (M01Q3A) and Mathematics for Retailers 1B (M01Q3B). Additional departmental selection criteria will apply.
- Students may apply for credits towards the modules in Retailing 1A, (RLT01A1) (16 credits), Retailing 1B, (RTL01B1) (16 credits), Personal selling 1A (PRS01A1) (16 credits), Personal selling 1B (PRS0Y1B) (16 credits), Business Management 1A (BMA01A1) (12 credits), and Business Management 1B (BMA01B1) (12 credits) toward the Diploma in Retail Business Management (D1RBMQ).

Alternatively, students may apply for credits towards the following modules in the Higher Certificate in Marketing and Sales (HCMSQ1); Personal selling 1A (CMS02A1) (16 credits), Personal selling 1B (CMS02B2) (16 credits), English 1A (CMS04A) (12 credits), English 1B (CMS04B) (12 credits), Mathematics for Marketers 1A (CMS05A) (16 credits) and Mathematic for Marketers 1B (CMS04B) (16 credits)

- Note application for credits towards the Higher Certificate in Marketing and Sales (HCMSQ1) will be limited to 50% (60 credits maximum) of the total credits of the Higher Certificate in Marketing and Sales (HCMSQ1).

PURPOSE OF PROGRAMME

The purpose of this SLP is to provide the students with the basic understanding, knowledge and skills around the retail industry and retail operations. On a more practical level, the SLP will provide the students with an opportunity to develop their sales skills and interact within a retail sales role. Further, the programme assists to develop the English and mathematical skills needed in the field of retailing.

MODULES AND OUTCOMES:

ENGLISH 1A: (CMS04A)

Purpose:
The module is foundational in nature. The purpose of this module is to equip students with effective communicating skills in the environment of Sales and Marketing.

Outcome(s):
Students should be able to:
- read and understand texts;
- understand how reading works as a process between reader and text;
- analyse, investigate and research texts;
- identify different types of texts;
- dissect and question texts;
- prepare for research using reading skills;
- practise different types of reading;
- enhanced ability to skim through a text;
- enhanced ability to scan a text or section of a book; and
- preview a text correctly.

ENGLISH 1B: (CMS04B)

Purpose:
The purpose of this module is for students to use English effectively as a learning tool in the context of their academic programme. The module will also provide an introduction to the role and use of English in professional environments.

Outcome(s):
Students should be able to:
- understand the difference between pre-reading and reading a text;
- read a text with proper comprehension;
- ask pertinent question pertaining to a text;
- reflect on challenging opinions;
- identify main ideas in texts;
- evaluate an argument;
- contrast reading;
- compare reading;
- make notes from the text for study purposes;
- make judgements on both sides;
- make connections between different ideas and texts; and
- think about the texts.

MATHEMATICS FOR RETAILERS 1A: (M01Q3A)

Purpose:
The purpose of the module is foundational in nature. The module is specifically designed to introduce mathematical applications in retail and sales. It has as its primary purpose the development of specific mathematical skills.

Outcome(s):
Students should be able to:
- understand and apply basic algebra;
- solve linear and quadratic equations;
- apply linear equations to retail situations; and
- evaluate and graph linear quadratic and exponential functions.

MATHEMATICS FOR RETAILERS 1B: (M01Q3B)

Purpose:
The aim of the module is foundational in nature. The module is specifically designed to cover selected applications in retail and sales. It has as its primary purpose the development of specific mathematical skills. On a practical level this module will develop the applied retail mathematics skills needed for a retail and sales setting.

Outcome(s):
Students should be able to:
- understand and apply formulas of retail financial mathematics;
- solve systems of linear equations;
- understand and apply basic concepts of probability; and
- discuss and process data using central tendency.

PERSONAL SELLING 1A: (CMS02A)

Purpose:
The purpose of this module is to introduce and orientate the students to towards the basic principles of direct selling. Students will also be exposed to the selling process and will be able to practically apply the selling process in an ethical manner within a contemporary business context.

Outcome(s):
Students should be able to:
- explain the role of personal selling within the business context;
- describe the elements that contribute towards a successful salesperson; and
- apply the selling process in an ethical manner by taking the various factors that influence buying behaviour into consideration.

PERSONAL SELLING 1B (CMS02B)

YEAR MODULES:

CALCULATION CRITERIA
Continuous assessment
Minimum Full Period Mark for Examination Admission: 0%
Full Period Mark weight: 100%
Examination Mark weight: 0%

Purpose:
The purpose of this module is to introduce the student to the practical aspects of direct selling within a real-life setting. Students will be evaluated on their practical ability to direct sell by reaching a predetermined sales target.

Outcome(s):
Students should be able to:
- select and sell products from a selected two non-competing, companies, to a selected target market in order to reach a set of predetermined sales targets; and
- use the appropriate systems and databases to record, track and manage their progress.

RETAILING 1A: (M01Q2A)

Purpose:
The purpose of this module is to equip students with the necessary knowledge that is needed to understand the world of retailing and the retailing environment. Students will also gain insight into retail buyer behaviour. On a practical level, students will be able to identify trends impacting the retail sector.

Outcome(s):
Students should be able to:
- describe a retail environment;
- recognise the trends in the retail sector;
- explain the aspects impacting buyer behaviour; and
- outline the importance of various stakeholders to a retail business.

RETAILING 1B: (M01Q2B)

Purpose:
The purpose of this module is to equip students with the necessary knowledge, insight for managers of a retail business. On a practical level, students will be able to explain the business functions relating to managing a retail business

Outcome(s):
Students should be able to:
- describe the marketing activities impacting retail business;
- explain merchandising, logistics and supply chain management in a retail business;
- discuss the supplementary retail business functions; and
- identify the components of a retail business plan.

RETAIL OPERATIONS MANAGEMENT 1A: (M01Q1A)

Purpose:
The purpose of this module is to introduce students to the needs and wants of people, the production factors, the business environment, entrepreneurship, management theories and tasks to enhance their understanding of the retail business context.

Outcome(s):
Students should be able to:
- describe the needs and wants of people and the role production factors play in a retail business;
- discuss how a business and its environment influence each other;
- describe entrepreneurship in the context of production factors;
- discuss the history and theories of management and also the impact thereof on organisations today; and

- explain the role of a retail manager and apply management tasks.

RETAIL OPERATIONS MANAGEMENT 1B: (M01Q1B)

Purpose:
The purpose of this module is to introduce students to the functions of a business to enhance their business knowledge.

Outcome(s):
Students should be able to:
- Discuss and apply the basic concepts and principles of the following business functions:
  - human resources;
  - marketing;
  - finance;
  - operations;
  - supply chain;
  - administration; and
  - public relations.

ASSESSMENT
- A variety of assessment methods is used, including a formal summative assessment opportunity.
- In credit baring modules, similar methods used as in formal credit bearing modules and at the same level.
- Assessments include the following outcomes-based activities.
- Observation of real or simulated tasks, e.g. practical exercises/ demonstrations, role-plays, presentations.
- Evaluation of a product after a task has been completed, e.g., projects, assignments, case studies, portfolios, artefacts, log books, reflective journals.
- Questions, oral or written, used either separately or in combination, e.g., tests examinations, including short or long questions, essays, multiple choice questions, etc.
- All assessment activities are accompanied by a memorandum/assessment marking guide.
- The number and range of assessment methods used are included in the Learning Guides. Every assessment opportunity carries a predetermined weight that takes the integration of the outcomes into account.

CALCULATION CRITERIA (EXCEPT FOR PERSONAL SELLING 1B)
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

MODERATION
- Modules in this SLP are internally moderated.
- Except for English 1A (CMS04A) (12 credits), English 1B (CMS04B) (12 credits), Personal Selling 1A (CMS02A) (16 credits), Personal selling 1B (CMS02B) (16 credits), Mathematics for Retailers1A (M01Q3A) and Mathematics for Retailers 1B (M01Q3B) that will be externally moderated.

NAME OF PROGRAMME: RETAIL PRACTICE	SHORT LEARNING PROGRAMME PART TIME – APB	SLP CODE: S1MK8Q	NQF LEVEL: 5 CREDITS: 32

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Credit bearing short learning programme

MODE OF OFFERING:
Lectures are presented on a part-time basis in blocks according to the needs of the corporate client in sessions of 6-8 hours over 10-12 days on Blocks on APB Campus or off-campus.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
Grade 12 or National Senior certificate equivalent.

Total hours	320	-
Total number of credits	-	32

DURATION OF PROGRAMME
- Contact time: 80 hours of lecturing hours in 2 weeks.
- Months to complete: February to November.
- Minimum period to obtain: 1 Year.
- Maximum period to obtain: 2 Years.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
N/A

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
After successful completion of the programme, students who also meet the applicable minimum diploma entry requirements, will on application be considered for credits for the modules in Retailing 1A (RTL01A1) (16 credits) and Retailing 1B (RTL01B1) (16 credits) for the Diploma in Retail Business Management (D1RBMQ).

PURPOSE OF PROGRAMME
The purpose of this SLP is to equip students with the basic knowledge, insight and skills to enable them to manage people, space, and merchandise and customer service within a store environment.

PROGRAMME CONTENT

YEAR MODULES (COMPULSORY)	
MODULE NAME	**MODULE CODE**
Retailing	RET1SE0
Retail Today	RETT1E0

MODULES AND OUTCOMES:

RETAILING 1: (RET1SE0)

Purpose:
The purpose of this module is to equip students with the necessary knowledge that is needed to understand the world of retailing and the retailing environment. Students will also gain insight into retail buyer behaviour. On a practical level, students will be able to identify trends impacting the retail sector. Also, to equip students with the necessary knowledge, insight for managers of a retail business. On a practical level, students will be able to explain the business functions relating to managing a retail business.

Outcome(s):
Students should be able to:
- describe a retail environment,
- recognise the trends in the retail sector,
- explain the aspects impacting buyer behaviour; and
- outline the importance of various stakeholders to a retail business
- describe the marketing activities impacting retail business;
- explain merchandising, logistics and supply chain management in a retail business;
- discuss the supplementary retail business functions; and,
- identify the components of a retail business plan.

RETAIL TODAY: (RETT1E0)

Purpose:
The purpose of this module is for the students to make real life retail business decisions in a simulated environment. Students will learn the consequences of their decisions by means of analysing and interpreting the financial results of a retail organisation.

Outcome(s):
Students should be able to:
- make decisions in running a retail operation and realise the consequences of those decisions;
- draft income statements, balance sheets and cash-flow statements for the simulated business and analyse these with reference to their decisions;
- identify and measure the key drivers of business performance and realise how to give effect to these in the operational decisions they make;
- gain an appreciation of the full value-chain in their business from negotiating with suppliers to ensure shopper satisfaction; and
- understand the KPIs used in the organisation which may include trading density, stock returns, stock turns, stock cover, sales per head, return on capital employed (ROCE) and shareholder value creation

ASSESSMENT
- A variety of assessment methods are used, including a formal summative assessment opportunity. In credit baring modules, similar methods used as in formal credit bearing modules and at the same level.
- Assessments include the following outcomes-based activities:
- Observation of real or simulated tasks, e.g. practical exercises/ demonstrations, role-plays, presentations.
- Evaluation of a product after a task has been completed, e.g., projects, assignments, case studies, portfolios, artefacts, log books, reflective journals.
- Questions, oral or written, used either separately or in combination, e.g., tests examinations, including short or long questions, essays, multiple choice questions, etc.
- All assessment activities are accompanied by a memorandum/assessment marking guide
- The number and range of assessment methods used are included in the Learning Guides. Every assessment opportunity carries a predetermined weight that takes the integration of the outcomes into account.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

MODERATION
Modules in this SLP are internally moderated.

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
- After successful completion of the programme, students who also meet the applicable minimum Diploma entry requirements will be considered for the Diploma in Retail Business Management (D1RBMQ) or the Diploma in Marketing (D1MKTQ).
- Students will receive credits towards the modules entitled End User Computing 1A, (EUC01A1) (16 credits), End User Computing 1B, (EUC01B1) (16 credits), English 1A, (RMM1AA1) (16 credits), English 1B, (RMM1BB1) (16 credits), Personal Selling 1A, (PRS01A1) (16 credits), Applied Accountancy Skills 1A (AAS1AA1) (15 credits), and Applied Accountancy Skills 1B, (AAS1BB1) (15 credits) on the Diploma in Retail Business Management (D1RBMQ) or on the Diploma in Marketing (D1MKTQ).
- Student must have diploma endorsement if they apply for credits.

PURPOSE OF PROGRAMME
The purpose of this SLP is to equip the students with basic skills needed in the workplace in terms of language, sales, basic computer skills and financial understanding applicable to the retail industry.

PROGRAMME CONTENT

YEAR MODULES (COMPULSORY)	
MODULE NAME	MODULE CODE
End User Computing	MKT022A

English	MKT022B
Personal Selling	MKT022C
Financial Management	MKT022D

MODULES AND OUTCOMES:

END USER COMPUTING: (MKT022A)

Purpose:
The purpose of this module is to introduce the students to basic Information Technology (IT) terms, skills and the basic components of a computer. The students will also be able to manipulate files, use word processing applications and presentation software.

Outcome(s):
Students should be able to:
- explain concepts and terms associated with it;
- demonstrate the ability in using common functions of a pc and its operating system;
- demonstrate the ability to use a word processing application on a computer; and
- demonstrate the ability to use a presentation application on a computer.

ENGLISH: (MKT022B)

Purpose:
The purpose of this module is to equip students with effective communicative skills in the environment of Marketing and Retailing. In addition, the purpose of this module is for students to use English effectively as a learning tool in the context of their academic programme. The module will also provide an introduction to the role and use of English in professional environments.

Outcome(s):
Students should be able to:
- demonstrate awareness of the differences between academic language, professional language, and everyday colloquial language;
- understand the role of communication in professional life;
- demonstrate the ability to read a variety of texts including entry-level journal articles;
- demonstrate understanding with the discourse structure of academic and professional texts;
- express ideas clearly in writing;
- collect, analyse, organise, and critically evaluate information; and
- communicate effectively using visual, symbolic and/or language skills in various modes.

PERSONAL SELLING: (MKT022C)

Purpose:
The purpose of this module is to introduce and orientate the students to towards the basic principles of direct selling. Students will be exposed to the selling process and be able to practically apply the selling process in an ethical manner within today's business context.

Outcome(s):
Students should be able to:
- explain the role of personal selling within the business context;
- describe the elements that contribute towards a successful salesperson; and
- apply the selling process in an ethical manner by taking the various factors that influence buying behaviour into consideration.

FINANCIAL MANAGEMENT: (MKT022D)

Purpose:
The purpose of this module is to provide the student with a well-rounded, understanding of financial management principles. Furthermore, students will be able to apply financial competencies in the mastering, analysis, interpretation of financial performance of a retail organisation.

Outcome(s):
Students should be able to:
- calculate the level of working capital in a business;
- identify and explain the dangers of overtrading;

- understand the effects on cash flow from external and internal events and actions;
- monitor the actual performance of a business against budget; and
- understand the importance of financial reporting.

ASSESSMENT

- A variety of assessment methods are used, including a formal summative assessment opportunity. In credit baring modules, similar methods used as in formal credit bearing modules and at the same level.
- Assessments include the following outcomes-based activities:
- Observation of real or simulated tasks, e.g. practical exercises/ demonstrations, role-plays, presentations.
- Evaluation of a product after a task has been completed, e.g., projects, assignments, case studies, portfolios, artefacts, log books, reflective journals.
- Questions, oral or written, used either separately or in combination, e.g., tests examinations, including short or long questions, essays, multiple choice questions, etc.
- All assessment activities are accompanied by a memorandum/assessment marking guide
- The number and range of assessment methods used are included in the Learning Guides. Every assessment opportunity carries a predetermined weight that takes the integration of the outcomes into account.

CALCULATION CRITERIA:

- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

MODERATION

Modules on this SLP are internally moderated according to UJ policy.

NAME OF PROGRAMME: RETAIL STRATEGY	SHORT LEARNING PROGRAMME ONLINE	SLP CODE: S3MM4O	NQF LEVEL: 7 CREDITS: 95

NOT TO BE OFFERED TO THE GENERAL PUBLIC.

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Credit bearing short learning programme.

MODE OF OFFERING
- Lecturers will be conducted online via the LMS (BlackBoard).
- Students will be required to access the learning materials and complete activities for each module as described in the module learning guide.
- Assessment will take place remotely using the LSM and take-home assignments /exams in line with assessment in the credit-bearing equivalent.

The programme is case study-based, and lectures will be presented by university lectures. Industry subject experts will be used as guest lecturers where appropriate, but only to complement existing university lectures or learning material and only if necessary.
- The UJ Learning Management System (LMS) BlackBoard®
- Read and review materials
- Participate in discussion forums
- Participate in Business-simulation

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- Appropriate diploma (NQF level 6) or degree (NQF level 7) in Retail or a related field.
- The qualification in a related field could for example be in:
    - Business Management, Marketing, Entrepreneurship or Small Business Management.
- Alternatively, the student must have completed the departmental SLP Advanced Retail Management (S1MK3Q) (95 credits) on (NQF level 6).
- The SLP Advanced Retail Management (S1MK3Q) on (NQF level 6) can only be attempted once the student has successfully completed the SLP in Retail Management (S1MK1Q) on (NQF level 5).

*Entrance requirements for the AdvDip (Retailing) (A1DREQ), as per the College yearbook must be met before these students will be accepted on this SLP.

ONLINE SEMESTER MODULES		
PROGRAMME CAN ONLY BE DONE IN 1ST SEMESTER OR 2ND SEMESTER (COMPULSORY MODULES)		
MODULE NAME	MODULE CODE	CREDITS
Contemporary Retailing	S3MM4O3	16 Credits
Employment Relations for Retailers	S3MM4O4	0 Credits
Finance for Non-financial Managers	S3MM4O5	15 Credits
Strategic Retailing	S3MM4O1	16 Credits
ELECTIVES		
Retailing (Elective)	S3MM4O7	16 Credits
Retail Today (Elective)	S3MM4O6	0 Credits

MODULES AND OUTCOMES:

COMPULSORY MODULES

CONTEMPORIRY RETAILING: (S3MM4O3)

Purpose:
The purpose of this module is to provide the student with a sound understanding of new trends/developments in the field of retailing that retailers face on a daily basis in an African context. Furthermore, the module aims to provide the student with the knowledge and skills evaluate market dynamics and interrogate new technologies in the retail sector. This module also aims to teach students to critically evaluate published documentation and to formulate their own opinion on contemporary retail issues.

Outcome(s):
Students should be able to:
- critically evaluate the unique market dynamics in both the South African and African retail market place;
- analyse and interrogate new developing technologies in both the South African and international retail sector;
- critically evaluate different retail sales, service and promotional channels and make recommendations with regard to achieving an integrated customer retail experience; and
- interact with industry role players and devise a retailing strategy for a real-life challenge that is prevalent in the retail industry.

EMPLOYMENT RELATIONS FOR RETAILERS: (S3MM4O4)

Purpose:
The purpose of this module is to provide the student with a sound understanding of advanced employment relations theories and practices and enable them to develop an employment relations strategy for a retail organisation.

Outcome(s):
Students should be able to:
- explain employment relations problems by applying advanced theories and practice;
- develop a critical approach to employment relations literature, issues and practices applicable to the retailing sector;
- develop an employment relations strategy for a retail organisation;
- manage employment relations processes within a retail environment; and
- measure the efficiency and effectiveness of employment relations in retail.

FINANCE FOR NON-FINANCIAL MANAGERS: (S3MM4O5)

Purpose:
The purpose of this module is to introduce management accounting and finance principles and concepts at a level consistent with non-accounting students. In this module, students will be taught the basic principles of cost and management accounting, the use of different capital budgeting techniques, the preparation of a manufacturing cost statement as well as cash budgets, the use of cost-volume profit analysis and calculations relating to capital investment and financing decisions, and the calculation and interpretation of working capital ratios.

Outcome(s):
Students should be able to:
- identify the relevance of costs when making management decisions, distinguish between different types of costs and understand the impact of these differences on risk management and short-term and long-term management decisions;
- define and understand the different terms and concepts used in relation to inventory, be able to classify inventory according to these criteria, and record basic inventory transactions in various management reports;
- identify and record transactions relating to the payment of wages, and the recording of wage deductions and other labour expenses;
- correctly classify overheads, calculate the fixed and variable components and understand the concepts and principles of standard costing and variance analysis;
- understand the cost flows in a manufacturing concern and be able to prepare a manufacturing cost statement;
- explain the relationship between costs, volume of production and profit, calculate the break-even point for a product, and explain the implications of this for management planning and decision-making;
- identify the purpose of budgeting, explain the budgeting process, prepare a basic cash budget and show how flexible budgeting can be used by management to control dimensions of the business and optimise profit;
- explain the importance of capital investment decisions and the use of various decision-making tools to optimize investment decisions; and
- identify the elements of working capital and the relevance of working capital ratios as a management tool.

STRATEGIC RETAILING: (S3MM4O1)

Purpose:
The purpose of this module is to develop the applied and practical competencies of the student in the acquisition, understanding and application of strategic retailing. It provides an intensive, focused and applied specialisation within the field of retail to ensure that students have a deep and systematic understanding of current thinking, practice and theory in the field of Strategic Retail. Also, to allow the student to develop an implementable strategic plan for a retail organisation by drawing on their practical competencies that the student acquired throughout the programme. Students will make decisions based on their systematic understanding of current thinking, practice and theory in the field of Strategic Retail.

Outcome(s):
Students should be able to:
- demonstrate a systematic understanding of international retailing thinking, practice, theory and methodology;
- apply the principles of international retailing to problems in case studies (scenarios) and reflect on the applications made;
- analyse international business and retail strategies;
- discuss cooperative strategy, strategic leadership and style which will ensure strategic retailing practice;
- define and classify products, understand the nature and benefits of branding in a retailing environment;

- discuss the current thinking and practice regarding multi-channel retailing
- demonstrate cooperative, strategic leadership thinking and problem solving in a retail situation;
- ensure strategic retailing practice;
- develop a strategic plan within a given retail situation; and
- apply the principles of retailing to problems in case studies (scenarios).

ELECTIVE MODULES

RETAILING (ELECTIVE): (S3MM4O7)

Purpose:
The purpose of this module is to equip students with the necessary knowledge that is needed to understand the world of retailing and the retailing environment. Students will also gain insight into retail buyer behaviour. On a practical level, students will be able to identify trends impacting the retail sector. Also, to equip students with the necessary knowledge, insight for managers of a retail business. On a practical level, students will be able to explain the business functions relating to managing a retail business**.**

Outcome(s):
Students should be able to:
- describe a retail environment,
- recognise the trends in the retail sector,
- explain the aspects impacting buyer behaviour; and
- outline the importance of various stakeholders to a retail business
- describe the marketing activities impacting retail business;
- explain merchandising, logistics and supply chain management in a retail business;
- discuss the supplementary retail business functions; and,
- identify the components of a retail business plan.

RETAIL TODAY: (S3MM4O6)

Purpose:
The purpose of this module is to allow the student to develop an implementable strategic plan for a retail organisation by drawing on their practical competencies that the student acquired throughout the programme. Students will make decisions based on their systematic understanding of current thinking, practice and theory in the field of Strategic Retail.

Outcome(s):
Students should be able to:
- demonstrate cooperative, strategic leadership thinking and problem solving in a retail situation;
- ensure strategic retailing practice;
- develop a strategic plan within a given retail situation; and
  apply the principles of retailing to problems in case studies (scenarios) and/or business simulations.

ASSESSMENT
- All modules (equivalent and non-equivalent) will have several formative and summative assessment in the form of written tests, case studies, individual and group assignments/presentations, small group interaction, business simulations and exams. Both the formative and summative assessments will be guided by the assessment policy of the University.
- The weighting of formative assessments and summative assessment will be the same as **the equivalent module/s** in the accredited qualification to determine the final mark for the module.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

MODERATION
- External moderation will be done on exit level modules subject experts with the relevant experience and qualification as per the UJ policy.
- Internal moderation will be done for the non-exist modules as per the UJ policy.

NAME OF PROGRAMME: STRATEGIC MARKETING MANAGEMENT	SHORT LEARNING PROGRAMME ONLINE	SLP CODE: S3MM20	NQF LEVEL: 7 CREDITS: 16

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Credit bearing short learning programme.

MODE OF OFFERING
- Use of the Blackboard Learning Management System.
- Asynchronous learning will also take place (i.e. pre-recorded presentations) to allow the students to access the content when convenient.
- Complete online quizzes.
- Blackboard Collaborate used to host workshops.
- Engagement through Blackboard Tools – i.e. online discussion forums, blogs, Wikis etc.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
A student would need to be in the process of completing or in possession of a BCom / Adv Diploma / BTech (Marketing-related qualification), where both Marketing Management 1A and 1B module or equivalent modules have been completed on NQF 5 level.

LEARNING ACTIVITIES

ACTIVITY	HOURS	CREDITS
Contact time (Lectures)	-	-
Online (Lecturers)	42	-
Workshops	-	-
Work-based learning	-	-
Independent reading/ interacting with learning material/online activities	70	-
Preparation for and completion of assignments and other assessment activities	42	-
Tutorials	6	-
Other (specify)	-	-
Total hours	160	-
Total number of credits	-	16

DURATION OF PROGRAMME
- Two classes held twice a week for 3 hours each for a 7-week period (2 sessions X 3 hours each X 7 weeks = 42 hours).
- One tutorial session held for 50 minutes per week for a 7-week period (50 minutes X 7 weeks = 5,8 hours).

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
N/A

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Credit for the Strategic Marketing Management 3B (MMK23B3) modules each with 16 credits and on NQF level 7 offered in the BCom (Marketing Management) (B1CMMQ) programme.

PURPOSE OF PROGRAMME
The purpose of this SLP is to equip students with the integrated knowledge needed to develop strategic marketing plans that empower organisations to successfully compete and secure future growth prospects in their respective markets. The secondary purpose of this SLP is to provide students with a holistic view of the role, power and strategic importance of the marketing function in an organisation.

PROGRAMME CONTENT

SEMESTER MODULES

MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE
Strategic Marketing Management	MMA13A3	Strategic Marketing Management	MMK23B3

MODULES AND OUTCOMES:

STRATEGIC MARKETING MANAGEMENT: (MMA13A3 / MMK23B3)

Purpose:
The following topics will be covered:
- Marketing function
- Marketing environment
- Competitive advantage
- Segmentation, Targeting and Positioning process
- Strategic marketing plan

Outcome(s):
Students should be able to:
- Integrate the knowledge acquired of the roles, functions, and different levels of strategic marketing in order to develop a carefully crafted strategic marketing plan for an organisation. In order to produce this marketing plan, students will need to:
  - analyse the market, external and internal organisational environments;
  - evaluate the different competitive strategies that organisations can pursue;
  - understand the importance of developing a sustainable competitive advantage for the organisation selected;
  - apply the principles of market segmentation, targeting and positioning to the strategic marketing plan; and
  - understand the importance of strategy implementation, monitoring and control to secure the successful execution of a strategic marketing plan.

ASSESSMENT
- Formative assessments in the form of two semester tests and on assignment.
- A summative assessment will be conducted at the end of the SLP.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

MODERATION
The same as the formal programme (internal assessor and external moderator) - UJ's Assessment and Moderation Policy will be followed.

SCHOOL OF ECONOMICS

DEPARTMENT OF ECONOMICS AND ECONOMETRICS

Bridging Programmes:

NAME OF PROGRAMME: BRIDGING PROGRAMME IN ECONOMICS	SHORT LEARNING PROGRAMME PART TIME - APK	SLP CODE: S3EBHQ	NQF LEVEL: 7 CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme.

MODE OF OFFERING
Contact time on campus

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- National Senior Certificate, NQF level 4 (NSC) obtained in 2008 or after, or Senior Certificate (SC) obtained prior to 2008; and
- Having completed a degree with a minimum of 55% for Economics 3 on NQF level 7 or have completed an equivalent relevant qualification at NQF level of 7.

LEARNING ACTIVITIES

Total hours	**794**	**-**
Total number of credits	**-**	**0**

DURATION OF PROGRAMME
- Contact time: 2 hours X 2 days X 28 weeks.
- Months to complete: 12 Months. Module will be offered over two semesters, two modules in the first semester and two modules in the second semester.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
This programme may allow qualifying students to enrol for BComHons (Economics) (UJ).

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students that successfully complete the Bridging Programme in Economics will be eligible to apply for admission into the BComHons (Economics).

PURPOSE OF PROGRAMME
The purpose of this bridging programme is to provide students with strong and academically sound knowledge, understanding, insight and skills with the aim of further learning in Economics. The programme is designed mainly to prepare the student for further studies in Economics. The programme also provides students with training for the job market by providing them with the tools for the correct interpretation and understanding of the economy on a microeconomic level, within a framework of the business environment.

PROGRAMME CONTENT

SEMESTER MODULES			
FIRST SEMESTER		SECOND SEMESTER	
MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE
Microeconomics	S3EBHQ1	Macroeconomics	S3EBHQ3
Mathematical Economics	S3EBHQ2	Macroeconomic Research	S3EBHQ4

MODULES AND OUTCOMES:

MICROECONOMICS: (S3EBHQ1)

Purpose:
The purpose of this module is to develop the key understanding of the micro-economy, to provide the tools for the correct interpretation and understanding of the economy on a microeconomic level, within a framework of the business environment.

Outcome(s):
Students should be able to:
- apply microeconomic theories to decision making by individual consumers and firms;
- correctly calculate the utility and profit maximisation problems faced by consumers and firms; and
- develop predictions of the pricing behaviour of firms under different market conditions.

MATHEMATICAL ECONOMICS: (S3EBHQ2)

Purpose:
The purpose of this module is to develop the key understanding of the concepts, functions and principals of mathematical economics and to provide the student with tools for the correct interpretation and understanding of the mathematical systems that are relevant to the interpretation, understanding and analysis of the data that relates to the functioning of the economy.

Outcome(s):
Students should be able to:
- perform the mathematical operations in linear algebra, optimisation, matrix algebra and integrals required in the manipulation of economic models;
- perform differentiation of functions as applied to economic problems;
- do constrained optimisation problems and solve these accurately; and
- do simultaneous equations which are properly specified and solved with the use of matrix algebra.

MACROECONOMICS: (S3EBHQ3)

Purpose:
The purpose of this module is to develop a key understanding of the real functioning of the macro-economy, to provide the tools for the correct interpretation and understanding of the economy on a macroeconomic level, within a national and institutional framework.

Outcome(s):
Students should be able to:
- apply macroeconomic theories to decision making and policy prescription;
- demonstrate how macroeconomic models are applied and correctly manipulated to produce predictions of economic events; and
- explain how macroeconomic models are applied and correctly manipulated to produce prescriptions for economic policy.

MACROECONOMIC RESEARCH: (S3EBHQ4)

Purpose:
The purpose of this module is to develop the key understanding of the concepts, functions and principles of economic research and to provide the tools for the correct procedures and practices that are required for effective research and research writing.
Outcome(s):
Students should be able to:
- apply basic research methods in economics;
- demonstrate how relevant data is sourced and appropriately presented with the aid of Excel;
- show how written data commentaries which convey the meaning behind the data are produced; and
- demonstrate how Economic literature is synthesised into an argumentative essay which is coherent and well-researched.

ASSESSMENT
Formative and Summative assessment for each module.

CALCULATION CRITERIA
- Minimum Full Period Mark for examination entry: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

MODERATION
Internal moderation by subject matter experts according to UJ's moderation policy.

Whole Programmes: None

Short Learning Programmes:

NAME OF PROGRAMME: APPLIED ECONOMETRIC ANALYSIS AND FORECASTING	SHORT LEARNING PROGRAMME PART TIME – APB / APK / OFF-CAMPUS	SLP CODE: S3TEAQ	NQF LEVEL: 7 CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme and/or CPD Programme in association with a professional body.

CERTIFICATION
Attendance based.

ADMISSION REQUIREMENTS
- BCom (Economics);
- Experience in the fields related to economics, econometrics, statistics or business; and
- Applicants will be subject to an internal selection process.
- Basic knowledge of economics, statistics or mathematics is recommended.

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
N/A

PURPOSE OF PROGRAMME
The purpose of this SLP is to equip students with quantitative skills necessary for building economic models underlying economic relationships that exist between variables. In addition, the programme assists candidates in forecasting major macroeconomic and financial variables using time-series techniques. Consequently, policymakers and practitioners with no quantitative background will be able to provide sound recommendations derived from quantitative analysis of economic relationships. A better forecasting is necessary for economic agents who are constantly making decisions on investment or other actions which are dependent on the future.

PROGRAMME CONTENT

SEMESTER MODULES			
FIRST SEMESTER		SECOND SEMESTER	
MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE
Applied Econometric Analysis and Forecasting A	S3TEAQ1	Applied Econometric Analysis and Forecasting B	S3TEAQ2

MODULES AND OUTCOMES:

APPLIED ECONOMETRIC ANALYSIS AND FORECASTING: A/B (S3TEAQ1 / S3TEAQ2)

Purpose:
The purpose of the module is to introduce students to basic time series analysis. Students who complete this module will have acquired the needed background to perform basic simple and multivariate regression analyses.

Outcome(s):
Students should be able to:
- provide quantitative analysis of economic variables based on descriptive analysis and graphical representation;
- interpret results obtained from quantitative estimation of economic relationship;
- provide policy recommendations from quantitative estimation of economic relationships; and
- forecast economic variables based on econometric models.

- Contact time: 10 days over 2 weeks for 8 hours per day.
- Months to complete: Will be presented in both semesters.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
It complements the SLP LED: Applied Trade and Industrial Policy of CENLED.

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
N/A

PURPOSE OF PROGRAMME
The purpose of this SLP is to equip the relevant officials (students) with the necessary skills and techniques for an advanced understanding of industrial development strategies and policies in order to analyse, manage and monitor industrial development programmes in their respective countries.

PROGRAMME CONTENT

SEMESTER MODULES			
FIRST SEMESTER		SECOND SEMESTER	
MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE
Industrial Policy in Africa A	S3CIPQ1	Industrial Policy in Africa B	S3CIPQ2

MODULES AND OUTCOMES:

INDUSTRIAL POLICY IN AFRICA A: (S3CIPQ1)

Purpose:
The purpose of this module is to analyse industrial strategies and policies in Africa, examine the management and implementation of industrial policies, rehabilitation and restructuring of the industrial sector.

Outcome(s):
Students should be able to:
- analyse general industrial strategies and policies in Africa;
- investigate the application of general industrial strategies and policies in Africa;
- evaluate the conceptual aspects of the management of industrial policies;
- assess the operational aspects of the management of industrial policies;
- evaluate rehabilitation of the industrial sector; and
- assess restructuring of the industrial sector.

INDUSTRIAL POLICY IN AFRICA B: (S3CIPQ2)

Purpose:
The purpose of this module is to study the instruments and techniques of industrial sector analysis, instruments and techniques of project evaluation and conduct environment impact assessments of industrial projects and programmes.

Outcome(s):
Students should be able to:
- explain the different instruments and techniques for industrial sector analysis;
- apply the different instruments and techniques for industrial sector analysis;
- explain the different instruments and techniques for project evaluation;
- apply the different instruments and techniques for project evaluation; and
- conduct an environment impact assessment of industrial projects and programmes.

Tutorials	-	-
Other (specify)	-	-
Total hours	30	-
Total number of credits	-	0

DURATION OF PROGRAMME
- Contact time: 4 hours X 5 days.
- Months to complete: The SLP will take place either in July and November, depending on demand.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
The purpose of this SLP is intended to strengthen the quantitative skills of participants in the fields of econometrics and data analysis. This SLP complements the training conducted in the BCom (Economics and Econometrics), BComHons (Economics), BComHons (Econometrics) and MCom (Development Economics) programmes and/or Econometrics programme for which panel data econometrics is either not offered or only offered at an introductory level.

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
N/A

PURPOSE OF PROGRAMME
The purpose of the SLP in panel data analysis is for academic and non-academic researchers to critically engage with the econometric methods of panel data and specific procedures for estimation using STATA software so that their analytical skills are strengthened to ensure evidence-based practice and decision-making in their respective contexts.

PROGRAMME CONTENT

SEMESTER MODULES			
FIRST SEMESTER		SECOND SEMESTER	
MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE
Panel Data Analysis A	S34PAQ1	Panel Data Analysis B	S34PAQ2

The short learning programme covers cross sectional panel data and panel time series analysis, which consists of the following:

For cross sectional panel (dataset with many panels and few time periods), the SLP will cover:
- fixed-effects models
- random-effects models and
- dynamic panel-data models.

For panel time series (datasets with few panels and many time-periods), the SLP will address:
- Estimation in heterogeneous parameter models with related issues such as:
  - stationarity,
  - heterogeneity,
  - cointegration, and
  - cross sectional dependence
- Estimation in spatial panel topics such as
  - the Seemingly Unrelated Regression (SUR),
  - fixed and random effects spatial lag and,
  - fixed and random effects spatial error models.

MODULES AND OUTCOMES:

PANEL DATA ANALYSIS: A/B (S34PAQ1 / S34PAQ2)

Purpose:
Panel data analysis offers students a wide range of technical tools designed to analyse issues that cannot otherwise be done in traditional econometrics (cross sectional and time series econometrics). This SLP intends to contribute to capacity building which is key for productivity improvement through professional development. Moreover, this training is particularly vital for policy decision-making and evaluation which represents an important pillar of economics and development economics.

Outcome(s):
Students should be able to:
- estimate a panel econometrics model;
- apply advanced econometric techniques to the analysis of "longitudinal" or panel datasets;
- evaluate the incidence of panel econometric issues such as heterogeneity, endogeneity and cross-sectional dependence;
- estimate various panel data specifications using STATA software;
- evaluate policy decisions using panel data techniques; and
- critically evaluate the techniques that can be used to exploit both cross-sectional and time dimensions for better inference and policy.

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
N/A

PURPOSE OF PROGRAMME
The purpose of the SLP is to equip both academic and non-academic researchers with skills to process survey data appropriately by ensuring proper handling of data issues, such as stratification, clustering, dual frames and unequal probability samples, among others, so that sound analyses and policy recommendations may take place.

PROGRAMME CONTENT

SEMESTER MODULES			
FIRST SEMESTER		SECOND SEMESTER	
MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE
Survey Data Analysis A	S34SAQ1	Survey Data Analysis B	S34SAQ2

This programme is designed to:
- apply the key components of survey design and analyse the relevant data using techniques related to survey errors in existing survey data; and
- apply mostly limited-dependent variable regression techniques to survey data.

The first part lays the foundation for survey design and survey data treatment. It introduces participants to:
- survey design;
- post survey (sampling and non-responses) error corrections through appropriate weighting mechanisms using Stata;
- methodologies of bootstrapping, kernel density estimation and basic regression analyses; and
- intermediate issues of using survey data to draw inferences on the underlying population.

The second part covers:
- limited dependent variable models both in cross- sectional and limited-time panel survey data

MODULES AND OUTCOMES:

SURVEY DATA ANALYSIS: A/B (S34SAQ1 / S34SAQ2)

Purpose:
Survey data analysis offers students valuable insight into the main components of rigorous survey data analysis which is often required when making sound policy evaluations and/or recommendations.

Outcome(s):
Students should be able to:
- design a survey;
- process and clean survey data including, but not limited to, the determination of sampling and non-response errors and construction of weights to correct for sampling errors and techniques of non-response adjustments;
- apply bootstrapped methods for estimating standard errors, kernel density estimations and regression techniques for both quantitative and qualitative variables; and
- implement various other survey data estimation techniques for the analyses of socio-economic policies issues using the STATA software.

PURPOSE OF PROGRAMME
The purpose of the SLP is to develop knowledge and skills in South Africa in regulatory economics, including models of dominant firm conduct, incentives regarding investment decisions, and different approaches to regulation such as rate of return and price-caps. It will provide an understanding of the key economic theories and concepts coupled with how they are applied in practical scenarios. This will enable students to be better equipped to work as economists for economic regulatory bodies.

PURPOSE OF PROGRAMME
The purpose of this SLP is to provide practitioners in the field, including those working for competition authorities and regulators in different African countries, with key economic theories and concepts coupled with how they are applied in practical scenarios. This will enable them to directly apply the knowledge gained in order to rigorously analyse mergers and acquisitions, assess the possible abuse of market power by dominant firms, and identify likely coordinated conduct (cartels).

Core Principles in Economic Regulation and Competition Economics A	COE0001	Core Principles in Economic Regulation and Competition Economics B	COE0002

MODULES AND OUTCOMES:

CORE PRINCIPLES IN ECONOMIC REGULATION AND COMPETITION ECONOMICS: A/B (COE0001 / COE0002)

Purpose:
The purpose of this SLP is to equip students with the relevant knowledge and skills to understand core concepts and models of competition economics and apply these core concepts in the analysis of relevant case studies.

Outcome(s):
Students should be able to:
● identify the core concepts and models of competition economics; and
● apply the core concepts in competition economics to analyse case studies.

CORE PRINCIPLES IN ECONOMIC REGULATION AND COMPETITION ECONOMICS: B (COE0002)

Purpose:
The purpose of this SLP is to equip students with the relevant knowledge and skills to identify the process of economic analysis of the various types of competition cases and explain how this economic analysis has taken place in South Africa.

Outcome(s):
Students should be able to:
● identify the key steps in the economic analysis of the main types of competition cases: mergers, collusive conduct, exclusionary abuse of dominance, exploitative abuse of dominance; and
● explain how the economic analysis has been undertaken in the key cases in South Africa.

PURPOSE OF PROGRAMME
The purpose of the SLP is to develop knowledge and skills in South Africa in legal principles in competition and economic regulation. Knowledge and skills development will be implemented through providing an understanding of the key economic theories and concepts in competition and economic regulation as they apply to legal analysis. This will enable students to be better equipped to work as lawyers for competition authorities or economic regulatory bodies.

Legal Principles for Competition and Economic Regulation	S3E22QA	Legal Principles for Competition and Economic Regulation	S3E22QB

MODULES AND OUTCOMES:

LEGAL PRINCIPLES FOR COMPETITION AND ECONOMIC REGULATION: A/B (CCRED3A / CCRED3B)

Purpose:
The purpose of this SLP is to develop knowledge and skills in South Africa in the law of economic regulation. Knowledge and skills development will be implemented through providing an understanding of the key economic theories and concepts in economic regulation as they apply to legal analysis. This will enable students to be better equipped to work as lawyers for economic regulatory bodies.

Outcome(s):
Students should be able to:
- understand competition law and sector regulations;
- explain the requirements for each of the stages in the economic regulatory process; and
- draft legal documents essential for competition cases regulatory practice and functioning.

NAME OF PROGRAMME: HIGHER CERTIFICATE IN LOCAL ECONOMIC DEVELOPMENT	WHOLE PROGRAMME ONLINE	WP CODE: F34E1O	NQF LEVEL: 5 CREDITS 120

TYPE OF WHOLE PROGRAMME (WP)
Credit bearing whole programme

MODE OF OFFERING:
Lectures and assessments are presented online.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- A National Senior Certificate (NSC) NQF level 4, granting access to Higher Certificate studies;
- A National Certificate (Vocational), (NQF Level 4), granting access to Higher Certificate studies;
- A foreign qualification that is equivalent to the NSC as determined by the South African Qualifications Authority (SAQA); OR
- Any further Education and Training Certificate (FETC) at NQF level 4.

LEARNING ACTIVITIES

ACTIVITY	HOURS	CREDITS
Online tuition	120	-
Workshops	-	-
Work-based learning	-	-
Independent self-study of texts and references (Study guides, books and journal articles)	240	-
Independent self-study of texts and references (Case studies and multi-media)	600	-
Tutorials (Discussion groups)	120	-
Other (specify) (Online assessment opportunities)	120	-
Total hours	1200	-
Total number of credits	-	120

DURATION OF PROGRAMME
Months to complete: January to November.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
The successful completion of the Higher Certificate in Local Economic Development (LED) (F34E1O) provide opportunity for students, to apply for admission to short learning programmes (SLPs) in LED.

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
- The successful completion of the 120-credit HCert (Local Economic Development) (LED) (F34E1O) provides an opportunity for students, who meets the minimum entry requirements of UJ for Mathematics or Mathematical Literacy, to apply for admission to an extended Bachelor's degree.
- Students are given foundational provision covering relevant academic skills together with subject-related themes, required to facilitate learning in the regular modules of Bachelor of Commerce degree programmes.
- The combination of foundational modules enables students to develop a comprehensive perspective and effective strategies for adjusting to, and meeting the demands of, the higher education environment with the aim of being successful in the chosen Bachelor of Commerce programme.

- Horizontally, articulation possibilities exist with other NQF Level 5 programmes, and credits obtained by completion of a module in this programme may be credited in other programmes at NQF Level 5.

PURPOSE OF PROGRAMME

The purpose of the Higher Certificate in Local Economic Development is to prepare students for a career in Local Economic Development. This programme will develop theoretical knowledge and practical competence and skills on NQF 5 in Local Economic Development to enable students in their working environment. The purpose of this qualification is further to prepare students who do not comply with the minimum statutory or institutional admission requirements to access a Diploma and/ or Degree studies, or students who want to explore various career path options relating to Local Economic Development (LED).

The envisaged outcomes of the programme are that students will be able to understand and apply basic local economic development principles, processes and procedures. The student should be able to make decisions in the context of local economic development, interpret relevant information and produce responses based on informed judgment to concrete but often unfamiliar problems.

Aligned with the requirements of the NQF Level 5 outcomes, the purpose of the qualification is also to provide the student with a range of fundamental knowledge and competencies in fields such as Local Economic Development, Marketing, Entrepreneurship, Business Management, Transport and Accountancy in LED. The qualification should also improve the students' basic proficiency in English, their general computer skills and their basic numeracy skills which are required for these fields.

Exit level Outcome(s):

Students should be able to:

- apply basic local economic development concepts and principles and propose solutions to problems relating to the local economic development strategies and policies;
- work in a team with various role players in the local economic development profession;
- communicate with different role players, applying local economic development principles;
- utilise basic technology appropriate to the local economic development environment;
- explain the role and regulations of the local economic development profession, on a macro- and a local-level;
- reflect on ethical implications in decision-making within the local economic development context;
- undertake investigations in the local economic development field and presenting related information;
- distinguish between the relationships and impact of different fields within local economic development; and
- identify and manage local economic development information and select information appropriate to the task.

HIGHER CERTIFICATE IN LOCAL GOVERNANCE AND MANAGEMENT: (F34E1O)

MODULES AND OUTCOMES:

APPLIED ACCOUNTING PRINCIPLES FOR LOCAL ECONOMIC DEVELOPMENT PRACTITIONERS: (F34E1OC)

Purpose:
The purpose of this module is to equip students with knowledge to apply basic accounting principles for effective financial decision-making in a local economic environment/ organisation. Students will receive guidance on how to manage a local business in a financially sustainable way through the application of accounting principles.

Outcome(s):
Students should be able to:
- describe the components and interrelationships of the different financial accounts;
- explain double entry accounting, debits and credits and apply the basic rules governing the proper application of debit and credit in relation to major account classification;
- explain the layout and application of the books of first entry and accounting system in a local enterprise;
- prepare reconciliations and perform month end accounting procedures; and
- compare and contrast a statement of financial position (Balance sheet), a statement of changes in equity and a statement of comprehensive income (Income statement) and identify the financial information reported by each.

ASSESSMENT CRITERIA:
- The preliminary steps in preparing the financial section of a business plan, namely estimated levels of sales and expenses, is correctly identified and described;
- The components and interrelationships of the different categories of accounts are correctly described with reference to the nature and purpose of each; and
- cash flow assessments are correctly done through exercises.
- The double entry accounting, debit and credit and the basic rules governing the proper application of debit and credit in relation to major account classification are correctly explained and applied in a case study of a local business.
- The layout and application of the books of first entry and accounting system in a local enterprise are correctly explained.
- Reconciliations are correctly prepared and month end accounting procedures are accurately performed.
- The difference between a statement of financial position, a statement of changes in equity and a statement of comprehensive income and the financial information reported by each are correctly identified, compared and contrasted.

ENGLISH FOR LOCAL ECONOMIC DEVELOPMENT PRACTITIONERS: (F34E1OA)

Purpose:
The purpose of this module is to enable students to gain a background in English grammar and usage, to develop an ability to read texts critically with comprehension and insight, and to acquire skills in reading and writing at tertiary level. This module will also enable students to apply English writing skills in any career relating to Local Economic Development.

Outcome(s):
Students should be able to:
- identify some of the main characteristics of academic writing;
- analyse texts to identify informal and formal styles of writing; and
- apply knowledge of the characteristics of academic writing by re-writing an informal text to make it more formal for the purposes of academic writing.

ASSESSMENT CRITERIA:
- The main characteristics of academic writing are correctly identified.
- Informal and formal styles of writing texts are accurately identified.
- Informal texts are re-written accurately in academic writing style.

FUNDAMENTALS OF BUSINESS MATHEMATICS FOR LOCAL ECONOMIC DEVELOPMENT PRACTITIONERS: (F34E1OD)

Purpose:
The purpose of this module is to provide students with foundational quantitative skills which includes having confidence and competence when working with numbers to analyse and evaluate real-life economic and financial situations and case-studies.

Outcome(s):
Students should be able to:
- perform basic algebraic calculations to analyse and profile a local economy;

- apply descriptive statistics to do investigations and to write reports; and
- use appropriate empirical methodology to describe local economic problems.

ASSESSMENT CRITERIA:
- Basic algebraic calculations are performed correctly to enlighten problems in a local economy through a workplace case study.
- Descriptive statistics are applied accurately to do investigations for the Profiling of a Local Economy through a case study.
- The statistical information is reported in a format that readily and unequivocally highlights the key issues and concerns in the local area.
- Appropriate empirical methodology is correctly identified and applied to describe local economic problems.

INTRODUCTION TO BUSINESS MANAGEMENT FOR LOCAL ECONOMIC DEVELOPMENT PRACTITIONERS: (F34E1OB)

Purpose:
The purpose of the module is to provide students with an overview of Business Management as a science and prepare them for challenges faced in the South African business environment in a Local Economic Development context. It will also address the need and importance of business in local economies to improve the standards of living through the delivery of a range of better quality goods and services in order to satisfy the needs of communities and providing employment opportunities. Lastly it will provide students to see how businesses take care of various welfare activities for workers, inter alia providing a safer and healthier work environment for employees.

Outcome(s):
Students should be able to:
- explain the role of business in society, considering the needs and resources of the community, the main economic systems and the nature of the local economy;
- identify and explain the internal and external business environment and the interaction between an organisation and its environment;
- explain the importance of business ethics and analyse the relevant aspects to be considered in developing ethical behaviour and a code of ethical conduct in an organisation;
- identify and explain the origin of management theory and modern approaches currently at hand;
- analyse the skills, roles and characteristics of managers as important role players in establishing an effective and efficient business practice; and
- identify and explain the relevant aspects, processes, characteristics, theories, models and techniques relevant to the four primary management tasks.

ASSESSMENT CRITERIA:
- The role of business in society is explained correctly, with reference to the needs and resources of the local economy through a case study.
- The internal and external business environment of a local economy are accurately identified and explained through an online presentation in real time.
- The importance of business ethics is explained and analysed indicating the relevant aspects to be considered in promoting ethical behaviour and a code of ethical conduct in an organisation successfully.
- The origin of current management theory and modern approaches are correctly identified and explained in a literature study.
- The skills, roles and characteristics of managers are analysed.
- Advice and guidance to address the specific needs of small and start-up firms in a local economy is correctly presented through a case study.
- Aspects, processes, characteristics, theories, models and techniques relating to the four primary management tasks are correctly identified and explained in a summative assignment.

INTRODUCTION TO LOCAL ECONOMIC DEVELOPMENT (LED): (F34E1OE)

Purpose:
The purpose of this module is to prepare students to understand the challenges of what local economic development entails in a South African and Africa context namely poverty and unemployment. LED strategies must prioritise job creation and poverty alleviation and target previously disadvantaged people, marginalised communities and geographical regions, black economic empowerment enterprises and Small Medium and Micro Enterprises to allow them to participate fully in the economic life of the country.

Outcome(s):
Students should be able to:

- classify the different local economic development theories and approaches to LED;
- explain the basic concepts, goals and objectives of LED;
- identify and describe the role of the different role players in the LED process; and
- analyse a local economy and depict the main economic activities.

ASSESSMENT CRITERIA:
- The different approaches to economic development is correctly described through a literature study.
- The basic concepts, goals and objectives of LED are correctly explained.
- The roles of the different role players in the LED process are accurately identified and described.
- The different programs and activities that communities employ to achieve economic development goals are fully described.
- The critical issues, strengths, and weaknesses of the community, and the particular opportunities and challenges the community faces are correctly discern in a case study.
- The existing programs and resources in the particular local area are correctly identified and analysed to recommend an expansion or modification of resources or programs to meet the identified needs.

COMMUNICATION FOR LOCAL ECONOMIC DEVELOPMENT PRACTITIONERS: (F34E1OG)

Purpose:
The purpose of this module is to provide students with the opportunity to learn about, and more importantly, to practice the written and verbal communication skills they will need to be successful in the local economic development profession and to promote the local economic development profession more broadly within communities.

Outcome(s):
Students should be able to:
- discuss the terminology used in the communication process;
- write effective business correspondence, in the form of letters, memoranda, paragraphs, an investigative report and feedback report;
- describe how people communicate non-verbally; and
- communicate effectively in a short oral presentation through skype.

ASSESSMENT CRITERIA:
- The terminology used in the communication process is discussed through appropriate examples of the different terms.
- Business correspondence, i.e. letters, memoranda, paragraphs, investigative report and feedback report are written in the correct format.
- The use of non-verbal communication is described with reference to appropriate examples.
- Correct communication techniques are demonstrated in a short oral presentation.

END-USER COMPUTING FOR LOCAL ECONOMIC DEVELOPMENT PRACTITIONERS: (F34E1OF)

Purpose:
The purpose of this module is to introduce students to basic IT (Information Technology) terms and the basic components of a computer. Students will learn to manipulate files and use word processing applications to record and process information and data relevant to local economic problems. Thirdly, students will learn how to use presentation software, spreadsheet applications and database application software to solve problems. Lastly, students will learn how to search the internet and utilise e-mail applications.

Outcome(s):
Students should be able to:
- explain concepts and terms associated with Information Technology (IT);
- identify common functions of a PC and its operating system;
- illustrate the ability to use a presentation application on a computer;
- explain concepts and terms associated with using the internet;
- illustrate the ability to use e-mail software on a computer;
- analyse data, draw diagrams and complete tables using a spreadsheet application on a computer; and
- demonstrate the ability to use a database application on a computer.

ASSESSMENT CRITERIA:
- Concepts and terms associated with Information Technology (IT) are correctly explained.
- The common functions of a PC and its operating system are correctly identified in completing tasks.

- The ability to use a word processing application on a computer is demonstrated accurately by completing prescribed tasks.
- The ability to use a presentation application on a computer is correctly illustrated by completing prescribed tasks and a skype presentation.
- Concepts and terms associated with using the internet are correctly explained.
- The ability to use e-mail software on a computer is illustrated by completing prescribed tasks in real time.
- The ability to use a spreadsheet application on a computer is accurately demonstrated by completing prescribed assignments.
- Survey information focus groups information, and an economic base analysis in a local economy is correctly presented.

ENTREPRENEURSHIP FOR LOCAL ECONOMIC DEVELOPMENT PRACTITIONERS: (F34E1OH)

Purpose:
The purpose of this module is to equip students with a thorough introduction to entrepreneurship theories, how these relate to local economic development, as well as the entrepreneurial mind-set, to prepare students to successfully plan, launch and manage their own business venture or assist others to set up their own ventures.

Outcome(s):
Students should be able to:
- describe the importance of entrepreneurship in local economic development;
- discuss the entrepreneurial attitude and behaviour;
- describe the basic concepts of creativity and innovation;
- classify and discuss the different methods to identify new ventures; and
- explain how networking can assist a venture.

ASSESSMENT CRITERIA:
- The importance of entrepreneurship in local economic development is accurately described.
- The entrepreneurial attitude and behaviour is discussed accurately.
- The characteristics of an entrepreneur are analysed through a case study.
- The nature of the individual entrepreneurial mind-set is discussed correctly.
- The features of the corporate entrepreneurial mind-set are correctly discussed.
- The nature and key distinguishing features of social entrepreneurship are accurately identified.
- The basics of concepts of creativity and innovation are correctly described.
- The different methods to identify new ventures are researched and discussed with reference to relevant examples.
- Networking as a tool that can assist a venture is explained with reference to relevant examples.
- Elements of entrepreneurial and small business development support is identified through a networking exercise.

INTRODUCTION TO MARKETING FOR LOCAL ECONOMIC DEVELOPMENT PRACTITIONERS: (F34E1OJ)

Purpose:
The purpose of this module is to assist students to develop a marketing mind-set while exploring issues and topics relevant to consumer behaviour in the local economic environment and to realise how marketing today permeates every facet of our daily lives. It will also indicate how cities market themselves as places to live, play and invest and that developing a marketing mind-set is one of the keys to success for Local Economic Development and other practitioners.

Outcome(s):
Students should be able to:
- describe the principles of consumer behaviour in a local economic environment;
- discuss the role of people, process, product, price, place, promotion and physical evidence in the services marketing mix;
- describe and apply the principles of relationship marketing in a local economic environment; and
- design a marketing mix for a selected local area.

ASSESSMENT CRITERIA:
- The principles of consumer behaviour in a local economic environment are accurately described.
- The role of people, process, product, price, place, promotion and physical evidence in the services marketing mix are discussed using correct examples of each.
- The principles of relationship marketing are correctly described and applied using practical local economic examples.
- A marketing mix for the selected local area is designed accurately using relevant descriptions of each of the elements of the marketing mix focussing on exposure, presentation and cost.

- The use of marketing to entice local, government, national, and international businesses and entrepreneurs to invest, start-up, remain, or expand their economic activity in the local economy are correctly analysed and explained.

THE ROLE OF INFRASTRUCTURE IN A LOCAL ECONOMIC DEVELOPMENT CONTEXT: (F34E1OI)

Purpose:
The purpose of this module is to familiarise students with the role and importance of infrastructure in South Africa and its impact on the local economy. It will also address the fact that the infrastructure sector is an essential component of the economy with strong effects on development and the welfare of populations.

Outcome(s):
Students should be able to:
- analyse the changing global landscape for business and other organisations and the external forces that drive change in the global economy;
- discuss the role and contribution of infrastructure to Local Economic Development; and
- describe the development of infrastructure related careers and their contribution to the South African economy.

ASSESSMENT CRITERIA:
- The changing global landscape for business and other organisations and the external forces that drive change in the global economy are correctly analysed and presented.
- The changing global landscape for business and other organisations and the external forces that drive change in the global economy are correctly analysed and presented.
- The development of infrastructure related careers and their contribution to the South Africa economy are correctly described.

ASSESSMENT
- Continuous formative online assessments consist of continuous knowledge checks and self-assessment.
- Each module consists of several units and each unit will be continuously assess. On its own each unit have to be passed with 50%, before the student will be allowed to access the next unit with in a specific module.
- Summative online assessments are scheduled at the end of each module.
- The summative online assessments will have a higher weighting than for the continuous formative online assessments.

KIND OF ASSESSMENTS EXPLAINED
Formative assessment refers to assessment that takes place during the process of learning. In designing the online formative assessments for the modules, the following aspects were adhered to:
- That the assessment supports the learning process
- That the assessment provides immediate and constructive feedback to the student on academic progress
- That the assessment is developmental in nature and contributes to the students capacity for self-evaluation
- That the assessment helps the student to make decisions on the readiness to enter into the summative assessment

Summative assessments are conducted for the purpose of making an evaluation of the level of competence of students in relation to the outcomes of a module. The results of the final assessment are expressed as a mark reflecting a pass or fail. The student anticipates his/her readiness to enter into the summative assessment.

Students will be permitted to complete formative and summative assessments in their own place of work or residence. In this instance, various controls will be in place regarding the summative assessment. A limited time will be provided for completion of the summative assessment. Furthermore, the function to prohibit navigation between assessment questions is built in. The time is linked to the marks assigned to the summative assessment.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 40%
- Examination Mark Weight: 60%
- Pass Mark for each module: 50%

MODERATION:
- The academic member of staff overseeing the module will manage the summative assessment, and assessments will be moderated before uploading the assessment questions electronically into a data bank for specific selection for each summative assessment.
- External moderators will be appointed for all exit level NQF 5 summative assessments.

Short Learning Programmes:

NAME OF PROGRAMME: ANALYSING INDUSTRIAL CLUSTERING FOR ECONOMIC DEVELOPMENT	SHORT LEARNING PROGRAMME PART TIME – APK/APB/DFC/SWC OR OFF CAMPUS	SLP CODE: S3AICQ	NQF LEVEL: 6 CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
- Non-credit bearing short learning programme.
- CPD Programme in association with a professional bodies being International Economic Development Council (IEDC) and Economic Development Council of South Africa (EDCSA).
- Entrance into the IEDC Certification Exam.

MODE OF OFFERING
On demand only in groups or groupings of 20 persons.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
Attained 70% in the SLP "Introduction to Industrial Clustering" (S3IICQ).

SEMESTER MODULES			
FIRST SEMESTER		SECOND SEMESTER	
MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE

Analysing Industrial Clustering for Economic Development A	S3AICQ1	Analysing Industrial Clustering for Economic Development B	S3AICQ2

MODULES AND OUTCOMES:

ANALYSING INDUSTRIAL CLUSTERING FOR ECONOMIC DEVELOPMENT: A/B (S3AICQ1 / S3AICQ2)

Purpose:
The following topics will be covered:
- overview of the rise in importance of industrial clusters;
- porter's focus on industrial clusters;
- the formation and characteristics of the main types of industrial clusters;
- Michael Porter's contribution to understanding clusters;
- cluster interventions in developed and developing countries;
- global best cluster practices;
- value chain and regional cluster analysis;
- introduction: understanding the value chain
- value chain analysis;
- the process of conducting a value chain analysis;
- porter's value chain framework for value chain analysis; and
- regional cluster analysis

Outcome(s):
Students should be able to:
- investigate the clusters that exist in his/her own region or province and provide a brief description of at least five of the main clusters in terms of Porter's 'Diamond of competitive advantage';
- analyse the global cluster best practices and describe at least 10 best practices of clusters that are relevant to the clusters he/she described, based on the best practice example;
- analyse the contribution of the local authority and government institutions in promoting clusters in a region; and
- select one of the established regional clusters and do a value chain analysis using Porter's value chain framework as well as key success factors identified from B&M Analysts regional cluster analysis.

ASSESSMENT
- Continuous summative and/or formative assessments are in the form of group class activities and discussions, class tests, summaries of self-study done, pre-readings and a summative assessment in the form of an integrated work-based application in the LED work environment.

CALCULATION CRITERIA
- Min Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 100%
- Examination Mark Weight: 0%
- Pass Mark: 50%

MODERATION
- Internal moderation by subject matter experts according to UJ's moderation policy.
- Appeals procedure according to UJ's assessment policy regulations.

SEMESTER MODULES

FIRST SEMESTER		SECOND SEMESTER	
MODULE NAME	**MODULE CODE**	**MODULE NAME**	**MODULE CODE**
Applied Entrepreneurship A	S3E10QA	Applied Entrepreneurship B	S3E10QB

MODULES AND OUTCOMES:

APPLIED ENTREPRENEURSHIP: A/B (S3E10QA / S3E10QB)

Purpose:
The following topics will be covered:
- the entrepreneurship challenge in South Africa;
- developing a strategic framework for sustainable local/regional economic development;
- creating local/regional economic development momentum;
- activating and coordinating a local/regional economic development system and structures to train and support entrepreneurs and Small, Medium and Micro Enterprises (SMMEs) effectively; and
- setting up and managing an SMME incubator.

Outcome(s):
Students should be able to:
- describe the entrepreneurship challenge in South Africa effectively in order to understand the contribution of applied entrepreneurship to Local Economic Development (LED) in a municipal context;
- develop a strategic framework for sustainable local/regional economic development to effectively encourage entrepreneurship in LED in a municipal context;
- describe the activation and coordination of a local/regional economic development system and the necessary structures to train and support entrepreneurs and Small, Medium and Micro Enterprises (SMMEs) effectively in order to promote LED in a municipal context; and
- demonstrate the setting up and management of a SMME incubator effectively in order to promote local/regional economic development in a municipal context through entrepreneurship and SMMEs.

ASSESSMENT
- Continuous summative and/or formative assessments are in the form of group class activities and discussions, class tests, summaries of self-study done, pre-readings and a summative assessment in the form of an integrated work-based application in the LED work environment.

CALCULATION CRITERIA
- Min Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 100%
- Examination Mark Weight: 0%
- Pass Mark: 50%

MODERATION
- Internal moderation by subject matter experts according to UJ's moderation policy.
- Appeals procedure according to UJ's assessment policy regulations.

Students whom passed this SLP will be credited for the online module entitled, "Entrepreneurship for Local Economic Development Practitioners (LED) (F34E1OH) (12 credits), in the Higher Certificate in Local Economic Development (F34E1O).

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
N/A

PURPOSE OF PROGRAMME
The purpose of the SLP is to broaden and deepen the knowledge, understanding, insight and skills of Local Economic Development (LED) (managers and practitioners and others involved in LED-related activities who are working at local government level to train and support entrepreneurs and Small, Medium and Micro-Enterprises (SMME's) to promote economic development, in order to create employment opportunities, reduce poverty and improve service delivery to local communities.

PROGRAMME CONTENT

ONLINE SEMESTER MODULE

MODULE NAME	MODULE CODE
Applied Entrepreneurship A	S3E01OA

MODULE AND OUTCOMES:

APPLIED ENTREPRENEURSHIP: (S3E01OA)

Purpose:
The following topics will be covered:
- The entrepreneurship challenge in South Africa.
- Developing a strategic framework for sustainable local/regional economic development.
- Creating local/regional economic development momentum.
- Activating and coordinating a local/regional economic development system and structures to train and support entrepreneurs and Small, Medium and Micro Enterprises (SMMEs) effectively.
- Setting up and managing an SMME incubator.

Outcome(s):
Students should be able to:
- describe the entrepreneurship challenge in South Africa effectively in order to understand the contribution of applied entrepreneurship to Local Economic Development (LED) in a municipal context;
- develop a strategic framework for sustainable local/regional economic development to effectively encourage entrepreneurship in LED in a municipal context;
- describe the activation and coordination of a local/regional economic development system and the necessary structures to train and support entrepreneurs and SMMEs effectively in order to promote LED in a municipal context; and
- demonstrate the setting up and management of a SMME incubator effectively in order to promote local/regional economic development in a municipal context through entrepreneurship and SMMEs.

ASSESSMENT
- Continuous formative assessments in the form of online assessments, summaries of self-study done and pre-readings.
- The online exam is in the format of an integrated-based application assessment in the LED work environment.

CALCULATION CRITERIA
- Min Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 40%
- Examination Mark Weight: 60%
- Pass Mark: 50%

MODERATION
- Internal moderation by subject matter experts according to UJ's moderation policy.
- Appeals procedure according to UJ's assessment policy regulations.

TYPE OF SHORT LEARNING PROGRAMME (SLP)
- Non-credit bearing short learning programme.
- CPD Programme in association with a professional bodies being International Economic Development Council (IEDC) and Economic Development Council of South Africa (EDCSA).
- Entrance into the IEDC Certification Exam.

MODE OF OFFERING
On demand only in groups or groupings of 20 persons.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- National Senior Certificate, NQF level 4 (NSC) obtained in 2008 or after, or Senior Certificate (SC) obtained prior to 2008;
- Experience in the fields related to public administration, economics or business; and
- Applicants may be subject to an internal selection process.
- The SLP "Introduction to Local Economic Development" (S3E14Q) as pre-study is recommended.

Applied Project Management for Local Economic Development A	S3E11QA	Applied Project Management for Local Economic Development B	S3E11QB

MODULES AND OUTCOMES:

APPLIED PROJECT MANGEMENT FOR LOCAL ECONOMIC DEVELOPMENT: A/B (S3E11QA / S3E11QB)

Purpose:
The following topics will be covered:
- introduction to project management and orientation towards project management philosophies;
- projects within the strategic domain, stakeholders and project selection;
- organising for project management;
- formulation of project scope;
- project time management;
- project cost management; and
- project control and monitoring.

Outcome(s):
Students should be able to:
- describe project management philosophies effectively in order to promote local economic development in a municipal context;
- identify projects and the relevant stakeholders within the local economic domain effectively in order to promote local economic development in a municipal context;
- explain how to organise for project management in local economic development effectively in a municipal context;
- formulate the project scope for a project in Local Economic development (LED) effectively in order to promote LED in a municipal context;
- apply project time management effectively in order to undertake LED projects in a municipal environment;
- apply project cost management effectively in order to undertake LED projects in a municipal context; and
- apply project control and monitoring principles effectively to undertake LED projects in a municipal context.

ASSESSMENT
- Continuous summative and/or formative assessments are in the form of group class activities and discussions, class tests, summaries of self-study done, pre-readings and a summative assessment in the form of an integrated work-based application in the LED work environment.

MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE
Applied Public-Private Partnerships for Local Economic Development A	S3E12QA	Applied Public-Private Partnerships for Local Economic Development B	S3E12QB

MODULES AND OUTCOMES:

APPLIED PRIVATE-PUBLIC PARTHESHIP FOR LOCAL ECONOMIC DEVELOPMENT: (S3E12QA / S3E12QB)

Purpose:
The following topics will be covered:
- the definitions and importance of Public Private Partnerships (PPP's);
- the role, rationale and different forms of PPP's;
- the legal requirements of PPP's;
- the key success factors and processes to design and implement PPP's in a municipal context; and
- monitoring and evaluating PPP's in a municipal LED;

Outcome(s):
Students should be able to:
- describe the definitions and importance of PPP as outlined in the relevant theoretical and legal frameworks in a municipal Local Economic Development (LED) context to effectively promote LED;
- describe the role, rationale and different forms of PPP in a municipal context to effectively promote LED;
- explain the legal requirements of PPP in a municipal context to promote access factors and processes to design and implement PPP effectively in a municipal LED work-based context; and
- demonstrate the development of a monitoring and evaluation framework for PPP in a municipal LED work environment to improve
- PPP implementation and effectively promote LED.

ASSESSMENT
- Continuous summative and/or formative assessments are in the form of group class activities and discussions, class tests, summaries of self-study done, pre-readings and a summative assessment in the form of an integrated work-based application in the LED work environment.

Applied Strategic Planning for Local Economic Development A	S3E13QA	Applied Strategic Planning for Local Economic Development B	S3E13QB

MODULES AND OUTCOMES:

APPLIED STRATEGIC PLANNING FOR LED: A/B (S3E1EQA / S3E13QB)

Purpose:
The following topics will be covered:
- organising and pre-planning of stakeholders, participation and building consensus;
- setting mission, vision, goals and objectives for strategic planning, strategies, options and action planning;
- environmental analyses of the financial, human and other resources for implementing strategic plans;
- measuring impact and performance of the community, economic inventory, institutional and information sources; and
- survey of local businesses and residents using focus groups, data analysis or field work for the economic area of jurisdiction.

Outcome(s):
Students should be able to:
- organise, plan and obtain consensus from the stakeholders effectively in order to promote Local Economic Development (LED) within the municipal area;
- develop the mission, vision and objectives, strategies, options and action planning for strategic planning effectively to promote LED in a municipal context;
- outline an environmental analysis of the financial, human and other resources effectively to implement strategic LED plans;
- measure and discuss the impact and performance of the LED strategic plan effective order to determine the impact on the community in a municipal context; and
- undertake a survey on the local businesses and residents effectively using focus groups, data analysis and/or field work.

ASSESSMENT

Applied Trade and Industrial Policy for Local Economic Development A	S3EC7QA	Applied Trade and Industrial Policy for Local Economic Development B	S3EC7QB

MODULES AND OUTCOMES:

APPLIED TRADE AND INDUSTRIAL POLICY FOR LED: A/B (S3EC7QA / S3EC7QB)

Purpose
The following topics will be covered:
- strategic programmes of the National Industrial Policy Framework (NIPF) and industrial financing;
- skills and educational issues relevant to industrial development;
- the necessity of competition regulation and the enhancement of Small Medium and Micro Enterprises (SMMEs); and
- the importance of innovation, technology and spatial infrastructure for sound industrial development.

Outcome(s):
Students should be able to:
- apply and evaluate the strategic programmes of the National Industrial Policy Framework (NIPF) in a local government environment;
- apply the principles of sound industrial financing in a local government environment;
- evaluate the skill and educational levels necessary for a sound local government industrialisation programme;
- explain the competition policy framework, environmental laws and regulation;
- evaluate the importance of SMME support within the boundaries of a municipality/metro;
- evaluate the importance of innovation and technology in any industrial upgrading programme within a particular local government; and
- evaluate the spatial industrial development and industrial infrastructure requirement of a local government.

ASSESSMENT
- Continuous summative and/or formative assessments are in the form of group class activities and discussions, class tests, summaries of self-study done, pre-readings and a summative assessment in the form of an integrated work-based application in the LED work environment.

MODULES AND OUTCOMES:

BUSINESS RETENTION AND EXPANSION FOR LED: A/B (S3EC8QA / S3EC8QB)

Purpose:
The following topics will be covered:
- the importance, approaches to and elements of a Business Retention and Expansion (BR&E) programme;
- design a survey, mobilising and training interviewers, conducting interviews and
- collating and analysing survey data;
- briefing and mobilising local stakeholders and other role-players; and
- implementation plan.

Outcome(s):
Students should be able to:
- explain the importance of, approaches to and elements of a Business Retention and Expansion programme effectively to promote Local Economic Development (LED) in a municipal context;
- discuss how to plan a local Business Retention and Expansion programme to promote LED in a municipal context;
- design a survey, mobilise and train interviewers, conduct interviews and collate and analyse survey data effectively;
- promote BR&E in a municipal context; and
- demonstrate the briefing of stakeholders to make recommendations and propose an implementation plan in order to promote LED in a municipal context.

ASSESSMENT

MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE
Enabling Mechanisms for Local Economic Development A	S3EC9QA	Enabling Mechanisms for Local Economic Development B	S3EC9QB

MODULES AND OUTCOMES:

ENABLING MECHANISMS FOR LED: A/B (S3EC9QA / S3EC9QB)

Purpose:
The following topics will be covered:
- the institutional sectors and their contribution to Local Economic Development (LED);
- mechanisms for community participation for planning and infrastructure development;
- co-operatives – their history and operation;
- business Chambers and Industrial Support Mechanisms;
- clusters, corridors and zones;
- innovation Incubators and technology hubs;
- multinationals and Corporate Social Investment (CSI); and
- how to facilitate LED.

Outcome(s):
Students should be able to:
- facilitate Local Economic Development (LED);
- describe the institutional sectors and their contribution to LED effectively in a municipal context;
- outline the mechanisms for community participation to plan an infrastructural development effectively to promote LED in a municipal context;
- describe the history and operation of co-operatives effectively as a tool to promote LED in a municipal context;
- compare the roles of business chambers, industrial support mechanisms, clusters, corridors, zones, innovation incubators and technology hubs effectively as enabling mechanisms to promote LED in a municipal context;
- examine the roles of multinationals and CSI effectively as enabling mechanisms to promote LED in a municipal environment; and
- the LED facilitation process effectively in a municipal context.

ASSESSMENT
- Continuous summative and/or formative assessments are in the form of group class activities and discussions, class tests, summaries of self-study done, pre-readings and a summative assessment in the form of an integrated work-based application in the LED work environment.

Establishing Cluster Initiatives A	S3ECIQ1	Establishing Cluster Initiatives B	S3ECIQ2

MODULES AND OUTCOMES:

ESTABLISHING CLUSTER INITIATIVES: A/B (S3ECIQ1 / S3ECIQ2)

Purpose:
The following topics will be covered:
- planning and preparation of a cluster initiative;
- the 'natural' emergence of clusters;
- the role of government in establishing cluster initiatives;
- profile of a cluster initiative;
- key role-players within a cluster initiative;
- the role of government;
- the role of academia;
- establishing a cluster management organisation; and
- monitoring and evaluation of industrial clusters.

Outcome(s):
Students should be able to:
- analyse existing clusters in their own region – or nationally to determine the status of the clusters to determine the potential for a cluster initiative (CI), or existing/declining CI's;
- analyse the main challenges experienced in establishing/managing CI's, and formulate recommendations on the role of the Cluster Management Organisation and Cluster Facilitator in addressing these challenges;
- analyse key Department of Trade and Industry (DTI) and national policy documents to determine the guidelines and/or requirements for CIs, and the role of government institutions in promoting Cis; and
- select one cluster with potential for a CI or a newly established CI and formulate recommendations on establishing/strengthening the CI, with particular reference to the role of government institutions in promoting the success of the CI.

ASSESSMENT
- Continuous summative and/or formative assessments are in the form of group class activities and discussions, class tests, summaries of self-study done, pre-readings and a summative assessment in the form of an integrated work-based application in the LED work environment.

Introduction to Industrial Clustering A	S3IICQ1	Introduction to Industrial Clustering B	S3IICQ2

MODULES AND OUTCOMES:

INTRODUCTION TO INDUSTRIAL CLUSTERING: A/B (S3IICQ1 / S3IICQ2)

Purpose:
The following topics will be covered:
- introduction to industrial clusters;
- overview of the rise in importance of industrial clusters;
- cluster success stories;
- porter's focus on industrial clusters;
- definitions of clusters;
- the formation and characteristics of the main types of industrial clusters;
- sector typology;
- structural typology;
- functional typology;
- lifecycle typology;
- summary of typologies;
- origin and development of the concept of clustering;
- the benefits of clusters;
- related concepts ;
- cluster interventions in developed and developing countries; and
- global best cluster practices.

Outcome(s):
Students should be able to:
- state the main features of a cluster from definitions;
- provide an example of each of the four main cluster typologies;
- describe the difference between a Cluster, Industrial Development Zone (IDZ), Special Economic Zone (SEZ), industrial park and an enterprise hub;
- describe the main benefits and disadvantages of clusters; and
- describe the roles of the DTI and local government as well as other role players in clusters.

ASSESSMENT
- Continuous summative and/or formative assessments are in the form of group class activities and discussions, class tests, summaries of self-study done, pre-readings and a summative assessment in the form of an integrated work-based application in the LED work environment.

CALCULATION CRITERIA
- Min Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 100%
- Examination Mark Weight: 0%
- Pass Mark: 50%

MODERATION
- Internal moderation by subject matter experts according to UJ's moderation policy.
- Appeals procedure according to UJ's assessment policy regulations.

NAME OF PROGRAMME: INTRODUCTION TO LOCAL ECONOMIC DEVELOPMENT	SHORT LEARNING PROGRAMME PART TIME – APK/APB OR OFF-CAMPUS	SLP CODE: S3E14Q	NQF LEVEL: 5 CREDITS: 12

TYPE OF SHORT LEARNING PROGRAMME (SLP)

- Credit bearing short learning programme.
- CPD Programme in association with a professional bodies being International Economic Development Council (IEDC) and Economic Development Council of South Africa (EDCSA).
- Entrance into the IEDC Certification Exam.

MODE OF OFFERING
On demand only in groups or groupings of 20 persons.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS

- National Senior Certificate, NQF level 4 (NSC) obtained in 2008 or after, or Senior Certificate (SC) obtained prior to 2008;
- Experience in the fields related to public administration, economics or business; and
- Applicants may be subject to an internal selection process.

MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE
Introduction to Local Economic Development A	S3E14QA	Introduction to Local Economic Development B	S3E14QB

MODULES AND OUTCOMES:

INTRODUCTION TO LOCAL ECONOMIC DEVELOPMENT: A/B (S3E14QA & S3E14QB)

Purpose:
The following topics will be covered:
- what constitutes local economic development (LED);
- challenges facing LED in the development context;
- the key role players and stakeholders in LED;
- the role of municipalities in LED and the role of LED in municipalities;
- differences in the LED focus and capabilities in different local contexts, e.g. urban/rural, small/large municipalities;
- the role of LED in relation to the Integrated Development Plan (IDP);
- legal framework governing LED, including: UNICIPAL systems Act, Municipal Structures Act, Financial Acts and others pertaining to good governance, Department of Cooperative Government and Traditional Affairs planning documents and frameworks, DTI's LED frameworks, etc. pertaining to the mandates of Local Government and specifically to the constitutionally unfunded mandate of LED;
- the relationship between LED and other government programmes on national, regional, sector, district and local level;
- the contribution of LED to promoting the objectives of the developmental state;
- factors that impact on the success of LED strategies and projects;
- monitoring and evaluation of LED projects; and
- promoting the sustainability of LED projects.

Outcome(s):
Students should be able to:
- define LED and identify the goals and objectives of LED;
- identify the role players in LED in a region/ municipality;
- understand and explain the Legal framework governing LED;
- acquire a foundation of the different theories relating to LED; and
- apply the principles of the LED conceptual framework that will help strengthen LED's understanding, planning, implementation and evaluation.

ASSESSMENT
- Continuous summative and/or formative assessments are in the form of group class activities and discussions, class tests, summaries of self-study done, pre-readings and a summative assessment in the form of an integrated work-based application in the LED work environment.

Leadership in Sustainable Local Economic Development A	S3E16QA	Leadership in Sustainable Local Economic Development B	S3E16QB

MODULES AND OUTCOMES:

LEADERSHIP IN SUSTAINABLE LOCAL ECONOMIC DEVELOPMENT: A/B (S3E16QA / S3E16QB)

Purpose:
The following topics will be covered:
- an overview of global and national challenges and opportunities relating to sustainable development, including a paradigm shift to an integrated and regenerative developmental perspective;
- an introduction to the concepts of a green economy, international green economy trends and overview of the potential for a green economy in South Africa;
- roles and responsibilities of LED practitioners in promoting sustainability with respect to relevant policies, mandates and legislation; and
- core principles for leadership on the pathway towards sustainable LED.

Outcome(s):
Students should be able to:
- describe the global and national challenges and opportunities (including a paradigm shift to an integrated and regenerative developmental perspective in sustainable leadership) to effectively promote Local Economic Development (LED) in a municipal environment;
- outline the concepts of a green economy, international green economy trends and the potential for a green economy in South Africa effectively to promote sustainable LED in a municipal context;
- examine the roles and responsibilities of LED practitioners in respect of relevant policies, mandates and legislation effectively to promote sustainability in LED projects at a municipal level;
- demonstrate understanding of sustainable LED effectively by either reviewing an existing municipal LED project with recommendations for improving the sustainability there of or by compiling an action plan for the implementation of a sustainable LED programme or project to effectively promote LED in a municipal context; and
- describe the core principles of leadership towards sustainability effectively on the pathway towards sustainable LED in a municipal context.

ASSESSMENT
- Continuous summative and/or formative assessments are in the form of group class activities and discussions, class tests, summaries of self-study done, pre-readings and a summative assessment in the form of an integrated work-based application in the LED work environment.

Managing a Local Economic Development Unit in South Africa A	S3E19QA	Managing a Local Economic Development Unit in South Africa B	S3E19QB

MODULES AND OUTCOMES:

MANAGING A LOCAL ECONOMIC DEVELOPMENT UNIT IN SOUTH AFRICA: A/B (S3E19QA / S3E19QB)

Purpose:
The following topics will be covered:
- the importance of Local Economic Development (LED) as a municipal function;
- key roles: planning, organising, leading and control;
- organisational structures, policies and procedures;
- regulatory framework and the requirements in the King III report;
- financial management of a municipal LED unit;
- working with a board, the press and consultants;
- marketing, fundraising and communication;
- human resource management; and
- monitoring and evaluating a LED unit.

Outcome(s):
Students should be able to:
- explain the importance of Local Economic Development (LED) to effectively establish a municipal LED unit;
- describe the roles, functions and responsibilities of the manager of an LED unit with reference to planning, organising, leading and controlling a LED unit effectively in a municipal context;
- describe the processes, functions, and structures required to effectively establish a LED unit in a municipal context;
- describe the applicable regulatory framework and the requirements in the King III report to effectively establish a LED unit in a municipal context;
- outline the applicable key financial management aspects to effectively establish a LED unit in a municipal context;
- describe how to interact effectively with a board, the press and consultants as a LED unit in a municipal context;
- design a communication and a marketing plan for a LED unit in municipal context to effectively communicate with all the relevant stakeholders;
- create a fundraising proposal for a LED unit in municipal context to effectively raise funds in a municipal context;
- develop human resource management policies to effectively manage staff in a LED unit in a municipal context; and
- design monitoring and evaluation programmes to effectively monitor and evaluate a LED unit in municipal context.

ASSESSMENT
- Continuous summative and/or formative assessments are in the form of group class activities and discussions, class tests, summaries of self-study done, pre-readings and a summative assessment in the form of an integrated work-based application in the LED work environment.

Quantitative Analysis: Compiling a Local Development Profile A	S3E17QA	Quantitative Analysis: Compiling a Local Development Profile B	S3E17QB

MODULES AND OUTCOMES:

QUANTITATIVE ANALYSIS: COMPLING A LOCAL DEVELOPMENT PROFILE: A/B (S3E17QA / S3E17QB)

Purpose:
The following topics will be covered:
- introduction to quantitative techniques;
- background, theory and profiling of different regions, areas;
- basic economic principles of indicator frameworks for development;
- introducing different data sources and application processes;
- research methodologies suitable for economic profiling; and
- basic Excel skills for development profiling.

Outcome(s):
Students should be able to:
- recognise and explain the definition of selected development concepts effectively to compile an economic profile to promote Local Economic Development (LED) in a municipal context;
- discuss the background theory to development dimensions and profiling effectively in order to understand how to compile an economic profile in a municipal context;
- discuss the basic economic principles of indicator frameworks for development effectively for LED in a municipal context;
- describe how to undertake research by using data sources effectively to compile an economic profile to promote LED in a municipal context;
- differentiate between the different research methodologies effectively to compile an economic profile in order to promote LED in a municipal context; and
- apply basic Excel skills effectively to do an economic sector analysis of the local economy, using ratios and growth trends in order to compile an economic profile to promote LED in a municipal context.

ASSESSMENT

SEMESTER MODULES

FIRST SEMESTER		SECOND SEMESTER	
MODULE NAME	**MODULE CODE**	**MODULE NAME**	**MODULE CODE**
Quantitative Analysis: Strategies from Statistics A	S3E18QA	Quantitative Analysis: Strategies from Statistics B	S3E18QB

MODULES AND OUTCOMES:

QUANTITATIVE ANALYSIS: STRATEGIES FROM STATISTICS: A/B (S3E18QA / S3E18QB)

Purpose:
The following topics will be covered:
- national and provincial frameworks for economic development;
- differentiating between a strategy, programme and project; and
- formulating strategies using best practices in local economic development programmes.

Outcome(s):
Students should be able to:
- identify relevant national and provincial policy frameworks in order to effectively formulate Local Economic Development (LED) strategies in a municipal context;
- differentiate effectively between a strategy, programme and project in a municipal LED context; and
- formulate local economic development strategies and programmes effectively for a municipal or local area.

ASSESSMENT
- Continuous summative and/or formative assessments are in the form of group class activities and discussions, class tests, summaries of self-study done, pre-readings and a summative assessment in the form of an integrated work-based application in the LED work environment.

CALCULATION CRITERIA
- Min Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 100%
- Examination Mark Weight: 0%
- Pass Mark: 50%

MODERATION
- Internal moderation by subject matter experts according to UJ's moderation policy.
- Appeals procedure according to UJ's assessment policy.

NAME OF PROGRAMME: RESEARCH FOR LOCAL ECONOMIC DEVELOPMENT PRACTITIONERS	SHORT LEARNING PROGRAMME PART TIME – APK/APB OR OFF-CAMPUS	SLP CODE: S3RLEQ	NQF LEVEL: 8 CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
- Non-credit bearing short learning programme.
- CPD Programme in association with a professional bodies being International Economic Development Council (IEDC) and Economic Development Council of South Africa (EDCSA).
- Entrance into the IEDC Certification Exam.

MODE OF OFFERING
On demand only in groups or groupings of 20 persons.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- An appropriate Bachelor's degree on NQF level 7;
- Experience in the fields related to public administration, economics or business; and
- Applicants may be subject to an internal selection process.
- The SLP "Introduction to Local Economic Development" (S3E14Q) as pre-study is recommended.

Research for Local Economic Development Practitioners A	S3RLEQ1	Research for Local Economic Development Practitioners B	S3RLEQ2

MODULES AND OUTCOMES:

RESEARCH FOR LOCAL ECONOMIC DEVELOPMENT PRACTITIONERS: A/B (S3RLEQ1 / S3RLEQ2)

Purpose:
The following topics will be covered:
- introduction to practitioner research;
- the research process from conception of a research idea/area to dissemination of findings;
- interactive or co-operative research projects; and
- dealing with recurring or complex problem issues/situations.

Outcome(s):
Students should be able to:
- compile a research proposal and report on any area of concern by understanding how to engage in the different phases of the research process;
- understand the benefits of engaging in an interactive or co-operative form of research inquiry;
- determine what form of co-operative research group is most suitable to their investigation.; and
- understand and deal with messy or complex problem issues by utilising the System of Methodologies.

ASSESSMENT
- Continuous summative and/or formative assessments are in the form of group class activities and discussions, class tests, summaries of self-study done, pre-readings and a summative assessment in the form of an integrated work-based application in the LED work environment.

Workforce Development in Local Economic Development A	S3E21QA	Workforce Development in Local Economic Development B	S3E21QB

MODULES AND OUTCOMES:

WORKFORCE DEVELOPMENT IN LOCAL ECONOMIC DEVELOPMENT: A/B (S3E21QA / S3E21QB)

Purpose:
The following topics will be covered:
- the nature and scope of workforce development;
- the importance of competent staff for achieving an LED entity's goals and objectives;
- human performance improvement strategies;
- skills planning processes to promote organisational effectiveness;
- challenges to workforce development in the LED context;
- job descriptions and competency profiles;
- the skills audit process;
- the training needs analysis process; and
- South Africa's legislative framework governing skills development.

Outcome(s):
Students should be able to:
- describe the nature and scope of workforce development effectively to promote Local Economic Development (LED);
- explain the importance of competent staff in achieving an LED entity's goals and objectives effectively to promote LED;
- compile/revise job descriptions with competency requirements effectively to promote LED in a municipal context;
- conduct a skills audit of staff in an LED entity and people involved in Local Economic Development LED activities effectively to promote LED in a municipal environment;
- conduct a training needs analysis effectively to promote LED in a municipal context;
- develop a training and development plan effectively to promote LED in a municipal context;
- revise the skills planning processes effectively to promote LED in a municipal context; and
- evaluate the outcomes and impact of training and development interventions effectively to promote LED in a municipal context.

ASSESSMENT
- Continuous summative and/or formative assessments are in the form of group class activities and discussions, class tests, summaries of self-study done, pre-readings and a summative assessment in the form of an integrated work-based application in the LED work environment.

DURATION OF PROGRAMME
- Blended Learning.
- Months to complete: February to November.
- Minimum period to obtain: one year.
- Maximum period to obtain: three years.
-

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
After successful completion of the SLP Advanced Diploma Bridging (Commerce) students who meet the applicable minimum entry, requirements (minimum average of 65%) will be considered for the Advance Diploma Management.

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students will receive no credits towards the completion of subsidised UJ programmes.

PURPOSE OF PROGRAMME
The purpose of the Advanced Diploma Bridging (Commerce) programme is for the student to develop applied competencies in mastering, analysis, interpretation, and application of business management principles in preparation for a career in the commerce field, and to provide a basis for further learning. Students must be able to reflect on managerial decisions and applications to assess the effect in the holistic context of management in practice.

SEMESTER MODULES			
FIRST SEMESTER		**SECOND SEMESTER**	
MODULE NAME	**MODULE CODE**	**MODULE NAME**	**MODULE CODE**
Economics 1A	ADBE01A	Economics 1B	ADBE01B
Mercantile Law 1A	ADBL01A	Mercantile Law 1B	ADBL01B
Management 3A	ADBM03A	Management 3B	ADBE03B
Applied Accounting Skills A	ADBA01A	Applied Accounting Skills B	ADBA01B
Quantitative Techniques 1A	ADBQ01A	Quantitative Techniques 1B	ADBQ01B

MODULES AND OUTCOMES:

ECONOMICS 1A: (ADBE01A)

Purpose:
The purpose of this module is to introduce the foundations of microeconomics, which form the brick and mortar of intermediate and advanced microeconomics in later years. Understanding the foundations of microeconomics enables students to comprehend how the real economy works using simple models introduced in this module. The emphasis in this module is to understand how the economy works at a more intuitive level.

Outcome(s):
Students should be able to:
- define and apply basic accounting principles, concepts, and processes.
- identify and classify financial transactions according to the key elements of financial statements.
- identify and classify entities on their legal status.
- record basic financial transactions from source document to the journals, the general ledger and prepare the trial balance
- identify and interpret transaction related t depreciation, purchase and disposal of property, plant, and equipment.
- prepare basic financial statements for a sole trader.
- list the requirements for forming a company as a legal entity and demonstrate a basic understanding of company financial statements; and
- identify, explain, calculate, and record vat implications for basic financial transactions.

ECONOMICS 1B: (ADBE01B)

Purpose:
The purpose of this module is to introduce the foundations of macroeconomics, which form the brick and mortar of intermediate and advanced macroeconomics in later years. Understanding the foundations of macroeconomics enables students to comprehend how the real economy works using simple models introduced in this module. The emphasis in this module is to understand how the economy works at a more intuitive level.

Outcome(s):
Students should be able to:
- discuss and analyse business cycles and their macro-economic implications fully.
- examine how different methods are used to measure economic progress fully.
- define, discuss, and evaluate the role of money and interest rates in the economy correctly.
- discuss and assess international economics and international finance comprehensively.
- derive and explain fully the total expenditure model.
- derive, discuss, and apply the aggregate demand and aggregate supply model comprehensively.
- discuss the economics of development correctly.
- discuss the impact of HIC/AIDS on economic growth and development of a nation, especially for South Africa; and
- discuss and analyse the most important economic issues in South Africa comprehensively.

MERCANTILE LAW 1A: (ADBL01A)

Purpose:
The purpose of this module is to familiarise the student with introductory knowledge relating to the law of contract and the fundamental principles relating to this area of the law.

Outcome(s)

Students should be able to:
- identify the term 'law' with related terms and the sources of the South African Law.
- explain to the law of contract including the factors that have an influence on consensus.
- discuss the term "contractual capacity" as well as the various categories of contractual capacity; and
- explain the requirements that a contract cannot contradict common law, statuary law, or the morals of the community.

MERCANTILE LAW 1B: (ADBL01B)

Purpose:
The purpose of this module is to familiarise the student with knowledge-specific contracts, including the laws relating to purchase agreements, lease agreements, credit agreements and the Consumer Protection Act.

Outcome(s):
Students should be able to:
- define and explain the essential elements of the specific contracts studied in the module.
- apply any relevant statutory and common law principles to specific contracts.
- define and explain the various legal duties of parties to specific contracts.
- identify and discuss the relevant legal problem or issue. and
- apply the applicable law to the legal problem or issue with reference to remedies available, if appropriate.

BUSINESS MANAGEMENT 3A: (ADBM03A)

Purpose:
The purpose of this module is to introduce the student to the main themes and concepts of management. This module covers a wide range of traditional and contemporary management principles and concepts and many examples illustrating how successful managers apply theory to practice in their organisations.

Outcome(s):
Students should be able to:
- distinguish between management principles and managerial competencies.
- discuss the evolution of management thought.
- explain ethics and corporate social responsibility. and
- distinguish between strategic analysis, strategic planning, and strategy formulation.

BUSINESS MANAGEMENT 3B: (ADBM03B)

Purpose:
The purpose of this module is to introduce the student to the main themes and concepts of management. The lectures, discussions and prescribed reading material used, are designed to enable the students to understand and analyse these concepts in a practical manner.

Outcome(s):
Students should be able to:
- explain the importance of groups and teams.
- distinguish between culture and diversity.
- discuss the Introduction to leadership and motivation in business; and
- explain organisational communication and change management.

APPLIED ACCOUNTANCY SKILLS 1A: (ADBA01A)

Purpose:
The purpose of this module is to introduce basic financial accounting at a level consistent with non-accounting students. In this module the student will be provided with the basic principles of accounting, the recording of each transaction and the accounting cycle.

Outcome(s):
Students should be able to:
- define and apply basic accounting principles, concepts and processes.

- identify and classify financial transactions according to the key elements of financial statements.
- identify and classify entities on their legal status.
- record basic financial transactions from source document to the journals, the general ledger and prepare the trial balance.
- identify and interpret transaction related to depreciation, purchase and disposal of property, plant and equipment.
- prepare basic financial statements for a sole trader.
- list the requirements for forming a company as a legal entity and demonstrate a basic understanding of company financial statements. and
- identify, explain, calculate and record Vat implications for basic financial transactions.

APPLIED ACCOUNTANCY SKILLS 1B: (ADBA01B)

Purpose:
The purpose of this module is to introduce basic costing and financial management at a level consistent with non-accounting students. In this module students will identify and analyse costs, learn to apply basic managerial accounting techniques and prepare information for decision-making purposes, applicable to service, trade and manufacturing entities.

Outcome(s):
Students should be able to:
- explain and understand the need for managerial accounting information.
- define cost accounting terminology and correctly use of the basic principles of cost classification.
- define and understand the different terms and concepts in respect of inventory-holding and administer basic inventory systems.
- calculate the remuneration of employees.
- correctly classify overheads and calculate the fixed and variable components.
- understand the cost flow in a manufacturing concern and be able to determine the cost of manufactured products.
- discuss and apply the principles and theory of budgeting (personal and cash budgets only); and
- discuss and prepare basic flexible budgets.

QUANTITATIVE TECHNIQUES 1A: (ADBQ01A)

Purpose:
The purpose of this module is to empower students with an overall knowledge of numerical skills, collect and evaluate appropriate data using statistical methods in decision making, identify the sources of data, and analyse and interpret the results that will assist the management in decision making.

Outcome(s):
Students should be able to:
- explain the priority rules in solving problems and the use of the time value of money.
- apply statistics in business and identify different sources of data and conduct a sample.
- analyse and develop tables and charts for categorical and numerical data.
- describe the measures of central tendency and calculate the mean, mode, median and other; and
- describe the basic principles of index numbers and transformations.

QUANTITATIVE TECHNIQUES 1B: (ADBQ01B)

Purpose:
The purpose of this module is to introduce students to basic mathematical concepts and skills for application in the business world and empower students with an overall knowledge to apply mathematical concepts to do basic modelling.

Outcome(s):
Students should be able to:
- know how to use linear programming.
- know how to calculate and interpret the index number.
- explain the basic concepts of probabilities.
- form the probability distribution of discrete and continuous distribution; and
- use the time series techniques to forecast or predict the future.

ASSESSMENT
Semester Assessments

Three semester assessment opportunities are scheduled for each module

CALCULATION CRITERIA
- Class Attendance: 10%
- Class Assessment: 15%
- BlackBoard Assessment: 75%
- Semester Result: = 100%

Final assessment
- A final summative assessment is scheduled for each of the modules at the end of the semester.
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Pass Mark: 50%

MODERATION
All examination papers are moderated externally according to UJ moderation policy.

Whole Programmes:

NAME OF PROGRAMME	WHOLE PROGRAMME	CODE:	NQF LEVEL: 6
ADVANCED CERTIFICATE IN BUSINESS MANAGEMENT	PART TIME – APB	*	CREDITS: 120

TYPE OF WHOLE PROGRAMME (WP)
Credit bearing whole programme.
* Within this whole programme there are three elective streams being General Management stream (ACBM01); Risk Management stream (ACBM04); and Project Management stream (ACBM05). For more information see the different streams in the programme content on the next page.

MODE OF OFFERING:
- Lectures for this qualification are presented on a part-time basis.
- Ten modules are scheduled online for three consecutive evenings from 17:30 to 21:00 (30 sessions per year) and a non-compulsory Saturday session is arranged per module.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
UJ Higher Certificate in Business Management (NQF level 5) in the specific elective stream.

- Months to complete: February to November.
- Minimum period to obtain: one year.
- Maximum period to obtain: two years.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
After successful completion of the Advanced Certificate in Business Management students who also meet the applicable minimum entry requirements will be considered for the SLP Advanced Diploma Bridging (Commerce) Programme.

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students will receive no credits towards the completion of subsidised UJ programmes.

QUALIFICATION PURPOSE:
The purpose of the Advanced Certificate in Business Management programme is to provide students with an increasing and developing knowledge in management studies. It creates a career option for a formal qualification in management and it also provides application skills to those students that have mastered a basic theoretical knowledge of Management. In addition, it affords an industry accepted

qualification to those students who want to specialise in one of the knowledge areas of general management, risk management or project management.

MODULES AND OUTCOMES:

COMPULSORY MODULES

CHANGE MANAGEMENT: (AC1CHMT)

Purpose:
The purpose of the Change Management module is to equip students with the necessary knowledge, insight and skills needed to understand the introductory aspects relating to change and change management.

Outcome(s):
Students should be able to:
- comprehend the importance of change.
- discuss sources of conflict and how it should be managed; and
- describe change management processes.

ECONOMIC PRINCIPLES: (AC1ECPR)

Purpose:
The purpose of the Economic Principles module is to introduce students to economics as a social science, the problem of scarcity and to different economic systems. The module will also allow students to acquire skills in the analysis, interpretation and application of knowledge relating to microeconomic principles will be covered in this programme.

Outcome(s):
Students should be able to:
- define and explain economics as a social science.
- critically discuss the economic problem of scarcity and reflect on scarcity in a South African context.
- identify and describe different economic systems and reflect on the price and income mechanisms.
- analyse the functioning and problems of a market economy and reflect on the price and income mechanisms.
- discuss and explain the role of the government in the economy and reflect on the role of fiscal policy in the South African economy; and
- discuss and explain the role of the foreign sector in the economy.

INTERNATIONAL MANAGEMENT: (AC1INTM)

Purpose:
The purpose of the International Management module is to equip students with the necessary knowledge, insights and skills that are needed to understand the business environment from a local and global context.

Outcome(s):
Students should be able to:
- demonstrate the importance of international trade.
- identify the different risks involved in international trade.
- differentiate between the different international approaches to the different economies.
- describe the effect (impact) of culture in international business; and
- discuss the effect of ethics in international business.

MANAGEMENT ACCOUNTING: (AC1MACC)

Purpose:
The purpose of the Management Accounting module is to develop the students' fundamental knowledge on how to gather, integrate and disseminate information which can be used to provide them with an insight into management accounting. This will include a thorough understanding of capital budgets with the net present value (amongst other methods), as well as budgeting as a financial tool. The different cost accounting methods will be explored and will prepare the student for an in-depth application of activity-based costing. Finally, the module will focus on the skills acquired on the analysis of financial statements.

Outcome(s):
Students should be able to:
- apply the concept of capital budgeting, as well as various associated techniques, to assist in investment decision-making.
- discuss budgeting as a financial tool as well as a management activity.
- apply the various cost accounting methods and principles.
- explain what activity-based costing is and what the implementation thereof entails; and
- perform a detailed analysis of financial statements using relevant techniques.

STRATEGIC MANAGEMENT: (AC1STMA)

Purpose:
The purpose of the Strategic Management module is to expose students to contemporary strategic issues that are part of strategic formulation and strategic implementation. These key issues influence the strategic management process, and they should be understood and taken into account when strategic management decisions are made. The broad topics include business model canvas as a strategic tool, aligning strategy with industry life cycle, ethics and strategy, strategy for competing in international markets, strategy and organisational agility, and structural drivers and instruments for strategic implementation.

Outcome(s):
Students should be able to:
- develop a business model canvas for an organisation.
- formulate strategic alignment to industry life cycles.
- apply ethical principles in organisational decision making.
- understand organisational agility and international strategies; and
- apply structural drivers and instruments for strategic implementation.

ELECTIVE STREAMS (Elect one stream):

GENERAL MANAGEMENT STREAM:

INFORMATION TECHNOLOGY MANAGEMENT: (AC1ITMT)

Purpose:
The purpose of the Information Technology (IT) Management module is to acquaint students with basic knowledge regarding how the IT resources of organisations can be managed in accordance with the objectives, needs and priorities of those organisations. Students will also be introduced to the basic concepts of how IT is sourced and managed in a business context as well as to the various tools that managers would use in that management process. In addition, this module will enable students to be equipped with the basic skills regarding how IT projects and IT risks within business contexts are managed. Finally, students should be able to understand how a manager would be able to use IT to leverage relationships with both customers and suppliers.

Outcome(s):
Students should be able to:
- describe the basic concepts regarding the management of information technology (IT).
- explain how IT can be used to leverage business success.
- optimise the deployment of the right IT tools, infrastructure, and methods for an organisation.
- discuss how IT projects are managed in a business and the role IT project managers' play in this process.
- discuss how IT security risk can occur and be mitigated.
- explain how IT is used to manage both customer and supplier relations.

LOGISTICS MANAGEMENT: (AC1LOGM)

Purpose:
The purpose of the Logistics Management module is to introduce students to logistic principles needed in the supply chain environment. By improving their intellectual competencies and practical skills in Logistics Management, students will be able to make practical decisions implicit in planning and coordinating logistic challenges in the supply chain environment.

Outcome(s):
Students should be able to:
describe how logistics emerged in a business context.
- describe the evolution of the concepts of logistics and supply chain management.
- explain the competitive advantage of logistics using Porter's value chain.
- identify and describe the functions of a warehouse; and
- explain the role information technology fulfil in the supply chain environment and how it can increase customer service and up customer loyalty.

OPERATIONS MANAGEMENT: (AC1OPSM)

Purpose:
The purpose of this module is to provide the student with a well-rounded, broad education that equips students with the knowledge base, theory and methodology of operations and supply management and applied competencies in the mastering, analysis, interpretation, and application within this field. This module will provide a basis for further learning in this field.

Outcome(s):
Students should be able to:
- discuss why operations management exists, and why there is a need for the study of operations management.
- discuss the activities of operations managers.
- comprehend and describe the interrelationship between operations function and other functions within an organisation.
- describe the factors to be considered when selecting the location for a new or a new location for an existing organisation; and
- discuss the importance of forecasting in operations management.

SERVICES MANAGEMENT: (AC1SERV)

Purpose:
The purpose of the Services Management module is to develop students' knowledge and understanding of services management as an integral part of the 21st century. This module will also introduce students to the basic principles underlying service management and will more specifically address the importance of service quality management, service development and design and the service delivery process. Furthermore, the module will highlight how organisations should manage employees', customers', and the environment's role in service delivery, building customer relationships and loyalty, and lastly how service recovery occurs.

Outcome(s):
Students should be able to:
- analyse the role that services, and the management thereof play in the business environment.
- differentiate between the management of services and the management of products.
- demonstrate how services should be managed and delivered; and
- evaluate the role people play in the delivery and management of services.

STRATEGY IMPLEMENTATION: (AC1STIM)

Purpose:
The purpose of Strategy Implementation module is to provide the student with knowledge, interpretation, analysis and an understanding of strategy implementation and strategy control phases of the strategic management process.

Outcome(s):
Students should be able to:
- apply change management processes in strategy implementation.
- identify and analyse the strategic implementation components.
- describe the roles and importance of strategic leadership, of culture and strategic structures in strategy implementation; and
- discuss strategic control and improvement as part of the strategic management process.

RISK MANAGEMENT STREAM:

ANALYTICAL TECHNIQUES: (AC1ANAT)

Purpose:
The purpose of the Analytical Techniques module is to introduce the student to statistics as means of problem solving in business management. Essentially, a student should be able to reflect on the meaning of statistics for managers and gain basic competencies in practical considerations such as collecting and analysing data at a descriptive level.

Outcome(s):
Students should be able to:
- demonstrate a basic conceptual understanding of business statistics and the problem-solving process.
- develop a plan for data collection.
- show how the raw data can be tabulated and presented graphically; and
- conduct basic descriptive analysis.

BUSINESS CONTINUITY PROCESSES: (AC1BCOM)

Purpose:
The purpose of the Business Continuity Management (BCM) module is to provide the learner with knowledge, interpretation, analysis, and an understanding of what risks management is, how it is implemented and why it is important. The module also focuses on personal development of the student, as well as preparing the student for identification and management of risks in their business environment. This module will require of students to develop intellectual competencies and practical skills in the field of BCM.

Outcome(s):
Students should be able to:
- identify and illustrate vital business processes.
- explain the fundamentals of risk management.
- explain the concept of corporate governance relating to BCM.
- explain BCM principles, terminology, strategies, planning, process, and concepts; and
- discuss how BCM influences business strategy.

MANAGING RISK MANAGEMENT: (AC1MARM)

Purpose:
The purpose of the Managing Risk Management module is to provide give students with basic knowledge, insight and skills that are needed to understand the introductory aspects relating to Managing Risk Management. The module will also identify and explain the need for Risk Management (overview). The module will furthermore discuss in detail ISO 31000 Risk Management Framework to assist students in managing risk in an organisation.

Outcome(s):
Students should be able to:
- identify and define risk and the different kinds of risk.
- understand and discuss the factors influencing risk management.
- understand and discuss and risk management and enterprise risk management and the risk management processes according to ISO 31000; and
- discuss some of the elements of corporate governance.

RISK FINANCING: (AC1RFIN)

Purpose:
The purpose of the Risk Financing module is to introduce students to the financial market, the different capital markets, both domestic and foreign, and their respective financial instruments and the role that they play in risk financing. The module also focuses on risk management through the use of derivatives.

Outcome(s):
Students should be able to:
- define and explain the structure and functioning of financial markets.
- demonstrate an understanding of the different capital markets, both domestic and foreign, the financial instruments that trade in these markets and the role that they play in risk financing.
- explain the purpose of hedging and demonstrate an understanding of and application of basic? different hedging instruments (derivatives); and
- describe the link between financial markets, capital markets, risk financing and derivatives.

RISK IDENTIFICATION AND ASSESSMENT: (AC1RIAS)

Purpose:
The purpose of the Risk Assessment module is to improve students' ability to calculate and interpret various measures of risk and to apply financial decision-making in a real-world context. This enables students to perform calculations faster and more accurately for risk-informed business and financial decision-making.

Outcome(s):
Students should be able to:
- explain the importance and the focus of financial risk assessment.
- apply the fundamental principles of time value of money to various risk assessment scenarios.
- apply advanced time value of money calculations to multiple types of financial assessments.
- apply capital budgeting techniques in different risk assessment scenarios; and

- apply the concept of amortisation in a risk assessment context.

PROJECT MANAGEMENT STREAM:

NATURE OF PROJECTS / LIFE CYCLE: (AC1NPLC)

Purpose:
The purpose of the Nature of Projects Life Cycle module is to introduce students to a project's life cycle and to project management knowledge areas. The project life cycle helps guide project managers to navigate through their projects from the start to a successful completion.

Outcome(s):
Students should be able to:
- demonstrate knowledge of the project life cycle.
- demonstrate knowledge of project management knowledge areas; and
- describe processes involved in each of the knowledge areas of project management.

PROJECT CHANGE MANAGEMENT: (AC1PCMT)

Purpose:
The purpose of the Project Change Management module is to introduce the student to change management within project management. Within the life cycle of all projects there are changes that occur. These changes must be managed effectively on the technical side, but importantly, also on the people side. From a technical point of view, the change must be developed, designed, and delivered. The project management discipline will ensure that this will happen by providing the structure, processes, and tools. From the side of the people that is involved in the project, the changes must be embraced, adopted, and utilised. The change management discipline will ensure that this happens by providing the structure, processes, and tools.

Outcome(s):
Students should be able to:
- demonstrate how to manage change in a project.
- describe the basic philosophies of change in project and process of change.
- demonstrate change control management processes in a project.
- describe common modelling language that are used to model change; and
- discuss business analysis in the context of project change.

PROJECT COMMUNICATION MANAGEMENT: (AC1PCOM)

Purpose:
The purpose of the Project Communication Management module is to introduce the student to the importance of effective communication to increase the probability of project success, by utilising the basic principles of communication.

Outcome(s):
Students should be able to:
- explain and demonstrate the importance of effective project communication.
- describe the communication model.
- list and explain the various communication constraints.
- discuss the importance of project communication and documentation.
  and
- explain performance reporting and discuss the tools used for performance reporting.

PROJECT INTEGRATION MANAGEMENT: (AC1PIMT)

Purpose:
The purpose of the Project Integration Management module is to introduce the student to the development of an integrated project management process that will allow the project manager to focus all the project effort on the strategic plan of an organisation. It will also highlight the importance of both project management techniques and interpersonal skills to equip the student to be part of an effective project team.

Outcome(s):

Students should be able to:
- discuss the purpose and use of a project charter.
- describe the project management plan.
- explain the directing and managing of projects.
- apply the principles of monitoring and controlling a project; and
- explain integrated change control and project integration tasks in project closing.

PROJECT MANAGEMENT CONTROL: (AC1PMCL)

Purpose:
The purpose of the Project Management Control module is to introduce the student to the advanced themes and concepts of project management control. This module covers principles, examples, and exercises in the control of time, cost, and quality (known as the project iron triangle) in order to account for variances and still complete a project successfully according to technical criteria. This will enable the student to be an effective project team member.

Outcome(s):
Students should be able to:
- describe the project control processes.
- apply cost management principles.
- apply and comprehend quality management principles; and
- apply advanced scheduling techniques.

ASSESSMENT
Semester Assessments
Three semester assessment opportunities are scheduled for each module and are weighted as follows:
- Assessment 1:   10%
- Assessment 2:   15%
- Assessment 3:   75%
- Semester Total: = 100%

Final assessment
A final summative assessment is scheduled for each of the modules at the end of the semester.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark for each module: 50%

MODERATION
- All examination papers are moderated externally according to UJ moderation policy.
- Appeals procedure according to UJ's assessment policy.

ASSOCIATED ASSESSMENT CRETERIA
- discuss budgeting and the various cost accounting methods and the analysis of financial statements.
- distinguish the difference in the role of management and leadership in change management and review the critical success factors and models in managing change.
- describe the impact of increasing globalisation and international trade and describe the four risks in international business and the firm's international value chain.
- formulate strategies and identify goals and key components of strategic implementation.
- identify and describe the general management theories including strategic implementation, operations, service and information management as its influences on business practices.
- classify the different factors of risk, including key financial risks and explain enterprise risk management and hedging instruments.
- explain the different phases in a project life cycle and describe an overall framework for project integration management including the project communication, control, and change management process.

NAME OF PROGRAMME:	WHOLE PROGRAMME	CODE:	NQF LEVEL: 5
HIGHER CERTIFICATE IN BUSINESS MANAGEMENT	PART-TIME: APB	*	CREDITS: 120

TYPE OF WHOLE PROGRAMME (WP)

Credit bearing whole programme.

* Within this whole programme there are three elective streams being General Management stream (HCBM01); Risk Management stream (HCBM04); and Project Management stream (HCBM05). For more information see the different streams in the programme content on the next page.

MODE OF OFFERING:

- Lectures for this qualification are presented on a part-time basis.
- Ten modules are scheduled on-line for three consecutive evenings from 17:30 to 21:00 (30 sessions per year) and a non-compulsory Saturday session is arranged per module.

CERTIFICATION

Competence based.

ADMISSION REQUIREMENTS

National Senior Certificate, NQF level 4 with Certificate Endorsement.

LEARNING ACTIVITIES

ACTIVITY	HOURS	CREDITS
Contact time (Lectures)	200	-
Workshops	-	-
Work-based learning	200	-
Independent reading/interacting with learning material/online activities	200	-
Preparation for and completion of assignments and other assessment activities	500	-
Tutorials	-	-
Other (specify)		
Development of conceptual skills	100	-
Total hours	1200	-
Total number of credits	-	120

DURATION OF PROGRAMME

- Class time: either 2 full-day classes or three evening classes per module depending on the schedule.
- Months to complete: February to November.
- Minimum period to obtain: one year.
- Maximum period to obtain: two years.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS

After successful completion of the Higher Certificate in Business Management students who also meet the applicable minimum entry requirements will be considered for the Advanced Certificate in Business Management.

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES

Students will receive no credits towards the completion of subsidised UJ programmes.

Purpose:

The purpose of the Higher Certificate in Business Management is to introduce students in the workplace with general business management theories and introductory management competencies to enable them in assisting management in analysing business processes. In addition, it affords those students to specialise in one of the knowledge areas of either general management, risk management or project management.

MODULES AND OUTCOMES:

COMPULSORY MODULES:

BUSINESS WRITING AND COMMUNICATION: (HC1BWCN)

Purpose:
The purpose of the Business Writing and Communications module is to expose students to the various communications methods available to organisations. This module aims to educate students about effective business communication by analysing what business communication entails, what aspects should be considered when communicating in an organisation, the possible avenues for communication as well as the possible downfalls that could occur and finally, how one should communicate effectively.

Outcome(s):
Students should be able to:
- explain what business communicate entails.
- analyse the importance of business communication.

- describe the aspects one should consider when communicating; and
- demonstrate how one communicates effectively within the business environment by developing a communications strategy.

ACCOUNTING ASPECTS: (HC1ACAS)

Purpose:
The purpose of the Accounting Aspects module is to introduce Accounting Aspects and the business process. In doing so the module consists of theory and practical components concentrating on the identification process to understand the theory of accounting and introduction to the financial statements. The purpose of this module is furthermore to provide the student with an understanding and insight into accounting and its purposes.

Outcome(s):
Students should be able to:
- describe the nature and function of accounting.
- recognise and understand the nature of accounting theory.
- identify the business process and apply this process to the accounting process; and
- record and construct the three important reports used by businesses namely: the statement of financial position, the statement of comprehensive income and the cash flow statement.

PROJECT MANAGEMENT: (HC1PJMN)

Purpose:
The purpose of the Project Management module is to provide an introductory orientation towards the principles of project management. It will develop competency in order to analyse, transform and critically evaluate new information on various aspects of project management.

Outcome(s):
Students should be able to:
- describe the objectives and principles of project management.
- explain the processes of project management from a project manager's perspectives; and
- discuss the project life cycle and the various stakeholders involved.

HUMAN RESOURCE MANAGEMENT: (HC1HRMT)

Purpose:
The purpose of the Human Resource Management module is to introduce the learner to human resources management (HRM) function. The module provides the student with an overview of the various motivational theories that can be applied in HRM, discusses job analysis, job description, job specification, workforce planning, recruitment, and training & development. Finally, the module introduces the learner to the notion of leadership and its various styles as well as power and conflict dynamics impact on HRM.

Outcome(s):
Students should be able to:
- summarise the value-adding role of the human resources management (HRM) function in the organisation.
- distinguish between the various motivational theories that can be applied in HRM.
- explain job analysis, job description, and job specification concepts.
- describe workforce planning, recruitment, training & development concepts.
- define leadership and its various styles and define power dynamics and conflict management.

MANAGEMENT PRINCIPLES: (HC1MPCP)

Purpose:
The purpose of the Management Principles module is to provide the student with an introduction to managerial practices and approaches so that, existing and potential individuals in managerial positions can conduct managerial tasks adequately.

Outcome(s):
Students should be able to:
- briefly explain strategy.

- identify and briefly explain the characteristics of planning as well as different types of control; and
- explain the organising process; and
- compare and discuss the leadership behavioural theories.

BUSINESS DECISION MAKING: (HC1BDMG)

Purpose:
The purpose of the Business Decision Making module is to support a young manager in recognising and applying decision-making methodologies applicable to a work environment. The module will introduce the student to key decision-making models including: a decision tree, a payoff matrix, a ratio analysis, a break-even analysis, and an economic order quantity model. The module is focused on assisting with improving a business situation in which an expected level of performance is not being achieved.

Outcome(s):
Students should be able to:
- describe the decision-making process.
- explain approaches that can be adopted to make decisions.
- describe the types of decision-making rules managers may have to establish.
- discuss the role of group decision making; and
- recognise barriers to effective decision making.

RISK MANAGEMENT: (HC1RSKM)

Purpose:
The purpose of Risk Management module is to give students with an overall knowledge, insight and skills that are needed to understand the introductory aspects relating to Risk and Risk Management. The sources of risks are identified, described and classified as controlled and uncontrolled sources and/or types of risk in terms of micro (internal) organisational influences vs. external influences. This module is mostly theoretical. It identifies and explains the need for Risk Management (overview) and introduces the student to ISO 31000 Risk Management Framework to assist them in managing risk in an organisation.

Outcome(s):
- Students should be able to:
- identify, define, and evaluate risk and the risk concepts.
- understand and discuss the role of the financial system in the economy.
- identify and define the different kinds of financial risk.
- describe the factors influencing risk management; and
- distinguish and discuss risk management and enterprise risk management including the risk management processes according to ISO 31000.

ELECTIVE STREAMS (Select one stream):

GENERAL MANAGEMENT STREAM:

MARKETING MANAGEMENT: (HC1MKTM)

Purpose:
The purpose of the Marketing Management module is to provide an introductory orientation towards the principles of Marketing.

Outcome(s):
Students should be able to:
- explain the role of marketing in context.
- explain how the marketing environment impacts on a business.
- comprehend consumers and their decision-making behaviour when making purchases; and
- show how to structure the marketing mix of product, price, place, promotion, people, processes and physical evidence to ensure success.

FINANCIAL MANAGEMENT: (HC1FINM)

Purpose:
The purpose of this Financial Management module is to provide the student with a basic, yet applicable knowledge of fundamental concepts of finance, and where each of these concepts fit into the financial management function.

Outcome(s):
Students should be able to:
- recall the role and function of a financial manager in an organisation.
- explain what risk is, apply various statistical techniques to measure risk, and identify how risk can be reduced.
- describe the concept of time value of money and apply various mathematical techniques to determine the value of money over time.
- describe the concept of capital structures and capital components; and
- calculate the weighted cost of capital for a given organisation.

LABOUR RELATIONS: (HC1LREL)

Purpose:
The purpose of the Labour Relations module is to provide students with an overview of the historical development of labour/employment relations in the South African context and to explain the system of collective bargaining and dispute resolution mechanisms provided for by the legislations. The module further addresses grievance procedures, disciplinary actions, and retrenchment procedures in the workplace.

Outcome(s):
Students should be able to:
- define the concept of employment relations and its historical development in the South African context.
- identify and explain various legislative frameworks governing employer and employee relations in South Africa.
- describe the collective bargaining system and organisational rights.
- discuss the organisational level labour relations mechanisms and processes; and
- differentiate between and describe dispute resolution mechanisms (conciliation, mediation and arbitration.

RISK MANAGEMENT STREAM:

FINANCIAL RISK: (HC1FINR)

Purpose:
The purpose of the Financial Risk module is to introduce students to financial risk, types of risks, risk terminology used in the financial sector, sources of financial risk, risk frameworks, risk identification, measurement and risk management. This will also introduce students to know how to solve or manage financial risks and be creative in formulating new methods or ways to solve financial risks

Outcome(s):
Students should be able to:
- identify and define financial risk and risk concepts and terminologies.
- measure and manage credit risk.
- identify and manage interest rate risk.
- manage and measure liquidity risk; and
- identify and manage exchange rate risk.

OPERATIONAL RISK: (HC1OPSR)

Purpose:
The purpose of the Operational Risk module is to introduce operational risk from a managerial perspective and its usage in the business risk process, while presenting operational risk management framework that can be applied in a single project, a department or can be used as a basis for an enterprise-wide risk management. As a module that consists of both theory and practical components, operational risk management offers a unique opportunity to identify the required steps and processes of managing risk in an operational environment and its importance in the strategic decision making.

Outcome(s):
Students should be able to:
- explain the risk identification processes.

- explain risk evaluation processes.
- apply risk control mechanisms.
- identify and suggest risk financing strategies; and
- apply risk monitoring techniques.

CORPORATE GOVERNANCE AND COMPLIANCE MANAGEMENT: (HC1CGCM)

Purpose:
The purpose of the Corporate Governance Compliance and Management module is to provide the student with the necessary knowledge and understanding of the South African corporate legal system as well as the corporate governance concept within a business and its financial environment. It is further aimed at providing students with up-to-date knowledge and insight relative to ongoing global best practices in corporate governance concepts and to gain a new perspective of the impact of good corporate governance practices on ensuring the efficient management of a company, including the recommendations of the King IV™.

Outcome(s):
Students should be able to:
- explain the role of the compliance officer/manager in the business and the need for governance and control in relation to business.
- discuss how governance and control measures are enforced.
- explain the risks associated with non-compliance or non-activity.
- give an account of the relationship between fiduciary responsibility and personal liability; and
- identify and describe the legislation that impacts the business within an industry.

PROJECT MANAGEMENT STREAM:

PROJECT IDENTIFICATION AND SCOPING: (HC1PJIS)

Purpose:
The purpose of the Project Identification and Scoping module is to equip students with the objectives and the underlying principles of project identification and scoping. It will prepare the student to be knowledgeable on how projects are identified in the initiating phase of the project's life cycle.

Outcome(s):
Students should be able to:
- identify what constitutes a project.
- develop project scope document.
- identify and assign responsibility.
- create and solicit proposals; and
- create WBS, network diagrams and project charters.

PROJECT CONTROL: (HC1PJCL)

Purpose:
The purpose of the Project Control module is to introduce the student to the main themes and concepts of project management by covering a wide range of traditional and contemporary management principles and concepts and many examples illustrating how successful managers apply theory to practice in their organisations. The module will also in particular focus, on topics related to the evolution of management, the changing environment, strategic planning, and managerial functions.

Outcome(s):
Students should be able to:
- comprehend the concept of project control in project management.
- explain the principles and applications of project cost management.
- discuss the concept of project change management.
- calculate and analyse earned value as well as schedule, time, and cost variances for projects.
- describe work authorisation systems; and
- elaborate on the knowledge area of area of project quality management.

PROJECT PROCUREMENT AND COMMUNICATION: (HC1PPCO)

Purpose:
The purpose of the Project Procurement and Communication module is to provide the student with an introductory orientation towards the principles of project procurement management and project communication management.

Outcome(s):
Students should be able to:
- comprehend the importance of effective project communication.
- explain the requirements of the communication management plan; and
- explain the importance of and procedures for project closure reporting.

ASSESSMENT
Semester Assessments
Three semester assessment opportunities are scheduled for each module, and are weighted as follows:
Final Assessment
- Assessment 1:   10%
- Assessment 2:   15%
- Assessment 3:   <u>75%</u>
- Semester total: = <u>100%</u>
A final summative assessment is scheduled for each of the modules at the end of the semester.

CALCULATION CRITERIA
Assessment weightings:
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark for each module: 50%

MODERATION
- All examination papers are moderated externally according to UJ moderation policy.
- Appeals procedure according to UJ's assessment policy.

ASSOCIATED ASSESSMENT CRITERIA
The Assessment Criteria may be applied across any one or more of the Exit Level Outcomes in an integrated way.
- Describe, explain and illustrate managerial theories applicable in the specific business environment.
- Describe strategic management concepts and analyse the business environment.
- Provide an overview of motivational theories and the management of conflict in the workplace.
- Communicate and write reports in a business environment.
- Illustrate basic management accounting principles.
- Compare financial statements and make recommendations.
- Use performance management theories in evaluating the performance of a team/organisation.
- Explain basic labour relation principles.
- Use basic project management tool and techniques.
- Analyse the market environment.
- Apply management theories in general management, including areas such as risk and project management.

Short Learning Programmes:

NAME OF PROGRAMME: PROJECT MANAGEMENT	SHORT LEARNING PROGRAMME PART TIME – APB	SLP CODE: S1PJMQ	NQF LEVEL: 7 CREDITS: 20

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Credit bearing short learning programme.

MODE OF OFFERING:
Although the purpose and outcomes of this short learning programme remains unchanged this SLP is only offered to companies or institutions who pay for and enrol multiple students simultaneously as the content is adapted to company-specific examples.
This programme is not offered to individuals.

CERTIFICATION
Attendance based and assessment based.

ADMISSION REQUIREMENTS
National Senior Certificate, NQF level 4 with certificate endorsement.

MODULE AND OUTCOMES:

PROJECT MANAGEMENT: (SCPJMNT)

Purpose:
The purpose of this module is to use the proven and traditional approaches to project management as well as some of the more innovative and novel practices that are becoming available in this specialised field.

Outcome(s):
Students should be able to:
- discuss the history of project management.
- describe the role of the project manager in an organisation and ways of structuring organisations to accommodate projects.
- explain project selection and estimation of project constraints.
- distinguish between the fundamentals of project scheduling, resource allocation and resource scheduling.
- explain the difference between project budgeting and cost estimation.
- demonstrate how monitoring and evaluating project progress is applied; and
- describe the differences between controlling and regulating project activities closing and evaluating of projects.

ASSESSMENT
Assessments will be based on self-evaluation, participation in discussions, and attendance of all class sessions and the completion of an individual assignment.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

MODERATION
All examination papers are moderated externally according to UJ moderation policy.

Risk Management in Business Management	SCRSKMT	Risk Management in Business Management	SCRSKMT

MODULE AND OUTCOMES:

RISK MANAGEMENT IN BUSINESS MANAGEMENT: (SCRSKMT)

Purpose:
The purpose of this module is to identify and explain the need for Risk Management (overview) and introduces the student to ISO 31000 Risk Management Framework to assist them in managing risk in an organisation. The module also develops Enterprise Risk Management (ERM) practitioners that can demonstrate focused knowledge and skills of methods, standards and techniques of Risk Identification and Evaluation in the field of ERM.

Outcome(s):
Students should be able to:
- identify and define Risk.
- identify, describe and classify the different source and types or risk.
- identify and define Enterprise Risk Management (ERM).
- discuss and reason the advantages of ERM.
- identify, describe and evaluate the importance of risk and managing risk in organisations.
- identify and describe the relation between risk and business growth and/or opportunities.
- identify, list, explain and apply the steps of a Risk Management Process.
- identify and explain and give examples of internal (micro) influences contributing to the organisational risk; and

ASSESSMENT
- Assessments will be based on self-evaluation, participation in discussions, and attendance of all class sessions and the completion of an individual assignment.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
The Department of Finance and Investment Management offers a BComHons (Financial Planning) (H3FP7Q). This SLP will be marketed at graduates from the BComHons (Financial Planning) (H3FP7Q) with a specific interest in the administration of estates. Members of the Financial Planning Institute (FPI) will qualify for CPD points.

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
N/A

PURPOSE OF PROGRAMME
The purpose of this SLP is to strengthen the knowledge and skills of established professionals from practice, or graduate students in the administration process of a deceased estate. It will also develop knowledge and skills to enable students to demonstrate their ability to create and prepare the documents required for the reporting of a death, liquidation and distribution account and redistribution agreements; to assess the impact of a death on the distribution of assets; evaluate the administrative process from the reporting of a death to the finalisation of the deceased estate. This programme will provide students with a high-quality theoretical and practical

introduction and knowledge of the administration of estates. Both financial planning professionals and graduates will benefit from this programme.

PROGRAMME CONTENT

SEMESTER MODULES			
FIRST SEMESTER		**SECOND SEMESTER**

- Methods of assessment are in line with the UJ assessment policy.
- Assessment: Students will receive a Semester mark for completing various activities and will then be given an exam after the programme has been completed in order to obtain an Exam Mark.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Entrance: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

Please note: A pass rate of 50% is required upon which a Certificate of Competence will be issued. If attendees do not complete and pass the assessment only a Certificate of Attendance will be issued.

MODERATION
Internal moderation by subject matter experts in accordance with UJ moderation policy.

NAME OF PROGRAMME: APPLIED WEALTH MANAGEMENT	SHORT LEARNING PROGRAMME DISTANCE ONLINE LEARNING	SLP CODE: S3F01O	NQF LEVEL: 9 CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme.

MODE OF OFFERING
- The SLP will be delivered online using the latest enterprise version of BlackBoard to facilitate learning and teaching. The pedagogical design of the SLP will include a range of teaching and learning activities, enhanced by well-structured student support systems. The content and scope of this SLP will especially seek to develop the theoretical and skills knowledge base of students who will be empowered to justify the decisions they make, and the manner in which they apply and implement critical financial and investment related concepts.
- The expertise of the Centre for Academic Technologies (CAT) will ensure that the offering of the programme will model the appropriate use of tools and concepts and will offer the students the best learning experience.
- After completion of this SLP Applied Wealth Management at UJ and together with the successful completion of the modules through the Chartered Institute for Securities & Investment (CISI); of Financial Markets and Portfolio Construction Theory, students may be awarded the designation of Chartered Wealth Manager (CWM).
- Students may be required to complete assignments and tutorials as part of their independent reading activities. Materials will be supplied and/or suggested to students to assist with learning – all via the Blackboard platform.

This SLP will make use of the following:
- The UJ Learning Management System (LMS) BlackBoard
- Online tools, if appropriate, outside the LMS
- Read and review prescribed materials
- Participate in discussion forums, online learning communities and webinars/guest lectures

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- An appropriate and recognised financial qualification at a NQF level 8, or
- A NQF level 7 qualification with relevant work experience in the financial services industry will be considered by the Department for those that do not possess an appropriate NQF level 8 qualification, or
  - Chartered Financial Analyst
  - Certified Financial Planner designation (CFP®)
  - Member of Chartered Financial Analyst (CFA): or
- Overseas qualifications where the applicant can demonstrate that the number of study hours, the form of assessment and the content (which should have a strong investment related element) are appropriate to prepare them for study at Master's level.

PURPOSE OF PROGRAMME
The purpose of the Applied Wealth Management SLP is to provide finance professionals with specialist knowledge and expertise to further a career in wealth and investment management and will qualify candidates with the ability to advise clients locally and more limitedly on other global jurisdictions. These competencies are, inter alia, in the areas of financial planning, investments, risk, tax, retirement planning, estate planning, high net worth consulting, relationship management, compliance, ethics, business entities and insurance. The SLP is aimed at wealth managers, independent financial advisors (IFA's), portfolio managers, Certified Financial Planners®, private bankers and certain employees employed in wealth and asset management with an opportunity to acquire an internationally recognised qualification and accreditation.

PROGRAMME CONTENT

ONLINE MODULE	
MODULE NAME	**MODULE CODE**
Applied Wealth Management	S3F01O1

MODULE AND OUTCOMES:

APPLIED WEALTH MANAGEMENT: (S3F01O1)

Purpose:
The following topics will be covered:
- The South African financial services regulatory framework.
- The integrity, standards, and professional values required of practitioners.
- The prevention, detection, and reporting of financial crime.
- Developing a picture of circumstances and preferences of clients from the information obtained, and the determination of appropriate financial and investment solutions.
- Effectively communicating the recommendations, advice, and action for the client.
- Managing liquidity to meet short- and long-term funding requirements.
- Matching clients to appropriate financial protection and retirement strategies and communicating the recommendations and approaches.
- The structuring and managing of social investment and of philanthropic activity.
- The scope of taxation applicable to clients.
- The appropriate application of trusts and intergenerational financial and investment planning.

Outcome(s):
Students should be able to:
- explain the South Africa financial services regulatory system and its implications for firms and advisors;
- develop, construct, and implement an appropriate investment plan for a client by applying the principles of investment planning, and communicate the plan to the client;
- revisit and review the investment plan appropriately within the ongoing client relationship and management of a private client portfolio;
- apply and evaluate the management of liquidity to meet short- and long-term funding requirements;
- evaluate financial protection needs and apply suitable protection products where appropriate;
- evaluate how political, economic, legal, social, tax and regulatory factors provide the context for, and impact on retirement planning;
- evaluate and apply suitable accumulation, de-risking, decumulation, and retirement income strategies appropriate to a client's retirement planning and provision;
- explain and evaluate the use of social investment and philanthropy for clients and wealth management;
- assess the impact of personal taxation on the investment planning and investment decision-making process; and
- identify, explain, and examine the types and uses of trusts, the rights of beneficiaries, and the taxation of trusts.

ASSESSMENT
- This SLP will require attendance of sessions, and to engage with the prescribed material.

- Assessment is summative and will be written online and in line with the criteria as stipulated by the CISI.
  - This will be a 3-hour online examination of 100 marks comprising three sections:
    - Section A worth 20 marks; candidates will be expected to answer four questions from six, worth 5 marks each.
    - Section B worth 40 marks; candidates will be expected to answer both questions in this section worth 20 marks each.
    - Section C worth 40 marks.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mar Weight: 0%
- Examination Mark Weight: 100%
- Pass Mark: 60%

MODERATION
- The assessments will be externally moderated by the CISI in order to ensure that the required standards and content are included and maintained and in line with the CISI's policies.
- This will also be in line with the UJ Policy on Moderation

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme.

MODE OF OFFERING
- Two-day workshop which will involve a 8 hour per day contact session facilitated by lecturers who are subject specialists and experienced in learning facilitation;
- Exercises and activities designed for students to complete as part of their independent reading activities ('mini-tests' and assignments, given during the workshop);
- Material which will be supplied or suggested for students to work with; and
- Technology-assisted learning using Blackboard.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
NQF level 7 Industry related property qualification.

PURPOSE OF PROGRAMME
The purpose of this SLP is to introduce students to the principles and concepts of corporate treasury management, the practical knowledge of financial instruments as well as the tools to analyse and manage financial and operational risks. It will provide students with a solid foundation in operations of treasury markets in the Southern Africa environment, global financial sectors and multinational companies.

PROGRAMME CONTENT

SEMESTER MODULES			
FIRST SEMESTER		**SECOND SEMESTER**	
MODULE NAME	**MODULE CODE**	**MODULE NAME**	**MODULE CODE**
Introduction to Treasury Management	S3FTPQ1	Funding in Treasury Management	S3FTPQ5

Processes in Treasury Management	S3FTPQ2	Risk in Treasury Management	S3FTPQ6
Cash and Liquidity in Treasury Management	S3FTPQ3	Financial Treasury Management	S3FTPQ7
Financial Markets in Treasury Management	S3FTPQ4		

MODULES AND OUTCOMES:

INTRODUCTION TO TREASURY MANAGEMENT: (S3FTPQ1-7)

Purpose:
The purpose of this module is to analyse the theories, concepts, procedures and structure of treasury management in companies, and implement and evaluate key calculations necessary to understand the exposure that financial instruments have on the financial structure of an organisation.

Outcome(s):
Students should be able to:
- analyse the theories, concepts, procedures and structure of treasury management in entities and implement it; and
- evaluate key calculations necessary to understand the exposure that financial instruments have on the financial structure of an organisation.

PROCESSES IN TREASURY MANAGEMENT: (S3FTPQ2)

Purpose:
The purpose of this module is to manage a company's treasury operations and capital structure in a commercial environment including processes, operations and controls in a treasury management environment.

Outcome(s):
Students should be able to:
- analyse the key factors in managing a company's treasury operations and contracts;
- demonstrate the ability to identify and manage a company's key treasury exposures;
- negotiate bank term loans and manage capital issues of debt and equity securities;
- manage systems that reduce holdings of non-earning cash balances to minimum levels while still providing adequate liquidity;
- utilise technology to streamline the cash management process;
- describe domestic and international banking relationships to support global cash management;
- explain a company's internal policies/processes and external variables that impact cash management;
- describe the role of treasury operations in an international or a local bank;
- explain several different treasury management systems, their functions and features;
- describe treasury policy and control and evaluate its importance and elements; and
- explain and implement a treasury framework.

CASH AND LIQUIDITY IN TREASURY MANAGEMENT: (S3FTPQ3)

Purpose:
The purpose of this module is to describe and implement cash and liquidity management and calculate the financial instruments relevant to cash and liquidity management in a treasury management environment.

Outcome(s):
Students should be able to:
- explain and implement a basic cash flow forecast;
- describe the steps involved in preparing a cash flow forecast;
- describe and perform forecasting techniques;
- explain the types of collection methods and strategies;
- describe the need and purpose of planning, organising and controlling of cash and borrowing by the means of treasury management;
- manage both short- and long-term borrowed funds in a timely manner and at an acceptable cost;
- evaluate and implement credit facilities to fund corporate cash shortages;
- describe the link between corporate strategy and treasury operations, and develop a basic corporate strategy linked to a long term financial plan and forecast; and

- describe and calculate short-term interest-bearing instruments.

FINANCIAL MARKETS IN TREASURY MANAGEMENT: (S3FTPQ4)

Purpose:
The purpose of this module is to differentiate between various financial markets and describe and calculate financial market instruments utilised in a treasury management environment.

Outcome(s):
Students should be able to:
- differentiate between various financial markets; and
- describe and calculate financial market instruments utilised in a treasury management environment.

FUNDING IN TREASURY MANAGEMENT: (S3FTPQ5)

Purpose:
The purpose of this module is to explain, calculate and evaluate funding options and the linked financial instruments in a treasury management environment.

Outcome(s):
Students should be able to:
- explain working capital concepts and issues;
- manage working capital effectively;
- identify sources of short- and long-term financing;
- describe considerations of issuers and investors;
- evaluate the factors of the forms of funding and correctly utilise the forms of funding; and
- calculate the effects of the forms of funding in the financial market instruments.

RISK IN TREASURY MANAGEMENT: (S3FTPQ6)

Purpose:
The purpose of this module is to describe and interpret risk management techniques and calculate the effect of risks in treasury management.

Outcome(s):
Students should be able to:
- describe and implement the concepts of risk, its processes, identification and measurement;
- implement methods how the treasurer might reduce risk for the firm;
- monitor and control exposure to interest rate risk, foreign exchange risk and other financial risks;
- assess the financial risks facing organisations;
- describe the management principles for managing and hedging liquidity risk, interest rate risk, foreign exchange risk, and credit risk (including the use of credit ratings);
- explain risk management processes;
- evaluate the application of hedging techniques used in corporates' treasury operations; and
- identify calculate and interpret the financial instruments and strategies used to manage risk

FINANCIAL TREASURY MANAGEMENT: S3FTPQ7

Purpose:
The purpose of this module is to analyse the theories and concepts, undertake the management, and calculate the effects of management strategies on funding in treasury management by the use of financial management principles.
Outcome(s):
Students should be able to:
- perform and assess corporate valuations;
- perform basic accounting entries;
- evaluate financial information and reports;
- describe and implement portfolio management theory;

- analyse and select the required organisational structure for treasury operations within companies to devise relevant policy and evaluate objectives and Treasury Performance; and
- efficiently utilise corporate cash.

ASSESSMENT
- Formative assessment opportunities consist of a combination of assignments and homework submissions and Blackboard quizzes.
- Summative assessment opportunity consists of a last written assessment opportunity. The assessment papers will have a combination of objective test questions, and/or short questions and/or case study questions.
- Methods of assessment will be aligned to the UJ academic regulations

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

MODERATION
Internal moderation by subject matter experts in accordance with UJ's moderation policy.

| Income Producing Properties A | S3FI02A | Income Producing Properties B | S3FI02B |

MODULES AND OUTCOMES:

INCOME PRODUCING PROPERTIES: A/B (S3FI02A / S3FI02B)

Purpose:
The following topic will be covered:
• Income Producing Properties
This includes but is not limited to:
• township development;
• valuation principles underlying the investment method of valuation; and
• Direct Capitalisation versus Discounted Cash Flows.

Outcome(s):
Students should be able to:
• perform valuations based on direct capitalisation method and the discounted cash flow method;
• perform cash-flow forecasts for investment property;
• complete a feasibility study;
• apply a correct discount rate; and
• undertake the valuation of various types of properties.

ASSESSMENT
• Methods of assessment and assessment task will be aligned to the UJ academic regulations.
• This SLP will be continuously assessed.
• Continuous assessment includes formative and summative assessment.
    - The assessment will comprise the completion of learning tasks (such as 'mini-tests' and assignments) which will be given during the course of the workshop.
    - When combined these learning tasks will constitute a portfolio and will amount to 100% of the final mark.
• Learning Tasks form a coherent whole and are authentic in nature.

CALCULATION CRITERIA
• Minimum Full Period Mark for Examination Admission: 0%
• Full Period Mark Weight: 100%
• Examination Mark Weight: 0%
• Pass Mark: 50%
Please note: This forms part of the portfolio that can be submitted to South African Council for Property Valuers Profession (SACPVP) and aids as preparation for the board exam.

MODERATION
Internal moderation will be in line with the UJ moderation policy.

PURPOSE OF PROGRAMME
The purpose of this SLP is to become a CERTIFIED FINANCIAL PLANNER® (CFP®) professional, an applicant must pass the Financial Planning Institutes (FPI) competency board exam. The short learning programme (SLP) will prepare and equip students to attempt and pass the competency board exam. The SLP will provide prospective students an opportunity to study a programme focused on the universal nature of financial planning and the application in practice, which will simultaneously give them the necessary recognition for continuous professional development at the applicable professional bodies. Financial planning consists of 6 different cornerstones: tax planning; risk and insurance planning; estate planning; retirement planning; investment planning; and employee benefits. There is a demand in the industry to explore these topics in a holistic manner. This will prepare and equip a student to attempt and pass the FPI competency board exam.

| Integrated Financial Planning A | S3IFPQA | Integrated Financial Planning B | S3IFPQB |

MODULES AND OUTCOMES:

INTEGRATED FINANCIAL PLANNING: A/B (S3IFPQA / S3IFPQB)

Purpose:
The purpose of this SLP is to give the student the ability to merge all the different areas of the financial planning process into an integrated strategic financial plan which can be applied in practice. It will include the following aspects of financial planning: gathering of client information; setting financial goals and objectives with the client; analysing and interpreting data; addressing problem areas and devising solutions and presenting findings and recommendations to the client.

Outcome(s):
Students should be able to:
- apply financial planning principles and knowledge to real life case studies in order to produce a comprehensive financial plan;
- identify the risk areas and compose a financial report to address these areas of concern;
- evaluate the personal and financial information and distinguish between relevant and irrelevant information to categorise the information according to the different areas in financial planning; and
- critique an existing financial plan and recommend suitable solutions;

ASSESSMENT
There will be one summative assessment opportunity.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 100%
- Examination Mark Weight: 0%
- Pass Mark: 50%

MODERATION
Internal moderation by subject matter experts in accordance with UJ's moderation policy.

PURPOSE OF PROGRAMME

The purpose of the SLP in Central Banking offered in partnership with the South African Reserve Bank is a Cadet Graduate programme which gives young graduates the opportunity to obtain a detailed understanding of the operations of a central bank and prepares them to work in such an environment

PROGRAMME CONTENT

YEAR MODULES	
MODULE NAME	**MODULE CODE**
Programme in Central Banking	S3PCBQ1

MODULE AND OUTCOMES:

PROGRAMME IN CENTRAL BANKING: (S3PCBQ1)

Purpose:
The purpose of this SLP gives graduates the opportunity to obtain detailed information of the operations of a central bank in preparation to work in such an environment.

Outcome(s):
Students should be able to:
- discuss and interpret the core functions and responsibilities of the South African Reserve Bank (the Bank), and recent trends and developments in central banking worldwide;
- explain and apply the stance, implementation, transmission and challenges of monetary policy, with particular reference to the South African economy;
- discuss the latest regulatory developments in the area of banking supervision, not only in theory but also in practice as it is currently being applied by the Bank Supervision Department of the South African Reserve Bank as well as macro-prudential regulation and supervision;
- discuss, calculate and interpret financial markets and instruments in the spot market;
- discuss, calculate and interpret the essential features of derivative markets and instruments;
- explain and apply anti-money laundering principles in financial markets;
- discuss and interpret the types of risks to which financial intermediaries are exposed as well as the methods of measuring and dealing with these risks;
- explain and apply the central bank's responsibilities for implementing exchange rate policy, management of official foreign-exchange reserves, and the surveillance of cross-border financial transactions and administration of remaining exchange controls in South Africa;
- discuss the nature and role of government, and government finance statistics and their role in the overall macroeconomics environment and public policy; and
- accurately complete and professional present a research project based on the previous nine outcomes listed above.

ASSESSMENT
- Summative assessment opportunity consists of a final written assessment opportunity. The assessment opportunities will have a combination of objective test questions, and/or short questions and/or case study questions.
- Methods of assessment will be aligned to the UJ academic regulations.
- Outcomes are not dependent on each other; therefore, if a student fails one outcome, they will be able to continue with the remaining outcomes in the programme.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%
Please note: Students must obtain a final mark of 50% to pass the programme.

MODERATION
UJ staff members will be responsible to moderate all assessments prior and after the assessment date to ensure that it aligns to the UJ's moderation policy, quality standards and academic regulations.

NAME OF PROGRAMME: PROPERTY MANAGEMENT	SHORT LEARNING PROGRAMME PART TIME – APB (SAPOA OFFICES ON REQUEST)	SLP CODE: PM0001	NQF LEVEL: 6 CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme.

MODE OF OFFERING
The SLP will be offered on demand throughout the year as marketed by the South African Property Owners Association (SAPOA).

CERTIFICATION
- A pass rate of 50% is required upon which a Certificate of Competence will be issued.
- If attendees do not complete and pass the assessment only a Certificate of Attendance will be issued.

ADMISSION REQUIREMENTS
- Grade 12, NQF level 4 (NSC obtained in 2008 or after); or
- Grade 12 (SC obtained prior to 2008).

PURPOSE OF PROGRAMME
The purpose of the SLP is to develop knowledge and skills in the commercial and industrial property management sectors in South Africa. The SLP will develop knowledge and skills through providing an understanding of the key theories and concepts in property management, finance, legislation, marketing and technology aids in property management and coupled with how they are applied in practical scenarios. This will enable students to be better equipped to work as property managers, values and financial practitioners.

PROGRAMME CONTENT SEMESTER MODULES			
FIRST SEMESTER		SECOND SEMESTER	
MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE
Property Management A	PM00001	Property Management B	PM00002

MODULES AND OUTCOMES:

PROPERTY MANAGEMENT: A/B (PM00001 / PM00002)

Purpose:
The purpose is to allow participants the opportunity to focus on skills and topics specifically related to property management, that include finance, legislation and management issues, that are affiliated with the South African Property Owners Association (SAPOA).

Outcome(s):
Students should be able to:
- reflect on the core concepts and models of property management;
- identify key steps in marketing and market analysis of property;
- explain how economic and financial analysis is conducted in property management;
- apply the core concepts of lease agreements and property management; and
- identify and explain technological advancements and tools used in property management.

ASSESSMENT
- Formative assessment opportunities: Consists of a combination of group and individual assignments.
- Summative assessment opportunity: Consists of a last assessment opportunity.
- The assessment paper will have a combination of objective test questions, and/or short questions and/or case study questions.
- Methods of assessment will be aligned to the UJ academic regulations
- Assessment: Students will receive a Semester mark for completing various activities and will then be given an exam after the programme has been completed in order to obtain an exam mark.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- Pass Mark: 50%

MODERATION
Internal moderation by subject matter experts in accordance with the UJ's moderation policy.

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme.

MODE OF OFFERING
- 2-Day workshop which will involve an 8 hour per day contact session facilitated by lecturers who are subject specialists and experienced in learning facilitation;
- Exercises and activities designed for students to complete as part of their independent reading activities ('mini-tests' and assignments, given during the workshop);
- Material which will be supplied or suggested for students to work with;
  Technology-assisted learning using Blackboard

CERTIFICATION
- Competence based.

ADMISSION REQUIREMENTS
NQF level 7 Industry related property qualification.

PURPOSE OF PROGRAMME
The purpose of the SLP is to provide the students with an in-depth background regarding trust law in South Africa. It will also develop knowledge and skills to enable students to demonstrate their ability in applying tax law to be able to determine the income tax implications of different trust structures and to evaluate trust deeds, understand and apply the implications of international trusts in estate planning. Financial planning consists of 6 different cornerstones, namely tax planning, risk and insurance planning, estate planning, retirement planning, investment planning and employee benefits. There is a demand in the industry to explore each of these areas in more detail without enrolling for a holistic financial planning programme. This programme will provide students with a high-quality theoretical and practical introduction and knowledge of law of trust and practice. Both financial planning professionals and graduates will benefit from this programme.

PROGRAMME CONTENT

SEMESTER MODULES	
FIRST SEMESTER	**SECOND SEMESTER**

MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE
The Law of Trust and Practice A	S3LTPQA	The Law of Trust and Practice B	S3LTPQB

MODULES AND OUTCOMES:

THE LAW OF TRUST AND PRACTICE: A/B (S3LTPQA / S3LTPQB)

Purpose:
The purpose of this SLP is to provide students an opportunity to study a programme focused on the law of trust and the application of trusts in practice. This will simultaneously provide them with the necessary recognition for continuous professional development at the applicable professional bodies.

Outcome(s):
Students should be able to:
- demonstrate an in-depth knowledge of the law of trust in South Africa;
- analyse and evaluate the transfer of wealth to an inter vivos or discretionary trust;
- distinguish between the different trust structures and apply the different trust structures in estate planning;
- analyse and evaluate the administration of a trust;
- critically evaluate the taxation of the different trust structures in a practical environment;
- evaluate existing trust deeds and advice accordingly; and
- demonstrate an understanding and apply the implications of international trusts in estate planning.

ASSESSMENT
- There will be no formative assessments.
- Summative assessment opportunity (exam) consisting of a last assessment opportunity.
- Methods of assessment will be aligned to the UJ academic regulations.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 0%
- Examination Mark Weight: 100%
- Pass Mark: 50%

MODERATION

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
Students who successfully complete the Higher Certificate in Human Resource Development (F34RDQ) can apply for the Diploma in Human Resource Development (D3HRDQ) (NQF level 6).

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
N/A

PURPOSE OF PROGRAMME
The purpose of the Higher Certificate (Human Resource Development) is to develop qualifying students and practitioners wanting to enter the field of Human Resource Development as a potential career or those who have been practicing within the workplace, or in specialised learning and development roles, but without a Higher Education Qualification Sub Framework (HEQSF) qualification.
This qualification will provide practitioners and entrants with foundational Human Resource Development theory and practice blended with appropriate technology at an NQF level 5, across key learning and development support roles aligned to the processes of the training and development cycle and underpinned by current Human Resource Development legislation.

The qualifying students should be ready to enter the job market as an entry level Human Resource Development administrator or coordinator. Additionally, the programme will develop a student to become self-directed, lifelong student. Lastly, this programme will prepare students for further studies in the field of Human Resource Development and Human Resource Management aimed at professional competence and career pathway

PROGRAMME CONTENT

FIRST YEAR MODULES	
1st SEMESTER MODULE NAME	**1st SEMESTER MODULE CODE**
Human Resource Development A	FRD1A01 (30 credits)
People Practices in the workplace	FRD2A01 (15 credits)
Skills Development and Human Resource Development reporting	FRD3A01 (15 credits)
2nd SEMESTER MODULE NAME	**2nd SEMESTER MODULE CODE**
Human Resource Development B	FDR1B02 (30 credits)
Human Resource Development administration	FDR2B02 (15 credits)
Personal Mastery in the workplace	FRD3B02 (15 credits)

MODULES AND OUTCOMES:

HIGHER CERTIFICATE IN HUMAN RESOURCE DEVELOPMENT:

HUMAN RESOURCE DEVELOPMENT A: (FRD1A01)

Purpose:
The purpose of this module is to introduce the students to the field of Human Resource Development (HRD). The focus is on the history, origins, approaches and various HRD models used in learning and development.

Outcome(s):
Student should be able to:
- demonstrate an understanding of the foundations of human resource development as a field of study;
- distinguish between various HRD models used in learning and development;
- explain the basic theories and approaches of learning; and
- identify the stages of the learning and development cycle in relation to HRD support and administration.

PEOPLE PRACTICES IN THE WORKPLACE: (FRD2A01)

Purpose:
The purpose of this module is to equip students with the foundations of business, people management practices and the role that Human Resource Development plays in the workplace, society and the economy.

Outcome(s):
Student should be able to:
- explain the purpose and role of business in modern society;
- demonstrate an understanding of the HR value chain and its importance to the business;
- apply HR value chain models and competencies in defining HR roles and careers; and
- examine the integration of HRD in the HR and business value chains for performance improvement and sustainability.

SKILLS DEVELOPMENT LEGISLATION AND HRD REPORTING: (FRD3A01)

Purpose:
The purpose of this module is for students to acquire knowledge of the skills development landscape and relevant legislation in order to provide the appropriate support, data and information related to skills development activities and reporting.

Outcome(s):
Student should be able to:
- explain the history of the skills development landscape in South Africa;
- examine the current skills development landscape in South Africa and its implications for the business and HRD;
- provide advice, support, information and data regarding skills development to relevant stakeholders; and
- use appropriate learner management systems and technology for the capturing, storage and the retrieval of HRD data for decision making purposes.

HUMAN RESOURCE DEVELOPMENT B: (FDR1B02)

Purpose:
The purpose of this module is to expose students to national and international Human Resource development best practices, trends and drivers within the context of people development and organisational imperatives**.**

Outcome(s):
Student should be able to:
- review the current national HRD drivers, plans and policies;
- examine the impact of HRD related strategies and platforms in creating a competent workforce;
- describe contemporary HRD trends and best practices and the necessity to function within a global HRD arena; and
- reflect on the alignment and implications of key HRD drivers for the sustainability of South African organisations and the growth of the economy.

HUMAN RESOURCE DEVELOPMENT ADMINISTRATION: (FDR2B02)

Purpose:
The purpose of this module is to provide students with the knowledge and skills to administer and coordinate training administration aligned to processes of the learning and development cycle.

Outcome(s):
Student should be able to:
- explain the purpose of quality management from an HRD administration and support perspective;
- coordinate HRD interventions from an administrative and support perspective;
- collate and store data related to HRD administration using given systems and technologies; and
- report on HRD interventions for future recommendations and improvements.

PERSONAL MASTERY IN THE WORKPLACE: (FRD3B03)

Purpose:
The purpose of this module is to provide students with insight into an awareness of leader as self to create and maintain healthy and productive relationships with others in an organisation.

Outcome(s):
Student should be able to:
- recognise him or herself as a leader at a personal level;
- describe the factors that may enhance or impede your personal mastery as a leader and the impact on personal relationships and wellbeing;
- reflect on his/her character and the implications of personal leadership for personality type, behaviour style and socio-cultural frame of reference;
- describe his/her own personal values, beliefs and purpose; and
- explain the impact of mind set on beliefs and values, how to adapt values to fit his/her reality and not living according to his/her potential.

ASSESSMENT
- The assessment approach for each module is one of continuous assessment.
- Three summative assessment tasks per module are given that may be equally weighted. These may include projects, assignments, tests, presentations etc.
- A final pass mark of 50% is required for each module.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 100%
- Examination Mark Weight: 0%
- Pass Mark: 50%
- All modules must be passed to be awarded the Higher Certificate in Human Resource Development (F34RDQ).

Short Learning Programmes:

PROGRAMME CONTENT

YEAR MODULES (COMPULSORY)	
MODULE NAME (THEMES)	MODULE CODE
Theme 1: Personal mastery and well-being	PD4X01
Theme 2: Fulfilling one's functional role effectively	PD4X02
Theme 3: Achieving with people	PD4X03

Theme 4: Actualising a sustainable future	PD4X04
Theme 5: Ethical behaviour and value-add alliances	PD4X05
Theme 6: Engaging with the leadership landscape as an aspiring leader	PD4X06
Theme 7: Integrated company specific leadership (optional)	PD4X07

MODULES/THEMES AND OUTCOMES:

EMERGING LEADER LEADERSHIP DEVELOPMENT:

THEME 1: PERSONAL MASTERY AND WELL-BEING: (PD4X01)

Purpose:
The purpose of this theme is to understand your unique genetic make-up that constitutes who you are as a being. Understanding who you are provides the basic platform for learning, change and growth.

Outcome(s):
Students should be able to:
- demonstrate leadership through personal mastery and well-being; and
- explain how to live and lead with greater understanding in the knowledge of themselves and greater understanding of their behavioural impact.

THEME 2: FULFILLING ONE'S FUNCTIONAL ROLE EFFECTIVELY: (PD4X02)

Purpose:
The purpose of this theme is for you to appreciate and fulfil the functional role that you play in the organisation. You must be able to understand the complexity of the work you are expected to do with the ability to fragment your long-term goals into your daily work routine. The effectiveness with which you take up your role and perform it, has an undeniable impact on the functioning of the organisation, and therefore, on the general performance of the organisation.

Outcome(s):
Students should be able to:
- develop and fulfil his or her role functionally within the organisation; and
- explain how to perform effectively on a daily basis with skill, still leading and managing at the requisite level of work.

THEME 3: ACHIEVING WITH PEOPLE: (PD4X03)

Purpose:
The purpose of this theme is to enhance your interpersonal and coaching skills to achieve more with your people.

Outcome(s):
Students should be able to:
- engage and achieve with people within the organisational context; and
- explain how to display leadership through building a compelling employee value proposition in high performance teams with high levels of interpersonal competency through constant coaching and mentoring.

THEME 4: ACTUALISING A SUSTAINABLE FUTURE: (PD4X04)

Purpose:
The purpose of this theme is for you to build insight into the four most critical processes needed to actualise a sustainable future for your organisation

Outcome(s):
Students should be able to:
- actualise and sustain a desirable future within the leadership context; and
- explain how to navigate change effectively in the leadership process and innovation in strategic leadership.

THEME 5: ETHICAL BEHAVIOUR AND VALUE-ADD ALLIANCES: (PD4X05)

Purpose:

The purpose of this theme is to assist students in viewing leadership within a dynamic landscape where leadership excellence is intricately linked to leadership performance and sound ethical leadership practices that promote diversity-friendly organisational cultures and the development of value-adding networks.

Outcome(s):
Students should be able to:
- display comprehension of the knowledge of ethical behaviour and value add alliances; and
- explain how to create a high-performance culture of leadership excellence through ethical behaviour and creating value-add alliances.

THEME 6: ENGAGING WITH THE LEADERSHIP LANDSCAPE AS AN ASPIRING LEADER: (PD4X06)

Purpose:
The purpose of this theme is to build insight into the leadership requirements of the emerging context in which leadership is embedded, current and going into the future

Outcome(s):
Students should be able to:
- engage constructively with the leadership landscape; and
- explore and explain the leadership landscape through adopting an appropriate worldview and understanding the relevant leadership competency framework for greater contextual engagement.

THEME 7: INTEGRATED COMPANY SPECIFIC LEADERSHIP (OPTIONAL): (PD4X07)

Purpose:
The purpose of this theme is to demonstrate an understanding of all the learned themes by applying them to a specific company leadership challenge

Outcome(s):
Students should be able to:
- integrate and apply the above themes to provide a company specific project focused on senior leadership level challenges; and
- integrate and apply the above themes form an emerging leader prospective to a company specific challenge to provide their peers
- with a suggested solution.

ASSESSMENT
- Each module (Theme 1 to 6) is individually assessed to determine competence per theme;
  AND
- If students are registered for the integrated company specific leadership (Theme 7) theme an integrated summative assessment are in the form of a customised group written project focusing on a specific leadership challenge in the organisation.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 100%
- Examination Mark Weight: 0%
- Pass Mark: 50%

MODERATION
The panel consists of UJ appointed assessors and at least three company appointed representatives.

The purpose of this SLP is to develop at an advanced level the applied competence in professional executive leadership coaching.

PROGRAMME CONTENT

FIRST YEAR MODULES (COMPUSORY)	
MODULE NAME	**MODULE CODE**
Practical Coaching Competencies 1	ELCT1A0 (20 credits)
Theories of Leadership Coaching	ELCT1A1 (10 credits)
Leadership Development – Theory and Practice	ELCT1A2 (10 credits)
SECOND YEAR MODULES (COMPUSORY)	
MODULE NAME	**MODULE CODE**
Practical Coaching Competencies 2	ELCT2A0 (20 credits)
Business Coaching	ELCT2A1 (10 credits)
Competence Assessment in Leadership Coaching	ELCT2A2 (10 credits)

MODULES AND OUTCOMES:

EXECUTIVE LEADERSHIP COACHING:

THEORIES OF LEADERSHIP COACHING: (ELCT1A1)
Purpose:
The purpose of this module is to demonstrate a workable knowledge of the different approaches, theories, models, methodologies, techniques and practices of executive coaching.

Outcome(s):
Student should be able to:
- critically analyse the different approaches of leadership, management and executive coaching;
- critically analyse and describe the fundamental assumptions and value of the different theories of coaching;
- correctly evaluate the appropriateness of different coaching models in different coaching contexts;
- appropriately demonstrate a workable knowledge of the different coaching methodologies, and
- critically study and practice the skills, techniques and practices of leadership coaching.

LEADERSHIP DEVELOPMENT -THEORY AND PRACTICE: (ELCT1A2)
Purpose:
The purpose of this module is to demonstrate a sound knowledge of development of leadership relating to theories and models there off.

Outcome(s):
Student should be able to:
- argue and analyse the value of different leadership development theories and models, with a focus on Afro and Euro centric leadership approaches;
- critically examining and discuss the leadership landscape and its building blocks;
- argue leadership competencies and leadership potential models; and
- applying logic when designing a theoretical leadership competence framework, given the above.

PRACTICAL COACHING COMPETENCIES 1: (ELCT1A0)

Purpose:

The purpose of the module is to develop the practical skills of leadership coaching in two phases:

- Practical skills development and self-coaching.
- Practical skills development and peer-coaching.

Outcomes:

Student should be able to:

- effectively demonstrate that they are competent to practice the following competencies in leadership coaching:
  - "Self-management and self-awareness"
  - "Building the coaching relationship"
  - "Listening"
  - "Questioning frameworks"
  - "Feedback"
  - "Building self-reflection"
  - "conduct a contracting and re-contracting process"
- effectively conduct leadership competency/psychometric assessment and reassessment;
- create and implement a leadership coaching development plan;
- facilitate a public dialogue session;
- conduct a contracting and re-contracting process;
- successfully implement the leadership coaching development plan and conduct the face-to-face coaching sessions; and
- evaluate the success of the coaching intervention.

COMPETENCE ASSESSMENT IN LEADERSHIP COACHING: (ELCT2A2)

Purpose:

The purpose of this module is selecting, administering and interpreting the results of competence assessments in leadership coaching.

Outcome(s):

Student should be able to:

- critically analyse the philosophy of different qualitative and quantitative assessment technologies;
- argue and analyse the advantages and disadvantages of the use of competency instruments in leadership coaching;
- contrast and evaluate different assessment centre technologies and competency instruments for use in leadership coaching assessment;
- conceptualise a relevant assessment matrix and assessment battery;
- plan and conduct a leadership coaching assessment; and
- critically evaluate and analyse the results of the assessments for coaching purposes, and the principles of assessment feedback are studied, and the skills developed.

PRACTICAL COACHING COMPETENCIES 2: (ELCT2A0)

Purpose:

The purpose of this module to develop the practical skills of leadership coaching in two phases:

- Phase one- practical skills development and peer coaching
- Phase two – Formal coaching under the supervision of an experienced/ master coach

Outcome(s):

Student should be able to:

- effectively demonstrate that they are competent to practice the following competencies in leadership coaching:
  - "Self-management and self-awareness"
  - "Building the coaching relationship"
  - "Listening"
  - "Questioning frameworks"
  - "Feedback"
  - "Building self-reflection"
  - "conduct a contracting and re-contracting process"
- design a contracting and re-contracting process;

- successfully conduct leadership competency / psychometric assessment and reassessment;
- conceptualise and design a leadership coaching development plan;
- successfully facilitate a public dialogue session;
- successfully implement and execute the leadership coaching development plan and conduct the face-to-face coaching sessions; and
- evaluate the success of the coaching intervention.

BUSINESS COACHING: (ELCT2A1)

Purpose:

The purpose of this module is to display specialised skills in business coaching as an applied area of practice with a strong focus on achieving personal, professional, and business objectives.

Outcomes:

Student should be able to:

- correctly define boundaries between coaching and counselling/therapy;
- argue and discuss referral processes in identifying and dealing with mental-health issues;
- compile and analyse a systems thinking perspective and managed change framework to effectively integrate and sustain coaching outcomes;
- successfully integrate leadership coaching with organisation talent management strategy;
- Design and develop strategies and techniques to move people through the change cycle;
- Argue and discuss professional practice issues relating to leadership and business coaching; and
- Successfully demonstrate that appropriate ethical standards and guidelines has been developed and, develop a personal model of coaching practice.

ASSESSMENT

- Formative and summative assessments will be applied per module as per the accredited qualification the SLP articulates from.
- The number of assessments will be identical to the modules registered on the full time Masters.
- Assessment methods that will be used include: portfolio, individual and group assignments and practical work.

CALCULATION CRITERIA

- Minimum Full Period Mark for Examination Admission: 0%

PURPOSE OF PROGRAMME
The purpose of this SLP is to provide personal and professional leadership skills for executive leaders so that they are equipped to effectively and efficiently function at their required level of work within their organisational context.

PROGRAMME CONTENT

YEAR MODULES (COMPULSORY)	
MODULE NAME (THEMES)	MODULE CODE
Theme 1: Personal Mastery and Well-being	PD6X01-PD6X04
Theme 2: Fulfilling one's functional role effectively	PD6X05-PD6X08
Theme 3: Achieving with people	PD6X09-PD6X12
Theme 4: Actualising a sustainable future	PD6X13-PD6X16
Theme 5: Ethical behaviour and value-add alliances	PD6X17-PD6X20

Theme 6: Engaging with the leadership landscape as an aspiring leader	PD6X21-PD6X23
Theme 7: Integrated Company Specific Leadership (optional)	PD6X24

MODULES/THEMES AND OUTCOMES:

EXECUTIVE LEADERSHIP DEVELOPMENT:

THEME 1: PERSONAL MASTERY AND WELL-BEING: (PD6X01-PD6X04)

Purpose:
The purpose of this theme is to understand your unique genetic make-up that constitutes who you are as a being. Understanding who you are provides the basic platform for learning, change and growth.

Outcome(s):
Students should be able to:
- demonstrate personal mastery and well-being as an executive leader;
- evaluate his/her givens;
- explain and accepting themselves;
- analyse the impact of one's behaviour within organisational context; and
- report regularly on the planning and managing of their career.

THEME 2: FULFILLING ONE'S FUNCTIONAL ROLE EFFECTIVELY: (PD6X05-PD6X08)

Purpose:
The purpose of this theme is for you to appreciate and fulfil the functional role that you play in the organisation. You must be able to understand the complexity of the work you are expected to do with the ability to fragment your long-term goals into your daily work routine. The effectiveness with which you take up your role and perform it has an undeniable impact on the functioning of the organisation, and therefore, on the general performance of the organisation.

Outcome(s):
Students should be able to:
- explain how to functionally fulfil an executive leadership role;
- explain their level of work;
- plan and execute their daily tasks effectively and efficiently;
- provide efficient project leadership; and
- explain their job and what is required of them.

THEME 3: ACHIEVING WITH PEOPLE: (PD6X09-PD6X12)

Purpose:
The purpose of this theme is to enhance your interpersonal and coaching skills to achieving more with your people.

Outcome(s):
Students should be able to:
- design strategies to achieve with people;
- evaluate the importance of healthy interpersonal relationships for organisational growth;
- explain how to build high performance teams;
- coach and mentor his / her own staff effectively; and
- craft a compelling employee value proposition.

THEME 4: ACTUALISING A SUSTAINABLE FUTURE: (PD6X13-PD6X16)

Purpose:
The purpose of this theme is for you to build insight into the four most critical processes needed to actualise a sustainable future for your organisation

Outcome(s):
Students should be able to:
- design a sustainable future for the company;
- lead an effective leadership process;

- explain company strategy to senior management;
- explain how to lead and navigate change; and
- explain the importance of innovation and continuous improvement.

THEME 5: ETHICAL BEHAVIOUR AND VALUE-ADD ALLIANCES: (PD6X17-PD6X20)

Purpose:
The purpose of this theme is to assist delegates in viewing leadership within a dynamic landscape where leadership excellence is intricately linked to leadership performance and sound ethical leadership practices that promote diversity-friendly organisational cultures and the development of value-adding networks.

Outcome(s):
Students should be able to:
- apply methods to navigate the organisational landscape effectively;
- explain how to strive for leadership excellence;
- explain the importance of ethical leadership;
- plan a diversity friendly culture within the workplace; and
- plan how to build value adding alliances.

THEME 6: ENGAGING WITH THE LEADERSHIP LANDSCAPE AS AN ASPIRING LEADER: (PD6X21-PD6X23)

Purpose:
The purpose of this theme is to build insight into the leadership requirements of the emerging context in which leadership is embedded, current and going into the future.

Outcome(s):
Students should be able to:
- analyse methods to engage with the context of a company;
- map their own contextual leadership landscape with its building blocks;
- understand the different world views and their own worldview and how it impacts on organisational sustainability; and
- explain and practically apply the leadership competency model for their specific company.

THEME 7: INTEGRATED COMPANY SPECIFIC LEADERSHIP: (OPTIONAL) (PD6X24)

Purpose:
The purpose of this theme is to demonstrate an understanding of all the learned themes by applying them to a specific company leadership challenge.

Outcome(s):
Students should be able to:
- integrate and apply the above themes to provide a company specific project focused on junior leadership level challenges; and
- integrate and apply the above themes to a company specific challenge to provide their peers with a suggested solution.

ASSESSMENT
- Each module is individually assessed to determine competence per theme; and
- If students are registered for the integrated company specific leadership theme an integrated summative assessment in the form of a customised group written project focusing on a specific leadership challenge in the organisation, are also required.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 100%
- Examination Mark Weight: 0%
- Pass Mark: 50%

MODERATION
The panel consists of UJ appointed assessor and at least three company appointed representatives.

YEAR MODULES (COMPULSORY)	
MODULE NAME (THEMES)	MODULE CODE
Theme 1: Personal mastery and well-being	PD8X01-PD8X04
Theme 2: Fulfilling one's functional role effectively	PD8X05-PD8X08
Theme 3: Achieving with people	PD8X09-PD8X12
Theme 4: Actualising a sustainable future	PD8X13-PD8X16

Theme 5: Ethical behaviour and value-add alliances	PD8X17-PD8X20
Theme 6: Engaging with the leadership landscape as an aspiring leader	PD8X21-PD8X23
Theme 7: Integrated company specific leadership (optional)	PD8X24

MODULES/THEMES AND OUTCOMES:

JUNIOR LEADERSHIP DEVELOPMENT:

THEME 1: PERSONAL MASTERY AND WELL-BEING: (PD8X01-PD8X04)

Purpose:
The purpose of this theme is to understand your unique genetic make-up that constitutes who you are as a being. Understanding who you are provides the basic platform for learning, change and growth.

Outcome(s):
Students should be able to:
- demonstrate personal mastery and well-being as a junior leader;
- evaluate his/her givens;
- explain and accepting themselves;
- analyse the impact of one's behaviour within organisational context; and
- report regularly on the planning and managing of their career.

THEME 2: FULFILLING ONE'S FUNCTIONAL ROLE EFFECTIVELY: (PD8X05-PD8X08)

Purpose:
The purpose of this theme is for you to appreciate and fulfil the functional role that you play in the organisation. You must be able to understand the complexity of the work expected of you, with the ability to fragment your long-term goals into your daily work routine. The effectiveness with which you take up your role and perform has an undeniable impact on the functioning of the organisation, and therefore, on the general performance of the organisation.

Outcome(s):
Students should be able to:
- understand how to fulfil a first-line leadership role effectively;
- know what is meant by the term level of work;
- plan and execute their daily tasks effectively and efficiently;
- provide efficient project leadership; and
- understand their job and what is required of them.

THEME 3: ACHIEVING WITH PEOPLE: (PD8X09-PD8X12)

Purpose:
The purpose of this theme is to enhance your interpersonal and coaching skills to achieve more with your people.

Outcome(s):
Students should be able to:
- execute strategies on an operational level to achieve with people;
- evaluate the importance of healthy interpersonal relationships for organisational growth;
- build high performance teams;
- coach and mentor his / her own staff effectively; and
- craft a compelling employee value proposition.

THEME 4: ACTUALISING A SUSTAINABLE FUTURE: (PD8X13-PD8X16)

Purpose:
The purpose of this theme is for you to build insight into the four most critical processes needed to actualise a sustainable future for your organisation

Outcome(s):
Students should be able to:
- execute strategic objectives at an operational level to build a sustainable future for the company;

- lead an effective leadership process;
- plan the execution of company strategy;
- plan how to navigate the execution of change; and
- explain the importance of innovation and continuous improvement.

THEME 5: ETHICAL BEHAVIOUR AND VALUE-ADD ALLIANCES: (PD8X17-PD8X20)

Purpose:
The purpose of this theme is to assist delegates in viewing leadership within a dynamic landscape where leadership excellence is intricately linked to leadership performance and sound ethical leadership practices that promote diversity-friendly organisational cultures and the development of value-adding networks.

Outcome(s):
Students should be able to:
- apply methods to navigate the organisational landscape effectively;
- understand what is meant by leadership excellence;
- understand the importance of ethical leadership;
- plan and implement a diversity friendly culture within the workplace; and
- plan how to build value adding alliances.

THEME 6: ENGAGING WITH THE LEADERSHIP LANDSCAPE AS AN ASPIRING LEADER: (PD8X21-PD8X23)

Purpose:
The purpose of this theme is to build insight into the leadership requirements of the emerging context in which leadership is embedded, current and going into the future

Outcome(s):
Students should be able to:
- analyse methods to engage within the context of a company;
- map their own contextual leadership landscape with its building blocks;
- understand the different world views and their own worldview and how it impacts on organisational sustainability; and
- explain and practically apply the leadership Competency Model for their specific company.

THEME 7: INTEGRATED COMPANY SPECIFIC LEADERSHIP (OPTIONAL): (PD8X24)

Purpose
The purpose of this theme is to demonstrate an understanding of all the learned themes by applying them to a specific company leadership challenge

Outcomes(s)
Students should be able to:
- integrate and apply the above themes to provide a company specific project focused on first line leadership challenges; and
- integrate and apply the above themes to a company specific challenge to provide their peers with a suggested solution.

ASSESSMENT
- Each module (Theme 1 to 6) is individually assessed to determine competence per theme; and
- If students are registered for the integrated company specific leadership (Theme 7) an integrated summative assessment in the form of a customised group written project focusing on a specific leadership challenge in the organisation, is also required.

MODULES/THEMES AND OUTCOMES:

JUST IN TIME SENIOR LEADERSHIP CAPACITY BUILDING:

Purpose:
The purpose of this intervention, that includes the ten themes below, is to apply leadership excellence in accordance with the latest leadership thinking and practice in order to improve their leadership excellence at a senior management level.

THEME 1: LEGACY: (PD3X01)

Outcome(s):
Students should be able to:
• leave something of lasting value and worth behind for current and upcoming generations.

THEME 2: ETHICAL: (PD3X02)

Outcome(s):
Students should be able to:
• direct and guide sub-ordinates with a strong ethical sense – a sense of rightness.

THEME 3: ALIGNMENT: (PD3X03)

Outcome(s):
Students should be able to:
• mould and mobilise diverse stakeholders into a cohesive and vibrant community of trusted partners around a shared destiny.

THEME 4: DREAM: (PD3X04)

Outcome(s):
Students should be able to:
• craft an inspiring vision of what the desirable future will look like once the legacy has become a reality.

THEME 5: ENGAGED: (PD3X05)

Outcome(s):
Students should be able to:
• show the way by being the change they desire others to be.

THEME 6: RESPONSIBLE: (PD3X06)

Outcome(s):
Students should be able to:
• take full responsibility for their own decisions, actions and outcomes.

THEME 7: SERVE: (PD3X07)

Outcome(s):
Students should be able to:
• be humble in the service of others and a greater, common cause by giving the precious gift of themselves.

THEME 8: HEART: (PD3X08)

Outcome(s):
Students should be able to:
• be firmly grounded and rooted in passionate and genuine beliefs and values which inform all of their thinking and actions.

THEME 9: INTEGRITY: (PD3X09)

Outcome(s):
Students should be able to:
- consistently and honestly act with courage in terms of their convictions regardless of the persons, situations and circumstances involved.

THEME 10: PEOPLE: (PD3X10)

Outcome(s)
Students should be able to:
- get things done with people who they see as the only true value unlockers and wealth creators in bringing about the desired future as expressed in the shared, envisioned legacy with its commensurate dream.

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES

Students whom passed this SLP will be credited for the following modules in the MPhil (Personal and Professional Leadership) (M1PPP1):
- Intrapersonal leadership (PPL9X09) (12 credits)
- Professional Leadership (PPL9X10) (12 credits)
- Interpersonal leadership (PPL9X02) (12 credits)
- Spiritual Leadership (PPL9X06) (12 credits)
- Individual and Organisational Wellness (PPL9X07) (12 credits)
- Individual and Group Leadership Facilitation and Coaching (PPL9X08) (38 credits)

PURPOSE OF PROGRAMME
The purpose of this SLP is to develop applied competencies and practical skills in the acquisition, interpretation and understanding of the different dimensions of leadership on an individual and within an organisational context, enabling the incumbent to compile a personal and professional leadership development programme consisting of various interventions, amongst which are; the identification of a leadership pipeline; training and developing emerging leaders; coaching leaders on all levels to excel on a personal and professional level by improving their inter- and intrapersonal leadership skills.

PROGRAMME CONTENT

SEMESTER MODULES			
SEMESTER 1		**SEMESTER 2**	
MODULE NAME	**MODULE CODE**	**MODULE NAME**	**MODULE CODE**
Intrapersonal Leadership	PPLMA01 (12 credits)	Spiritual Leadership	PPLMB01 (12 credits)
Professional Leadership	PPLMA02 (12 credits)	Individual and Organisational Wellness	PPLMB02 (12 credits)
Interpersonal Leadership	PPLMA03 (12 credits)	Individual Group Leader Facilitation & Coaching	PPLMB03 (38 credits)

MODULES AND OUTCOMES:

PERSONAL AND PROFESSIONAL LEADERSHIP MASTERY:

INTRAPERSONAL LEADERSHIP: (PPLMA01)

Purpose:
The purpose of this module is to have greater understanding of the eight life dimensions (mental, emotional, social, spiritual, physical, work financial and ecological) on the self and those participating in the leadership landscape, on how this impacts on leadership style, roles and modes.

Outcome(s)
Student should be able to:
- argue the value of the eight life dimensions and how it may impact on self, others and the organization;
- map the organisational leadership landscape and critically evaluate the various building blocks making up the landscape;
- place emphasis on the various leadership styles, roles and modes and the impact it have on organisational effectiveness; and
- practically applied learned competencies on self and others in a defined organisation by means of action research and or case studies.

PROFESSIONAL LEADERSHIP: (PPLMA02)

Purpose:
The purpose of this module is to have an in depth and critical understanding of leadership theories, processes and dynamics in individual, team and organisational contexts.

Outcome(s)
Student should be able to:
- conceptualise and compare the most prominent theories, models and constructs of professional leadership from a Euro and Afro - centric perspective and within an individual, team and organisational context;
- diagnose leadership problems and challenges in an individual, team and organisational context; and
- plan and execute leadership development interventions (Business Driven Action Learning).

INTERPERSONAL LEADERSHIP: (PPLMA03)

Purpose:
The purpose of this module is to apply their newly acquired knowledge, skills, values and attitude regarding interpersonal leadership theory which will enable them to realise the importance of interpersonal leadership with the world of work.

Outcome(s)
Student should be able to:
- argue interpersonal leadership theory within the wider body of leadership theory; and
- debate the existential realities and phenomenology of relationships and team dynamics.

SPIRITUAL LEADERSHIP: (PPLMB01)

Purpose:
The purpose of this module is to understand and have insight of discovering their spiritual core through conceptualisation of the spiritual life dimension construct.

Outcome(s)
Student should be able to:
- conceptualisation of spirituality, including the nature and domain of spiritual leadership; and
- recognise the impact of existential realities and phenomenology of an unfulfilled spiritual life dimension on personal, interpersonal and leadership growth.

INDIVIDUAL AND ORGANISATIONAL WELLNESS: (PPLMB02)

Purpose:
The purpose of this module is to understand the essence and importance of health and vitality for personal, interpersonal and professional leadership with the aim to advise clients

Outcome(s)
Student should be able to:
- conceptualise and argue the core elements of physical health and well-being; and
- debate the nature of the mind-body connection with relevance to personal, interpersonal and professional leadership development.

INDIVIDUAL AND GROUP LEADERSHIP FACILITATION AND COACHING: (PPLMB03)

Purpose:
The purpose of this module is to develop and apply the principles, theories and skills of facilitation in individual, group and organisational context.

Outcome(s)
Student should be able to:
- develop a critical understanding of different facilitation and coaching theories and models;
- practically apply facilitation and coaching skills in conducting individual, group and organisational interventions;
- develop an understanding of the basic theories and models of career and executive coaching and use the associated competencies in planning a coaching intervention;
- develop a personal model for Individual Facilitation and coaching based on an accountable theoretical perspective; and
- develop a personal model of Group Facilitation and coaching based on an accountable theoretical perspective.

ASSESSMENT
- Assessment methods that will be used include:
    - Portfolio;
    - Individual assignments;
    - Group assignments; and
    - Practical work.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 100%

- Examination Mark Weight: 0%
- Pass Mark: 50%

MODERATION

Assessment and moderation takes place in line with UJ policy and in accordance with the UJ's assessment policy. One external assessor per module will be appointed.

MODE OF OFFERING
- The SLP will be conducted online.
- Webinars on certain topic areas will also be provided (such as data analysis) to guide the students through the process.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- Prospective Master's, PhD and students who need a refresher Research Methodology module are typical of the students who are expected to enrol for this programme.
- However, any student who is in possession of a NQF 7 qualification can apply.
- Access to the Internet are prerequisites for enrolment in the programme.

LEARNING ACTIVITIES

Contact time (Lectures)	-	-
Workshops	-	-
Work-based learning	-	-
Independent reading/ interacting with learning material/online activities	64	-
Preparation for and completion of assignments and other assessment activities	96	-
Tutorials	-	-

DURATION OF PROGRAMME
8 weeks online.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
Students may apply for credits towards a Research Methodology module in an Advanced Diploma, BAHons or BComHons qualification. The Research Methodology Online SLP contains the same curriculum as the Research Methodology module offered to Advanced Diplomas and BA/BComHons Programmes offered with in the College of Business and Economic.

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students may apply for credits towards a Research Methodology module in an Advanced Diploma or BAHons or BComHons qualification.

PURPOSE OF PROGRAMME
The purpose of this SLP is to provide research methodology knowledge and skills to students applying for an advanced diploma, postgraduate diploma (or) a postgraduate degree so that they are equipped with the necessary fundamental research methodology knowledge and skills to successfully embark on a postgraduate research project.

PROGRAMME CONTENT

YEAR MODULE	
MODULE NAME	**MODULE CODE**
Research Methodology	IPM501 (16 credits)

MODULE AND OUTCOMES:

RESEARCH METHODOLOGY: (IPM501)

Purpose(s):
The purpose of this modules is to provide fundamental research methodology knowledge and skills to students to successfully complete a postgraduate research project.

Outcome(s):
Students should be able to:
- explain the research process used in research;
- identify and describe the appropriate research paradigm for a study;
- choose a research method that is appropriate for a research project;
- write a literature review for a research project;
- write a research proposal for a research project;
- collect and conduct basic analysis of qualitative data;
- collect and conduct basic descriptive statistics on quantitative data; and
- collect basic inferential statistics on quantitative data.

OPTIONAL: Integrate and apply the above themes to conduct a research project and write a structured report.

ASSESSMENT
Students will be assessed online using a variety of formative assessment methods, such as Multiple-Choice Questions; individual written assessments and peer evaluations:
- The students will be expected to complete a research project with simulated data and to submit a research report.
- They may select either a quantitative (or) qualitative research project.
- The students will receive online assistance with their simulated research projects from the facilitator to produce their final research report; and
- Students will submit their final research project and report as a summative assessment to be awarded the full credits

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 100%
- Examination Mark Weight: 0%
- Pass Mark: 50%

MODERATION
The UJ policies and procedures relating to examination and moderation apply for examination and external moderation of their final submitted research report.

NAME OF PROGRAMME: SENIOR LEADERSHIP DEVELOPMENT	SHORT LEARNING PROGRAMME LIMITED CONTACT – APB	SLP CODE: PD10SL	NQF LEVEL: 8 CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme.

MODE OF OFFERING
- Six study schools are offered four to six weeks apart. Two days are dedicated for each study school.
- There are 24 competency-based workshops of 4 hours each offered within a period of one calendar year.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- The client or workplace nominates the candidates.
- The candidate must already be in a senior management leadership position.
- Further to this, it is accepted that if a candidate is nominated by the organisation for further senior leadership development that the candidate comes with certain knowledge, understanding cognitive, professional and general skills required for this SLP.
- UJ reserves the right to accept nominees or not.

PURPOSE OF PROGRAMME
The purpose of this Senior Leadership Development programme is to provide personal and professional leadership skills for senior leaders, so they are equipped to effectively and efficiently function at their required level of work within the organisational context.

PROGRAMME CONTENT

YEAR MODULES (COMPULSORY)	
MODULE NAME (THEMES)	MODULE CODE
Theme 1: Personal Mastery and Well-being	PD10X1-PD10X4
Theme 2: Fulfilling one's functional role effectively	PD10X5-PD10X8
Theme 3: Achieving with people	PD10X9-PD1012
Theme 4: Actualising a sustainable future	PD1013-PD1016

Theme 5: Ethical behaviour and value-add alliances	PD1017-PD1020
Theme 6: Engaging with the leadership landscape as an aspiring leader	PD1021-PD1023
Theme 7: Integrated Company specific leadership (optional)	PD1024

MODULES/THEMES AND OUTCOMES:

SENIOR LEADERSHIP DEVELOPMENT:

THEME 1: PERSONAL MASTERY AND WELL-BEING: (PD10X1-PD10X4)

Purpose:
The purpose of this theme is to understand your unique genetic make-up that constitutes who you are as a being. Understanding who you are provides the basic platform for learning, change and growth

Outcome(s):
Students should will be able to:
- demonstrate personal mastery and well-being as senior leader;
- evaluate his/her givens;
- explain and accept themselves;
- analyse the impact of one's behaviour within organisational context; and
- report regularly on the planning and managing of their career.

THEME 2: FULFILLING ONE'S FUNCTIONAL ROLE EFFECTIVELY: (PD10X5-PD10X8)

Purpose:
The purpose of this theme is for you to appreciate and fulfil the functional role that you play in the organisation. You must be able to understand the complexity of the work you are expected to do with the ability to fragment your long-term goals into your daily work routine. The effectiveness with which you take up your role and perform it has an undeniable impact on the functioning of the organisation, and therefore, on the general performance of the organisation.

Outcome(s):
Students should be able to:
- explain how to fulfil a senior leadership role functionally;
- explain their level of work;
- plan and execute their daily tasks effectively and efficiently;
- provide efficient project leadership; and
- explain their job and what is required of them.

THEME 3: ACHIEVING WITH PEOPLE: (PD10X9-PD1012)

Purpose:
The purpose of this theme is to enhance your interpersonal and coaching skills to achieve more with your people.

Outcome(s):
Students should be able to:
- implement strategies to achieve with people;
- evaluate the importance of healthy interpersonal relationships for organisational growth;
- build high performance teams;
- coach and mentor his / her own staff effectively; and
- Craft a compelling employee value proposition.

THEME 4: ACTUALISING A SUSTAINABLE FUTURE: (PD1013-PD1016)

Purpose:
The purpose of this theme is to assist delegates in viewing leadership within a dynamic landscape where leadership excellence is intricately linked to leadership performance and sound ethical leadership practices that promote diversity-friendly organisational cultures and the development of value-adding networks.
Outcome(s):
Students should be able to:
- actualise a sustainable future for the company;

- lead an effective leadership process;
- explain and implement company strategy;
- explain how to navigate change; and
- explain the importance of innovation and continuous improvement.

THEME 5: ETHICAL BEHAVIOUR AND VALUE-ADD ALLIANCES: (PD1017-PD1020)

Purpose:
The purpose of this theme is to assist delegates in viewing leadership within a dynamic landscape where leadership excellence is intricately linked to leadership performance and sound ethical leadership practices that promote diversity-friendly organisational cultures and the development of value-adding networks.

Outcome(s):
Students should be able to:
- apply methods to navigate the organisational landscape effectively;
- explain how to strive for leadership excellence;
- explain the importance of ethical leadership;
- plan and implement a diversity friendly culture within the workplace; and
- plan how to build value adding alliances.

THEME 6: ENGAGING WITH THE LEADERSHIP LANDSCAPE AS AN ASPIRING LEADER: (PD1021-PD1023)

Purpose:
The purpose of this theme is to build insight into the leadership requirements of the emerging context in which leadership is embedded, current and going into the future.

Outcome(s):
Students should be able to:
- analyse methods to engage with the context of a company;
- map their own contextual leadership landscape with its building blocks;
- understand the different world views and their own worldview and how it impacts on organisational sustainability; and
- explain and practically apply the leadership competency model for their specific company.

THEME 7: INTEGRATED COMPANY SPECIFIC LEADERSHIP (OPTIONAL) (PD1024)

Purpose:
The purpose of this theme is to demonstrate an understanding of all the learned themes by applying them to a specific company leadership challenge.

Outcome(s):
Students should be able to:
- integrate and apply the above themes to provide a company specific project focused on senior leadership level challenges; and
- integrate and apply the above themes to a company specific challenge to provide their peers with a suggested solution.

ASSESSMENT
- Each module (Theme 1 to 6) is individually assessed to determine competence per theme; and
- If students are registered for the integrated company specific leadership (Theme 7) an integrated summative assessment in the form of a customised group written project focusing on a specific leadership challenge in the organisation, is also required.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 100%
- Examination Mark Weight: 0%
- Pass Mark: 50%

MODERATION
The panel consists of UJ appointed assessors and at least three company appointed representatives.

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-Credit bearing practicum SLP accredited by the Health Professionals Council of South Africa (HPCSA).

MODE OF OFFERING
- The duration of this programme is 6 months full time.
- Contact sessions are scheduled across the duration of the full programme.
- The 6 months also includes a full-time practicum programme at an accredited provider.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- Applicants need to be in possession of an Honours degree (NQF level 8) in Psychology or Industrial Psychology;
- With a module in assessment passed in the honours degree; and
- Knowledge and an understanding of basic psychometric principles and psychometry is required.

LEARNING ACTIVITIES

DURATION OF PROGRAMME
Months to complete: 6 months.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
N/A

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students will receive no credits towards the completion of subsidised UJ programmes.

PURPOSE OF PROGRAMME
The purpose of this SLP is to prepare psychometrists to function effectively in any appropriate setting, including independent practice, by providing training and experience within the relevant scope of practice. The programme will prepare and give students entrance to the National Examination of the Professional Board for Psychology of the Health Professionals Council of South Africa (HPCSA), after which they can register and practice as a psychometric. As such the programme has a strong focus on theoretical aspect of psychometric testing and assessment.

PROGRAMME CONTENT

SEMESTER MODULES			
SEMESTER 1		SEMESTER 2	
MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE
Practical Psychometry	KKSPRA1	Practical Psychometry	KKSPRA2
Practical Psychometry Theory	KKSTHE1	Practical Psychometry Theory	KKSTHE2

MODULES AND OUTCOMES:

SHORT COURSE IN PRACTICAL PSYCHOMETRY:

PRACTICAL PSYCHOMETRY THEORY: (KKSTHE1/KKSTHE2)

Purpose:
The purpose of the theoretical component is to introduce the students to the basics of psychometric theory and principles, basic interviewing and counselling skills, assessment in related contexts based on students' foundational psychological knowledge, ethics, legislation and practice management.
The purpose is furthermore to prepare students for the National Exam of the Professional Board for Psychology.

Outcome(s):
Students should be able to:
- demonstrate adequate knowledge and understanding of psychometrics, testing and assessment, which informs and underpins the process of testing;
- describe psychometric principles relevant to psychometric tests;
- evaluate a test manual to decide on whether the test is based on sound psychometric principles;
- demonstrate an understanding of interviewing and counselling skills;
- understand assessments in different contexts and their applications;
- understand legislation and ethics and its implications for practice;
- demonstrate basic practice management and referral skill; and
- attempt the National Exam of the Professional Board for Psychology.

PRACTICAL PSYCHOMETRY: (KKSPRA1/KKSPRA2)

Purpose:
The purpose of the practical component of the programme is to expose the students to psychometry in practice in various work settings and other contexts and provide the necessary opportunities for the students to practice under the guidance and supervision of registered psychologists, psychometrists and industrial psychologists.

Outcome(s):
Students should be able to:
- use tests in a professional and ethical manner by following good testing practices;
- demonstrate instrumental knowledge and skills that apply to all aspects of the process of testing in different contexts;
- demonstrate appropriate communication and interpersonal skills which underpin test administration, reporting and the provision of feedback; and
- demonstrate the appropriate ethical and legislative conduct necessary within the scope of practice.

ASSESSMENT
- Students will be formatively monitored in the Practical Psychometric modules, by a supervisor (senior psychologist or psychometrist) during monthly sessions. Cases will be presented during these sessions. Throughout the 6 months students will compile a logbook consisting of daily activities and assessment protocol from various contexts. The Professional Board for Psychology of the Health Professionals Council of South Africa (HPCSA), regards the supervision process as extremely important, therefore both the feedback from the supervisors and the logbook from the students serves as criterion towards competence of the practicum.
- The Practical Psychometric theoretical modules, is formally assessed using an individual assignment based on a case scenario.
- The final mark for the Practical Psychometric theoretical modules will be moderated by an external academic involved in presenting psychometry/psychometrics on an Honours level.

CALCULATION CRITERIA FOR KKSPRA1/KKSPRA2
Requirements full filled (or not).

CALCULATION CRITERIA FOR KKSTHE1/KKSTHE2
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 0%
- Examination Mark Weight: 100%
- Minimum Final Mark: 60%

MODERATION

- Assessments and assessment practice for the learning programme will be moderated.
- 25% of the Practical Psychometric theoretical assessment will be moderated by an internal academic from the Industrial Psychology Programme within the Department.

NAME OF PROGRAMME: TALENT MANAGEMENT PROFESSIONAL DEVELOPMENT	SHORT LEARNING PROGRAMME LIMITED CONTACT – APB	SLP CODE: S34TMQ	NQF LEVEL 7 CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme.

MODE OF OFFERING
- The duration of this programme is 6 – 8 months.
- Classes are presented on a part-time basis, approximately every 4 to 6 weeks across the duration of the full programme.
- Each topic will comprise a full two-day study school, 8 hours a day as per the negotiated schedule with the client (the additional 4 hours to make up the total contact time will be spent on preparing the students for the final panel assessment).
- There are 6 topics which total 96 hours contact time plus 4 hours for the panel assessment preparation = 100 hours contact time. Students will be required to spend approximately 8 hours in preparation to attend each Topic.
- Students will be required to spend approximately 10 hours a week (2 hours per day) on work-based learning activities aligned to the relevant topic outcomes.
- Students will be required to spend 25 hours on assessment preparation activities and assignments for each topic.
- This will be spread across the 4 to 6-week gap between scheduled classes.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- A minimum of five years relevant experience in people management, or people development or industrial psychology is compulsory;
- An NQF level 7 qualification in Human Resources Management, Industrial Psychology and/or related fields will be beneficial; and
- The successful completion of the Best Practice programme for HR Professionals (S1BPPQ) and/or the Human Resource Business Partner Programme (S1HRBQ) is beneficial but not necessary for admission into this programme.

An in-depth knowledge, understanding and practice of the entire HR value chain and associated processes are required in order to undertake the learning required in the SLP.

PURPOSE OF PROGRAMME
The purpose of this SLP is to introduce HR professionals to the latest theory, tools and techniques of talent management. It looks at the changing context of 'talent' and 'talent management' and the strong business case for addressing it and outlines the features of a talent

management strategy, including corporate strategy alignment, inclusive versus exclusive approaches, involving the right people, and the talent management loop. It also touches on implementing an effective strategy and the talent strategies needed to meet future challenges and opportunities so that organisations can build a high-performance workplace, encourage a learning organisation, add value to their employee value proposition, and contribute to diversity management.

PROGRAMME CONTENT

YEAR MODULES (COMPULSORY)	
MODULE NAME	MODULE CODE
Topic 1: The business context: Where the game is played	S1TMX1
Topic 2: Introduction to the Talent Landscape	S1TMX2
Topic 3: Creating Talent Intelligence	S1TMX3
Topic 4: Talent attraction: The implications of the new economy	S1TMX4
Topic 5: Talent retention: Retaining your key talent	S1TMX5
Topic 6: Talent Development	S1TMX6
Topic 7: Integration	S1TMX7

MODULES AND OUTCOMES:

TALENT MANAGEMENT PROFESSIONAL DEVELOPMENT:

TOPIC 1: THE BUSINESS CONTEXT: WHERE THE GAME IS PLAYED: (S1TMX1)

Purpose:
The purpose of this topic is to expose students to the relevant business context within which the modern Talent Manager operates. Learning areas such as the business value chain, strategy, basic financial principles and profit levers will be taught through a business simulation model.

Outcome(s):
Students should be able to:
- interpret the business context within which the HR Professional operates;
- apply basic business and financial principles;
- demonstrate a comprehensive understanding of business unit strategy and profit levers; and
- demonstrate an advanced understanding of the entire business value chain.

TOPIC 2: INTRODUCTION TO THE TALENT LANDSCAPE: (S1TMX2)

Purpose:
The purpose of this topic is to expose students to the building blocks of the talent landscape. This Topic explores the changing talent landscape, talent philosophy and science behind talent supply and demand.

Outcome(s):
Students should be able to:
- describe the building blocks of the talent landscape in order to ensure sufficient talent attraction and retention for the current scenario as well as in the future;
- discuss the organisation's talent philosophy and approach;
- differentiate between talent demand and supply as well as the forces impacting on demand and supply;
- define and implement the talent governance approach;
- segment talent according to organisational needs; and
- consider the implications of the HR value proposition on the talent approach and processes.

TOPIC 3: CREATING TALENT INTELLIGENCE: (S1TMX3)

Purpose:
The purpose of this topic is to deal with the design and interpretation of talent scorecards. Having talent intelligence facilitates the process of building the talent pipeline as well as succession planning.

Outcome(s):
Students should be able to:
- interpret talent scorecards in such a way that talent intelligence is created;

- design a talent scorecard and related metrics;
- implement an integrated workplace planning process;
- forecast current and future talent requirement needs; and
- identify critical skills, conduct a gap analysis and develop plans to close the gaps.

TOPIC 4: TALENT ATTRACTION: THE IMPLICATIONS OF A NEW ECONOMY: (S1TMX4)

Purpose:
The purpose of this topic is to define new ways of attracting talent as well as consider the implications of technology and labour legislation.

Outcome(s):
Students should be able to:
- demonstrate a clear understanding of the changing requirements of talent attraction and the implications on recruitment and selection;
- describe the changes in terms of the employer and employee psychosocial contract and the implications on the organisation;
- describe the different requirements of the different generations in terms of talent attraction and devise different attracting approaches to cater for these differences;
- develop an organisational strategy to fully include the range of diverse talent; and
- demonstrate the role of technology in terms of talent attraction while considering the limitations and implications of labour legislation in the South African context.

TOPIC 5: TALENT RETENTION: RETAINING YOUR KEY TALENT: (S1TMX5)

Purpose:
The purpose of this topic is to expose students to identifying the different drivers of talent retention to enhance job security. The Topic deals with different tools and techniques to implement talent retention initiatives. It also includes the effective management of talent diversity for organisational success as well as building inclusive and ethical organisational cultures to fully engage employees.

Outcome(s):
Students should be able to:
- describe the different components of talent retention and implement a variety of initiatives to retain talent;
- discuss the drivers of talent retention and the Human Resources value proposition;
- design and maintain a comprehensive on-boarding programme taking into account the changes in the talent landscape;
- build the talent pipeline through the development and implementation of succession plans;
- implement the various talent retention initiatives; and
- demonstrate an understanding of the building blocks for developing an ethical organisational culture to retain talented employees.

TOPIC 6: TALENT DEVELOPMENT: (S1TMX6)

Purpose:
The purpose of this topic is to expose students to talent development as an integrated process of learning, organisational and career development to create high-performing, sustainable organisations that meet their strategic and operational goals and objectives. This topic will include a view of the talent development to attract, develop, motivate and retain engaged employees.

Outcome(s):
Students should be able to:
- interpret integrated organisational and career development processes that drive the organisation's culture, capability, capacity and engagement through acquisition and talent development;
- demonstrate an understanding of Global and National Human Resource Development (HRD) initiatives that will influence Talent Development within South African organisations;
- build a learning architecture that aligns to the organisation's strategic imperatives;
- drive the implementation of talent development initiatives in accordance with the organisation's strategic goals;
- interpret and adapt learning technologies to address the strategically imperative talent development needs within the organisation;
- capture and distribute intellectual capital to encourage knowledge sharing and collaboration; and
- use organisational intelligence and analytics to measure the impact of learning and performance solutions.

TOPIC 7: INTEGRATION: (S1TMX7)

Purpose:

The purpose of this topic is to consolidate the programme outcomes so that learners can demonstrate they can integrate the theory and practice through a final integrative assessment. This will take the format of a group presentation to a panel of experts

Outcome(s):
Students should be able to:
- integrate and apply the above themes to provide a company specific project focused on first line leadership challenges; and
- integrate and apply the above themes to a company specific challenge to provide their peers with a suggested solution.

ASSESSMENT
- Formative assessments for each topic (1 to 6) are in the form of self-assessments using a variety of assessment tools as well as action learning and case studies in the form of group assessments.
- A final summative assessment in the form of an individual or group presentation (Topic 7) to a panel of experts will be completed at the end of the programme.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 0%
- Examination Mark Weight: 100%
- Pass Mark: 60%

MODERATION
- Assessments and assessment practice for the learning programme will be moderated.
- A sample of 25% of all assessments will be moderated internally for each topic (1 to 6) by subject specialists within the department.
- An external moderator will be present at the final assessment presentation for Topic 7.

NAME OF PROGRAMME: THE BEST PRACTICE PROGRAMME FOR HUMAN RESOURCE PROFESSIONALS	SHORT LEARNING PROGRAMME LIMITED CONTACT – APB	SLP CODE: S1BPPQ	NQF LEVEL: 6 CREDITS 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-Credit bearing short learning programme.

MODE OF OFFERING
- Classes are presented on a part-time basis, approximately every 4 to 6 weeks across the duration of the full programme.
- Each class will compromise a full two-day study school, 8 hours a day as per the negotiated schedule with the client.
- Classes are held at the premises of the client.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- The assumption that a Human Resources practitioner that is being assessed has at least 2 – 3 years' experience in the field of human resources management;
- A further assumption is that the majority of Human Resource practitioners would at least have a qualification (occupational or foundational) but not necessarily in the field of Human Resource Management; and
- A formal qualification in the field of Human Resources is not compulsory however would be beneficial.

PURPOSE OF PROGRAMME
The purpose of this SLP is for students to achieve a common understanding of the critical components of the Human Resource value chain and their application within the business context. Students will be exposed to their specific business contexts and 'go back to the basics' with regard to recruitment, selection, talent development, performance management, talent relations and HR consulting skills.

PROGRAMME CONTENT

YEAR MODULES (COMPULSORY)	
MODULE NAME	MODULE CODE
Topic 1: The Business Context	S1BPPX1
Topic 2: Talent Attraction	S1BPPX2
Topic 3: Talent Development	S1BPPX3
Topic 4: Performance Management	S1BPPX4

Topic 5: Reward and Recognition	S1BPPX5
Topic 6: Talent Relations	S1BPPX6
Topic 7: Interpersonal and Consulting Skills	S1BPPX7

MODULES AND OUTCOMES:

THE BEST PRACTICE PROGRAMME FOR HUMAN RESOURCE PROFESSIONALS:

TOPIC 1: THE BUSINESS CONTEXT: (S1BPPX1)

Purpose:
The purpose of this module is to focus on understanding and interpreting the business context in terms of the strategic intent and the implications for the HR functions in the organisation.

Outcome(s):
Students should be able to:
- define and interpret the business context within which HR operates;
- know organisational strategy and profit levers and the need for an aligned HR strategy within the business; and
- describe the role, function and competencies of the HR professional, nationally and internationally.

TOPIC 2: TALENT ATTRACTION: (S1BPPX2)

Purpose:
The purpose of this module is to focus on the context and the environment within which companies attract talent which has changed significantly. This module deals with best practice regarding talent attraction, selection and placement.

Outcome(s):
Students should be able to:
- demonstrate a comprehensive understanding of best practices regarding talent attraction and selection practices at a national and an international level;
- analyse talent attraction and selection processes within their own contexts; and
- recognise development opportunities in terms of talent attraction, selection and retention practices inside of one's own organisation

TOPIC 3: TALENT DEVELOPMENT: (S1BPPX3)

Purpose:
The purpose of this module is to explore best practices in talent development, both from a formal and informal perspective. Research has proven that companies that invest in talent development outperform their counterparts.

Outcome(s):
Students should be able to:
- demonstrate a comprehensive understanding of best practices regarding talent development at a national and international level;
- review talent development processes within their own contexts; and
- implement best practices regarding talent development, e.g. facilitation and coaching.

TOPIC 4: PERFORMANCE MANAGEMENT: (S1BPPX4)

Purpose:
The purpose of this module is to not only deal with best practices regarding performance management but also with the levers of driving and creating exceptional performance.

Outcome(s):
Students should be able to:
- plan performance management initiatives inclusive of rewarding and recognising good performance;
- demonstrate a comprehensive understanding of best practices regarding performance management at a national and international level; and
- review performance improvement processes and practices within their own contexts.

TOPIC 5: REWARD AND RECOGNITION: (S1BPPX5)

Purpose:

The purpose of this module is to provide an overview of best practices regarding compensation but will also focus on elements to reward and recognise performance.

Outcome(s):

Students should be able to:

- demonstrate a comprehensive understanding of best practices regarding reward and recognition at a national and international level;
- reflect on current reward and recognition practices within own contexts; and
- plan reward and recognition initiatives in line with given policies and procedure.

TOPIC 6: TALENT RELATIONS: (S1BPPX6)

Purpose:

The purpose of this module is to explore the different strategies to create exceptional employee relations. The psychosocial contract will be explored as well as some of the components that drive talent retention.

Outcome(s):

Students should be able to:

- demonstrate a comprehensive understanding of best practices regarding talent relations at a national and international level;
- reflect on current employee/talent relations processes within own contexts; and
- recognise improvement opportunities in terms of talent relations inside of one's own organisation.

TOPIC 7: INTERPERSONAL AND CONSULTING SKILLS: (S1BPPX7)

Purpose:

The purpose of this module is to explore the building blocks of having good relationships within the workplace as a Human Resources professional. An effective Human Resources professional behaves ethically and has good interpersonal and consulting skills. Focus will be on self-assessment and building of a development plan.

Outcome(s):

Students should be able to:

- analyse and explore competencies, of the "self" in the role of a human resources professional and design a personal development plan;
- assess one's competencies, styles and values as a HR professional in relation to competency models at a local and global level;
- conduct a comparison of self-assessment results against the integrated competency framework, in this way identifying personal strengths and developmental areas;
- generate a personal development plan based on identified developmental areas;
- analyse and build relationships within the organisation through respectable interpersonal and consulting skills;
- recognise his or her own interpersonal skills and the role it plays in building relationships within the organisation; and
- develop consulting skills to improve these relationships for the benefit of achieving short- and long term HR goals.

ASSESSMENT

- Formative assessments are individual and group activities completed in the class.
- Summative assessments are portfolio/project based.

CALCULATION CRITERIA

- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 0%
- Examination Mark Weight: 100%
- Pass Mark: 60%

MODERATION

- Assessments and assessment practice for the learning programme will be moderated.
- A sample of 25% of all assessments will be moderated internally for each topic (1 to 6) by subject specialists within the department.
- An external moderator will be present at the final assessment presentation for Topic 7.

- Classes are presented on a part-time basis, approximately every 4 to 6 weeks across the duration of the full programme.
- Each class will compromise a full two-day study school, 8 hours a day as per the negotiated schedule with the client.
- Classes are held at the premises of the client.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- The assumption is that a Human Resources practitioner being assessed has at least 2 – 3 years' experience in the field of human resources management programme;
- A further assumption is that the majority of Human Capital (HC) practitioners would at least have a qualification (occupational or foundational) but not necessarily in the field of Human Resources; and
- A formal qualification in the field of Human Resources is not compulsory however would be beneficial.

PURPOSE OF PROGRAMME
The purpose of this SLP is to build and enhance the capacity of the Human Capital (HC) employees in business partner roles with the aim of driving and improving performance within the organisation. Students will be exposed to the Human Resources Business Partner (HRBP) role, understand their value proposition within their specific HC Operating Model, and drive change in a high-performance culture through sound project management principles and methodologies.

PROGRAMME CONTENT

YEAR MODULES (COMPULSORY)	
MODULE NAME	MODULE CODE
Topic 1: The business context: Where the game is played	S1HRBX1
Topic 2: HR governance: how the game is played	S1HRBX2
Topic 3: The role of the HRBP: The players	S1HRBX3

Topic 4: HRBP and change	S1HRBX4
Topic 5: High performance: improving the level of the game	S1HRBX5
Topic 6: Project management for the HR professional	S1HRBX6

MODULES AND OUTCOMES:

THE HUMAN RESOURCE BUSINESS PARTNER:

TOPIC 1: THE BUSINESS CONTEXT: WHERE THE GAME IS PLAYED: (S1HRBX1)

Purpose:
The purpose of this module is to deal with understanding and interpreting the business context within which the HRBP operates.

Outcome(s):
Students should be able to:
- define and interpret the business context within which the HRBP operates;
- apply basic business and financial principles;
- demonstrate a comprehensive understanding of business unit strategy and profit levers; and
- demonstrate an advanced understanding of the entire business value chain.

TOPIC 2: HR GOVERNANCE: HOW THE GAME IS PLAYED: (S1HRBX2)

Purpose:
The purpose of this module is to explore the HR operating model (centralised vs. decentralised) as well as designing and developing an HR governance structure. Elements of the HR value chain are explored in more detail.

Outcome(s):
Students should be able to:
- describe the elements of HR governance which includes processes and roles and creates a governance structure;
- demonstrate advanced knowledge of the entire HC value chain;
- apply different hr design models inclusive of a shared services model in the HR context; and
- apply good HR governance processes.

TOPIC 3: THE ROLE OF THE HRBP: THE PLAYERS: (S1HRBX3)

Purpose:
The purpose of this module is to use the work of Dave Ulrich to clearly define the role and responsibilities of the HRBP as well as the relationship to line managers. The following components are explored HR as strategic positioner, credible activist, capability builder, changes champion, and innovator and integrator

Outcome(s):
Students should be able to:
- analyse the role of the Human Resources Business Partner;
- define and implement the HR value proposition;
- provide a critical analysis of the HR business partner model;
- define the role of HRBP according to the Dave Ulrich model as well as the relationship to the role of the employee and the line manager;
- build effective working relationships with peers, line manager and employees; and
- describe and clarify expectations of clients while probing for underlying concerns and considering the complexity and implications of the issue/problem.

TOPIC 4: HRBP AND CHANGE: (S1HRBX4)

Purpose:
The purpose of this module is to explore how the HR Business Partner can drive the implementation of change initiatives.

Outcome(s):
Students should be able to:
- demonstrate a clear understanding of the role of HR as an agent of change and build a resilient organisation able to deal with the demands of change;
- define the concepts of change and transformation management;

- implement change management programmes in accordance to functional requirements;
- create change readiness within the organisation; and
- successfully deal with resistance to change.

TOPIC 5: HIGH PERFORMANCE: IMPROVING THE LEVEL OF THE GAME: (S1HRBX5)

Purpose:
The purpose of this module is to focus on creating an understanding and driving a culture around high performance through the generation of improvement initiatives.

Outcome(s):
Students should be able to:
- create a culture based on the principles of high performance;
- demonstrating an understanding of the elements of high performance;
- conducting an organisational diagnosis process to identify areas of improvement; and
- designing and implementing a performance improvement initiative.

TOPIC 6: PROJECT MANAGEMENT FOR THE HR PROFESSIONAL: (S1HRBX6)

Purpose:
The purpose of this module is to deal with the execution of human capital related projects within the scientific framework of project management. The module therefore includes project management features such as a project charter, implementation, risk and the tracking of implementation.

Outcome(s):
Students should be able to:
- develop, implement and control functional project plans in line with the overall changes in HC processes, practices and methodologies;
- define the project management lifecycle as well as describing the role and function of the different role players;
- develop a project charter and work break down structure;
- follow a systematic approach by carefully considering risks and the impact of decisions on unit/ function; and
- report on the progress of the implementation of a functional project.

ASSESSMENT
- Formative assessments are individual and group activities completed in the class.
- Summative assessments are portfolio/project based.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 0%
- Examination Mark Weight: 100%
- Pass Mark: 60%

MODERATION
- Assessments and assessment practice for the learning programme will be moderated.
- A sample of 25% of all assessments will be moderated internally for each topic (1 to 6) by subject specialists within the department.
- An external moderator will be present at the final assessment presentation for Topic 7.

NAME OF PROGRAMME: THE ORGANISATIONAL EFFECTIVENESS PROFESSIONAL DEVELOPMENT PROGRAMME	SHORT LEARNING PROGRAMME LIMITED CONTACT – APB	SLP CODE: S34OEQ	NQF LEVEL: 7 CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme.

MODE OF OFFERING
- The duration of this programme is 6 – 8 months.
- Classes are presented on a part-time basis, approximately every 4 to 6 weeks across the duration of the full programme.
- Each Topic will comprise a full two-day study school, 8 hours a day as per the negotiated schedule with the client (the additional 4 hours to make up the total contact time will be spent on preparing the students for the final panel assessment).
- There are 6 Topics which total 96 hours contact time plus 4 hours for the panel assessment preparation = 100 hours contact time.
- Students will be required to spend approximately 8 hours in preparation to attend each Topic.
- Students will be required to spend approximately 10 hours a week (2 hours per day) on work-based learning activities aligned to the relevant Topic outcomes.
- Students will be required to spend 25 hours on assessment preparation activities and assignments for each Topic, this will be spread across the 4 to 6-week gap between scheduled classes

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
The following entry requirements apply:
- A minimum of five years relevant experience in people management, or people development or industrial psychology is compulsory;
- An NQF level 5 qualification in Human Resources Management, Industrial Psychology and/or related fields will be beneficial; and
- The successful completion of the SLP Best Practice programme for HR Professionals (S1BPPQ) and/or the SLP Human Resource Business Partner Programme (S1HRPQ) and/or the SLP Talent Management Professional Development Programme (S34TMQ) would be beneficial.

An in-depth knowledge, understanding and practice of the entire HR value chain and associated processes are required in order to undertake the learning required in the SLP.

PURPOSE OF PROGRAMME

The purpose of this SLP is to build capacity and enhance the capabilities of HR professionals in leadership roles with the aim of driving agility and enabling improved organisational performance and sustainable profits in dynamic environments. Students will be introduced to topics such as employee engagement, organizational design, business analytics and research, benefits metrics and measurement, the organizational landscape and business context so that they not only impact in the short term but position their companies, employees and stakeholders for future success.

PROGRAMME CONTENT

YEAR MODULES (COMPULSORY)	
MODULE NAME	**MODULE CODE**
Topic 1: The business context: Where the game is played	S1OEX1
Topic 2: Introduction to the 0rganisational effectiveness landscape	S1OEX2
Topic 3: Demystifying business analysis and research	S1OEX3
Topic 4: Benefit realisation: scorecards and metrics	S1OEX4
Topic 5: Engaging employees	S1OEX5
Topic 6: Sustainable organisational and work design	S1OEX6
Topic 7: Integration	S1OEX7

MODULES AND OUTCOMES:

THE ORGANISATIONAL EFFECTIVENESS PROFESSIONAL DEVELOPMENT PROGRAMME:

TOPIC 1: THE BUSINESS CONTEXT: WHERE THE GAME IS PLAYED: (S1OEX1)

Purpose:
The purpose of this topic is to expose students to the relevant business context within which the modern organisational effectiveness professional operates. Learning areas such as the business value chain, strategy, basic financial principles and profit levers will be taught through a business simulation model.

Outcome(s):
Students should be able to:
- interpret the business context within which the Organisational Effectiveness specialist operates;
- apply basic business and financial principles;
- demonstrate a comprehensive understanding of business unit strategy and profit levers; and
- demonstrate an advanced understanding of the entire business value chain.

TOPIC 2: INTRODUCTION TO THE ORGANISATIONAL EFFECTIVENESS LANDSCAPE: (S1OEX2)

Purpose:
The purpose of this topic is to expose students to the building blocks of the organisational effectiveness landscape. This Topic explores the diagnostic process as well as the tools and techniques to support them with implementing a wide range of organisational improvement initiatives.

Outcome(s):
Students should be able to:
- describe the building blocks of the organisational effectiveness landscape and conduct an assessment to identify improvement interventions;
- demonstrate an advanced understanding of the elements driving organisational effectiveness;
- analyse the organisation to determine areas of improvement to increase organisational effectiveness;
- effect or modify current human resources practices and processes to achieve maximum organizational impact;
- build effective working relationship with peers, line and employees; and
- describe and clarify expectations of clients. Probes for underlying concerns and considers the complexity implications of the issue/problem.

TOPIC 3: DEMYSTIFYING BUSINESS ANALYSIS AND RESEARCH: (S1OEX3)

Purpose:
The purpose of this topic is to deal with the processes of conducting business research as organisational effectiveness is about conducting business research and to make recommendations based on the findings.

Outcome(s):
Students should be able to:
- conduct an integrated organisational research project;
- display a comprehensive understanding of conducting an organisational business research assignment;
- plan and conduct a business research project;
- analyse data and write a business report with findings and recommendations; and
- design and implement an organisational improvement initiative based on research findings.

TOPIC 4: BENEFIT REALISATION: SCORECARDS AND METRICS: (S1OEX4)

Purpose:
The purpose of this topic is to measure the benefit realisation of organisational improvement initiatives. This Topic deals with concepts like scorecards, metrics and measurements.

Outcome(s):
Students should be able to:
- demonstrate a clear understanding of how to measure the benefit realisation of various organisational improvement initiatives;
- develop a scorecard to measure the benefit realisation of an improvement initiative;
- design metrics and measures from both a qualitative and quantitative perspective; and
- align metrics with HR/ business goals and priorities.

TOPIC 5: ENGAGING EMPLOYEES: (S1OEX5)

Purpose:
The purpose of this topic is to deal with how to engage employees to improve organisational performance. The constructs of engagement are explored as well as the tools and techniques to implement employee engagement initiatives. It also includes how to establish ethical organisational cultures that promote business success as well as how to leverage the organisational diversity for organisational success

Outcome(s):
Students should be able to:
- implement a variety of initiatives to increase employee engagement;
- demonstrate an understanding of the drivers of employee engagement and the Human Resources value proposition;
- design and maintain a comprehensive diversity management programme;
- develop an ethical workplace culture;
- develop and implement employee wellness initiatives; and
- use a range of tools and techniques to facilitate individual/ team conversations.

TOPIC 6: SUSTAINABLE ORGANISATIONAL AND WORK DESIGN: (S1OEX6)

Purpose:
The purpose of this topic is to explore the difference between organisational design, work design as well as the implications of job grading.

Outcome(s):
Students should be able to:
- demonstrate an understanding of organisational design theory, systems and processes;
- develop or redesign a structure for the organisation aligned to business objectives;
- profile jobs inclusive of competency definitions and related performance standards; and
- consider the implications of job grading on organisational structure, job profiles and costs.

TOPIC 7: INTEGRATION: (S1OEX7)

Purpose:
The purpose of this topic will consolidate the programme outcomes so that students can demonstrate they can integrate the theory and practice through a final integrative assessment. This will take the format of a group presentation to a panel of experts

Outcome(s):
Students should be able to:
- integrate and apply the above themes to provide a company specific project focused on first line leadership challenges; and
- integrate and apply the above themes to a company specific challenge to provide their peers with a suggested solution.

ASSESSMENT

- Formative assessments for each topic (1 to 6) are in the form of self-assessments using a variety of assessment tools as well as action learning and case studies in the form of group assessments.
- A final summative assessment (Topic 7) in the form of a panel presentation to a panel of experts will be completed at the end of the programme.

CALCULATION CRITERIA

- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 0%
- Examination Mark Weight: 100%
- Pass Mark: 60%

MODERATION

- Assessments and assessment practice for the learning programme will be moderated.
- A sample of 25% of all assessments will be moderated internally for each topic (1 to 6) by subject specialists within the department.
- An external moderator will be present at the final assessment presentation for Topic 7.

NAME OF PROGRAMME: TRADE UNION LEARNING PRACTITIONER	SHORT LEARNING PROGRAMME LIMITED CONTACT – APB	SLP CODE: PD12TU	NQF LEVEL: 4 CREDITS 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme.

MODE OF OFFERING
- The duration of this programme is 6 - 8 months.
- Contact sessions will be scheduled every 4 to 6 weeks across the duration of the full programme.
- Each module will comprise a full two-day study school, 8 hours a day.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- The Trade Union Learning Practitioner programme (TULP) is intended for a union official, shop steward or any trade union or federation member involved in training or education activities in the workplace; and
- Given the historical disadvantage of formal education for most of these practitioners, it is intended that the entry-level practitioner meets the minimum numeracy and literacy requirements of at least a Grade 9 or equivalent.

PURPOSE OF PROGRAMME
The purpose of this SLP is to provide information, as well as advice on and promote skills development and related issues to its representatives in the workplace. This is in particular relation to skills development planning and facilitation processes and related legislative frameworks.

PROGRAMME CONTENT

YEAR MODULES (COMPULSORY)	
MODULE NAME	**MODULE CODE**
On boarding The Learning Revolution	PD12X1
Igniting the Fires of Change	PD12X2
The Skills Planning Journey	PD12X3
Championing the Learning Revolution	PD12X4

MODULES AND OUTCOMES:

TRADE UNION LEARNING PRACTITIONER:

ON BOARDING THE LEARNING REVOLUTION: (PD12X1)

Purpose:
The purpose of this module is to focus on the macro- and micro contexts of education, training and development in South Africa and the workplace. Related national strategies, policies, governance and frameworks will be described along with the historical overview of the National Qualifications Framework, Workplace Learning, the Education Training and Development (ETD) function, the Training and Development Cycle and Adult Learning.

Outcome(s):
Students should be able to:
- demonstrate an understanding of education, training and development within the context of the national qualifications framework, related skills development and human resource development legislation and policies in South Africa;
- explain the Training and Development Cycle and its impact on the ETD function, workplace learning and adult learning;
- explain key concepts such as the Training and Development Cycle, workplace learning, the ETD function and adult learning and be able to identify the key elements related to skills development in the workplace;
- provide information and advice regarding key ETD and learning concepts in the workplace; and
- identify the role of the work environment and particularly line management and trade union representatives – in ensuring training for impact

IGNITING THE FIRES OF CHANGE: (PD12X2)

Purpose:
The purpose of this module is to deal with the first stage of the Training and Development Cycle and will explore the extent to which the workplace complies with the legislative requirements in terms of training and development and the promotion of a positive and healthy learning culture. The development of a workable strategy to rectify the areas of weakness will also be explored.

Outcome(s):
Students should be able to:
- promote a learning culture in the organisation;
- develop and implement strategies for the promotion of a learning culture within the workplace and its impact on the skills development planning and implementation process;
- investigate and analyse the current status of the learning culture in the workplace and identify the status of learning and learning culture in terms of quantitative and qualitative indicators;
- define the extent to which learning is needed within the workplace and its potential contribution to ETD and the skills development facilitation process;
- contribute to the nurturing of a learning culture in the organisation by offering relevant, workable strategies for improved communication, participation, and results;
- identify strategies that are sustainable in terms of key actions, methods, required resources and costs, target audience and learning needs, timing of actions and potential constraints; and
- promote training and development opportunities according to planned and approved strategies and emphasise the benefits to individuals and the workplace.

THE SKILLS PLANNING JOURNEY: (PD12X3)

Purpose:
The purpose of this module is to explore the Proposed Skills Development Framework and the specific steps involved in identifying, prioritising and recording skills development needs in the organisation. It will also focus strongly on the role of the trade union representatives in partnering with the Skills Development Facilitator (SDF) for best workplace skills planning results.

Outcome(s):
Students should be able to:
- demonstrate an understanding of the skills development planning process within the skills planning framework for the workplace;
- understand the skills development planning process to identify and define skills requirements in the workplace, analyse and develop current and future skills profiles, and define training and development needs and priorities;
- conceptualise the skills planning framework in the workplace, understand the importance of project planning and the role of the skills development committee, and develop a sound communication and awareness strategy and campaign throughout the skills planning process; and

- demonstrate a clear understanding of the dual roles of the SDF/HRD team on the one hand, and the work environment/trade union representatives on the other. this is with reference to each stage in the skills planning framework.

CHAMPIONING THE LEARNING REVOLUTION: (PD12X4)

Purpose:
The purpose of this module is to deal with technical aspects related to skills development. The Workplace Skills plan, the role for the Skills Development Facilitator, Annual Training reports, Pivotal Plans, the Levy Grant system will be discussed in detail.

Outcome(s):
Students should be able to:
- demonstrate the technical aspects and detailed processes related to skills development;
- explain the significance of the workplace skills plan, the pivotal plan, the levy grant system, the role of the skills development facilitator and the annual training report in relation to the skills development planning process; and
- demonstrate how to capitalise on opportunities within the skills development environment in order to champion learning projects, e.g. learnerships, internships, pivotal programmes.

ASSESSMENT
- Formative assessments are in the form of individual and group activities completed in the class.
- Summative assessments are portfolio/project based per module.
- A final integrated assessment is in the form of an exam after all assessments are successfully completed.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 0%
- Examination Mark Weight: 100%
- Pass Mark: 50%

MODERATION
- Assessments and assessment practice for the learning programme will be moderated.
- A sample of 25% of all assessments will be moderated internally for each topic by subject specialists within the department.
- An external moderator will be present at the final assessment presentation.

DEPARTMENT OF TRANSPORT AND SUPPLY CHAIN MANAGEMENT
Bridging Programmes:

NAME OF PROGRAMME: TRANSPORT AND SUPPLY CHAIN MANAGEMENT BRIDGING	SHORT LEARNING PROGRAMME LIMITED CONTACT – APK	SLP CODE: S1TSCQ	NQF LEVEL: 5 CREDIT: 0

Total hours	632	-
Total number of credits	-	0

DURATION OF PROGRAMME
- Contact time: 4-day study school.
- Months to complete: 9 months.
- Minimum period to obtain: 9 months.
- Maximum period to obtain: 9 months.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
After successful completion of the programme, students who meet the minimum entry requirements will only be able to apply for one of the following UJ Continuing Education Programmes:
- Diploma in Transportation Management
- Diploma in Road Transport Management (Freight/Passenger)
- Diploma in Logistics Management

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students will receive no credits towards the completion of any subsidised UJ programmes.

PURPOSE
The purpose of the bridging programme is to enable prospective students who possess a Grade 12 certificate without diploma endorsement to proceed to specific CEP Diploma studies in Transport and Logistics at UJ.

PROGRAMME CONTENT

YEAR MODULES (COMPULSORY)	
MODULE NAME	MODULE CODE
Basic Mathematics & Quantitative Techniques for Logisticians	TSCB1Y1
Industrial Relations	TSCB2Y1
Managing a Road Transport Operation	TSCB3Y1

MODULES AND OUTCOMES:

TRANSPORT AND SUPPLY CHAIN MANAGEMENT BRIDGING:

BASIC MATHS & QUANTITATIVE TECHNIQUES FOR LOGISTICIANS: (TSCB1Y1)

Purpose:
The purpose of this module is to enable the student to apply arithmetic concepts in the operation of logistics and basic concepts of measurements in a transport environment. They will be able to collect, organise and analyse basic statistical data for use in a logistics operation and apply mathematical concepts in logistics management.

Outcome(s):
Students should be able to:
- explain the basic arithmetic concepts in the logistics field;
- use correct measurements in the transport environment;
- apply statistical data in the logistics field; and
- compare mathematical concepts in the logistics field of work.

INDUSTRIAL RELATIONS: (TSCB2Y1)

Purpose:
The purpose of this module is to introduce students to industrial relations concepts with respect to the transport industry and to apply knowledge and skills of industrial relations, including the ability to determine and demonstrate correct solutions.

Outcome(s):
Students should be able to:
- define relevant industrial relations concepts in relation to the transport industry;
- reflect on different industrial relation situations in the workplace; and
- apply industrial relations principles to make correct solutions in the workplace.

MANAGING A ROAD TRANSPORT OPERATION: (TSCB3Y1)

Purpose:
The purpose of this module is to develop competencies of students who are required to apply basic business knowledge and skills in road transport operations. It is also intended to ensure that supervisors can make informed decisions in sometimes open-ended and unfamiliar situations requiring some self-initiated planning and creativity.

Outcome(s):
Students should be able to:
- apply decisions at supervisory managerial level in the road transport industry;
- apply policy and procedures to meet the vision, mission and objectives of the organisation;
- apply and operationalise strategy and to make suggestions and recommendations in the organisation;
- discuss the role of the supervisor;
- plan, work and organise resources within an organisation;
- apply different strategies to control employees;
- provide leadership to work in teams and with individual team members;
- establish individual and team performance expectations and standards; and
- create a healthy and fair working environment;
- discuss the role and importance of people in an organisation;
- explain the role and responsibilities of supervisors in an organisation; and
- compare the role of individuals and teams in work performances in an organisation.

ASSESSMENT
Assessments are in the form of two assignments and a written summative assessment.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- The assignments contribute 25% to the final mark.
- The written summative assessment contributes 75% of the final mark.
- The pass mark of the summative assessments for every module is 50%.

MODERATION
- Internal moderation by subject matter experts according to UJ's moderation policy.
- Appeals procedure according to UJ's moderation policy.

NAME OF PROGRAMME: BRIDGING PROGRAMME FOR ENTERING ADVANCED DIPLOMA LOGISTICS	SHORT LEARNING PROGRAMME LIMITED CONTACT – APB	SLP CODE: S1BALQ	NQF LEVEL: 6 CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme

MODE OF OFFERING
Limited contact programme.
Students attend lectures scheduled on specified days of the month on the Bunting Road Campus.
Submission of assignments and writing scheduled assessments.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- Relevant 3-year undergraduate diploma on NQF level 6.
- Selection based on academic performance in undergraduate studies and space availability.

LEARNING ACTIVITIES

ACTIVITY	HOURS	CREDITS
Contact time (Lectures)	90	-
Workshops	-	-
Work-based learning	-	-
Independent reading/interacting with learning material/online activities	360	-
Preparation for and completion of assignments and other assessment activities	360	-
Tutorials	-	-
Other: Forums and group work	150	-
Total hours	960	-
Total number of credits	-	0

DURATION OF PROGRAMME
- Contact time: 3-4 times a month.
- Months to complete: February to October.
- Minimum period to obtain: 9 months.
- Maximum period to obtain: 9 months.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
After successful completion of the programme, students, who meet the minimum entry requirements and obtain a minimum average of 65% in each of the modules, will be considered for the UJ Advanced Diploma in Logistics (A34LGQ – Contact) or (A34LOP – Online).

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students will receive no credits towards the completion of subsidised UJ programmes.

PURPOSE
The purpose of the SLP is to provide students with knowledge and skills of the core concepts and principles in contemporary transport management and supply chain management to enable them to further their studies in the UJ Advanced Diploma in Logistics on NQF level 7.

PROGRAMME CONTENT

YEAR MODULES (COMPULSORY)	
MODULE NAME	MODULE CODE
Purchasing	PURBRY1
Logistics	LOGBRY1
End-User Computing	EUCBRY1

Applied Accounting Skills (Logistics)	AALBRY1

MODULES AND OUTCOMES:

BRIDGING PROGRAMME FOR ENTERING ADVANCED DIPLOMA LOGISTICS:

PURCHASING: (PURBRY1)

Purpose:
The purpose of this module is to provide knowledge of the development, evaluation and implementation of purchasing principles in the supply chain environment. This will enable the student to make a range of decisions implicit in planning and implementing purchasing. Upon the successful completion of this module, a student would have obtained fundamental knowledge on how purchasing contributes to value creation in supply chain.

Outcome(s):
Students should be able to:
- describe the role purchasing plays in the supply chain;
- identify and describe the importance of information systems and technology;
- apply the principle of inventory and the quantity factor concerning inventory holding;
- describe the importance and the role of transportation in the supply chain;
- undertake research to provide solutions for the best investment recovery methods;
- analyse various aspects of global sourcing; and
- analyse and discuss price determination and purchasing in transportation services

LOGISTICS: (LOGBRY1)

Purpose:
The purpose of this module is to develop intellectual competencies and practical skills in planning, developing and implementing logistics decisions.

Outcome(s):
Students should be able to:
- apply the principles of the strategic supply chain network planning and decision making, as well as the impact on the focal company;
- analyse the nature of product characteristics and the impact on supply chain purchasing and pricing strategies;
- describe the importance of supply chain customer service and how to measure and improve service standards;
- describe the critical role that information plays in integrating logistics business processes within a supply chain;
- analyse product- and market-related factors that impact on transport costing and estimating within a supply chain;
- explain techniques used to forecast supply chain demands to minimise inventory investment;
- describe the nature of supply scheduling and the impact of logistics organisation on a firm's efficiency and effectiveness; and
- analyse the warehousing and materials handling functions, as well as storage facility location decisions.

END-USER COMPUTING: (EUCBRY1)

Purpose:
The purpose of this module is to enable students to use Microsoft Word, Microsoft PowerPoint and Microsoft Excel to enhance professionality in the business environment.

Outcome(s):
Students should be able to:
- use MS Word to create, edit and enhance standard business documents
- implement MS PowerPoint to improve the quality of presentations
- create spreadsheets using MS Excel for different purposes
- apply formulas and functions in calculations

APPLIED ACCOUNTING SKILLS (LOGISTICS): (AALBRY1)

Purpose:

The purpose of this module is to provide students with the basic principles of accounting, the accounting cycle and recording of accounting transactions. This module will help students to compile financial statements, do basic calculations and the recording of value-added tax (VAT) transactions.

Outcome(s):
Students should be able to:
- explain basic accounting principles and concepts;
- identify the different stages of the accounting cycle processes;
- classify financial transactions according to the key elements of financial statements;
- explain how to record basic financial transactions from source document to the relevant journals;
- identify transactions relating to the purchase, depreciation and disposal of property, plant and equipment;
- prepare basic financial statements for a sole trader, for both a service entity and a trading entity; and
- analyse the requirements for forming a company as a legal entity.

ASSESSMENT
Assessments are in the form of assignments, two tests and a written summative assessment.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- The assignments and tests contribute 50% of the final mark.
- The written summative assessment contributes 50% of the final mark.
- The pass mark of the summative assessment is 50%.
- All modules must be passed in the same academic year.

MODERATION
- Internal moderation by subject matter experts according to UJ's moderation policy.
- Appeals procedure according to UJ's moderation policy.

NAME OF PROGRAMME: BRIDGING PROGRAMME FOR ENTERING ADVANCED DIPLOMA TRANSPORTATION MANAGEMENT	SHORT LEARNING PROGRAMME LIMITED CONTACT – APB	SLP CODE: S1BATQ	NQF LEVEL: 6 CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme.

MODE OF OFFERING
Limited contact programme.
Students attend lectures scheduled on specified days of the month on the Bunting Road Campus.
Submission of assignments and writing scheduled assessments.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- Relevant 3-year undergraduate diploma on NQF level 6.
- Selection based on academic performance in undergraduate studies and space availability.

LEARNING ACTIVITIES

ACTIVITY	HOURS	CREDITS
Contact time (Lectures)	90	-
Workshops	-	-
Work-based learning	-	-
Independent reading/interacting with learning material/online activities	360	-
Preparation for and completion of assignments and other assessment activities	360	-
Tutorials	-	-
Other: Forums and group work	150	-
Total hours	960	-
Total number of credits	-	0

DURATION OF PROGRAMME
- Contact time: 3-4 times a month.
- Months to complete: February to October.
- Minimum period to obtain: 9 months.
- Maximum period to obtain: 9 months.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
After successful completion of the programme students, who meet the minimum entry requirements and obtain a minimum average of 65% in each of the modules, will be considered for the UJ Advanced Diploma in Transportation Management (A34TMQ - Contact) or (A34TRP - Online).

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students will receive no credits towards the completion of any subsidised UJ programmes.

PURPOSE
The purpose of the SLP is to provide students with knowledge and skills of the core concepts and principles in contemporary transport management and supply chain management to enable them to further their studies in the UJ Advanced Diploma in Transportation Management on NQF level 7.

PROGRAMME CONTENT

YEAR MODULES (COMPULSORY)	
MODULE NAME	MODULE CODE
Transport	TPTBRY1

Logistics	LOGBRY1
End-User Computing	EUCBRY1
Applied Accounting Skills (Transport)	AATBRY1

MODULES AND OUTCOMES:

TRANSPORT: (TPTBRY1)

Purpose:
The purpose of this module is to examine current domestic and global transportation trends. The role and importance of different modes of transport in South Africa, impact on the economy, legislative background and the policy issues that affect the cost and efficiency of transportation will be discussed to get a better understanding of current and future policy trends.

Outcome(s):
Students should be able to:
- compare various types of market structures found in the transportation industry;
- examine the development of motor carriers and their contributions to the South African economy;
- analyse the contributions of the railroad industry to the development of the South African economy;
- discuss the importance of air transportation in the South African economy;
- distinguish between various types of water carriers and their roles in the overall water carrier system;
- explain the nature of transportation risk and disruptions; and
- discuss the relationship between international trade and global transportation.

LOGISTICS: (LOGBRY1)

Purpose:
The focus of this module is on the development and implementation of logistics principles in the supply chain environment. Students should be able to apply their knowledge, competencies and practical skills in planning and implementing logistics decisions.

Outcome(s):
Students should be able to:
- discuss the principles of the strategic supply chain network planning and decision making, as well as its impact on the focal company;
- describe the importance of customer service and information in the supply chain;
- explain techniques used to forecast supply chain demands to minimise inventory investment;
- examine the nature and impact of inventory and order processing throughout the supply chain, as well as the control;
- describe the nature of supply scheduling and the impact of logistics organisation on a firm's efficiency and effectiveness; and
- analyse the warehousing and materials handling functions, as well as storage facility location decisions.

END-USER COMPUTING: (EUCBRY1)

Purpose:
The purpose of this module is to enable students to use Microsoft Word, Microsoft PowerPoint and Microsoft Excel to enhance professionality in the business environment.

Outcome(s):
Students should be able to:
- use MS Word to create, edit and enhance standard business documents;
- implement MS PowerPoint to improve the quality of presentations;
- create spreadsheets using MS Excel for different purposes; and
- apply formulas and functions in calculations

APPLIED ACCOUNTING SKILLS (TRANSPORT): (AATBRY1)

Purpose:
The purpose of this module is to provide students with the basic principles of accounting, the accounting cycle and recording of accounting transactions. This module will help students to compile financial statements, do basic calculations and the recording of value-added tax (VAT) transactions.

Outcome(s):

Students should be able to:
- explain basic accounting principles and concepts;
- identify the different stages of the accounting cycle processes;
- classify financial transactions according to the key elements of financial statements;
- explain how to record basic financial transactions from source document to the relevant journals;
- identify transactions relating to the purchase, depreciation and disposal of property, plant and equipment;
- prepare basic financial statements for a sole trader, for both a service entity and a trading entity; and
- analyse the requirements for forming a company as a legal entity.

ASSESSMENT
Assessments are in the form of assignments, two tests and a written summative assessment.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- The assignments and tests contribute 50% of the final mark.
- The written summative assessment contributes 50% of the final mark.
- The pass mark of the summative assessment is 50%.
- All modules must be passed in the same academic year.

MODERATION
- Internal moderation by subject matter experts according to UJ's moderation policy.
- Appeals procedure according to UJ's moderation policy.

Whole Programmes:

NAME OF PROGRAMME: DIPLOMA IN LOGISTICS MANAGEMENT	WHOLE PROGRAMME LIMITED CONTACT – APK	SLP CODE: D1DLMQ	NQF LEVEL: 6 CREDITS: 360

TYPE OF WHOLE PROGRAMME (WP)
Three-year credit bearing programme.

MODE OF OFFERING
Limited contact programme offered via distance learning with study schools presented twice a year in Johannesburg on the Kingsway Campus.
Submission of assignments and writing scheduled assessments.

CERTIFICATION
Attendance and assessment based.

ADMISSION REQUIREMENTS
Grade 12 Certificate with at least diploma endorsement/university exemption.

LEARNING ACTIVITIES

ACTIVITY	HOURS	CREDITS
Contact time (Lectures)	220	-
Workshops	-	-
Work-based learning	-	-
Independent reading/interacting with learning material/online activities	1 690	-
Preparation for and completion of assignments and other assessment activities	1 690	-
Tutorials	-	-
Other (specify)	-	-
Total hours	3 600	-
Total number of credits	-	360

DURATION OF PROGRAMME
- Contact time: one-week study schools twice a year.
- Months to complete: February to November.
- Minimum period to obtain: 3 years.
- Maximum period to obtain: 5 years
-

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
- After successful completion of this diploma, students can apply for entry into the Advanced Diploma in Logistics (A34LGQ - Contact) or (A34LOP – Online).
- Students who do not meet the minimum requirements for the Advanced Diploma in Logistics can apply for entry into the Bridging Programme for entering into the Advanced Diploma Logistics (S1BALQ).

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students will receive no credits towards the completion of subsidised UJ programmes.

PURPOSE
The purpose of the Diploma in Logistic Management is to develop students with a wide range of vocational and industry-specific intellectual competencies, knowledge and practical skills. This will enable students to explain and apply logistics and supply chain management principles, processes and procedures and to make decisions in the context of a logistics and/or supply chain organisation, interpret relevant information and produce innovative responses based on informed judgment to concrete but often unfamiliar problems. The qualification will provide the student with a range of fundamental knowledge and competencies in fields such as business communication, information systems and project management. Furthermore, it will also provide the student with detailed knowledge about general management principles and specific logistics and supply chain management principles.

MODULES AND OUTCOMES:

INTRODUCTION TO LOGISTICS MANAGEMENT: (ILMLMA1)

Purpose:
This module introduces the student to fundamental logistics concepts and focus on the important role of Logistics in management decision making.

Outcome(s):
Students should be able to:

- discuss the important role of logistics and its management, on a macro and a micro level in the economy;
- explain the value adding functions of logistics and the competitive advantage created by these functions; and

- communicate effectively, in writing and/or orally, with respect to aspects of logistics profession.

INTRODUCTION TO BUSINESS MANAGEMENT: (IBMLMA1)

Purpose:
This module provides a basic introduction to the functioning of the business enterprise and the role and importance of management. Students are exposed to the managerial tasks of logistics managers and various methods of planning and controlling logistics performance.

Outcome(s):
Students should be able to:
- discuss the tasks, functions, skills and roles of managers as key role players, ensuring effective and efficient business practice; and
- analyse planning, organising, leading and control as primary management functions of the logistics business enterprise.

INTRODUCTION TO TRANSPORTATION AND WAREHOUSING: (ITWLMA1)

Purpose:
The purpose of this module is to create competence in the transportation system related to operational structure, services and cost characteristics of the various modes of transport, focusing on the goods carried in the transport system and various freight service providers. The module also focus on the role of packaging and containerisation, warehouse equipment and warehouse location in facilitating the efficiency of the supply chain.

Outcome(s):
Students should be able to:
- compare the operational characteristics of the various modes of transport;
- examine the service, costs characteristics and structure of the various modes of transport and investigate the cost trade-offs in transport as well as profit planning;
- select the right distribution channels for international shipments according to the role of the modes and intermediaries in facilitating international trade;
- reflect on the risks involved in purchasing warehouse equipment;
- analyse the role and types of storage and movement systems within the warehouse;
- discuss the function of packaging and containerisation; and
- explain the importance of selecting the location for warehouses in the supply chain.

BASIC MATHEMATICS AND QUANTITATIVE TECHNIQUES FOR LOGISTICIANS: (MQTLMA1)

Purpose:
The purpose of this module is to introduce students to basic statistical methods, quantitative techniques, percentages and measurements. Students will be able to apply these concepts to demand forecasting and solve logistical and storage problems.

Outcome(s):
Students should be able to:
- explain the three types of measurement (length, mass and capacity) and their relevant units;
- calculate the perimeter and area of geometric objects: rectangle, square and triangle;
- find the mean, mode and median of a data set, draw up a frequency table and draw a bar graph;
- calculate the graph of demand function and that of a supply function, equilibrium point; and
- calculate the total logistics profit and the total cost of inventory.

OVERVIEW AND OBJECTIVES OF THE GOVERNMENT AND MUNICIPAL LOGISTICS SYSTEMS: (OGMLMB1)

Purpose:
The purpose of this module is to introduce students to the basic structure of the supply chain management process in government and its strategic planning and budgeting processes within supply chain management principles. This will enable students to interpret the legal environment within which the supply chain must be managed and addresses the procurement regime of government as well as the preferred procurement methodologies.

Outcome(s):

Students should be able to:

- explain how the basic structure of government generates income;
- discuss the strategic planning and budgeting processes of government and how it gives structure to supply chain management in the public sector;
- analyse the components of government supply chain management and how it connects to government management;
- examine the regulatory framework or structure within which government undertakes supply chain management;
- discuss the principles of the current procurement regime of government and its application; and
- compare the different procurement methodologies that must be chosen for the procurement of goods, services and construction works.

PROCUREMENT AND ORDER PROCESSING SYSTEMS: (POPLMB1)

Purpose:

The purpose of this module is to provide the student with knowledge and skills of the activities associated with buying, purchasing and the developments in a company and the understanding and competencies in applying specific purchasing management practices in the supply chain industry. This module will also provide students with skills and competencies of logistics information systems, with specific reference to interfaces between systems.

Outcome(s):

Students should be able to:

- explain the basic activities associated with purchasing;
- analyse concepts concerning quality control and purchasing;
- examine the importance of finding the right supplier;
- discuss the various roles in the decision-making process;
- explain the background and principles of JIT management and JIT purchasing;
- discuss the primary tasks and responsibilities of purchasing management;
- examine the critical role that information plays in integrating logistics within the organisation; and
- analyse the key function of the distribution system.

BASIC PRINCIPLES OF LOGISTICS PERFORMANCE MEASURES: (BPLLMB1)

Purpose:

The purpose of this module is to equip students with vocational and industry-specific intellectual competencies, knowledge and practical skills in performance measures to enable the student to make decisions in the context of a logistics and supply chain organisation.

Outcome(s):

Students should be able to:

- explain the origin and most important theories of performance management and modern approaches currently at hand;
- analyse the skills, roles and characteristics of performance as important aspects in establishing effective and efficient business practice;
- examine the categories of performance management;
- discuss the concept of benchmarking;
- explain how to apply performance metrics and performance measures evaluation;
- apply the various models (EPM, Gartner Business Value, SCOR) in performance measurement; and
- apply the Balanced Scorecard Framework.

BASIC END-USER COMPUTING FOR LOGISTICIANS: (BECLMB1)

Purpose:

The purpose of this module is to create competence in basic operating skills that are required to use any modern computer and specifically the operating system (OS) called Microsoft Windows. Some tools in the Microsoft Office suite will also be taught. This module will equip students with basic skills that opens the door to advanced learning in computers.

Outcome(s):

Students should be able to:

- use the Windows Operating System confidently;
- Explain the different components of a computer system and explain what their purposes are;
- apply web browsing and searching skills;

- use word processing as a productivity tool in the workplace; and
- apply MS Excel functionalities in the workplace.

INVENTORY MANAGEMENT: (INMLMA2)

Purpose:
The purpose of this module is to develop competencies in the management and application of inventory management processes and systems in the workplace to maximise customer service levels, reduce the investment in inventory and the associated costs.

Outcome(s):
Students should be able to:
- discuss the role and importance of inventory management in supply chain management;
- apply the basic principles of inventory management;
- explain what total inventory costs entails; and
- examine inventory planning and control to optimise inventory levels in the supply chain.

TACTICAL LOGISTICS MANAGEMENT: (TLMLMA2)

Purpose:
The purpose of this module is to introduce tactical logistics management on various tiers or levels of management. This module will assist the student with key financial aspects of logistics and supply chain management and customer service as an important output of the logistics system.

Outcome(s):
Students should be able to:
- explain the concept of tactical logistics management;
- analyse the goods flow processes as well as the different product supply chain processes in a supply chain;
- discuss the importance of time management in a supply chain as well as the cause of long production cycles and lead times;
- examine the key financial management aspects of logistics and supply chain management;
- discuss the basic aspects of cost accounting;
- apply the basic principles of order management and logistics customer service; and
- compare the various elements of customer service and how they impact both buyers and sellers.

TRANSPORTATION OPERATIONS MANAGEMENT: (TOMLMB2)

Purpose:
The purpose of this module is to develop competencies in the management and application of transport management principles and processes in the workplace through the correct application of and adherence to management principles and transport legislation in the workplace.

Outcome(s):
Students should be able to:
- discuss the role and importance of transport in supply chain management;
- explain the basic functions and principles of transport management;
- explain the concept of cost trade-offs in transport management;
- distinguish between strategic, tactical and operational transport management;
- examine the various acts that govern the transport industry;
- analyse the role of the Administrative Adjudication of Road Traffic Offences Act (AARTO) in the compliance of road traffic legislation; and
- discuss the role and impact of road transport legislation for road transport management.

WAREHOUSING AND MATERIALS HANDLING: (WMHLMB2)

Purpose:
The purpose of this module is to provide the student with warehouse management principles and processes. This will give the student competencies in warehouse management to following a total systems approach and the correct application of and adherence to principles and processes.

Outcome(s):
Students should be able to:

- explain the concept of the design of storage and handling facilities;
- compare the different processes and principles that are required for effective and efficient operations of a warehouse
- discuss the role of information technology in warehouse management;
- examine the continuous challenge to continually improve warehouse operations; and
- discuss the role and importance of the warehousing activity in supply chain management.

LOGISTICS AND SUPPLY CHAIN STRATEGY FORMULATION: (LSCLMB2)

Purpose:
The purpose of this module is to develop an understanding of the role, importance and nature of logistics planning and strategy formulation from an integrated supply chain management perspective. This module will provide the student with the competency to formulate a mission statement for a company and take part in the planning and strategy formulation of a company.

Outcome(s):
Students should be able to:

- distinguish between a corporate vision and mission statement;
- compare the relationship between a company strategy and its business model;
- explain the strategy-making and strategy executing processes;
- examine the benefits derived from the establishment of a formal written logistics statement;
- apply the key components of a logistics mission statement in a company;
- explain how to draft a logistics mission statement for your company; and
- analyse the ten megatrends that will drive change and transformation necessary to enable organisations to achieve superior performance.

DEMAND PLANNING: (DDPLMY3)

Purpose:
The purpose of this module is to highlight the importance of demand planning at strategic, tactical and operational level in logistics and to develop competencies in the management and application of demand planning processes and mechanisms.

Outcome(s):
Students should be able to:

- explain demand planning and the purpose it serves in a company;
- discuss the fundamentals of demand forecasting and supply planning;
- compare various forecasting techniques and forecasting processes;
- explain the sales and operations planning (S&OP) process;
- discuss collaboration in the demand planning process; and
- analyse the importance of coordination in the supply chain and explain how to achieve collaboration in practice.

INTERNATIONAL LOGISTICS MANAGEMENT: (ILMLMY3)

Purpose:
The purpose of this module is to introduce the student to the important role that logistics management fulfils in the international trade. It will enable students to apply the knowledge of the mechanism of international trade and to provide rational explanations of the underlying concepts.

Outcome(s):
Students should be able to:

- distinguish between the different roles channel intermediaries fulfil in international trade;
- analyse the role foreign trade terms fulfil in international transactions;
- discuss the protection and packing of break-bulk cargo, containerised cargo and the handling and shipment of dangerous goods;
- compile a set of documents required to affect an export transaction; and
- compile a set of documents required to affect an import transaction.

LOGISTICS AUDIT REPORT: (LARLMY3)

Purpose:
The purpose of this module is to enable the student to compile a well-structured research project in logistics and to provide an opportunity to apply the knowledge gained through experience-based learning.

Outcome(s):
Students should be able to:
- compare the logistics strategy of the company against the overall company strategy and the organisation's status regarding strategic alliances and partnerships in the supply chain;
- explain logistics channel and supply chain relative to its design parameters;
- discuss commercial status of the organisation's logistics service providers relative to the supply chain;
- analyse information systems and technology as deployed and utilised throughout the organisation's supply chain;
- examine deployment of the organisation's materials and inventories;
- discuss the nature of the logistics function in the organisation and its logistics personnel; and
- analyse performance of the supply chain and the extent to which performance measures have been implemented.

LOGISTICS PROJECT MANAGEMENT: (LPMLMY3)

Purpose:
The purpose of this module is to develop competencies in the management and application of project management processes and mechanisms in the workplace through the correct application of project management techniques and applicable knowledge management in the logistics workplace.

Outcome(s):
Students should be able to:
- discuss the different steps/phases of project management;
- explain how to select a project;
- demonstrate the ability to implement a basic project;
- discuss the resources needed for project evaluation and audit; and
- explain the basic calculations required for optimum project management.

TEMPERATURE CONTROLLED SUPPLY CHAIN MANAGEMENT: (TCSLMY3)

Purpose:
The purpose of this module is to provide the student with knowledge and competencies to manage a temperature-controlled supply chain.

Outcome(s):
Students should be able to:
- explain the concept of temperature-controlled supply chains;
- analyse the role of sustainability in temperature-controlled supply chain in food safety;
- explain temperature-controlled supply chain management in air transportation;
- explain the monitoring of temperature-controlled supply chains;
- analyse some of the challenges in temperature-controlled supply chains; and
- examine the future of temperature-controlled supply chain management vehicles.

ASSESSMENT
Semester assessment:
- Assessments are in the form of class tests, assignments and a written summative assessment.
Final assessment:
- Written summative assessment

CALCULATION CRITERIA
- The assignments and class tests contribute 40% of the final mark.
- The written summative assessment contributes 60% of the final mark.
- The pass mark of the summative assessment is 50% with 40% sub-minimum in the summative assessment.
- The summative assessment is written in Johannesburg.

- All modules must be passed to be awarded the Diploma.

MODERATION
- Internal moderation: subject to subject matter experts according to UJ policy for all modules.
- External moderation for the third-year modules: according to UJ policy.
- Appeals procedure according to UJ's moderation policy.

NAME OF PROGRAMME: DIPLOMA IN LOGISTICS MANAGEMENT	WHOLE PROGRAMME ONLINE	SLP CODE: D34LMO	NQF LEVEL: 6 CREDITS: 360

TYPE OF FULLY ONLINE PROGRAMME (WP)
Three-year credit bearing programme.

MODE OF OFFERING
- Fully online programme.
- Submission of assignments and writing scheduled assessments online.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
Grade 12 Certificate with at least diploma endorsement/university exemption.

DURATION OF PROGRAMME
- Fully online.
- Months to complete: February to November.
- Minimum period to obtain: 3 years.
- Maximum period to obtain: 5 years.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
- After successful completion of this diploma, students can apply for entry into the Advanced Diploma in Logistics (A34LGQ - Contact) or (A34LOP – Online).
- Students who do not meet the minimum requirements for the Advanced Diploma in Logistics can apply for entry into the Bridging Programme for entering into the Advanced Diploma Logistics (S1BALQ).

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students will receive no credits towards the completion of subsidised UJ programmes.

PURPOSE
The purpose of the Diploma in Logistic Management is to develop students with a wide range of vocational and industry-specific intellectual competencies, knowledge and practical skills. This will enable students to explain and apply logistics and supply chain management principles, processes and procedures and to make decisions in the context of a logistics and/or supply chain organisation, interpret relevant information and produce innovative responses based on informed judgment to concrete but often unfamiliar problems. The qualification will provide the student with a range of fundamental knowledge and competencies in fields such as business communication, information systems and project management. Furthermore, it will also provide the student with detailed knowledge about general management principles and specific logistics and supply chain management principles.

MODULES AND OUTCOMES:

DIPLOMA IN LOGISTICS MANAGEMENT:

INTRODUCTION TO LOGISTICS MANAGEMENT: (DILOCE1)

Purpose:
This module introduces the student to fundamental logistics concepts and focus on the important role of Logistics in management decision making.

Outcome(s):
Students should be able to:

- discuss the important role of logistics and its management, on a macro and a micro level in the economy;
- explain the value adding functions of logistics and the competitive advantage created by these functions; and
- communicate effectively, in writing and/or orally, with respect to aspects of logistics profession.

INTRODUCTION TO BUSINESS MANAGEMENT: (DBUSCE1)

Purpose:
This module provides a basic introduction to the functioning of the business enterprise and the role and importance of management. Students are exposed to the managerial tasks of logistics managers and various methods of planning and controlling logistics performance.

Outcome(s):

Students should be able to:

- discuss the tasks, functions, skills and roles of managers as key role players, ensuring effective and efficient business practice; and
- analyse planning, organising, leading and control as primary management functions of the logistics business enterprise.

INTRODUCTION TO TRANSPORTATION AND WAREHOUSING: (DTPTCE1)

Purpose:
The purpose of this module is to create competence in the transportation system related to operational structure, services and cost characteristics of the various modes of transport, focusing on the goods carried in the transport system and various freight service providers. The module also focus on the role of packaging and containerisation, warehouse equipment and warehouse location in facilitating the efficiency of the supply chain.

Outcome(s):
Students should be able to:

- compare the operational characteristics of the various modes of transport;
- examine the service, costs characteristics and structure of the various modes of transport and investigate the cost trade-offs in transport as well as profit planning;
- select the right distribution channels for international shipments according to the role of the modes and intermediaries in facilitating international trade;
- reflect on the risks involved in purchasing warehouse equipment;
- analyse the role and types of storage and movement systems within the warehouse;
- discuss the function of packaging and containerisation; and
- explain the importance of selecting the location for warehouses in the supply chain.

BASIC MATHEMATICS AND QUANTITATIVE TECHNIQUES FOR LOGISTICIANS: (DMATCE1)

Purpose:
The purpose of this module is to introduce students to basic statistical methods, quantitative techniques, percentages and measurements. Students will be able to apply these concepts to demand forecasting and solve logistical and storage problems.

Outcome(s):
Students should be able to:

- explain the three types of measurement (length, mass and capacity) and their relevant units;
- calculate the perimeter and area of geometric objects: rectangle, square and triangle;
- find the mean, mode and median of a data set, draw up a frequency table and draw a bar graph;
- calculate the graph of demand function and that of a supply function, equilibrium point; and
- calculate the total logistics profit and the total cost of inventory.

OVERVIEW AND OBJECTIVES OF THE GOVERNMENT AND MUNICIPAL LOGISTICS SYSTEMS: (DGOVCE1)

Purpose:
The purpose of this module is to introduce students to the basic structure of the supply chain management process in government and its strategic planning and budgeting processes within supply chain management principles. This will enable students to interpret the legal environment within which the supply chain must be managed and addresses the procurement regime of government as well as the preferred procurement methodologies.

Outcome(s):
Students should be able to:

- explain how the basic structure of government generates income;
- discuss the strategic planning and budgeting processes of government and how it gives structure to supply chain management in the public sector;
- analyse the components of government supply chain management and how it connects to government management;
- examine the regulatory framework or structure within which government undertakes supply chain management;
- discuss the principles of the current procurement regime of government and its application; and
- compare the different procurement methodologies that must be chosen for the procurement of goods, services and construction works.

PROCUREMENT AND ORDER PROCESSING SYSTEMS: (DORDCE1)

Purpose:
The purpose of this module is to provide the student with knowledge and skills of the activities associated with buying, purchasing and the developments in a company and the understanding and competencies in applying specific purchasing management practices in the supply chain industry. This module will also provide students with skills and competencies of logistics information systems, with specific reference to interfaces between systems.

Outcome(s):

Students should be able to:
- explain the basic activities associated with purchasing;
- analyse concepts concerning quality control and purchasing;
- examine the importance of finding the right supplier;
- discuss the various roles in the decision-making process;
- explain the background and principles of JIT management and JIT purchasing;
- discuss the primary tasks and responsibilities of purchasing management;
- examine the critical role that information plays in integrating logistics within the organisation; and
- analyse the key function of the distribution system.

BASIC PRINCIPLES OF LOGISTICS PERFORMANCE MEASURES: (DPERCE1)

Purpose:
The purpose of this module is to equip students with vocational and industry-specific intellectual competencies, knowledge and practical skills in performance measures to enable the student to make decisions in the context of a logistics and supply chain organisation.

Outcome(s):
Students should be able to:
- explain the origin and most important theories of performance management and modern approaches currently at hand;
- analyse the skills, roles and characteristics of performance as important aspects in establishing effective and efficient business practice;
- examine the categories of performance management;
- discuss the concept of benchmarking;
- explain how to apply performance metrics and performance measures evaluation;
- apply the various models (EPM, Gartner Business Value, SCOR) in performance measurement; and
- apply the Balanced Scorecard Framework.

BASIC END-USER COMPUTING FOR LOGISTICIANS: (DCOMCE1)

Purpose:
The purpose of this module is to create competence in basic operating skills that are required to use any modern computer and specifically the operating system (OS) called Microsoft Windows. Some tools in the Microsoft Office suite will also be taught. This module will equip students with basic skills that opens the door to advanced learning in computers.

Outcome(s):
Students should be able to:
- use the Windows Operating System confidently;
- Explain the different components of a computer system and explain what their purposes are;
- apply web browsing and searching skills;
- use word processing as a productivity tool in the workplace; and
- apply MS Excel functionalities in the workplace.

INVENTORY MANAGEMENT: (DVINCE2)

Purpose:
The purpose of this module is to develop competencies in the management and application of inventory management processes and systems in the workplace to maximise customer service levels, reduce the investment in inventory and the associated costs.

Outcome(s):

Students should be able to:

- discuss the role and importance of inventory management in supply chain management;
- apply the basic principles of inventory management;
- explain what total inventory costs entails; and
- examine inventory planning and control to optimise inventory levels in the supply chain.

TACTICAL LOGISTICS MANAGEMENT: (DTACCE2)

Purpose:
The purpose of this module is to introduce tactical logistics management on various tiers or levels of management. This module will assist the student with key financial aspects of logistics and supply chain management and customer service as an important output of the logistics system.

Outcome(s):
Students should be able to:

- explain the concept of tactical logistics management;
- analyse the goods flow processes as well as the different product supply chain processes in a supply chain;
- discuss the importance of time management in a supply chain as well as the cause of long production cycles and lead times;
- examine the key financial management aspects of logistics and supply chain management;
- discuss the basic aspects of cost accounting;
- apply the basic principles of order management and logistics customer service; and
- compare the various elements of customer service and how they impact both buyers and sellers.

TRANSPORTATION OPERATIONS MANAGEMENT: (DTOPCE2)

Purpose:
The purpose of this module is to develop competencies in the management and application of transport management principles and processes in the workplace through the correct application of and adherence to management principles and transport legislation in the workplace.

Outcome(s):
Students should be able to:

- discuss the role and importance of transport in supply chain management;
- explain the basic functions and principles of transport management;
- explain the concept of cost trade-offs in transport management;
- distinguish between strategic, tactical and operational transport management;
- examine the various acts that govern the transport industry;
- analyse the role of the Administrative Adjudication of Road Traffic Offences Act (AARTO) in the compliance of road traffic legislation; and
- discuss the role and impact of road transport legislation for road transport management.

WAREHOUSING AND MATERIALS HANDLING: (DWARCE2)

Purpose:
The purpose of this module is to provide the student with warehouse management principles and processes. This will give the student competencies in warehouse management to following a total systems approach and the correct application of and adherence to principles and processes.

Outcome(s):
Students should be able to:

- explain the concept of the design of storage and handling facilities;
- compare the different processes and principles that are required for effective and efficient operations of a warehouse
- discuss the role of information technology in warehouse management;
- examine the continuous challenge to continually improve warehouse operations; and
- discuss the role and importance of the warehousing activity in supply chain management.

LOGISTICS AND SUPPLY CHAIN STRATEGY FORMULATION: (DSUPCE2)

Purpose:
The purpose of this module is to develop an understanding of the role, importance and nature of logistics planning and strategy formulation from an integrated supply chain management perspective. This module will provide the student with the competency to formulate a mission statement for a company and take part in the planning and strategy formulation of a company.

Outcome(s):
Students should be able to:
- distinguish between a corporate vision and mission statement;
- compare the relationship between a company strategy and its business model;
- explain the strategy-making and strategy executing processes;
- examine the benefits derived from the establishment of a formal written logistics statement;
- apply the key components of a logistics mission statement in a company;
- explain how to draft a logistics mission statement for your company; and
- analyse the ten megatrends that will drive change and transformation necessary to enable organisations to achieve superior performance.

DEMAND PLANNING: (DMANCE3)

Purpose:
The purpose of this module is to highlight the importance of demand planning at strategic, tactical and operational level in logistics and to develop competencies in the management and application of demand planning processes and mechanisms.

Outcome(s):
Students should be able to:
- explain demand planning and the purpose it serves in a company;
- discuss the fundamentals of demand forecasting and supply planning;
- compare various forecasting techniques and forecasting processes;
- explain the sales and operations planning (S&OP) process;
- discuss collaboration in the demand planning process; and
- analyse the importance of coordination in the supply chain and explain how to achieve collaboration in practice.

INTERNATIONAL LOGISTICS MANAGEMENT: (DINTCE3)

Purpose:
The purpose of this module is to introduce the student to the important role that logistics management fulfils in the international trade. It will enable students to apply the knowledge of the mechanism of international trade and to provide rational explanations of the underlying concepts.

Outcome(s):
Students should be able to:
- distinguish between the different roles channel intermediaries fulfil in international trade;
- analyse the role foreign trade terms fulfil in international transactions;
- discuss the protection and packing of break-bulk cargo, containerised cargo and the handling and shipment of dangerous goods;
- compile a set of documents required to affect an export transaction; and
- compile a set of documents required to affect an import transaction.

LOGISTICS AUDIT REPORT: (DAUDCE3)

Purpose:
The purpose of this module is to enable the student to compile a well-structured research project in logistics and to provide an opportunity to apply the knowledge gained through experience-based learning.

Outcome(s):
Students should be able to:
- compare the logistics strategy of the company against the overall company strategy and the organisation's status regarding strategic alliances and partnerships in the supply chain;
- explain logistics channel and supply chain relative to its design parameters;
- discuss commercial status of the organisation's logistics service providers relative to the supply chain;

- analyse information systems and technology as deployed and utilised throughout the organisation's supply chain;
- examine deployment of the organisation's materials and inventories;
- discuss the nature of the logistics function in the organisation and its logistics personnel; and
- analyse performance of the supply chain and the extent to which performance measures have been implemented.

LOGISTICS PROJECT MANAGEMENT: (DPROCE3)

Purpose:
The purpose of this module is to develop competencies in the management and application of project management processes and mechanisms in the workplace through the correct application of project management techniques and applicable knowledge management in the logistics workplace.

Outcome(s):
Students should be able to:
- discuss the different steps/phases of project management;
- explain how to select a project;
- demonstrate the ability to implement a basic project;
- discuss the resources needed for project evaluation and audit; and
- explain the basic calculations required for optimum project management.

TEMPERATURE CONTROLLED SUPPLY CHAIN MANAGEMENT: (DTEMCE3)

Purpose:
The purpose of this module is to provide the student with knowledge and competencies to manage a temperature-controlled supply chain.

Outcome(s):
Students should be able to:
- explain the concept of temperature-controlled supply chains;
- analyse the role of sustainability in temperature-controlled supply chain in food safety;
- explain temperature-controlled supply chain management in air transportation;
- explain the monitoring of temperature-controlled supply chains;
- analyse some of the challenges in temperature-controlled supply chains; and
- examine the future of temperature-controlled supply chain management vehicles.

ASSESSMENT
Semester Assessment:
- Assessments are in the form of class tests and assignments.

Final Assessment:
- Written summative assessment.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- The online self-evaluation tests contribute 40% of the final mark.
- The written summative assessment contributes 60% of the final mark.
- The pass mark of the summative assessment is 50% with 40% sub-minimum in the summative assessment.
- All modules must be passed to be awarded the Diploma in Logistics Management.

MODERATION
- Internal moderation: subject to subject matter experts according to UJ policy for all modules.
- External moderation for the third-year modules: according to UJ policy.
- Appeals procedure according to UJ's moderation policy.

NAME OF PROGRAMME:	WHOLE PROGRAMME	SLP CODE:	NQF LEVEL: 6
DIPLOMA IN TRANSPORTATION MANAGEMENT	LIMITED CONTACT – APK	D1DTMQ	CREDITS: 360

TYPE OF WHOLE PROGRAMME (WP)
Three-year credit bearing programme.

MODE OF OFFERING
- Limited contact programme offered via distance learning with study school presented once a year in Johannesburg (Kingsway Campus), Durban and Cape Town.
- Submission of assignments and writing scheduled assessments.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
Grade 12 Certificate with at least diploma endorsement/university exemption.

LEARNING ACTIVITIES

ACTIVITY	HOURS	CREDITS
Contact time (Lectures)	100	-
Workshops	-	-
Work-based learning	-	-
Independent reading/interacting with learning material/online activities	1 750	-
Preparation for and completion of assignments and other assessment activities	1 750	-
Tutorials	-	-
Other (specify)	-	-
Total hours	3 600	-
Total number of credits	-	360

DURATION OF PROGRAMME
- Contact time: One-week study school.
- Months to complete: February to November.
- Minimum period to obtain: 3 years.
- Maximum period to obtain: 5 years.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
- After successful completion of this diploma, students can apply for entry into the Advanced Diploma in Transportation Management (A34TMQ - Contact) or (A34TRP – Online).
- Students who do not meet the minimum requirements for the Advanced Diploma in Transportation Management can apply for entry into the Bridging Programme for entering into the Advanced Diploma Transportation Management (S1BATQ).

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students will receive no credits towards the completion of subsidised UJ programmes.

PURPOSE
The purpose of the Diploma in Transportation Management is to develop students with a wide range of vocational and industry-specific competencies, knowledge and practical skills. This will enable students to critically explain and apply multimodal transportation management principles, processes and procedures.

MODULES AND OUTCOMES:

DIPLOMA IN TRANSPORTATION MANAGEMENT:

INDUSTRIAL RELATIONS: (IDRTMY1)

Purpose:
The purpose of this module is to develop competencies in the management and application of industrial relations processes and mechanisms in the workplace through the correct application of labour legislation in the workplace.

Outcome(s):
Students should be able to:
- discuss the concept of industrial relations regarding the factors that affect the employment relationship;
- analyse the Labour Relations Act (LRA) in respect of the stipulations regarding trade unions, workplace democracy, conflict resolution mechanisms, dealing with performance and conduct issues and appointment of employees;
- examine the stipulations of the Basic Conditions of Employment Act regarding the terms and conditions of employment; and
- explain employer obligations in respect of skills development and employment equity legislation.

MARKETING MANAGEMENT: (MKMTMY1)

Purpose:

The purpose of this module is to create competence in the marketing concept, principles and activities associated with the marketing mix. This will enable students to develop skills to ensure continuous profitability for the organisation, the nature and components of the communication process and the integrated marketing communication mix and how they contribute to the success of the marketing efforts of the organisation.

Outcome(s):
Students should be able to:
- define marketing concepts as well as the marketing processes;
- explain the principles of the marketing concepts and discuss relationship marketing;
- explain the role of marketing managers;
- differentiate between consumer and business markets and explain the various types of business clients (industrial buyers);
- explain the importance of the buying decision process in marketing;
- differentiate between the various factors influencing consumer buying decisions;
- explain the various factors influencing business buying decisions;
- provide an overview of the process buyer driven marketing strategy;
- analyse the purpose, concept and principles of market segmentation;
- discuss the concept and principles of target marketing;
- explain the concept positioning and explain the different positioning strategies that marketers can pursue in practice;
- discuss the possible differentiation strategies available to marketers and explain how to ensure choosing the right competitive advantage;
- explain the meaning of a product from a marketing perspective;
- discuss the term branding and the different meanings and types of brands;
- analyse the nature of pricing and discuss price decisions, as far as the transport industry is concerned;
- explain the term distribution and its importance within the marketing mix;
- examine the role of distribution within the supply chain;
- explain the factors that impact on the distribution channel decision and the importance of managing the distribution channel;
- analyse the nature and components of the communication process and the integrated marketing communication mix and how they contribute to the success of the marketing efforts of the organisation;
- discuss the concept of services marketing; and
- explain the concept of relationship marketing and discuss how marketers can apply the principles of relationship marketing

STRATEGIC MANAGEMENT: (STMTMY1)

Purpose:
The purpose of this module is to develop competencies in the management and application of strategic management processes in the workplace through the correct application of and adherence to strategic management principles and procedures.

Outcome(s):
Students should be able to:
- analyse the concepts of strategic management and strategic thought, strategic planning and strategy;
- explain the steps in the strategic management process;
- distinguish between the concepts vision and mission;
- analyse an existing mission for strategy orientation;
- describe profile analysis of the enterprise as a process;
- examine the important components of a SWOT analysis;
- analyse the concept of environmental scanning;
- analyse the different forecasting techniques;
- examine the procedures in respect of the setting of objectives for the enterprise;
- compare the different generic strategies;
- compare different approaches of strategy analysis;
- discuss the guidelines for strategy choice;
- explain the implementation of the selected strategy in terms of the 'who', the 'what' and the 'how' within the functional units of the enterprise;
- discuss the application of leadership-by-visible-management in strategy implementation;
- discuss the management of the strategy/culture matrix;
- analyse the various types of strategic control; and
- examine the management of change in South African organisations.

CONTRACT MANAGEMENT: (CTMTMY1)

Purpose:
The purpose of this module is to introduce students to the concept of legal contracts and the 'foundation' of all contracts, namely offer and acceptance. Factors and events that undermine proper communication of offers and acceptance and prevent them from producing agreement will be addressed.

Outcome(s):
Students should be able to:
- determine what constitutes a contract;
- examine the effects of misrepresentation, fraud and duress;
- examine the different kinds of mistakes and the remedies for the mistake;
- determine the difference between contracts that are null and void (no contract comes into being) or voidable (a contract comes into being but one or both parties have remedies to set it aside);
- explain the requirements for entering into contracts;
- discuss conditions and their effect on contracts;
- explain who may be parties to a contract and their different relationships;
- differentiate and discuss the different terms of a contract;
- explain the concept of 'performance';
- discuss the principle of partial performance;
- analyse what constitutes breach and what the remedies are for breach;
- compare the concept of subcontracts and the role privacy plays in contractual relationships;
- discuss the formation, requirements and consequences of contract of carriage; and
- examine exemption clauses in contract of carriage and different types of insurance.

ROAD TRANSPORT LEGISLATION: (RTLTMY1)

Purpose:
The purpose of this module is to develop competencies in the practical implications of law and the role and importance of legislation, regulation and policy formulation in the transport sector as well as the general economy of the country. The module further provides students with the Road Transport Legislation applicable in South Africa to give a holistic overview of the Transport Law environment.

Outcome(s):
Students should be able to:
- analyse the concept 'law'
- discuss the various sources of law generally and of South African law specifically;
- discuss the administration and regulation of transport in South Africa;
- determine the chief transport policy goals;
- comment on the mission statement of the Department of Transport;
- examine the applicable components of road transport and the laws promulgated under each of these components on all spheres of government;
- explain what is the purpose of the;
  South African National Roads Agency Limited and National Roads Act, 7 of 1998;
  Road Traffic Management Corporation Act, 20 of 1999;
  Administrative Adjudication of Road Traffic Offences Act, 46 of 1998;
- discuss the various sections and regulations governing road use; and
- distinguish between the different types of transport plans.

PROJECT MANAGEMENT: (PJMTMY2)

Purpose:
The purpose of this module is to develop competency in the management and application of project management processes and mechanisms in the workplace through the correct application of project management techniques and legislation in the workplace.

Outcome(s):
Students should be able to:
- discuss what project management entails, looking at the project itself and the management of projects;
- explain how to select a project;

- explain how to implement a project;
- explain how to evaluate and audit a project; and
- do the basic calculations required for this module.

TRANSPORTATION MANAGEMENT PROJECT: (RESTMY2)

Purpose:
The purpose of this module is to develop competencies in the application of communication skills in the related field of transportation management. Students should be able to write academic research essays through the development of students' reading, writing and research skills and knowledge base. On completion of the required performance tasks, students will be able to do research and write academic essays.

Outcome(s):
Students should be able to:
- summarise the basic elements of the communication process;
- discuss the key academic writing skills;
- differentiate between the three dimensions of communication occurring in organisations;
- apply the learned communication and writing skills in practice;
- apply the best methods to create a CV and prepare for job interviews by using the best communication practices for interviews;
- demonstrate practical knowledge of different formal business reports;
- examine the role of public relations and advertising in the transport management environment;
- structure the writing of a research project for academic purposes;
- analyse the consequences of a question relating to a topic for academic research prior to commencing with the research;
- identify and develop an idea into a topic for academic research;
- manage the search for literature resources;
- distinguish between the material to determine relevance and to prepare the notes necessary to eventually draft an academic paper;
- use proper academic language at sentence level;
- draft paragraphs and other organising units of text, conveying insight and meaning;
- structure an academic paper using the knowledge gained through research to prepare a logical argument and convey that argument in an academic paper for academic purposes; and
- revise and edit academic writing to ensure that it conforms to academic standards.

TRANSPORT ECONOMICS: (TPETMY2)

Purpose:
The purpose of this module is to develop an understanding of the principles of transportation economics and environment within which transportation functions.

Outcome(s):
Students should be able to:
- analyse the transportation environment as well as the role and importance of transport in the economy;
- discuss the nature of the transportation function and the transportation system;
- explain the principles of supply and demand in transportation;
- examine the function of transport policy as well as the current transport policy environment;
- apply the basic costing principles in transportation management; and
- describe future trends in transportation.

TRANSPORT OPERATIONS PLANNING: (TOPTMY2)

Purpose:
The purpose of this module is to provide students with knowledge and competencies concerning transportation operations planning. These skills are required to supervise and/or manage transportation operations within a small, medium or large organisation efficiently and effectively.

Outcome(s):
Students should be able to:
- analyse the economic principle of scarcity of resources and relate it to the demand for goods and services;
- describe the areas in the competitive environment and fully explain each of the areas;

- discuss the macro-economic influences that entrepreneurs need to be aware of when they evaluate business opportunities;
- compare the interrelationship between the demand for transport and the well-being of the national economy;
- describe the similarities and differences between the organisational and management structures of the various modes
- outline the basic principles of transport management;
- discuss the scope of transport management, with regard to carrier management and industrial or traffic management;
- examine how to position a transport service operation in a market with the aid of a market planning model;
- discuss market segmentation from a transport service perspective;
- analyse the concept of value chain and what role a value chain of suppliers, distributors, associates and collaborators fulfil to enable it to be of service to its end-users;
- discuss scheduling in the context of detailing the tasks to be performed and the resources needed to perform the tasks;
- comment on the importance of relationship management in a service industry; and
- discuss the value of reliable partners in the process of providing an inclusive transport solution for customers.

LOGISTICS MANAGEMENT: (LGMTMY3)

Purpose:
The purpose of this module is to develop competencies in the management and application of integrated business logistics as well as the role and application of logistics principles within supply and value chain management.

Outcome(s):
Students should be able to:
- discuss the concept of logistics and supply chain regarding micro and macro perspective of logistics;
- explain the logistics activities that constitute a supply chain network and the principles that are important to supply chain management;
- analyse a supply chain network integration logistics management concept;
- distinguish between the primary and secondary activities of the value chain;
- examine the strategic importance of supply chain management in an organisation; and
- analyse between risk factors that threaten the proper functioning of a supply chain network.

TRANSPORTATION AND WAREHOUSING: (TWHTMY3)

Purpose:
The purpose of the module is to provide students with the knowledge and competencies concerning transportation and warehousing. These skills are required to supervise and/or manage transportation and warehousing processes and procedures within a small, medium or large organisation efficiently and effectively.

Outcome(s):
Students should be able to:
- discuss the historical development of transportation management;
- compare the role transportation fulfils on both a macro and a micro level;
- examine the role of transportation and its importance in Southern Africa;
- discuss the role of air transport in freight service;
- discuss the service characteristics of the different modes of transportation;
- describe the strategic and operational role that a warehouse plays in a supply chain;
- discuss how a warehouse is an asset for a company and that it must operate in a cost-efficient, productive and technological efficient manner; and
- distinguish between a variety of materials management philosophies and techniques.

AIR TRANSPORT: (ARTTMY3)

Purpose:
The purpose of this module is to introduce the students to the history of commercial aviation as well as the role and importance of the air transport industry in the economy of a country. The students will also be introduced to the concepts of supply and demand in the passenger transport industry and aircraft selection, air cargo and airport operations.

Outcome(s):
Students should be able to:
- discuss the role and importance of the air transport industry;

- analyse the supply of and the demand for air passenger transport;
- analyse the airline industry in South Africa;
- explain the characteristics that air cargo should comply with;
- explain the process of airport planning and operations; and
- analyse the regulatory environment related to the air transport industry.

TRANSPORT PLANNING: (TPPTMY3)

Purpose:
The purpose of this module is to develop an understanding of the theory of transportation planning and the provisions for transportation planning in the South African environment.

Outcome(s):
Students should be able to:
- discuss the theory of transport demand as well as the specific factors that impact the South African environment;
- explain how to evaluate an urban transport planning process;
- comment on some of the criticisms of urban transport planning processes;
- analyse the regulatory environment for transport planning in South Africa;
- discuss the integrated transport planning process in South Africa; and
- distinguish between some of the unique problems in the urban transportation planning process in South Africa as well as being able to describe the public participation process in planning.

IMPORT AND EXPORT: (IXPTMY3)

Purpose:
The purpose of this module is to develop competencies in the management and application of the requirements for the import and export of goods in South Africa.

Outcome(s):
Students should be able to:
- analyse the importance of imports and exports to a country's economy and the role that transport plays in international trade;
- explain the concept of INCOTERMS regarding how these affect the buyer-seller relationship;
- discuss the importance and the functioning of the bill of lading;
- compare the methods of payment in import and export transactions;
- examine the importance and components of marine insurance and the role of Lloyd's agents in the marine insurance process;
- discuss the customs and excise procedure; and
- discuss the documentation required for exporting goods from South Africa.

URBAN TRANSPORT: (UBTTMY3)

Purpose:
The purpose of this module is to develop an understanding and competencies to analyse urban transport challenges in the contemporary urban environment in South Africa. Students should be able to reflect on these challenges and provide solutions to alleviate the challenges.

Outcome(s):
Students should be able to:
- analyse the concept of urbanisation and how urban problems have evolved in South Africa;
- explain the role of transport in the economic development and growth of urban and national economies;
- examine urban transport problems and ways of mitigating such problems;
- analyse the role and significance of urban public transport, its organisational structure, planning and management; and
- discuss the implications of accessibility and social equity in urban transport.

ROAD FREIGHT TRANSPORT: (RFTTMY3)

Purpose:

The purpose of this module is to provide the student with an overview of the functions of transport management. The module deals with the objective of management, organisation and management structures, functions of management, job descriptions and management approaches in private and public transport operations. Furthermore, the module deals with the procurement, costing, depreciation as well as the legislative aspects of transport management.

Outcome(s):

Students should be able to:

- give an overview of the management functions involved in managing the transport functions;
- analyse these factors that will influence road freight as well as the elasticity of demand for road freight;
- explain the approach towards vehicle selection in a company including freight vehicle selection criteria – operational and technical criteria, the evaluation process and the actual selection process;
- discuss the approach to identifying capital investment in projects and their funding, traditional and time value investment analysis, techniques and different financing alternatives;
- discuss the span of activities normally included in operational control;
- distinguish between the factors affecting vehicle costs, the importance of cost control and how to plan a costing system;
- discuss the importance of the maintenance policy of a transport business, the maintenance philosophy, types of maintenance and maintenance procedures;
- discuss the Critical Success Factors (CSFs) and Key Performance Indicators (KPIs) specific to road freight;
- compare the different approaches followed in vehicle replacement policies, the refurbishment versus replacement decision and different approaches toward vehicle depreciation;
- analyse the broad overview of strategic planning in a transport organisation or department;
- examine the criteria for customer service as well as the collection of data for service level determination; and
- explain how the decisions taken in running the business are reviewed on a regular basis to establish relevance and whether circumstances have changed to warrant different decisions.

MARITIME TRANSPORT: (MTTTMY3)

Purpose:

The purpose of this module is to acquaint the student with the historical development of ocean shipping as well as local and international trade. The student will also be familiarised with ship design, cargo operations and maritime trades. The legal principles and maritime insurance concepts will also be highlighted.

Outcome(s):

Students should be able to:

- discuss the developments of ocean shipping, local and international trade as well as shipping trends and maritime policy;
- examine maritime trades and important shipping organisations;
- analyse the shipping environment;
- explain the economics of shipping operations as well as the importance of fleet planning; and
- explain what port operations entail.

RAIL TRANSPORT: (RATTMY3)

Purpose:

The purpose of this module is to develop the capability to analyse the role and importance of rail transport in South Africa and the national economy and to develop students' competency in analysing, transforming and critically evaluating various aspects of the competitive position of rail transport.

Outcome(s):

Students should be able to:

- discuss the history and evolution of rail transport in South Africa;
- analyse the factors influencing the competitive position of rail transport;
- analyse the role and significance of passenger rail in urban transport, economic development and growth of urban and national economies;
- examine the concept of externalities regarding the seven externalities associated with rail transport; and
- discuss the prospects of rail transport with respect to international trends/developments and South Africa's policies on rail.

ASSESSMENT

- Assessments are in the form of assignments and a written summative assessment.

- Summative assessments are written at various examination centres in South Africa.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- The assignments contribute 25% of the final mark.
- The written summative assessment contributes 75% of the final mark.
- The pass mark of the summative assessment is 50% with 40% sub-minimum in the summative assessment.
- All modules must be passed to be awarded the Diploma in Transportation Management.

MODERATION
- Internal moderation: subject matter experts will be used according to UJ policy for all modules.
- External moderation for the third-year modules according to UJ policy.
- Appeals procedure according to UJ's moderation policy.

NAME OF PROGRAMME:	WHOLE PROGRAMME	SLP CODE:	NQF LEVEL: 6
DIPLOMA IN ROAD TRANSPORT MANAGEMENT (FREIGHT)	LIMITED CONTACT – APK	D34FRO	CREDITS: 360

TYPE OF WHOLE PROGRAMME (WP)
Three-year credit bearing programme.

MODE OF OFFERING
- Limited contact programme offered via distance learning with a study school presented once a year in Johannesburg (Kingsway Campus), Durban and Cape Town.
- Submission of assignments and writing scheduled assessments.

CERTIFICATION
Assessment based.

ADMISSION REQUIREMENTS
Grade 12 Certificate with at least diploma endorsement/degree endorsement.

- Maximum period to obtain: 6 years

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
After successful completion of the programme, students who also meet the applicable minimum entry requirements may be considered for entrance to the Advanced Diploma in Transportation Management (A34TMQ - Contact) or (A34TRP – Online).

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students will receive no credits towards the completion of subsidised UJ programmes.

PURPOSE
The purpose of the Diploma in Road Transport Management Freight is to develop students with a wide range of vocational and industry-specific intellectual competencies, knowledge and practical skills. This will enable students to critically explain and apply road transport management principles, processes and procedures. The student should be able to make decisions in the context of a road transport (freight) organisation, interpret relevant information and produce innovative responses based on informed judgement to concrete but often unfamiliar problems. The qualification will provide the student with a range of fundamental knowledge and competencies in fields such as business communication, information systems, logistics management, marketing management and financial management. Furthermore, it will also provide the student with detailed knowledge about road transport legislation and the application of general management principles and specific road freight management principles on a junior management level.

MODULES AND OUTCOMES:

MANAGING A ROAD TRANSPORT OPERATION: (MRO1RY1)

Purpose:
The purpose of this module is to introduce students to basic road transport management knowledge and skills to enable them to make informed operational decisions in road transport context in South Africa.

Outcome(s):
Students should be able to:
- describe the road transport industry in South Africa;
- explain standard road transport operational procedures and activities;
- apply general management principles in a road transport operation;
- discuss the role of the supervisor in planning and organising resources within an organisation;
- apply decisions at supervisory level in the road transport industry; and
- apply decisions at managerial level in the road transport industry.

LEGISLATION IN ROAD TRANSPORT: (LEG2RY1)

Purpose:
The purpose of this module is to introduce students to the National Road Traffic Act and supporting legislation to apply the requirements of road transport legislation in South Africa.

Outcome(s):
Students should be able to:
- summarise the legal compliance requirements of road transport in South Africa;
- describe the operational implications of the National Road Traffic Act and Regulations, Administrative Adjudication of Road Traffic Offences (AARTO), Road Traffic Infringement Agency (RTIA), Road Traffic Management Corporation (RTMC) and supporting legislation; and

- discuss occupational hazards, health and safety requirements with reference to road transport undertakings.

VEHICLE AND FLEET COSTING: (VFC3RY1)

Purpose:
The purpose of this module is to introduce students to costing principles and terminology to enable them to do vehicle and fleet costing and budgeting.

Outcome(s):
Students should be able to:
- describe the importance of costing with reference to demand and supply for transport services in the market;
- describe costing principles and characteristics and the tariff calculation process;
- discuss different types of costs and cost centres;
- explain the major cost drivers in compiling a costing for a fleet of vehicles;
- conduct fleet costing activities for road transport undertakings;
- calculate vehicle and fleet costs for a transport company; and
- describe the different types of budgets used by a transport company.

MAINTENANCE AND TECHNICAL MANAGEMENT: (MTM4RY1)

Purpose:
The purpose of this module is to introduce students to maintenance and technical management principles to oversee vehicle and fleet management in the transport industry.

Outcome(s):
Students should be able to:
- outline the vehicle selection, vehicle technical management and vehicle replacement procedures in vehicle and fleet management;
- explain the aspects of the management of technical employees;
- explain the maintenance practices, standard procedures and systems in the maintenance facility; and
- describe the management of spares, fuel and tyres in the transport industry;
- explain the role of security, safety and technology, including telematics, in maintenance and technical management.

FREIGHT TRANSPORT MANAGEMENT: (FRT5RY1)

Purpose:
The purpose of this module is to provide students with general information about the role of road freight transport logistics in the South African economy to apply applicable policies and solutions to the road freight transport industry.

Outcome(s):
Students should be able to:
- explain the role and function of the road freight transport industry in South Africa in support of logistics activities;
- indicate standard road transport operational procedures and activities to efficiently manage a road freight transport company in South Africa;
- give examples of the operational complexities of road freight transport in South Africa;
- discuss the role of information technology in the management of road freight transport in South Africa;
- discuss routing and scheduling requirements for road freight transportation in urban and long-distance operations; and
- discuss the importance of driver management in the freight transport industry.

LABOUR RELATIONS: (LAR1RY2)

Purpose:
The purpose of this module is to introduce students to basic labour relations knowledge and provide skills to enable them to make informed labour related decisions in road transport in the South African context.

Outcome(s):

Students should be able to:

- outline the legal compliance requirements of the management of labour in road transport in South Africa;
- summarise the rights of labour and employers in the management of staff;
- apply the basic principles of conflict management and establish a basic framework for performance assessment;
- describe the principles relevant to recruiting, on boarding and management of staff; and
- describe the procedures around dispute resolution procedures in a road transport organisation.

OPERATIONS MANAGEMENT: (OMA2RY2)

Purpose:
The purpose of this module is to provide operational management knowledge and skills to manage a road transport business successfully.

Outcome(s):
Students should be able to:

- discuss the difference between operations management principles and objectives in managing road passenger and road freight transport operations;
- explain the difference between the vehicle operations management principles and objectives in a depot in freight and passenger transport operations;
- apply standard road transport operational procedures and activities;
- implement effective security measures and requirements in the depot and end route;
- explain the role of operational information management and telematics in the road transport industry;
- communicate and complete basic forms and reports;
- do basic research in order to generate and manage information for operations management; and
- identify ethical issues and develop appropriate responses.

FLEET MANAGEMENT: (FMA3RY2)

Purpose:
The purpose of this module is to familiarise the student with the principles to enable them to effectively manage a fleet of vehicles.

Outcome(s):
Students should be able to:

- describe the principles of fleet management;
- explain how to manage the life cycle of a vehicle in a fleet;
- communicate and complete basic forms and reports and do basic research in order to manage a fleet;
- give examples of unique operational circumstances in fleet specifications; and
- describe an integrated road transport management system (RTMS) for the management of a fleet of vehicles.

FLEET FINANCIAL REPORTING: (FFR4RY2)

Purpose:
The purpose of this module is to provide the student with basic accounting principles and processes, financial statements and reporting for a transport company.

Outcome(s):
Students should be able to:

- identify and process source documents and adhere to the minimum requirements;
- discuss different transactions and populate the general ledger accounts;
- prepare a trial balance and determine the profit or loss in a company; and
- prepare and present basic financial statements for a company.

FREIGHT TRANSPORT: SPECIALISED OPERATIONS: (FSO5RY2)

Purpose:

The purpose of this module is to develop the necessary competencies required to effectively manage specialised road freight operations.

Outcome(s):

Students should be able to:

- discuss the main regulations, national norms and standards that regulate the waste classification and management disposal, transportation and storage of waste materials in South Africa;
- describe the main legislation and national standards that regulate the transportation and storage of dangerous goods in South Africa; and
- explain the dimensional and mass limitations and other requirements for abnormal loads.

GENERAL MANAGEMENT: (GMA1RY3)

Purpose:

The purpose of this module is to provide students with an understanding of general management, with a focus on their role as managers facing challenges in the context of the road transport industry.

Outcome(s):

Students should be able to:

- explain problem solving in the organisation using effective decision-making practice;
- identify ethical issues and develop appropriate responses;
- use innovative solutions of problems in the work environment through creative decision-making processes, tools and techniques;
- discuss an organisational system and the analyses of its interactive impact on problem solving and decision making, considering the impact of risk and its management;
- distinguish between effective communication, communication elements, processes and practice, enabling effective workplace communication;
- analyse professional business documents used for written communication; and
- explain the importance of information management and telematics for effective communication and decision-making.

ROAD TRANSPORT PROJECT MANAGEMENT: (RTP2RY3)

Purpose:

The purpose of this module is to provide students with competencies for basic Project Management, with a focus on their role and tasks as project team members and project managers in their relevant road transport business environment context.

Outcome(s):

Students should be able to:

- demonstrate an understanding of what a project entails, and provide an overview of the unique attributes of projects and project management;
- display knowledge of the planning, implementation, monitoring and controlling of the project within the project management environment to ensure project success in the project life cycle;
- examine and display knowledge of the fundamentals required to implement a project; and
- display knowledge and understanding of, evaluating, terminating and closing a project, during and at the end of its life cycle.

LOGISTICS MANAGEMENT: (LMA3RY3)

Purpose:

The purpose of this module is to introduce students to the concept of supply chain management with the emphasis on logistics management as an important component in the road transport industry.

Outcome(s):

Students should be able to:

- discuss the role and importance of logistics and supply chain management in the road transport industry;
- analyse the role and importance of inventory management in an organisation;
- distinguish between key aspects of efficiency in the supply of the transport function within business logistics practice, the cost structure of each mode of transport and cost trade-offs in transport; and

- explain the role and importance of warehousing in the logistics system;

MARKETING IN ROAD TRANSPORT SERVICES: (MRS4RY3)

Purpose:
The purpose of this module is to provide students with marketing management principles and skills to apply within the road freight and road passenger transport environment.

Outcome(s):
Students should be able to:
- distinguish between the differences in the approach to marketing in the road freight and road passenger industry;
- explain the concept of marketing management with specific reference to the policies, decisions and strategies needed to satisfy freight and passenger customers;
- discuss marketing management and specific tools to analyse and scan the marketing environment in the road freight and road passenger transport industry;
- analyse the concept of customer services, its components and its management; and
- compare the concepts of Customer Relationship Management (CRM) and Customer Loyalty and their management; and discuss the concepts of retention marketing, service recovery.

FREIGHT TRANSPORT: CONTRACTING AND TENDERING: (FCT5RY3)

Purpose:
The purpose of this module is to develop competencies required to enable the student to effectively quote and/or tender for road freight transport services based on customer requirements.

Outcome(s):
Students should be able to:
- discuss the basic contractual requirements for quotations and tenders in the road freight industry;
- apply the knowledge acquired in the programme to quote and tender for services based on customer requirements;
- apply the principles to generate a short-term quote based on a road freight case study; and
- apply the principles to generate a fixed-term tender based on a road freight case study.

METHODS OF ASSESSMENT
- Formative assessment is in the form of assignments and an exam for summative assessment.
- The summative assessments are written at various examination centres in South Africa.

CALCULATION CRITERIA
- Formative assessments: weighting 25% - at least 40% sub-minimum in formative assessment for admission to summative assessment.
- Summative assessment or an exam: weighting 75% - at least 40% sub-minimum in summative assessment.
- Pass mark: 50% is the pass mark for all summative assessments with 40% sub-minimum in the summative assessment.
- All modules must be passed to be awarded the Diploma.

MODERATION
- Summative assessments are moderated.
    - Moderation is internal for first and second year modules, making use of subject specialists within the department.
    - Moderation is external for the third-year exit level modules, making use of subject matter experts.

TYPE OF WHOLE PROGRAMME (WP)
Three-year credit bearing programme.

MODE OF OFFERING
- Limited contact programme offered via distance learning with study school presented once a year in Johannesburg (Kingsway Campus), Durban and Cape Town.
- Submission of assignments and writing scheduled assessments.

CERTIFICATION
Assessment based.

ADMISSION REQUIREMENTS
Grade 12 Certificate with at least diploma endorsement/university degree endorsement.

LEARNING ACTIVITIES

ACTIVITY	HOURS	CREDITS
Contact time (Lectures)	120	-
Workshops	-	-
Work-based learning	-	-
Independent reading/interacting with learning material/online activities	1 740	-
Preparation for and completion of assignments and other assessment activities	1 740	-
Tutorials	-	-
Other (specify)	-	-
Total hours	3 600	-
Total number of credits	-	360

DURATION OF PROGRAMME
- Contact time: One-week study school.
- Months to complete: February to November.
- Minimum period to obtain: 3 years.
- Maximum period to obtain: 6 years.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
After successful completion of the programme, students who also meet the applicable minimum entry requirements may be considered for entrance to the Advanced Diploma in Transportation Management (A34TMQ - Contact) or (A34TRP – Online).

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students will receive no credits towards the completion of subsidised UJ programmes.

PURPOSE
The purpose of the Diploma in Road Transport Management Passengers is to develop students with a wide range of vocational and industry-specific intellectual competencies, knowledge and practical skills. This will enable students to critically explain and apply road transport management principles, processes and procedures. The student should be able to make decisions in the context of a road transport (passenger) organisation, interpret relevant information and produce innovative responses based on informed judgement to concrete but often unfamiliar problems. The qualification will provide the student with a range of fundamental knowledge and competencies in fields such as business communication, information systems, logistics management, marketing management and financial management. Furthermore, it will also provide the student with detailed knowledge about road transport legislation and the application of general management principles and specific road passenger management principles on a junior management level.

MODULES AND OUTCOMES:

MANAGING A ROAD TRANSPORT OPERATION: (MRO1RY1)

Purpose:
The purpose of this module is to introduce students to basic road transport management knowledge and skills to enable them to make informed operational decisions in road transport context in South Africa.

Outcome(s):
Students should be able to:
- describe the road transport industry in South Africa;
- explain standard road transport operational procedures and activities;
- apply general management principles in a road transport operation;
- discuss the role of the supervisor in planning and organising resources within an organisation;
- apply decisions at supervisory level in the road transport industry; and
- apply decisions at managerial level in the road transport industry.

LEGISLATION IN ROAD TRANSPORT: (LEG2RY1)

Purpose:
The purpose of this module is to introduce students to the National Road Traffic Act and supporting legislation to apply the requirements of road transport legislation in South Africa.

Outcome(s):
Students should be able to:
- summarise the legal compliance requirements of road transport in South Africa;
- describe the operational implications of the National Road Traffic Act and Regulations, *Administrative Adjudication of Road Traffic Offences* (AARTO), *Road Traffic Infringement Agency (*RTIA), *Road Traffic Management Corporation (*RTMC) and supporting legislation; and
- discuss occupational hazards, health and safety requirements with reference to road transport undertakings.

VEHICLE AND FLEET COSTING: (VFC3RY1)

Purpose:
The purpose of this module is to introduce students to costing principles and terminology to enable them to do vehicle and fleet costing and budgeting.

Outcome(s):
Students should be able to:
- describe the importance of costing with reference to demand and supply for transport services in the market;
- describe costing principles and characteristics and the tariff calculation process;
- discuss different types of costs and cost centres;
- explain the major cost drivers in compiling a costing for a fleet of vehicles;
- conduct fleet costing activities for road transport undertakings;
- calculate vehicle and fleet costs for a transport company; and
- describe the different types of budgets used by a transport company.

MAINTENANCE AND TECHNICAL MANAGEMENT: (MTM4RY1)

Purpose:
The purpose of this module is to introduce students to maintenance and technical management principles to oversee vehicle and fleet management in the transport industry.

Outcome(s):
Students should be able to:
- outline the vehicle selection, vehicle technical management and vehicle replacement procedures in vehicle and fleet management;
- explain the aspects of the management of technical employees;
- explain the maintenance practices, standard procedures and systems in the maintenance facility;
- describe the management of spares, fuel and tyres in the transport industry; and
- explain the role of security, safety and technology, including telematics, in maintenance and technical management.

PASSENGER TRANSPORT MANAGEMENT: (PAS5RY1)

Purpose:
The purpose of this module is to provide students with general information around the role of passenger transport in the South African economy and urban development and transportation issues. To apply relevant policies and solutions to the road passenger transport industry.

Outcome(s):
Students should be able to:
- describe the role of passenger transport in a city in the economic development of the country;
- describe the underlying theory of urban passenger transport modes with reference to informal and formal transport;
- discuss the government policy and legislation around passenger transport in South Africa;
- explain the role of public transport planning for a city;
- discuss the operational aspects of formal passenger transport management;
- discuss the role of information technology in the management of road passenger transport in South Africa; and
- discuss the importance of driver management in the passenger transport industry.

LABOUR RELATIONS: (LAR1RY2)

Purpose:
The purpose of this module is to introduce students to basic labour relations knowledge and provide skills to enable them to make informed labour related decisions in road transport in the South African context.

Outcome(s):
Students should be able to:
- outline the legal compliance requirements of the management of labour in road transport in South Africa;
- summarise the rights of labour and employers in the management of staff;
- apply the basic principles of conflict management and establish a basic framework for performance assessment;

- describe the principles relevant to recruiting, on boarding and management of staff; and
- describe the procedures around dispute resolution procedures in a road transport organisation.

OPERATIONS MANAGEMENT: (OMA2RY2)

Purpose:
The purpose of this module is to provide operational management knowledge and skills to manage a road transport business successfully.

Outcome(s):
Students should be able to:
- discuss the difference between operations management principles and objectives in managing road passenger and road freight transport operations;
- explain the difference between the vehicle operations management principles and objectives in a depot in freight and passenger transport operations;
- apply standard road transport operational procedures and activities;
- implement effective security measures and requirements in the depot and end route;
- explain the role of operational information management and telematics in the road transport industry;
- communicate and complete basic forms and reports;
- do basic research in order to generate and manage information for operations management; and
- identify ethical issues and develop appropriate responses.

FLEET MANAGEMENT: (FMA3RY2)

Purpose:
The purpose of this module is to familiarise the student with the principles to enable them to effectively manage a fleet of vehicles.

Outcome(s):
Students should be able to:
- describe the principles of fleet management;
- explain how to manage the life cycle of a vehicle in a fleet;
- communicate and complete basic forms and reports and do basic research in order to manage a fleet;
- give examples of unique operational circumstances in fleet specifications; and
- describe an integrated road transport management system (RTMS) for the management of a fleet of vehicles.

FLEET FINANCIAL REPORTING: (FFR4RY2)

Purpose:
The purpose of this module is to provide the student with basic accounting principles and processes, financial statements and reporting for a transport company.

Outcome(s):
Students should be able to:
- identify and process source documents and adhere to the minimum requirements;
- discuss different transactions and populate the general ledger accounts;
- prepare a trial balance and determine the profit or loss in a company; and
- prepare and present basic financial statements for a company.

PASSENGER TRANSPORT: OPERATIONS PLANNING: (POP5RY2)

Purpose:
The purpose of this module is to provide students with knowledge and skills of routing and scheduling in formal road passenger transport operations and planning.

Outcome(s):
Students should be able to:
- describe the importance of routing and scheduling in a passenger transport operation;

- reflect on the linkage between routing and scheduling and the cost of a bus operation;
- show how to use route data in designing a timetable for a bus service; and
- schedule drivers into a timetable for a bus service and consider the impact on the costs of a bus company.

GENERAL MANAGEMENT: (GMA1RY3)

Purpose:
The purpose of this module is to provide students with an understanding of general management, with a focus on their role as managers facing challenges in the context of the road transport industry.

Outcome(s):
Students should be able to:
- explain problem solving in the organisation using effective decision-making practice;
- identify ethical issues and develop appropriate responses;
- use innovative solutions of problems in the work environment through creative decision-making processes, tools and techniques;
- discuss an organisational system and the analyses of its interactive impact on problem solving and decision making, considering the impact of risk and its management;
- distinguish between effective communication, communication elements, processes and practice, enabling effective workplace communication;
- analyse professional business documents used for written communication; and
- explain the importance of information management and telematics for effective communication and decision-making.

ROAD TRANSPORT PROJECT MANAGEMENT: (RTP2RY3)

Purpose:
The purpose of this module is to provide students with competencies for basic Project Management, with a focus on their role and tasks as project team members and project managers in their relevant road transport business environment context.

Outcome(s):
Students should be able to:
- demonstrate an understanding of what a project entails, and provide an overview of the unique attributes of projects and project management;
- display knowledge of the planning, implementation, monitoring and controlling of the project within the project management environment to ensure project success in the project life cycle;
- examine and display knowledge of the fundamentals required to implement a project; and
- display knowledge and understanding of, evaluating, terminating and closing a project, during and at the end of its life cycle.

LOGISTICS MANAGEMENT: (LMA3RY3)

Purpose:
The purpose of this module is to introduce students to the concept of supply chain management with the emphasis on logistics management as an important component in the road transport industry.

Outcome(s):
Students should be able to:
- discuss the role and importance of logistics and supply chain management in the road transport industry;
- analyse the role and importance of inventory management in an organisation;
- distinguish between key aspects of efficiency in the supply of the transport function within business logistics practice, the cost structure of each mode of transport and cost trade-offs in transport; and
- explain the role and importance of warehousing in the logistics system.

MARKETING IN ROAD TRANSPORT SERVICES: (MRS4RY3)

Purpose:
The purpose of this module is to provide students with marketing management principles and skills to apply within the road freight and road passenger transport environment.

Outcome(s):
Students should be able to:
- distinguish between the differences in the approach to marketing in the road freight and road passenger industry;
- explain the concept of marketing management with specific reference to the policies, decisions and strategies needed to satisfy freight and passenger customers;
- discuss marketing management and specific tools to analyse and scan the marketing environment in the road freight and road passenger transport industry;
- analyse the concept of customer services, its components and its management;
- compare the concepts of Customer Relationship Management (CRM) and Customer Loyalty and their management; and
- discuss the concepts of retention marketing, service recovery.

PASSENGER TRANSPORT: CONTRACTING AND TENDERING: (PCT5RY3)

Purpose:
The purpose of this module is to develop competencies required to enable the student to effectively quote and/or tender for road passenger transport services based on customer requirements.

Outcome(s):
Students should be able to:
- discuss the basic contractual requirements for quotations and tenders in the road passenger industry;
- apply the knowledge acquired in the programme to quote and tender for services based on customer requirements;
- apply the principles to generate a short-term quote based on a road passenger case study; and
- apply the principles to generate a fixed-term tender based on a road passenger case study.

METHODS OF ASSESSMENT
- Formative assessment is in the form of assignments and an exam for summative assessment.
- The summative assessments are written at various examination centres in South Africa.

CALCULATION CRITERIA
- Formative assessments: weighting 25% - at least 40% sub-minimum in formative assessment for admission to summative assessment.
- Summative assessment or an exam: weighting 75% - at least 40% sub-minimum in summative assessment.
- Pass mark: 50% is the pass mark for all summative assessments with 40% sub-minimum in the summative assessment.
- All modules must be passed to be awarded the Diploma.

MODERATION
- Summative assessments are moderated:
    - Moderation is internal for first and second year modules, making use of subject specialists within the department.
    - Moderation is external for the third-year exit level modules, making use of subject matter experts.

Short Learning Programmes:

NAME OF PROGRAMME: INTRODUCTION TO QUANTITATIVE TECHNIQUES IN LOGISTICS	SHORT LEARNING PROGRAMME LIMITED CONTACT – APK	SLP CODE: S1QTLQ	NQF LEVEL: 7 CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme.

MODE OF OFFERING
This five-day programme is offered at the Johannesburg Kingsway Campus annually in the first week of February.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
BCom, with the intent to register for the BComHons (Logistics Management's) (H1CL2Q) modules Quantitative Management Techniques in Logistics (LMA8X06) or for Demand Planning (LMA8X11).

LEARNING ACTIVITIES

ACTIVITY	HOURS	CREDITS
Contact time (Lectures)	32	-
Workshops	-	-
Work-based learning	-	-
Independent reading/interacting with learning material/online activities	32	-
Preparation for and completion of assignments and other assessment activities	32	-
Tutorials	-	-
Other (specify)	-	-
Total hours	96	-
Total number of credits	-	0

DURATION OF PROGRAMME
- Contact time: 5 days (4 days of lecturing and 1 day of assessment).
- Weeks to complete: First week in February.
- Minimum period to obtain: One week.
- Maximum period to obtain: One week.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
After successful completion of this enrichment programme students, who meet the minimum honours entry requirements, will be considered for the UJ BComHons (Logistics Management's) modules:
- Quantitative Management Techniques in Logistics (LMA8X06); and
- Demand Planning (LMA8X11).

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students will receive no credits towards the completion of any subsidised UJ programmes.

PURPOSE
The purpose of this SLP is an enrichment programme for all students who have been accepted for the BComHons (Logistics Management) but do not have sufficient understudy in the field of quantitative techniques, especially students from other institutions.

PROGRAMME CONTENT

MODULE NAME	MODULE CODE
Introduction to Quantitative Management Techniques: Logistics	QTL011

MODULE AND OUTCOMES:

INTRODUCTION TO QUANTITATIVE MANAGEMENT TECHNIQUES IN LOGISTICS: (QTL011)

Purpose:
The purpose of this SLP is to provide the student with insight into the importance of quantitative analysis as a decision-making tool on a strategic, tactical and operational level in logistics. This will enable the student to apply quantitative analysis in logistics' decisions and reflect upon the application made. It will prepare the student for a career in logistics management and provide a basis for further learning in the field of Logistics Management.

Outcome(s):
Students should be able to:
- solve problems using critical and creative thinking in the quantitative management context;
- collect and evaluate logistics information;
- communicate effectively using language skills in oral and/or written modes;
- use technology to enhance/assist logistics decision-making and related practices; and
- act ethically throughout the execution of quantitative management and related activities

ASSESSMENT
Students write an assessment on the last day of the SLP.

CALCULATION CRITERIA
- Min Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 0%
- Examination Mark Weight: 100%
- Pass Mark: 50%
- The pass mark of the summative assessment is 50%.

MODERATION
Internal moderation by subject matter experts according to UJ's moderation policy.

NAME OF PROGRAMME: PRINCIPLES OF PURCHASING	SHORT LEARNING PROGRAMME LIMITED CONTACT – APB	SLP CODE: S1PURQ	NQF LEVEL: 7 CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme.

MODE OF OFFERING
This five-day programme is offered at the Johannesburg Bunting Road Campus annually in the last week of January.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
Applicants admitted to the Advanced Diploma in Logistics, without Purchasing as a major module on NQF level 6.

LEARNING ACTIVITIES

ACTIVITY	HOURS	CREDITS
Contact time (Lectures)	32	-
Workshops	-	-
Work-based learning	-	-
Independent reading/interacting with learning material/online activities	4	-
Preparation for and completion of assignments and other assessment activities	10	-
Tutorials	-	-
Other (specify): case studies		-
Total hours	46	-
Total number of credits	-	0

DURATION OF PROGRAMME
- Contact time: 5 days (4 days of lecturing and 1 day of assessment).
- Weeks to complete: Last week of January.
- Minimum period to obtain: One week.
- Maximum period to obtain: One week.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
This is an enrichment programme intended to assist students who meet the Advanced Diploma entrance requirements with progression in the Advanced Diploma in Logistics.

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students will receive no credits towards the completion of any subsidised UJ programmes.

PURPOSE
The purpose of this SLP is an enrichment programme for all students who have been accepted for the Advanced Diploma in Logistics but do not have sufficient understudy in the field of purchasing.

PROGRAMME CONTENT

MODULE NAME	MODULE CODE
Principles of Purchasing	PUR7XA7

MODULE AND OUTCOMES:

PRINCIPLES OF PURCHASING: (PUR7XA7)

Purpose:

The purpose of this module is to provide the student with insight into the important role purchasing fulfils in the supply chain environment, as well as with the development, evaluation and implementation of purchasing principles in the supply chain environment. The SLP in Purchasing will provide knowledge in Purchasing as well as equip the student to apply purchasing principles when making decisions during their studies in the Advanced Diploma in Logistics.

Outcome(s):
Students should be able to
- reflect on the role of purchasing in the supply chain environment;
- analyse the essential functions purchasing fulfils in an organisation;
- reflect on the importance of make-or-buy insourcing and outsourcing; and
- analyse the importance of purchasing and the critical contribution it fulfils in the supply of an organisation.

ASSESSMENT
Students write an assessment on the last day of the SLP reflecting on the case studies.

CALCULATION CRITERIA
- Min Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 0%
- Examination Mark Weight: 100%
- Pass Mark: 50%
- The pass mark of the summative assessment is 50%.

MODERATION
Internal moderation by subject matter experts according to UJ's moderation policy.

SCHOOL OF PUBLIC MANAGEMENT, GOVERNANCE AND PUBLIC POLICY

CENTRE FOR PUBLIC MANAGEMENT AND GOVERNANCE
Bridging Programmes: None
Whole Programmes:

NAME OF PROGRAMME: ADVANCED CERTIFICATE IN LOCAL GOVERNANCE & MANAGEMENT	WHOLE PROGRAMME PART TIME ONLINE	WP CODE: C3401O	NQF LEVEL: 6 CREDITS 120

TYPE OF WHOLE PROGRAMME (WP)
Credit bearing programme in terms of the HEQSF.

MODE OF OFFERING:
Lectures and assessments are presented online. Contact with students on request.

CERTIFICATION
Competence based

ADMISSION REQUIREMENTS
- A student who has completed the Grade 12 Senior Certificate (SC) or National Senior Certificate (NSC) (Matric) with certificate endorsement; and
- Who has successfully completed ALL the modules of the National Certificate in Municipal Governance at NQF level 5 or the Higher Certificate in Municipal Governance NQF level 5 or the Higher Certificate in Local Governance and Management (F3401O) NQF level 5 will be given admission to this programme.

DURATION OF PROGRAMME
- Months to complete: April to November.
- Minimum period to obtain: 1 Year.
- Maximum period to obtain: 1 Year.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
The Advanced Certificate in Local Governance and Management (NQF level 6) provides a structured programme for those students who:
- Wish to progress from the basic Higher Certificate in Municipal Governance NQF level 5 or the Higher Certificate in Local Governance and Management NQF level 5 to advance their learning and career pathways.
- On successful completion of all the modules of the Higher Certificate in Local Governance and Management NQF level 5 and all the modules of this programme, together with meeting the applicable minimum entry requirements for a Bachelor's degree and with an average of 65 % for this Advanced Certificate programme, students may gain entry to the second year full time contact BA (Public Management and Governance: Leadership and Local Governance Focus) (B34PSQ) only offered on the Soweto Campus, if they are in good financial standing. (This has to be added, as students want to move across programmes with historical debt that CEPs cannot afford).

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students will receive credits towards the completion of subsidised UJ programmes.

- Learning material content focuses on municipal project and performance management, local government ethics and good governance, local government in organisational design and development, environmental and sustainable development for local governance, local government service delivery, strategic local government leadership and management and strategic local government, leadership and management in a local government context. It covers part of the current Public Management and Governance curriculum at undergraduate and postgraduate levels in the school, culminating in a full qualification.
- This programme also provides entry, after the successful completion of the programme, for students who also meet the applicable minimum entry requirements of an average of 65% for the whole programme and financial clearance, to the **second**-year **full time contact** BA (Public Management and Governance: Leadership and Local Governance Focus) (B34PSQ) on the Soweto Campus.

PURPOSE OF PROGRAMME
The purpose of the Advance Certificate (Local Governance and Management) is to enhance, improve, refine or reshape existing basic capabilities of middle managers, local government councillors, officials or other employees or persons involved in local government affairs who are in or aspire for a middle managerial capacity. This is achieved by enabling qualifying students to acquire knowledge and insights in this area of study on NQF level 6 to acquire the necessary knowledge, normative basis and language ability through independent research to develop cognitive and intellectual skills to write high-level texts to support decision-makers to solve problems which need scientific solutions through reasoning, data mining and processing, interpretation, evaluation, to demonstrate leadership, self-reflexivity, adaptability, to develop competence and integrity, to synthesise information autonomously in these fields in order to develop analytical relevant competences required to fulfil the roles and responsibilities.

OUTCOMES
Students should be able to:

- describe the principles of municipal project and performance management within a local government context;
- identify and interpret ethics and good governance into an overall management and leadership culture within local government;
- explain organisational design and development processes in order to enhance overall service delivery within a local government context;
- classify the global regulatory framework and complexities associated with environmental management and sustainable development within a local government context;
- classify stakeholders, mechanisms and approaches to implement democratised service delivery objectives within a local government context;
- interpret and explain the principles of strategic budgeting and financial corporate governance within a local government context; and
- describe the principles of strategic leadership and management within a local government context.

PROGRAMME CONTENT

YEAR MODULES (COMPULSORY)		
MODULE NAME	MODULE CODE	NQF CREDITS
Module 1: Municipal Project and Performance Management	LGMAYE1	16
Module 2: Local Government Ethics and Good Governance	LGMBYE1	16
Module 3: Local Government Organisational Design and Development	LGMCYE1	24
Module 4: Environmental and Sustainable Development for Local Governance	LGMDYE1	16
Module 5: Local Government Service Delivery	LGMEYE1	16
Module 6: Strategic Budgeting and Financial Corporate Governance for Local Government	LGMFYE1	16
Module 7: Strategic Local Government Leadership and Management	LGMGYE1	16

MODULES AND OUTCOMES:

MUNICIPAL PROJECT AND PERFORMANCE MANAGEMENT: (LGMAYE1)

Purpose:
The purpose of this module is to provide knowledge and insight regarding performance monitoring and oversight in municipalities and the utilisation of project management for the successful implementation of integrated development planning (IDP) imperatives through the application of performance management instruments and project management practices.

Outcome(s):
Students should be able to:

- explain the concepts of project management and performance management in the context of local government programmes.

- explain project components, methodologies, the Project Management Body of Knowledge (PMBOK), the Government's Programme of Action (POA), Integrated Development Planning (IDP) and overall project governance as they apply to local government programmes;
- explain the process and methodologies for establishing local government service partnerships, outsourcing, contracting and service level agreements in relation to local government programmes;
- outline the statutory and regulatory framework for performance management with examples including the performance dimensions, cycle and systems in relation to local government programmes and service delivery objectives; and
- describe the process for auditing and reporting on performance and the procedures discussed in the context of municipal service delivery and codes of conduct.

LOCAL GOVERNMENT ETHICS AND GOOD GOVERNANCE: (LGMBYE1)

Purpose:
The purpose of this module is to orientate students in the significance of good governance through the promotion of ethical conduct and effective leadership. It includes the normative principles of local government management and good governance, the different forms of unethical conduct among political office-bearers and local government officials. It provides the typical measures and remedial action which may be undertaken to prevent such forms of unethical conduct; official mechanisms to curb unethical conduct in local governance.

Outcome(s):
Students should be able to:
- explain the concept of ethics and good governance in the context of compliance with regulatory policies and integrating these into overall local government ethics and good governance practices;
- identify the official mechanisms to curb unethical conduct in local government as well as the managerial measures and remedies to prevent unethical conduct in municipalities;
- conduct a case study of unethical conduct in a municipality;
- explain the process for establishing codes of conduct and good governance to ensure sound ethical and good governance practices;
- explain practices for enhancing accountability and transparency within the rule of law and for promoting excellence and public responsibility;
- identify processes for improving civic participation and ensuring political stability within local government programmes; and
- identify processes and practices to ensure good governance and sound ethical practices for taking responsibility for decisions taken within various committees and working forums.

LOCAL GOVERNMENT ORGANISATIONAL DESIGN AND DEVELOPMENT: (LGMCYE1)

Purpose:
The purpose of this module is to provide a broad overview of the principles and application of organisational design and development in local government in order to enhance organisational excellence and overall service delivery within local government.

Outcome(s):
Students should be able to:
- explain the facilitation of participation of stakeholders in decisions that affect municipal functions;
- explain the importance of political, administrative and managerial roles in coordinating, communicating, and implementing local government development programmes;
- describe the processes for ensuring political representation in organisational design and development;
- describe the process for designing programmes that improve local government service delivery;
- describe the procedures for effectively chairing relevant councils, committees, sub-committees and working groups to achieve objectives of local government programmes;
- explain how to contextualise the macro organisation and the system of government in the South African constitutional system of cooperative governance;
- describe the respective theories and approaches to organisational design and development;
- identify the key characteristics and best practices associated with various types of organisational designs;
- identify selected organisational dynamics in local government organisations;
- identify the organisational development and transformation in a dynamic governance context;
- Identify processes for evaluating the respective approaches, tools and techniques to facilitate organisational effectiveness and performance; and
- explain the significance of transformational leadership in organisations to guide it towards its desired future by utilising planning techniques which incorporate local government programmes and project management.

ENVIRONMENTAL AND SUSTAINABLE DEVELOPMENT FOR LOCAL GOVERNMENT: (LGMDYE1)

Purpose:
The purpose of this module is to orientate students in the complexities associated with environmental management and sustainable development and to introduce students to sustainable development management as an integral part of good, developmental governance. This includes identifying and distinguishing various government interventions, strategies, policies, programmes, institutional roles and activities promoting environmental protection, economic growth and development.

Outcome(s):
Students should be able to:
- explain the complexities that government face in terms of striking a delicate balance between environment protection, sustainable development and economic growth;
- highlight the demographical and socio-economical realities of the South African and African governance landscape;
- explain various African and South African governmental interventions, strategies, policies, programmes, institutional roles and activities promoting environmental protection, economic growth and development; and
- identify African and South African governmental policies, strategies and programmes to facilitate development within a developmental state.

LOCAL GOVERNMENT SERVICE DELIVERY: (LGMEYE1)

Purpose:
The purpose of this module is to orientate students about service delivery objectives, approaches, stakeholders and mechanisms to achieve effective service delivery in a local government sector environment. The module will also enable the student to identify and implement innovative ways for democratising service delivery and implementing practices to ensure continual service delivery improvement.

Outcome(s):
Students should be able to:
- explain the environment of local government service delivery including the statutory framework for improved service delivery;
- describe the role of the government in service delivery in relation to stakeholders including the community and market;
- alternative service delivery approaches and mechanisms;
- identify Primary versus secondary state functions, pure state functions, mixed functions and purely private functions; concepts that should be explicated (e.g. economy, effectiveness, efficiency, and productivity);
- explain the key managerial aspects of service delivery improvement; performance improvement; and performance management systems; and
- describe concepts of citizen vs. client/ consumer; quality public service delivery; democratic principles for service delivery; Batho Pele principles of service delivery; public participation Issues in democratising service delivery, e.g. accountability, representation, empowerment, participation and transparency.

STRATEGIC BUDGETING AND FINANCIAL CORPORATE GOVERNANCE FOR LOCAL GOVERNMENT: (LGMFYE1)

Purpose:
The purpose of this module is to provide the foundations of the primary characteristics of good financial governance and its relevance to financial corporate governance. It includes a broad overview of the important requirements of strategic budgeting and financial management in the context of financial corporate governance and the application thereof in practice.

Outcome(s):
Students should be able to:
- identify the principles of sound financial corporate governance in the financial administration of a municipality;
- identify the principles of strategic budgeting for local government;
- identify the legislative requirements relating to the roles and responsibilities of key stakeholders in the financial administration in municipalities;
- explain the principles of developing and implementing sound financial policies in accordance with best practice;
- explain the Key financial governance structure;
- identify Budgeting reporting procedures and contingency plans and solutions to problems relating to budget constraints;
- describe Methods of allocation in relation to budget parameters according to overall local government budgetary allocation procedures; and
- monitor budgetary processes and procedures.

STRATEGIC LOCAL GOVERNMENT LEADERSHIP AND MANAGEMENT: LGMGYE1

Purpose:
The purpose of this module is to provide the foundations of the principles of strategic leadership and management in a local government context by exposing students to the critical interface between leadership and socio-economic development.

Outcome(s):
Students should be able to:
- identify the principles and theories of strategic leadership;
- identify the challenges and critical issues in applying the principles and theories of strategic leadership in a local government context;
- explain the process for giving political direction to middle management in their allocated areas of responsibility;
- explain processes for working with 'council leadership' to ensure the effective governance of the authority;
- explain leading within the broader community;
- explain practices for effectively articulating the diverse views of stakeholders in the context of particular decisions;
- explain building consensus and managing conflict by reconciling varying points of view within the broader agenda for a municipality; and
- explain African leadership in a global governance context.

ASSESSMENT
- Summative assessments divided into theory and applications exercises, are in the form of assignments for modules 1, 2, 3, 4 and 5.
- Full examination for modules 6 and 7 (Total 100 marks).in October/November.
- Formative – Continuous self-assessment exercises and short assignments for all the modules.
- Pass mark: 50% is the pass mark for all summative assessments.
- All modules must be passed to obtain the qualification.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period summative assessments total is 100 marks calculated for each exit level module. Total is 700 marks.
- Examination Mark Weight: 14% for first six modules each and 16% for final last module (Examination in November). Total is 100%
- Supplementary examination minimum is 40% with a maximum of 50% examination mark.
- All modules must be passed to obtain the qualification.

MODERATION
The final assessment is an examination for Module 6 and Module 7 and will be moderated in terms of the UJ Institutional moderation policy.
- One internal moderator.
- One external moderator.

NAME OF PROGRAMME: HIGHER CERTIFICATE IN LOCAL GOVERNANCE AND MANAGEMENT	WHOLE PROGRAMME PART TIME ONLINE	WP CODE: F3401O	NQF LEVEL: 5 CREDITS: 120

TYPE OF WHOLE PROGRAMME (WP)
Credit bearing programme in terms of the HEQSF

MODE OF OFFERING:
Lectures and assessments are presented online. Contact with students on request.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- Grade 12 Senior Certificate (SC) or National Senior Certificate (NSC) with certificate endorsement (Matric); and
- Students need to be employed and wish to gain a qualification related to their jobs.

LEARNING ACTIVITIES

Work-based learning	-	-
Independent self-study of texts and references (Study guides, books and journal articles)	480	-
Independent self-study of texts and references (Case studies and multi-media)	300	-
Tutorials	120	-
Other (specify)	180	-
Total hours	1200	-
Total number of credits	-	120

DURATION OF PROGRAMME
- Months to complete: April to November.
- Minimum period to obtain: 1 Year.
- Maximum period to obtain: 1 Year.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
After successful completion of the programme:
- Students, who also meet the applicable minimum entry requirements, will be considered for the former Advanced Certificate in Municipal Governance (NQF level 6) for Advanced Certificate in Local Governance and Management (NQF level 6) (C3401O).

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students will receive no credits towards the completion of subsidised UJ programmes.

PURPOSE OF PROGRAMME
The purpose of this programme is to enable students to apply the relevant competences required to fulfil the roles and responsibilities of local government councillors, officials or other employees or persons involved in municipal affairs who aspire to a managerial position.

OUTCOMES
Students should be able to:
- outline the nature of local government as it applies to the core statutory, regulatory, policy and institutional frameworks that impact on local government functions in contrast to other levels of government and describe the broad institutional, managerial and administrative framework of local governance;
- describe theories and techniques to participate in local government policy making and analysis;
- implement local government leadership and good governance;
- explain theories, principles and processes to facilitate integrated development planning (IDP);
- explain theories, principles and processes to facilitate local economic development (LED) in local governance;

- identify financial management and budgeting principles and budgeting support processes in a local government setting; and
- explain basic human resources (HR) management principles in a local government setting.

PROGRAMME CONTENT

YEAR MODULES (COMPULSORY)		
MODULE NAME	MODULE CODE	NQF CREDITS
Module 1: Statutory, Regulatory, Policy and Institutional Framework for Local Government	LGM1YE1	24
Module 2: Local Government Policy Making and Analysis	LGM2YE1	16
Module 3: Leadership and Local Governance	LGM3YE1	16
Module 4: Integrated Development Planning (IDP)	LGM4YE1	16
Module 5: Local Economic Development (LED) for Local Government	LGM5YE1	16
Module 6: Municipal Financial Management and Budgeting	LGM6YE1	16
Module 7: Local Government Human Resources Management	LGM7YE1	16

MODULES AND OUTCOMES:

STATUTORY, REGULATORY, POLICY AND INSTITUTIONAL FRAMEWORK FOR LOCAL GOVERNMENT: (LGM1YE1)

Purpose:
To orientate students in continental, national, regional and local governance institutions and functions within the context of the statutory, regulatory and policy frameworks within which local government must operate. This includes identifying and distinguishing various local government processes, and an exploration of the institutional roles and activities to operationalise. Service delivery objectives. It furthermore includes all the core constitutional and legislative stipulations and obligations of local governments as well as key regulatory guidelines, regulations and directives for specific local government functions.

Outcome(s):
Students should be able to:
- describe the nature and context of local governance according to the varying categories of municipalities, the statutory, regulatory and policy framework that informs local government in South Africa and the characteristics of developmental local government;
- explain the structural framework of local government in relation to the spheres of local government and the interaction between national, provincial and local government in general and co-operative governance in particular;
- interpret the functional framework of local government in relation to the municipalities' function of executing their statutory responsibilities as contained in the constitution and the overall goal of democracy;
- explain the policy framework of municipalities in relation to the nature of democracy within the framework and the structures, functions and roles within local government; and
- interpret the process and functions for achieving citizen participation and the various roles, powers and functions associated with this.

LOCAL GOVERNMENT POLICY MAKING AND ANALYSIS: (LGM2YE1)

Purpose:
The purpose is to orientate students in local government policy making including the impact of policy processes, problem identification, policy analysis and proposals for policy formulation and enhancement and integrating policy into overall service delivery and monitoring and evaluating the efficacy thereof.

Outcome(s):
Students should be able to:
- explain the nature of local government policy making in relation to why policy analysis is undertaken, the different types and levels of policy, who makes municipal policy and why and how policy is developed;
- describe local government policy agenda setting in relation to the policy-making process, the driving forces that influence agendas, approaches to agenda setting, the role of participation and the ability to critically assess a government or interest group's methods of agenda setting;
- explain local government policy analysis, design and decision making in own work context via a process of objective and goal setting, scenario forecasting, examining alternative policy options and taking cognisance of the complex operating environment in which municipalities operate;
- interpret local government policy implementation utilising a variety of implementation strategies and in relation to the key issues and lessons of experience regarding policy implementation in the local government environment; and

- describe the process of local government policy evaluation and review via the design and utilisation of assessment tools and impact determinations.

LEADERSHIP AND LOCAL GOVERNANCE: (LGM3YE1)

Purpose:

The purpose is to orientate students regarding selected local governance leadership issues and specific reference to managerial, national, provincial and local governance leadership; leadership and local service delivery; leading a learning organisation and visionary leadership, transformational leadership; leading change and innovation and the leadership role of the South African government in Southern Africa and the African continent as well as in the BRICS. Within the context of African and Ubuntu-leadership, the module further seeks to impart knowledge regarding traditional leadership and the role of tribal authorities in local governance.

Outcome(s):
Students should be able to:
- explain local governance leadership with specific reference to managerial, national, provincial, municipal and political leadership;
- determine leadership fundamentals, styles, traits, skills and attributes in local governance;
- describe the significance of leadership to create an innovative, learning organisation for local service delivery;
- apply team leadership and leadership communication; and
- outline selected leadership issues with specific reference to strategic and visionary leadership, transformational leadership, and leading change.

INTEGRATED DEVELOPMENT PLANNING (IDP): (LGM4YE1)

Purpose:

The purpose is to provide a broad overview of the essential nature and successful implementation of Integrated Development Planning (IDP) processes, strategies and interventions. The module further seeks to impart knowledge and insight regarding IDP performance monitoring and oversight in municipalities to operationalise effective and efficient IDP programmes.

Outcome(s):
Students should be able to:
- describe the concept of IDP in relation to the inter-jurisdictional, inter-disciplinary and sustainability dimensions impacting on local government.; determine the statutory requirements for IDP in relation to the key role players involved, the roles and responsibilities of all role players including districts and provinces in the IDP process and the concept of popular participation as a requirement in the IDP;
- explain the context of IDP in relation to the national planning framework, the intergovernmental relations in IDP and organisational capacity building for IDP; and
- identify the processes associated with IDP.

LOCAL ECONOMIC DEVELOPMENT (LED) FOR LOCAL GOVERNMENT: (LGM5YE1)

Purpose:

To provide a broad overview of the essential nature and successful implementation of local economic development (LED) initiatives, strategies and interventions as an objective of developmental local government by highlighting the evolving role of local government in focusing resources into local communities to facilitate development and economic growth.

Outcome(s):
Students should be able to:
- describe the concept of LED in the context of South African local government and according to the rationale for LED and the economic requirements for LED for sustainable growth and development;
- outline the statutory basis for LED in South Africa in relation to the specific role of local government, the emerging good practice and policy in LED and capacity implications for LED engagement;
- explain the essence of LED according to economic problems, plans and performance, the concept of supply and demand and the interventions in the local economy required in relation thereto, competition and the components of the local economic system as it relates to LED
- describe the components of LED strategy development; and
- describe the varying types of LED interventions and projects.

MUNICIPAL FINANCIAL MANAGEMENT AND BUDGETING: (LGM6YE1)

Purpose:

The purpose is to enable students to participate in budgeting processes including preparing a budget within the policy framework of local government and the Municipal Finance Management Act (MFMA). It explores the roles and responsibilities and timeframes required for effective budgeting planning, implementation and evaluation. It also analyses local government budgeting techniques and how to translate a strategic overview into an operating budget.

Outcome(s):
Students should be able to:
- determine the role and purpose of a municipal budget in relation to the municipal finance and management act (MFMA) and overall financial regulations and the need for credibility in budgeting within local government;
- apply the methodology, procedures and frameworks for preparing a municipal budget in the context of local government objectives;
- analyse policies that impact budgeting in relation to local government objectives;
- ensure the fulfilment of procurement activities and supervision of procurement administration; and
- apply general budgeting techniques in the context of local government budgeting regulations.

LOCAL GOVERNMENT HUMAN RESOURCES MANAGEMENT: (LGM7YE1)

Purpose:
To orientate students in the theories of public human resources management so that the human resources base can be effectively utilised to optimise service delivery objectives in local government.

Outcome(s):
Students should be able to:
- describe the principles of job analysis and design in accordance with local government human resources requirements;
- describe the principles of recruitment and selection in relation to the overall roles and responsibilities required in local government functions and within the legislative framework governing recruitment and selection;
- explain training and development plans in relation to the benefits and advantages of training and the various methodologies are contrasted and discussed in accordance with how the plan can best be addressed;
- apply performance management in relation to how it addresses overall municipal operational needs and the varying methodologies for managing performance are contrasted to determine best approaches in a local government context; and
- explain labour relations with examples relating to methodologies for implementing disciplinary processes are identified in relation to the overall labour relations legislative framework.

ASSESSMENT
- Summative assessments, divided into theory and applications exercises, are in the form of assignments for modules 1, 2, 3, 4 and 5.
- Full examination for modules 6 and 7 (Total 100 marks).in October/November.
- Formative – Continuous self-assessment exercises and short assignments for all the modules.
- Pass mark: 50% is the pass mark for all summative assessments.
- All modules must be passed to obtain the qualification.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period summative assessments total is 100 marks calculated for **each** exit level module. Total is 700 marks.
- Examination Mark Weight: 14% for first six modules and 16% for final last module (Examination in November). Total is 100%
- Supplementary examination minimum is 40% with a maximum of 50% examination mark.

MODERATION
The final assessment is an examination and will be moderated in terms of the UJ Institutional moderation policy.
- One internal moderator.
- One external moderator.

N/A

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Status towards the Postgraduate Diploma in Public Policy and African Studies (NQF level 8) (E34PPQ). To obtain status a student must have passed this SLP as well as the SLP in Research Methodology Toolkit (S34R8Q1) in the same academic year, with a combined average pass mark of 65%.

PURPOSE OF PROGRAMME
The purpose of the SLP is to provide leading policymakers, policy advocates and policy researchers with the theoretical foundations for analysing complex phenomena which bedevil contemporary policy-design and application in leadership. The SLP addresses issues in technical and thought leadership and examines how and why globalisation can affect the implementation of otherwise well designed policies. It aims to link theoretical issues with case study evidence, drawing on national-level and supranational experiences.

PROGRAMME CONTENT

YEAR MODULE	
MODULE NAME	**MODULE CODE**
Public Policy and African Studies	S34P8Q1

MODULE AND OUTCOMES:

PUBLIC POLICY AND AFRICAN STUDIES: (S34P8Q1)

Purpose:
The following topics will be covered:
- Globalisations and the State
- Decolonisation and international society
- Humanitarian intervention.

Outcome(s):
Students should be able to:
- analyse the supposed threats to nation-states in different regions;
- engage with the intellectual problems and questions presented by the decolonisation; and
- explain the particular culture and historical circumstances which stimulated the language of human rights;

ASSESSMENT
- Formative assessments entail one assignment and two assessments (tests)
- The last summative assessment (exam) takes the form of a research project/essay in which a student demonstrated appropriate research methodology competence.
- Other selection criteria may apply.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- A pass mark of 50% is required.

MODERATION
In line with UJ moderation policy and in accordance with the UJ's assessment policy. One internal assessor.

Status towards the Postgraduate Diploma in Public Policy and African Studies (E34PPQ). To obtain status a student must have passed this SLP as well as the SLP in Public Policy and African Studies (S34PQ8) in the same academic year, with a combined average pass mark of 65% for these SLP's. Other selection criteria may apply.

PURPOSE OF PROGRAMME
The purpose of the SLP is to help students build knowledge and understanding of key research methodology issues in social science, with particular focus and examples drawn from the study of economic development and violent conflict. Students will be able to commission research, design terms of reference and interpret research evidence and claims.

PROGRAMME CONTENT

YEAR MODULE	
MODULE NAME	**MODULE CODE**
Research Methodology Toolkit	S34P8Q2

MODULE AND OUTCOMES:

RESEARCH METHODOLOGY TOOLKIT: (S34R8Q2)

Purpose:
The following topics will be covered:
- Evidence, Methods, Politics
- Quantitative and Qualitative
- Literature Review
- Consuming data – practical and critical guide
- Regressions and Policy
- Surveys and survey design
- Ethics and research

Outcome(s):
Students should be able to:
- display an understanding of research methodologies in social science (individually and in combination);
- design terms of reference for commissioned research;
- interrogate research evidence and claims; and
- apply the ethical principles of research.

ASSESSMENT
- Formative assessments entails one assignment and two assessments (tests).
- The last summative assessment (exam) takes the form of a research project/essay in which a student demonstrates appropriate research methodology competence.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%
- Examination Mark Weight: 50%
- A Pass Mark of 50% is required.

MODERATION
In line with UJ moderation policy and in accordance with the UJ's assessment policy. One internal assessor.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
This SLP is a compressed version of three Short Learning Programmes which were offered by the Centre for Public Policy and African Studies. These SLPs are: Strategic Diplomacy, Transitional Justice as well as Industrial Policy.

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
N/A.

PURPOSE OF PROGRAMME
The purpose of the SLP is to provide policy practitioners with insights into the debates about governance, conflicts and economic development. This is intended to help policy practitioners to better understand the practical and policy implications of different theoretical approaches, and to make better judgements regarding policy choices.

PROGRAMME CONTENT

YEAR MODULE	
MODULE NAME	**MODULE CODE**
Training for Practitioners in Policy Studies	S34TPQ1

MODULE AND OUTCOMES:

TRAINING FOR PRACTITIONERS IN POLICY STUDIES: (S34TPQ1)

Purpose:

The purpose of this SLP is to provide governance and policy practitioners with a functional proficiency in policy making relating to the building and enhancing of the capacity of policy practitioners to do their work with respect to:

- conflict prevention/resolution;
- economic management; and
- building mutually beneficial relations between states.

These proficiencies are important for creating the socio-political stability necessary for sustainable economic development.

Outcome(s):

Students should be able to:

- appraise trends in growth and manufacturing in developing economies;
- critique Africa's growth path with reference to natural resources and other key sectors;
- assess the narratives of conflict theory and appraise the concept of transitional justice;
- analyse the points of conflict and cooperation in Africa and key outside actors; and
- critically evaluate the diplomatic history of Africa, current dynamics and future challenges.

FIRST SEMESTER		**SECOND SEMESTER**	
MODULE NAME	**MODULE CODE**	**MODULE NAME**	**MODULE CODE**
Amadeus Global Distribution System	S34H8Q1	Amadeus Global Distribution System	S34H8Q2

MODULES AND OUTCOMES:

AMADEUS GLOBAL DISTRIBUTION SYSTEM: (S34H8Q1 / S34H8Q2)

Purpose:
The following topics will be covered:
• Acquire knowledge about the practical application of a Central Reservation System (CRS) within a Global distribution system (GDS);
• Booking of various travel products and services; and
• Issuing various e-tickets.

Outcome(s):
Students should be able to:
• demonstrate knowledge and understanding of the function of the Central Reservation System (CRS) with a Global Distribution System (GDS), which operate within the tourism and hospitality industry; and
• demonstrated ability to make decisions about practical applications within the CRS/GDS systems in the tourism and hospitality industry.

ASSESSMENT
• This SLP will assess the students progress during the delivery of the SLP.
• Formative assessment methods that will be used will be tests and daily class activities.

CALCULATION CRITERIA
• Minimum Full Period Mark for Examination Admission: 0%
• Full Period Mar Weight: 100%
• Examination Mark Weight: 0%
• Pass Mark: 80%

MODERATION
Moderation takes place in line with the UJ assessment policy.

NAME OF PROGRAMME: BASIC BARISTA SKILLS	SHORT LEARNING PROGRAMME CONTACT	SLP CODE: S34H9Q	NQF LEVEL: 5 CREDITS: 0

TYPE OF SHORT LEARNING PROGRAMME (SLP)
Non-credit bearing short learning programme.

MODE OF OFFERING
- Presentations (pre-recorded and Collaborate discussions), which the industry specialists and the lecturer will prepare, with facilitation of LMS.
- Material which will be supplied or suggested for students to work with, for instance suggested additional reading academic articles for each learning unit. There will be notes provided and a textbook suggested (but this is optional).
- Practical activities/tasks designed for students to work on together and independently.
- Technology-assisted learning for practical activities/tasks, tests and group discussions.
- The UJ Learning Management System (LMS) Blackboard® will be used.
- Online tools outside the LMS e.g. researching types of coffee, presentation techniques
- Complete online quizzes, creation of Wikis
- Online learning communities or websites that are constantly identifying new methods or posting subject related trends.

CERTIFICATION
Competence based.

ADMISSION REQUIREMENTS
- The entry requirement for this short learning programme is that a potential student should be in possession of a SC, NSC, NC(V) or NASCA with English at Level 4 or equivalent.

PURPOSE OF PROGRAMME
The purpose of this SLP is to develop the students ability to be upskilled in healthy cooking options such as vegetarianism, sustainable cooking, and hygiene as well as safety aspects in the kitchen in order to become employable in the Hospitality Sector.

PROGRAMME CONTENT

ONLINE MODULE	
MODULE NAME	**MODULE CODE**
Healthy Cooking Operations	S3H02OA

MODULE AND OUTCOMES:

HEALTHY COOKING OPERATIONS: (S3H02OA)

Purpose:

The following topics will be covered:
- Menu planning and merchandising
- Nutrition made easy
- Special dietary needs (Allergies, vegetarianism and cooking for different cultures and religions)
- Hygiene and safety (Food, personal and kitchen)
- Why food waste in South Africa is a problem (Recycle, reuse and reduce)
- Pantry solutions and basic food costing

Outcome(s):

Students should be able to:
- understand the basic needs of menu planning for Catering and Deli Operations and incorporate healthy cooking options;
- demonstrate different healthy cooking methods for Catering and Deli operations;
- demonstrate the importance of hygiene and safety in the kitchen;
- understand the concepts of food waste in the kitchen; and
- apply the concepts of food costing for basic pricing.

ASSESSMENT
- This SLP will use continuous assessments to test students progress during the delivery of the SLP.
- Continuous assessment methods that will be used will be online tests, recorded presentations, assignments, individual reflections and group discussions by students.
- Deliver a chosen recipe, reflect on information on it and deliver evidence by means of a photo.

CALCULATION CRITERIA
- Minimum Full Period Mark for Examination Admission: 0%
- Full Period Mark Weight: 100%
- Examination Mark Weight: 0%
- 50% is the minimum requirement to be awarded a Certificate of Competency.

MODERATION

Assessment and moderation takes place in line with UJ policy and in accordance with UJ assessment policy. No external moderation will be necessary.

- itegrate interpersonal skills and the service ethic that permeates all aspects of customer care within the Hospitality Industry.

CULINARY STUDIES AND NUTRITION I: (BDZ012)

Purpose:
The purpose of this module is for the student to be familiar with the operational practices and structures of food preparation required to meet and exceed the expectations of the target market.

Outcome(s):
Students should be able to:

- identify food preparation equipment with the purpose of using them safely and hygienically according to standard professional practice;
- explain the layout and workflow of kitchens and brigade;
- demonstrate an application of the preparation of conventional and convenience foods using various preparation methods and skills;
- read and interpret basic recipes; and
- identify the sources of nutrients for the human body and state their functions.

HOSPITALITY OPERATIONS I: (BDZ013)

Purpose:
The purpose of this module is so the student will be able to apply and supervise principles relevant to Front Office and Housekeeping systems.

Outcome(s):
Students should be able to:

- apply basic reservation and guest check-in/out procedures in a variety of lodging establishments under supervision; and
- execute housekeeping activities in a variety of hospitality establishments under supervision.

FOOD AND BEVERAGE (THEORY) I: (BDZ014)

Purpose:
The purpose of this module is so the student will be familiar with the operational practices and structures of the Food and Beverage requirements to meet and exceed the expectations of the target market.

Outcome(s):
Students should be able to:
- identify basic restaurant infrastructure and procedures to carry out basic food and beverage service to operate as a waitron;
- demonstrate basic theoretical and practical knowledge of the origin, production methods and service skills related to alcoholic and non-alcoholic beverages;
- assist with the execution and maintenance of housekeeping activities in a variety of lodging establishments in the Hospitality industry; and
- understand basic reception infrastructure and procedures to carry out basic reservation and guest check-in/out procedures to operate in the variety of lodging and restaurant establishments found in the Hospitality industry.

HOSPITALITY HEALTH AND SAFETY: (BDZ015)

Purpose:
The purpose of this module is to familiarise the student with the operational practices and structures of food preparation according to the health and safety practices required to meet and exceed the expectations of the target market.

Outcome(s):
Students should be able to:
- demonstrate application of basic occupational safety measures according to local and national legislation;
- demonstrate personal-, operational-, food- and environmental hygiene; and
- control security situations that may arise in daily hospitality operations.

HOSPITALITY FINANCIAL MANAGEMENT I: (BDZ016)

Purpose:
The purpose of this module is for the student to be able to use a range of financial management tools to contribute to effective decision-making and sustainability of the hospitality enterprise.

Outcome(s):
Students should be able to:
- demonstrate basic hospitality accounting principles to provide financial information that will be useful in making economic decisions related to food & beverage management and profit, clubs and casinos, banqueting and events;
- demonstrate the basic principles of cost accounting within the Hospitality Industry applicable to food & beverage management and profit, clubs and casinos, banqueting and events; and
- read, format and cost basic recipes.

ASSESSMENT
Formative assessments in the form of tests, and for a final summative assessment.

CALCULATION CRITERIA
- Formative assessments in the form tests (35%).
- Summative assessment divided into theory and applications (65%).
- Pass mark: 50% is the pass mark for all summative assessments.

MODERATION
- Moderation is internal, making use of module specialists within the department.
- Formative and summative assessments are moderated.

Hospitality Operations II	BDZ213

Food and Beverage II (Theory)	BDZ214
Hospitality Industry Law I	BDZ215
Hospitality Financial Management II	BDZ216

Outcome(s):
Students should be able to:
- use a range of advanced hospitality business skills to contribute to effective decision-making and the execution of operations to ensure sustained growth of the enterprise, industry and local community;
- identify the operational practices of more complex structures of food preparation required to meet and exceed the expectations of the target market;
- apply and supervise principles relevant to front office, housekeeping and facility management systems;
- identify operational practices of more complex structures of food and beverage required to meet and exceed the expectations of the target market;
- identify legal requirements and their implications to the hospitality industry; and
- use a range of financial management tools to contribute to effective decision-making and sustainability of the hospitality enterprise.

MODULES AND OUTCOMES:

HOSPITALITY MANAGEMENT II: (BDZ211)

Purpose:
The purpose of this SLP is to enable the student to use a range of marketing and human resource skills related to the hospitality industry to contribute to both effective decision-making and the execution of operations to ensure sustained growth of the enterprise, industry and local community.

Outcome(s):
Students should be able to:
- explain the basic components of marketing. Develop and implement a marketing promotion;
- describe the components included in the planning and organisation of human resources in the context of the hospitality industry (human resources planning, analysis of the workplace, the employment process, selecting, hiring, placement and retention); and
- describe the components included in the development and evaluation of human resources in the context of the hospitality industry (orientation, training, career development, performance appraisals, staff retention, reward systems, employee assistance programmes and discipline.)

CULINARY STUDIES AND NUTRITION II: (BDZ212)

Purpose:
The purpose of this SLP is to familiarise the student with the planning of menus and nutritional requirements for a variety of customer needs within a safe and hygienic environment.

Outcome(s):
Students should be able to:
- explain and plan a range of menu items requiring intermediate skills;
- apply basic menu planning to a variety of food service establishments;
- maintain a safe and hygienic working environment in food preparation areas; and
- describe and apply sound nutritional principles for customer dietary, ethnic and special requirements.

HOSPITALITY OPERATIONS II: (BDZ213)

Purpose:
The purpose of this SLP is to apply and supervise advanced principles relevant to front office, facilities management and housekeeping systems

Outcome(s):
Students should be able to:
- render all housekeeping activities and explain its interrelationship with other departments within a lodging unit.;
- supervise Front Office operations within a lodging unit;
- supervise the maintenance functions of a lodging facility; and

- plan, apply and supervise waste and energy control systems.

FOOD AND BEVERAGE II: (BDZ214)

Purpose:
The purpose of this SLP is to supervise and maintain advanced food and drink service in terms of legislation, operations, costing and control measures applicable to a variety of restaurants and food service outlets.

Outcome(s):
Students should be able to:
- describe the differences and the similarities between South African and international wines; and
- demonstrate knowledge and the application of advanced methods and control systems applicable to food and beverage service.

HOSPITALITY LAW I: (BDZ215)

Purpose:
The purpose of this SLP is for the student to know the South Africa labour laws and their application with respect to the hospitality environment.

Outcome(s):
Students should be able to:
- apply the principles of labour law applicable to the employers and employees of the Hospitality Industry;
- discuss and apply the most important liquor laws of South Africa; and
- explain the most important principles of the South African labour laws.

HOSPITALITY FINANCIAL MANAGEMENT II: (BDZ216)

Purpose:
The purpose of this SLP is to apply accounting principles in various types of Hospitality units with reference to food & beverage management, and profit in clubs and casinos, banqueting and events.

Outcome(s):
Students should be able to:
- explain and apply the principles for responsible accounting to segment operating statements into separate departmental statements and schedules;
- differentiate between and apply the different accounting principles applicable to the statement of comprehensive income, statement of changes in equity and statement of financial position of a sole proprietorship;
- explain and carry out the basic steps involved in the year-end accounting process of a sole proprietorship; and
- explain the purpose, use and preparation of the statement of comprehensive income, cited by examples.

ASSESSMENT
Formative assessments are in the form of tests and an exam for summative assessment.

CALCULATION CRITERIA
- Formative assessments are in the form of tests (35%)
- Summative assessment or an exam, which is divided into theory and applications (65%)
- Pass mark: 50% is the pass mark for all summative assessments.

MODERATION
- Moderation is internal, making use of subject specialists within the department.
- Formative and summative assessments are moderated.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
Arrangements can be made once all three the Block Release Hospitality Management SLPs, being SLP Block Release Hospitality Management I (590-1), SLP Block Release Hospitality Management II (591-1), and SLP Block Release Hospitality Management III (592-3), have been passed for obtaining status through the RPL process. If the RPL process is successful, then students may apply for access into the Advanced Diploma in Hospitality Management (A34HMQ).

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students will receive no credits towards the completion of subsidised UJ programmes.

PURPOSE
The purpose of this SLP is, after completion of this programme, students will be able to manage organisational resources more effectively. This programme will enable students, practitioners, managers and supervisors to obtain current knowledge of key managerial concepts in Hospitality Management.

PROGRAMME CONTENT

YEAR MODULES (COMPULSORY)	
MODULE NAME	**MODULE CODE**
Hospitality Management III	BDZ311

Food and Beverage Management III	BDZ312
Hospitality Operations III	BDZ313
Hospitality Industry Law II	BDZ315
Hospitality Financial Management III	BDZ316

OUTCOMES

The aim of the qualification is to equip the student for the complex world of hospitality management within South African context. This will enable the student to be competent in a variety of operational, interpersonal and basic analytical skills used at the operational level in the Hospitality Industry. In addition, the student will be able to accept supervisory responsibility in the execution of hospitality operations in the domains of rooms division, food and beverage (including culinary) and event management.

Outcome(s)
Students should be able to:
- use a range of hospitality business skills to contribute to both effective decision-making and the execution of operations to ensure sustained growth of the enterprise, industry and local community;
- use a range of financial management principles to contribute to effective decision-making and sustainability of the hospitality enterprise;
- manage and maintain the principles related to the provision of accommodation and the presentation of events in such a manner that the expectations of the target markets are exceeded;
- utilise the operational practices and structures of Food and Beverage, meeting and exceeding the expectations of the target market; and
- utilise the operational practices and structures of food preparation required to meet and exceed the expectations of the target market.

MODULES AND OUTCOMES:

HOSPITALITY MANAGEMENT III: (BDZ311)

Purpose:
The purpose of this SLP is to enable students to use a range of hospitality business skills to contribute to both effective decision-making and the execution of operations to ensure sustained growth of the enterprise, industry and local community.

Outcome(s):
Students should be able to:
- explain the role that South Africa's national tourism strategy plays in enhancing global competitiveness; in growing the industry's contribution to the national economy and in overcoming obstacles;
- argue the need for a national skills development strategy, the legislation governing the strategy and its associated processes, explaining how it affects the South African tourism industry; and
- discuss how a quality programme would benefit a hospitality enterprise by analysing a hospitality system to improve quality using international companies as benchmarks.

FOOD AND BEVERAGE MANAGEMENT III: (BDZ312)

Purpose:
The purpose of this SLP is for students to be familiar with the operational practices and structures required of the food and beverage facility and the presentation of events in such a manner that the expectations of the target markets are exceeded.

Outcome(s):
Students should be able to:
- analyse operational facilities and procedures for a food and beverage facility associated with volume production to design, plan and/or improve these;
- interpret contracts and concepts of administration and production procedures for corporate providers of food and beverage;
- describe retailing concepts related to the food and beverage industry; and
- plan, co-coordinate and present functions or events according to sound business principles.

HOSPITALITY OPERATIONS III: (BDZ313)

Purpose:
The purpose of this SLP is to manage and maintain the principles related to the provision of accommodation and the presentation of events in such a manner that the expectations of the target markets are exceeded.

Outcome(s):
Students should be able to:
- organise, analyse and present information and data using a computerised system;
- apply yield management in hospitality operations; and
- plan, forecast, budget and evaluate operations within the rooms division with in a lodging unit.

HOSPITALITY INDUSTRY LAW II: (BDZ315)

Purpose:
The purpose of this SLP is to analyse the importance of human resources and skills development for the Tourism and Hospitality Industry and manage relations between management and employees.

Outcome(s):
Students should be able to:
- explain the legislation and mechanisms governing training and education;
- identify and apply appropriate training methods;
- describe the interaction, co-operation and relationship between management and staff;
- describe and manage the conflict arising in the work place; and
- conduct disciplinary and grievance procedures.

HOSPITALITY FINANCIAL MANAGEMENT III: (BDZ316)

Purpose:
The purpose of this SLP is enable students to use a range of financial management principles to contribute to effective decision-making and sustainability of the hospitality enterprise.

Outcome(s):
Students should be able to:
- assess and analyse the financial performance, profits and status of a hospitality enterprise as a whole and the individual departments;
- analyse and interpret financial statements of hospitality enterprises;
- determine the revenue required at a predetermined level of profit for food & beverage management, clubs, casinos, banqueting and events;
- prepare, implement, manage and control budgets for hospitality activities; and
- access and operate modern accounting information systems.

ASSESSMENT
Formative assessments are in the form of tests and an exam for summative assessment.

CALCULATION CRITERIA
- Formative assessments are in the form of tests (35%)
- Summative assessment or an exam, which is divided into theory and applications (65%)
- Pass mark: 50% is the pass mark for all summative assessments.

MODERATION
- Moderation is internal, making use of subject specialists within the department.
- Formative and summative assessments are moderated.

PURPOSE OF PROGRAMME
The purpose of this SLP is to prepare the student to become a strategic leader with an inspiring and outcomes-orientated vision, and to design goals and values based on a strategic plan within their operational environment. Students will learn how to provide context for effective operational processes and manage change and transition. Students will learn how to build an organisation, while ensuring constant growth and also manage the performance of employees.
The programme will form part of a series of SLPs on Mastery programmes in a Tourism and Hospitality environment by the School of Tourism and Hospitality (STH). The Mastery Series are aimed at capacitating individuals including business professionals who are not experts in Mastery and/or in specific areas of Organisational, Performance, Personal and Team Mastery with knowledge and skills needed to become innovators and effective players in their respective areas within the Tourism and Hospitality environment.

DURATION OF PROGRAMME
- Contact time: 300 hours of lecturing hours in 28 weeks.
- Months to complete: February to November.
- Minimum period to obtain: 1 Year.
- Maximum period to obtain: 2 Years.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
After successful completion of the Introduction to Tourism (S34H5Q) (68 credits) as well as the SLP Introduction to Tourism Management Functions (S34H6Q) (56 credits) within one year, and meeting the applicable minimum diploma entry requirements, students are considered for articulation into the second year of the Diploma (Tourism Management) (D34TMQ).

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students will get credits for the following modules in the Diploma (Tourism Management) (D34TMQ).
Tourism System 1A (S34H5Q1) (12 credits), Events Management 1A (S34H5Q2) (12 credits), Events Management 1B (S34H5Q5) (12 credits), Applied Business Literature 1A (S34H5Q3) (8 credits) and Computer Application for Tourism and Hospitality (S34H5Q6) (12 credits).

PURPOSE
The purpose of this SLP is to provide students with a basis for further learning in the field of tourism management, and to guide them with travel management and destination perspective skills.

PROGRAMME CONTENT

SEMESTER 1 (COMPULSORY)	
MODULE NAME	MODULE CODE
Tourism System 1A	S34H5Q1

Events Management 1A	S34H5Q2
Applied Business Literacy 1A	S34H5Q3
SEMESTER 2 (COMPULSORY)	
Impact of Tourism 1B	S34H5Q4
Events Management 1B	S34H5Q5
Computer Application for Tourism and Hospitality	S34H5Q6

MODULES AND OUTCOMES:

TOURISM SYSTEM 1A: (S34H5Q1)

Purpose:
The purpose of this model is for students to possess intellectual knowledge and applied competence in the understanding the tourism industry sectors and role-players.

Outcome(s):
The student should be able to
- analyse the pre-conditions for emergence of tourism as a mass phenomenon;
- identify the tourism industry sectors and role players;
- explain the demand and supply factors in tourism;
- describe the role of tourist attractions;
- analyse transportation, accommodation, and the role of intermediaries as part of the tourism system;
- analyse the role of tourism destinations as part of the tourism system; and
- access the role of tourism as a socio-economic tool in poverty alleviation and job creation, and how it supports the Sustainable Development Goal's (SDG's).

EVENTS MANAGEMENT 1A: (S34H5Q2)

Purpose:
The purpose of this module is to provide students with an understanding and insight into the events industry, as an introduction to the field of events management theory, as well as expose them to food and beverage service practices often used in the events industry

Outcome(s):
Students should be able to:
- define the different types of events;
- compare and contrast between special events and MICE events;
- describe the nature of the events industry (digitalization in events);
- outline the various role players in the events industry;
- analyse the impact of events using the triple bottom line; and
- carry out basic catering services, including restaurant infrastructure and procedures according to professional standards, that are used in events

APPLIED BUSINESS LITERACY 1A: (S34H5Q3)

Purpose:
This purpose of this module is to acquire a variety of communication related to different contexts, and to apply these skills appropriately in different contexts (academic and industry related).

Outcome(s):
Students should be able to:
- use the appropriate form of English when communicating;
- engage in Academic research and writing skills,
- demonstrate knowledge of communication theory and apply this to everyday and work contexts;
- identify typical problems that could arise in the communication process specifically, the use of language and meaning and demonstrate skills to overcome them;
- build and maintain healthy and effective interpersonal relationships;
- Utilise strategies for improving your nonverbal communication and explain some of the reasons why people can perceive things differently;
- discuss reasons why listening is important in our lives, especially so in the Hospitality industry;

- explain the importance of interpersonal relationships;
- use Persuasive Writing and Advertising skills for business success; and
- manage specific contexts for communication, including giving presentations.

IMPACTS OF TOURISM 1B: (S34H5Q4)

Purpose:
The purpose of this module is to provide students with insight and intellectual knowledge of the tourism industry and the different types of tourism impacts. Students will be able to appreciate the economic, social and environmental impacts of the development of different types of tourism attractions and products.

Outcome(s):
Students should be able to:
- describe third world trends in tourism product development;
- describe the main types of tourism products;
- identify positive and negative economic, social and environmental impacts of developing tourism attractions; and
- identify and describe the main characteristics of sustainable and responsible tourism development in South Africa.

EVENT MANAGEMENT 1B: (S34H5Q5)

Purpose:
The purpose of this module is to provide students with an understanding of event management principles. Topics that will be covered in this module will include event sustainability, event bidding, project management, venue management and sponsorships in events. This module will also expose them to food and beverage service practices often used in the events industry.

Outcome(s):
Students should be able to:
- assess and apply the sustainability principles to events;
- explain the processes of bidding for events;
- describe the venue and facility management principles in events;
- describe the use of various technologies in events;
- explain the process of project management in events; and
- carry out and carry out basic catering services, including restaurant infrastructure and procedures according to professional standards, that are used in events.

COMPUTER APPLICATION FOR TOURISM AND HOSPITALITY: (S34H5Q6)

Purpose:
The purpose of this module is to introduce students to general computer applications commonly used in financial services Tourism and Hospitality Industry. Students will be equipped with the necessary skills for end user computing as well as academic applications.

Outcome(s):
Students should be able to:
- Demonstrate both theoretical and practical use of the following computer-based tasks to:
    - save, retrieve files and navigate basic operating system for end user computing;
    - use basic functions for successful end user computing;
    - use a word processing application, such as Microsoft Word;
    - use a presentation application, such as Microsoft PowerPoint;
    - use a data analysis application, such as Microsoft Excel;
- Demonstrate use of industry related computer applications through practical cases studies such as:
    - editing research articles; and
    - presentation skills.

ASSESSMENT
Formative assessments are in the form of tests and an exam for summative assessment.

CALCULATION CRITERIA:

Applied Business Literature 1A, Tourism System 1A, Impact of Tourism 1B and Computer Application for Tourism and Hospitality:
- Minimum Full Period Mark for Examination Admission: 40%
- Full Period Mark Weight: 50%

DURATION OF PROGRAMME
- Contact time: 280 hours of lecturing hours in 28 weeks.
- Months to complete: February to November.
- Minimum period to obtain: 1 Year.
- Maximum period to obtain: 2 Years.

RELATIONSHIP WITH OTHER UJ MODULES/QUALIFICATIONS
After successful completion of the SLP Introduction to Tourism (S34H5Q) (56 credits) as well as the SLP Introduction to Tourism Management Functions (S34H6Q) (68 credits) programmes within one year and meeting the applicable minimum entry requirements, students are considered for articulation into the second year of the Diploma (Tourism Management) (D34TMQ).

ARTICULATION WITH SUBSIDISED UJ PROGRAMMES
Students will get credits for the following modules in the Diploma (Tourism Development 1A) (TOD00A1):
Travel and Tourism Management 1A (S34H6Q1) (12 credits), Travel and Tourism Management 1B (S34H6Q4) (12 credits), Marketing for Tourism 1A, (S34H6Q3) (12 credits), Marketing for Tourism 1B (S34H6Q4) (12 credits), Applied Business Literacy 1B (S34H6Q5) (8 credits).

PURPOSE
The purpose of this SLP is to provide students with a basis for subsequent learning in the field of tourism management and marketing. It will also guide them with knowledge and skills in the tourism management field of planning, organising, leading and control with an entrepreneurial orientation including familiarising participants with basic tourism marketing concepts.

SEMESTER MODULES

FIRST SEMESTER		SECOND SEMESTER	
MODULE NAME	MODULE CODE	MODULE NAME	MODULE CODE
Travel and Tourism Management 1A	S34H6Q1	Travel and Tourism Management 1B	S34H6Q4
Marketing for Tourism 1A	S34H6Q3	Marketing for Tourism 1B	S34H6Q4
		Applied Business Literacy 1B	S34H6Q5

MODULES AND OUTCOMES:

TRAVEL AND TOURISM MANAGEMENT 1A: (S34H6Q1)

Purpose:
The purpose of this module is for students to acquire basic management theory in a tourism context. They will understand the concepts of planning, organising, managing and leading a tourist enterprise within a local and global environment.

Outcome(s):
Students should be able to:
- describe broad supervisory and basic management concepts and ethics are explained and applied according to professional standards in the tourism industry.
- identify and describe the key internal and external environmental variable in managerial planning;
- explain the meaning of organisation structure;
- describe the nature and content of managerial work;
- describe the planning process;
- list and describe the roles of a tourist manager, at different levels of management;
- discuss the functions and tasks of a manager in a tourist establishment;
- discuss motivation and communication in terms of leadership; and
- identify important leadership qualities of the tourism and food and beverage managers.

MARKETING FOR TOURISM 1A: (S34H6Q3)

Purpose:
The purpose of this module is to introduce the student to the basic principles of marketing, mainly in a consumer product context. On a practical level, the student will have attained the necessary experience to identify environmental trends, understand basic consumer behaviour and market segmentation.

Outcome(s):
Students should be able to:
- elaborate on the fundamentals of tourism marketing concepts and philosophy;
- explain the interface between marketing management and the environment;
- demonstrate the role of marketing in the tourism industry;
- identify customer needs and wants and determine which target markets the organisation can serve best;
- understand the decision-making process that consumers go through as they make a purchase;
- demonstrate a clear understanding the role of segmentation, targeting and positioning processes in marketing; and
- recognise the importance of information to an organisation.

TRAVEL AND TOURISM MANAGEMENT 1B: (S34H6Q2)

Purpose:
The purpose of this module is to equip students with the industry specific knowledge in planning and organising activities in a tourism-related industry.

Outcome(s):
Students should be able to:
• describe the importance of the holistic tourism environment;
• explain the importance of tourism entrepreneurship; and
• apply the fundamental principles of financial management, purchasing and supply function and strategic management.

MARKETING FOR TOURISM 1B: (S34H6Q4)

Purpose:
The purpose of this module is to introduce the student to the basic principles of consumer product context. On a practical level, the student will be familiar to the product, pricing, distribution and promotion elements of the marketing mix.

Outcome(s):
Students should be able to:
- define and classify products;
- describe the nature and benefits of branding;
- describe the functional and psychological roles of packaging;
- describe the role of product in the tourism marketing mix;
- describe the concept of pricing in tourism marketing;
- explain the role and types of distribution channels;
- elaborate on the importance and role of a planned, integrated communication strategy in a tourism marketing context;
- discuss the role of advertising in tourism;
- comprehend the importance of personal selling in the tourism industry, and
- recognise the role of technology in tourism marketing.

APPLIED BUSINESS LITERACY 1B: (S34H6Q5)

Purpose:
The purpose of this module is to use various modes of accessing and communicating information, including information technology, effectively in order to promote the tourism and hospitality industry in a changing business environment.

Outcome(s):
Students should be able to:
- describe the structures of workplace communication as created within diverse types of organisations,
- engage in academic research and writing skills;
- manage specific contexts for communication, including giving presentations and producing work- related documents;
- identify the major digital media formats available for business messages, and apply the guidelines for effective messaging in the workplace;
- demonstrate critical and innovative thinking/ entrepreneurial skills by understanding Corporate culture and organisational communication channels;
- practice some strategies for improving intercultural communication;
- utilise skills necessary for effective and ethical group communication;
- tool themselves for the evolving workplace by identifying and using social media communication channels and/or Fourth Industrial Revolution (4IR) technologies and skills; and
- reflect on the importance of sensitivity in multi-cultural contexts and gain knowledge of meeting procedures, types of meetings and documents associated with meetings.
