NATIONAL & INTERNATIONAL APPLICANTS

How to determine your Admission Point Score (APS)

An Admission Point Score (APS), explained below, has been developed for the National Senior Certificate (NSC) and the Independent Examinations Board (IEB) based on the Achievement Rating of each subject. The total APS is the sum of the achievement ratings of the six school subjects. Life Orientation is not counted in the calculation of the total APS.

Rules to be implemented with this development.

In order to determine the Admission Point Score (APS) the following principles need to be taken into consideration:

- Applicants with the following results, WAEC, Diplome or Exam D'Etat, Certificado de Habilidades Literarias, Ensino Medio and Baccalaureat should be linked with the Ordinary Level (O) Grades on UJ's Student database.
- Applicants with the following results, HIGCSE, NSSC (HL), AS Level, IB (SL) and KCSE should be linked to the South African NSC (N) Grades on UJ's Student database.
- Applicants who have set for either A Level or IB (HL) should be linked to the (A) Grades on UJ's Student database.

It, moreover, engenders support for the University among its many constituent groups including students, faculty, alumni, and friends on local, provincial and national levels. In striving to become a leader among our peers, the Department subscribes fully to the philosophy and regulations set forth by the student sport and national federations and operates within the fiscal regulations and non-discriminatory procedures established by the University of Johannesburg legislature.

It is the philosophy of the Department that our athlete-students will be strongly encouraged

and supported in their endeavours to progress towards an academic qualification while simultaneously participating in an inter-university sports programme whose environment is consistent with the highest standards of academic scholarship, sportsmanship, ethics, and institutional loyalty. Finally, the decisions and priorities of the Department should always focus on our athlete-students, first as individuals, second, as students, and third, as athletes.

BURSARIES

Merit bursaries

Academic merit bursaries are awarded annually on the grounds of exceptional academic achievement. This is determined according to marks obtained in the six best subjects (excluding LO) on your senior certificate. Your final senior certificate will determine your first year bursary. Bursaries for second and third year studies will be awarded according to the average obtained in the June and December University examinations.

Orange Carpet

The Orange Carpet rewards programme is a UJ initiative to further recognise top achievers. The objective of the campaign is to allow top-performing learners early conditional admission to the University as well as special benefits. To qualify for these benefits, a learner must obtain at least an Admission Point Score (APS) of 37 and above with a Level 6 or higher in all subjects in either their final Grade 11 or final Grade 12 results. Meet the specific subject requirements for the programme you are interested in and obtain a 70% and above in all relevant subjects. Final acceptance, for applicants conditionally admitted based on their final Grade 11 results, will be dependent on the learner maintaining these results in their final Grade 12 results.

Final admission to the Orange Carpet initiative for applicants writing final Grade 12 other than the NSC or IEB, will be based on the discretion of the relevant faculty.

This initiative begins from February and closes with all undergraduate programmes on 30 September. Submit your application without delay or call Student Marketing for any enquiries: 011 559 6680.

| APS (Admission Point Score) | Bursary Value* |
|-----------------------------|----------------|
| 37-39 | 50% |
| 40-41 | 75% |
| 42 | 100% |
| Higher than 42 | 100% + R5 485 |

*** Please note:**

Bursary values are based on a specific curriculum's tuition fees.

Orange Carpet admitted status is allocated to a top achiever applicant who has a total APS of 37 calculated as follows:

- exclude Life Orientation;*
- achieve a minimum of 70% in the six best subjects;*
- subjects used to calculate the total APS must include the required programme subjects.*

Only prospective students who are entering for their first undergraduate studies are eligible for the Orange Carpet initiative. Prospective students who have already undertaken studies at UJ or elsewhere are not eligible for this initiative.

UJ Jenius Club

After first year registration, Orange Carpet members will become UJenius club members. To join or to keep UJenius Club membership for the 2nd, 3rd and final year of your undergraduate study, students need to have achieved a year average of 75% in the preceding year, on a full course load, and with no module below 70%.

Art, Design and Architecture

At the Faculty of Art, Design and Architecture (FADA), we believe that art, architecture and design can make this world a better place. We are deeply invested in ensuring that our students learn to be proactive about finding and creating situations where they can put their knowledge, skills and values into practice.

We, the hashtag generation.

With the rise of the Internet and the strong presence of social media, we have become an interconnected society in which people from different cultures and beliefs can share ideas instantly. Therefore, it is important to us to incorporate the global art, design and architecture community into what and how we teach.

Creativity is embracing each other's differences.

FADA houses all the creative disciplines under one roof and with this we maintain a strong focus on sustainability and relevance; and engage actively with the dynamism, creativity and diversity of Johannesburg and the rest of the world. With nine academic departments, namely the Department of Architecture, the Graduate School of Architecture (GSA), the Department of Fashion Design, the Department of Graphic Design, the Department of Industrial Design, the Department of Interior Design, the Department of Jewellery Design and Manufacture, the Department of Multimedia, and the Department of Visual Art, we expand each of these fields beyond their traditional boundaries through internal and external collaborations. We also have two research centres: Visual Identities in Art and Design (VIAD), and the NRF South African Research Chair (SARChI) in South African Art and Visual Culture.

The Faculty is also home to UJ Arts & Culture, based on the Auckland Park Kingsway Campus (with cultural offices on the Doornfontein and Soweto Campuses), which runs two professional theatres and the UJ Art Gallery, and offers a dynamic range of public-facing performing and visual arts programmes for students and professionals.

Always on top of change.

FADA works closely with the industry to ensure that its professional programmes remain relevant and competitive. Our graduates are employed nationally and internationally in diverse areas of the industry, or work as freelance designers, architects or independent artists. Whatever their preference, they have been thoroughly prepared as professionals in the highly competitive fields of art, design and architecture through creative and entrepreneurial development, which are key elements in the programmes offered.

ADMISSION REQUIREMENTS for the BEd programmes

- A valid National Senior Certificate (NSC) with admission for degree purposes.
- Minimum APS of 26, excluding Life Orientation.
- A Bachelor's degree endorsement (the minimum entry requirements to study towards a degree) does not guarantee admission to the BEd.
- Preliminary admission is based on the results obtained in the final Grade 11 examination.
Final admission is based on the final Grade 12 results.

ADMISSION REQUIREMENTS: National Certificate (vocational) (NCV)

Subject to institutional admission requirements, the minimum admission requirement to Bachelor's degree programme is a National Certificate (Vocational) Level 4 issued by the Council for General and Further Education and Training. The minimum legislative requirements for admission to a Bachelors' degree include the achievement of:

- Three (3) fundamental subjects between 60-69% – including English as language of learning and teaching.
- Three vocational subjects from the designated list between 70-79%.

ADMISSION REQUIREMENTS for applicants holding the National Senior Certificate for Adults (NASCA) or the Amended Senior Certificate (SC(a)) for qualifications in the Faculty of Education.

The B-degree endorsement is a legal requirement to be admitted into the undergraduate programmes in the Faculty of Education. Thus for both the NASCA and SC(a) for admission to a programme in the Faculty of Education the Senate Discretionary Approval process will be followed.

Applications will be dealt with by the Faculty Teaching and Learning Committee for recommendation to the Faculty Board. Faculty Board will then refer the approved applications to Senate for Senate Discretionary approval.

The Faculty of Education strives to prepare teachers who are caring, accountable and critically-reflective about the who, what, how and why of teaching in a diversity of contexts.

Engineering and the Built Environment

***Disclaimer:** Due to limited space, fulfilling all the minimum admission requirements does not guarantee acceptance into a programme.*

A large industrial robotic arm, primarily white with green and yellow accents, is shown in a factory setting. It has multiple joints and a complex cable management system. The background is a bright blue sky.

The Faculty of Engineering and the Built Environment (FEBE) is one of eight faculties* at the University of Johannesburg, home to five schools, 12 departments and two technology stations. It offers both Engineering Technology and Engineering Science undergraduate and postgraduate programmes. In keeping with the University's comprehensive status, the Faculty is the first in South Africa to offer global education to a full range of professional engineering qualifications.

FEBE remains a leading provider of well-qualified and accredited engineers, technologists and technicians. Over the years, the Faculty has established strategic partnerships within the international higher education landscape and with key industry stakeholders. Operating within the dynamic and competitive higher education landscape, FEBE is innovative in its approach to teaching, learning, collaborative research, community engagement, international partnerships and remains at the cutting edge of technology. It is focused on the promotion of reflective and critical thinking, novel ways of problem-solving and believes in environmentally sustainable solutions.

Engineering broadly focuses on the creative application of scientific and technical knowledge to design, analyse, develop structures, machines, manufacturing processes, construction of works/systems for practical purposes or maximizing operations. An Engineer is one that analyses and innovates, while the Technologist will implement and develop and the Technician will install, commission, maintain and operate. Courses within the Faculty are best suited for learners who are creative thinkers, possess an inventive imagination with an aptitude for mathematics, science and technology, learners who enjoy discovering how things work and solving problems with logic and reason.

The Faculty of Engineering and the Built Environment is supported by the following Accreditation Bodies:

- Engineering and Engineering Technology Programmes the Engineering Council of South Africa (ECSA)
- Town and Regional Planning: South African Council for Planners (SACPLAN)
- Mine Surveying: South African Council for Professional and Technical Surveyors (PLATO)
- Construction Management: South African Council for Project and Construction Management Professions (SACPCMP) & South African Council for the Quantity Surveying Profession (SACQSP)
- Quality and Operations Management Programmes are not subject to accreditation by professional bodies.

Accreditation agencies generally align to international accords and in this way programmes listed by FEBE receive recognition internationally. ECSA is a signatory of the Dublin, Sydney and Washington Accord which provides international recognition for the Faculty's BEng and BEng Tech. Curricula are specifically designed, taking into consideration the National Skills Development Plan, industry needs, surrounding communities, government, economy and international bodies. Programmes are subject to accreditation visits and quality assurance.

NATIONAL SENIOR CERTIFICATE FOR ADULTS (NASCA) AND AMENDED SENIOR CERTIFICATE (SC(a))

Proposed admission requirements for applicants holding the National Senior Certificate for Adults (NASCA) or the Amended Senior Certificate (SC(a)) for qualifications in the Faculty of Health Sciences.

The B-degree endorsement is a legal requirement to be admitted into the undergraduate Degree programmes in the Faculty of Health Sciences. Thus for both the NASCA and SC(a) for admission to a programme in the Faculty of Health Sciences the Senate Discretionary Approval process will be followed.

Applications will be dealt with by the Faculty Teaching and Learning Committee for recommendation to the Faculty Board. Faculty Board will then refer the approved applications to Senate for Senate Discretionary approval.
