WORKSHOP: SYSTEMATIC REVIEW

The purpose of this session is to **provide you with a step-by-step explanation of how to carry out a systematic review**. There has been unprecedented growth in scientific research and systematic reviews have become handy as some of the valid and reliable tools used to synthesize volumes of scientific research and summarise it for decision-makers. This session is meant for beginners to conduct systematic reviews under the guidance of librarians and supervisors.

DATE ■ 14 October 2022

TIME ■ 13:00 – 14:00

WHO SHOULD ATTEND: Masters, Ph.D., Postdoctoral- Fellows, Researchers and Academic and Non-Academic Staff
