

# WHAT IS DMPTOOL?

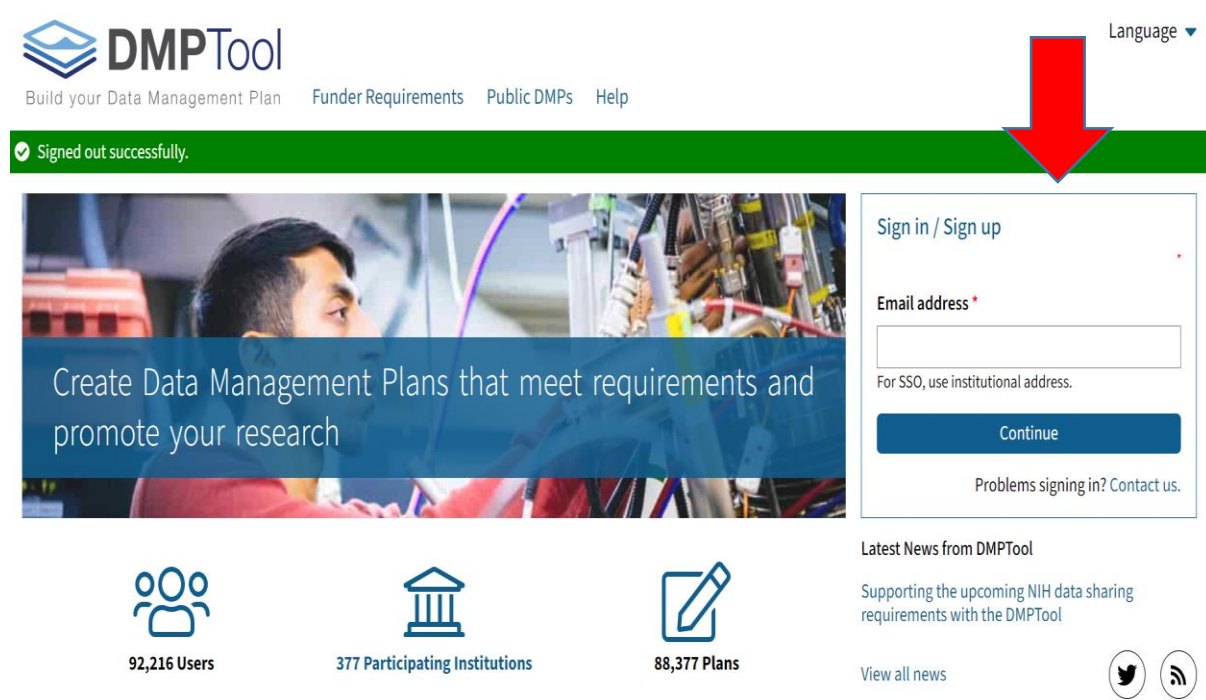

With **DMPTool** you can create and share data management plans. It provides step-by-step guidance for creating your own DMP, including templates and sample plans to help you address requirements specific to University of Johannesburg (UJ) and your funding sources.

## USING DMPTOOL AT UJ

UJ is a **DMPTool** partner institution. Log in using your **UJ email address**.

Go to **DMPTool**

- Enter your UJ email address and continue.

The screenshot shows the DMPTool website interface. At the top left is the logo "DMPTool" with the tagline "Build your Data Management Plan" and navigation links for "Funder Requirements", "Public DMPs", and "Help". A "Language" dropdown menu is in the top right. A green notification bar at the top left says "Signed out successfully." Below this is a large banner image of a person working with equipment, with the text "Create Data Management Plans that meet requirements and promote your research". To the right of the banner is a "Sign in / Sign up" form with an "Email address" field, a "Continue" button, and a link for "Problems signing in? Contact us." Below the banner are three statistics: "92,216 Users", "377 Participating Institutions", and "88,377 Plans". At the bottom right, there is a "Latest News from DMPTool" section with a "View all news" link and social media icons for Twitter and RSS.

- Land on New account Sign up, enter required details and click **sign up**.
