*Once you have registered, you will receive an email with details to join the virtual discussion.*

**Dr Mageto** holds a PhD in Logistics Management from the University of Johannesburg. He also holds a postgraduate diploma in Data Science and Business Analytics from the University of Texas (USA). He is a published author, a reviewer with five journals and regular participant in industry forums. He has over 10 years of research and university teaching in transport, logistics, operations, and supply chain management both locally and internationally. Research interests include public passenger transportation, smart mobility (public transport modal integration in South Africa), big data analytics, supply chain sustainability, logistics outsourcing, applications of AI technologies in transportation, logistics network planning and SCM, human machine interaction in logistics in the era of robotics and business process re-engineering. He has done commission research with passenger transport companies in SA, AMREF Africa, government agencies and JICA. He is currently a Senior Lecturer and Deputy HoD in the Department of Transport and Supply Chain Management at the University of Johannesburg.
