

What motivated you to pursue a Diploma in Accountancy?

I chose a Diploma in Accountancy because of my passion for complex problem solving and its various opportunities to venture into different accounting sectors, with it I could pursue a career in Auditing, Tax or Cost accounting.

How did your Diploma in Accountancy prepare you for a career in the Accounting field?

My Diploma in Accountancy (2019-2021) and Advanced Diploma in Accountancy (2022) gave me the necessary background, knowledge and skill set needed to start my career in the corporate sector. Knowing what is expected of me makes my job a bit easier, as my competence is not questioned.

You mentioned that you want to further your studies and do a Bridging Certificate in the Theory of Accounting, tell me why?

I chose the SAICA route because it gives me the opportunity to travel and work with different companies in different sectors. I love a bit of variety and a change in environment. Having explored the Tax and Internal auditing route when I was doing my Advanced Diploma in Accountancy, I can confidently say SAICA is for me.

What are you currently doing?

I am currently employed as an Accounting Officer at Lizabethandila Investment Property (pty) Ltd.
