

REQUEST FOR PROPOSAL

RFP UJ 64/2024: PROVISION OF CANDIDATE QUANTITY SURVEYING SERVICES FOR THE CENTRAL TECHNICAL SERVICES, FACILITIES MANAGEMENT, UJ.

SPECIFICATIONS

1. General

The University of Johannesburg cordially invites you to provide a proposal for providing professional candidate quantity surveying services to UJ – Central Technical Services, for the purpose as per the scope of work identified herein.

The request for you to provide a proposal to the University of Johannesburg is based upon the following:

Project Title: Candidate Quantity Surveying Services for Central Technical Services

Purpose

The University of Johannesburg requires the expertise of Candidate Quantity Surveyor(s) to initiate and oversee a number of capital projects on its APK, APB, DFC, SWC Campuses and Off Campus Facilities. This challenging contract position will require the individual to provide cost estimate, compile specification and manage costs in support of the Project Management Office on behalf of the Central Technical Services. This will include, but not be limited to co-ordination of the professional team, liaison with client and UJ and professional team to finalise the scope and extent of the works. Monitoring and evaluation throughout, making the necessary adjustments as and when needed.

The appointed Candidate Quantity Surveyor (s) will report to the Director: Projects through the Professional Quantity Surveyor: Projects – Central Services and will be responsible for managing the performance, cost, cash flow, and overall quality of the project, from initiation to client hand-over. This is to include any fit-outs and operational readiness.

The fee proposal is to be structured as per the latest guideline scope of services and tariff of fees for persons registered in terms of the relevant Engineering and the Built Environment Legislation:

- Quantity Surveying Profession Act, 2000 (Act no 49 of 2000).

2. Scope Description

2.1 Project Title: PROVISION OF CANDIDATE QUANTITY SURVEYING SERVICES FOR THE CENTRAL TECHNICAL SERVICES, FACILITIES MANAGEMENT, UJ.

Scope

Candidate Quantity Surveyor – Junior-Level

Minimum requirements:

- a. A relevant Degree / Diploma in Quantity Surveying Registration (Compulsory)
- b. A minimum of 3 years' experience as a Quantity Surveyor post qualification (essential)
- c. Experience in the building Infrastructure environment (highly desirable)
- d. Registration with SACQSP as candidate (essential)

Timeline:

The anticipated timeline for this role is approximately 36 months.

Fee proposal:

Please provide the CV(s) of the candidate(s) for review. Candidates must be willing to undergo an interview. The fee proposal is to be structured per the latest guideline scope of services and tariff of fees for persons registered in terms of the Quantity Surveying Profession Act, 2000 (Act no 49 of 2000) and indicate the discount offered. Monthly rate to be included and hourly rate shown.

2.2.1 Client

The client for this project is the University of Johannesburg, represented by Central Technical Services (CTS), situated at UJ on Empire, Auckland Park, Johannesburg.

3. Professional Consultant's Responsibility

The consultant and contractor team must ensure that the essential professional services that may be deemed necessary for the speedy execution of the project are provided at all times.

The principal responsibilities of the professional consultants will be to:

- Responsible for the administration and direction of assigned projects. Responsibility for cost, cash flow and overall quality of project finances
- Responsible for representing the university on all project matters within the assigned project portfolio
- Responsible for maintaining satisfactory relations with client
- Responsible for recommendation of all estimates for contract changes and variation orders
- Determine the objectives for the project team in accordance with the contract terms and scope of work
- Cost control input for projects by continuous review of all project reports and update of CTS project documentation
- Primary contact with client on all project matters
- Recommend all work and expenditure in connection with the project
- Visit when necessary all locations where work is being undertaken for the project, including the construction site, fabricators' works and contractors' offices
- Ensure that all insurance requirements of the contract are fulfilled

The project execution will be for three years from September 2024 to August 2027 financial years – using the University of Johannesburg funds.

4. Legal Compliance

All work to comply with the Occupational Health and Safety Act (Act 85 of 1993) and all sub-regulations. All work is to be carried out in accordance with the requirements set out in the SANS 10400 – National Building Regulations and relevant SANS regulations applicable to a project of this nature.

5. Commencement of Work

The service provider is to commence work within seven (7) days from the issue of an official purchase order from UJ and the signature of the PROCSA 4th addition agreement.

6. Scope of Services

High-Level Objectives:

The scope of the work generally entails activities related to the PROCSA works stages of the project as indicated below for project management services required:

- Work stage 1: Inception
- Work stage 2: Concept and viability
- Work stage 3: Design Development
- Work stage 4: Documentation and Procurement
- Work stage 5: Construction
- Work stage 6: Close-Out

Location:

ALL UJ CAMPUSES (DFC, SWC, APB, AND APK & OFF CAMPUS FACILITIES)

7. Pricing Schedule

Pricing will be hourly rates per resource which should include transport to different sites across all campuses of UJ, cell phone, printing, and any other miscellaneous required to execute the work. The quantity surveying services will not exceed 40 hours a week of 5 working days.

8. Contractual Agreement

The successful professional consultant will sign a Service Level Agreement with the University of Johannesburg as compiled by the Client and the Department of Corporate Governance of the University of Johannesburg. The SLA will be provided to the successful bidder on the award of the contract and will outline the agreement between the parties, procedures to follow, a penalty clause, dispute resolution, and general obligations of both parties.

9. Proposal Evaluation Conditions

The tender will be evaluated in 3 stages,

- **Stage 1: Tender Compliance**
- **Stage 2: Technical / Functionality**
- **Stage 3: Price and B-BBEE (80 / 20)**

9.1 Stage 2: Functionality Evaluation

In keeping with the University's policy of operating, maintaining, and continuously improving its first-class facilities, the appropriate service providers must be sourced to match the requirements. To achieve this, the following functionality criteria are introduced to score the submitted proposals. For the fee proposal to be considered, the consultant must achieve a minimum score of 70 for functionality as stated below.

Please note that only the Professional Consulting bids that meet the minimum criteria of 70 points or more out of 100 points, for functionality will be considered for evaluation of their fee proposal in stage 3.

9.2 Stage 2: Functionality / Technical Evaluation Criteria
