## BIBLIOGRAPHIC INFORMATION

Prof. Pieter de Lange was Rector of the Rand Afrikaans University from 1979 - 1987 . During June 1980 - Julie 1981 he was the leader of the HSRC inquiry into education, at the time the most in-depth inquiry into education in the world. Suggestions were made regarding:

1. Principle guidelines for a practical education policy,
2. the organisation, management and financing of education
3. consultation and decision-making in education,
4. education infrastructure to supply the manpower needs,
5. program to supply the same quality of education for educating all population groups.

The documents consist chiefly of correspondence, reports and minutes of the various working groups of the Enquiry.

DDT 1979 – 1987
