

OPEN DAY

MPhil & DPhil in Virtual & Augmented Reality in STEM Education

Join us to learn more about our cutting-edge MPhil and DPhil postgraduate programmes, designed for students who are passionate about innovating education through Virtual and Augmented Reality technologies.

Both programmes offer the opportunity to:

- Conduct independent, high-level research.
- Make a significant academic contribution to the field
- Explore the design, development, and evaluation of VR and AR applications in STEM learning
- Advance experiential and embodied learning through cutting-edge interactive technologies
- A possible career pathway to the EdTech industry

This event is open to all students who have completed their honours degree in the following disciplines:

- Education
- Sciences: Biochemistry, Chemistry, Physics, Computer Science, Mathematical Science
- Engineering: Chemical Engineering, Mechanical Engineering, Civil Engineering
- Arts: Architecture, Graphic Design, Industrial Design

Date | Friday, 25 July 2025

Time | 15:00-17:00

Venue | B Ring - 301

(The CALTSTEAM Research Centre)

RSVP | Monday, 21 July 2025
